(2) Any ash tree (*Fraxinus* spp.), including nursery stock.

(3) A limb, stump, branch, or debris of at least one (1) inch in diameter of an ash tree.

(4) An ash log, slab, or untreated ash lumber with bark attached.

(5) Composted and noncomposted ash chips and composted and noncomposted ash bark chips at least one (1) inch in diameter.

(6) An article, product, or means of conveyance reasonably determined by the state entomologist to present the risk of the spread of the emerald ash borer.

(7) Cut firewood of any nonconiferous species originating from a regulated area.

(e) A person must not move a regulated article outside an infested area except under the following conditions:

(1) An inspector issues a certificate of inspection following a thorough examination of the regulated article and any treatment method. The certificate must be properly supported by a determination by the inspector, or by a grower or shipper authorized to conduct an inspection under a compliance agreement, that no life stage of the emerald ash borer is present. A certificate may be conditioned upon the completion of treatments administered under methods approved by the state entomologist or by a United States federal officer authorized by the state entomologist.

(2) A certificate of inspection is attached to any regulated article or to a shipping document that adequately describes the regulated article. The certification must remain attached until the regulated article reaches its destination.

(f) A person must not move a regulated article originating outside an infested area, through a county regulated under subsection (c), without a certificate of inspection for the emerald ash borer, except under the following conditions:

(1) From September 1 through April 30, or when the ambient air temperature is below forty (40) degrees Fahrenheit, if the person does not stop except to refuel or for traffic conditions.

(2) From May 1 through August 31 when the temperature is forty (40) degrees Fahrenheit or higher if the article is:

(A) shipped in an enclosed vehicle; or

(B) completely enclosed by a covering adequate to prevent access by the emerald ash borer.

(4) The regulated article is moved within Indiana by approval of the state entomologist for scientific purposes.

(5) The article is not combined or commingled with other articles so as to lose its individual identity.

(g) A regulated article originating outside a regulated area that is moved into a county regulated under subsection (c) and exposed to potential infestation by the emerald ash borer is considered to have originated from a regulated area. A person must not move the regulated article from the regulated area except under subsection (e).

(h) A person must not move a regulated article from an infested area through any nonregulated area to a regulated destination without a certificate of inspection for emerald ash borer, except under the following conditions:

(1) From September 1 through April 30, or when the ambient air temperature is below forty (40) degrees

Fahrenheit, if the person does not stop except to refuel or for traffic conditions.

(2) From May 1 through August 31 when the temperature is forty (40) degrees Fahrenheit or higher, if the article is:

(A) shipped in an enclosed vehicle; or

(B) completely enclosed by a covering adequate to prevent the escape of any emerald ash borer.

(3) The county and state of origin and the final destination of the regulated article is indicated on the bill of lading or shipping document.

(i) The bill of lading or shipping document accompanying any shipment of regulated articles in Indiana must indicate the county and state of origin of the regulated articles.

(j) A person who moves a regulated article in violation of this section must move or destroy the article, at the person's or owner's expense, as directed by the state entomologist.

(m) Any ash species within the eradication area shall be removed and rendered incapable of supporting a life stage of the emerald ash borer.

(n) Regulated articles from another infested state or any part of a state infested with the emerald ash borer are prohibited entry into Indiana without an accompanying certificate of inspection or phytosanitary document issued by the U.S. Department of Agriculture or the plant health regulatory agencies of the originating state.

(o) Harvest for timber or other use of the wood of any non-ash forest species within the eradication area is prohibited until after:

(1) all ash has been removed; and

(2) the site is released by the state entomologist or his or her designee.

(p) A person must not move ash, in any form, from the eradication area without a compliance agreement signed by the state entomologist or his or her designee.
