
TITLE 327 WATER POLLUTION CONTROL DIVISION**SECOND NOTICE OF COMMENT PERIOD**

LSA Document #20-26

WATER PROGRAM PERMITTING FEES**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to rules in [327 IAC 3-5-5](#), [327 IAC 5-3-2](#), [327 IAC 5-21-3](#), [327 IAC 8-3-7](#), [327 IAC 15-16-5](#), [327 IAC 15-16-10](#), and [327 IAC 19-7-1](#) and the addition of [327 IAC 5-3-17](#), [327 IAC 5-21-12](#), and [327 IAC 19-9-2](#) concerning water program permit fees and other directly associated fees as required by the 2019 General Assembly's House Enrolled Act (HEA) 1278, which became Public Law 250-2019. IDEM seeks comment on the affected citations listed and any other provisions of Title 327 that may be affected by this rulemaking.

HISTORY

First Notice of Comment Period: February 19, 2020, Indiana Register (DIN: [20200219-IR-327200026FNA](#)).

CITATIONS AFFECTED: [327 IAC 3-5-5](#); [327 IAC 5-3-2](#); [327 IAC 5-3-17](#); [327 IAC 5-21-3](#); [327 IAC 5-21-12](#); [327 IAC 8-3-7](#); [327 IAC 15-16-5](#); [327 IAC 15-16-10](#); [327 IAC 19-7-1](#); [327 IAC 19-9-2](#).

AUTHORITY: [IC 4-22-2](#); [IC 13-14-9](#); [IC 13-16](#).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING**Basic Purpose and Background**

HEA 1278, also referred to as Public Law 250-2019, was passed by the 2019 General Assembly to amend the process in [IC 13-16](#) concerning the adoption of environmental fees by the Environmental Rules Board (board). To establish or change the amount of a fee, the board is required to take into account the costs to IDEM for: (1) issuance or approval of a permit; (2) services in connection with supervision, review, and other activities related to the issuance or approval of a permit; (3) surveillance of the activity or property covered by the permit issuance or approval; (4) amendments, modifications, and renewals of a permit or approval; and (5) fees charged for equivalent activities in other states. IDEM is to assist the board in doing a periodic review of fees by: (1) arranging for an independent study of the costs that the board may consider; (2) developing information on fees charged for equivalent activities in other states; and (3) periodically developing information on activities, functions, and permits that have been added or eliminated since the previous fee structure was adopted. The board may direct IDEM to initiate a rulemaking under [IC 13-14-9](#) to address fees based on the information collected by IDEM and presented to the board. Public Law 250-2019 also establishes that the board may not change fees more than one time in five years and the fee increase may not amount to more than ten percent.

In addition to the process established in [IC 13-16](#) for future rulemakings to increase environmental fees, Public Law 250-2019 requires the board to adopt rules once before January 1, 2022, to increase the amount of the fees for water-related programs under [IC 13-18-10](#), [IC 13-18-20](#), and [IC 13-18-20.5](#) along with fees for solid waste and hazardous waste programs under [IC 13-20-21](#) and [IC 13-22-12](#) by an aggregate amount of \$3,200,000 greater than the aggregate fee revenue actually received in the year immediately preceding the proposed fee increases.

This rulemaking addresses the one-time fee increases required under Public Law 250-2019 for [IC 13-18-10](#), [IC 13-18-20](#), and [IC 13-18-20.5](#), regarding confined feeding operations, NPDES permits, and public water systems, respectively. The fees associated with issuing permits, amendments, modifications, and renewals have not changed since 1996 for NPDES permits, 2003 for public water system permits, and 1997 for confined feeding operation permits. The legislatively allowed fee increase of an aggregate of \$3,200,000 is shared among the affected fees in the water and waste programs and in Titles 327 and 329. IDEM's decisions regarding the amount of the fee increases took into consideration the fees charged for similar activities in other states that are in the United States Environmental Protection Agency's Region 5 and Kentucky.

IDEM seeks comment on the affected citations listed, including suggestions for specific language, any other provisions of Title 327 that may be affected by this rulemaking, and alternative ways to achieve the purpose of the rulemaking in accordance with Public Law 250-2019. Additional information about the specific fee changes can be found at: https://www.in.gov/idem/legal/files/rulemaking_fee_spreadsheet.pdf.

[IC 13-14-9-4](#) Identification of Restrictions and Requirements Not Imposed under Federal Law

The following elements of the draft rule impose either a restriction or a requirement on persons to whom the draft rule applies that is "not imposed under federal law" (NIFL element or elements):

The following information is provided with each NIFL element:

- (1) The environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect

human health and the environment in Indiana; and examples in which federal law is inadequate to provide this protection for Indiana.

(2) The estimated fiscal impact and expected benefits of the NIFL element, based on the extent to which the NIFL element exceeds the requirements of federal law.

(3) The availability for public inspection of all materials relied on by IDEM in the development of the NIFL element including, if applicable: health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data.

NIFL Element (A) The increase of water-related fees in accordance with Public Law 250-2019.

(1) The increase in fees is to support Indiana water programs including federally delegated water programs.

(2) The expected impact to regulated entities is a total of approximately \$1,490,110 in the next year and will provide benefits to the state's ability to operate the programs.

(3) Public Law 250-2019, IDEM Permit Cost of Service Analysis, and IDEM Proposed Fee Increases.

Potential Fiscal Impact

This rulemaking has no fiscal impact beyond that imposed by Public Law 250-2019. It will result in a fiscal impact on regulated entities in increased fee amounts for water-related activities of a total of approximately \$1,490,110 in the next year and a positive fiscal impact on the state in the same amount in collected fees. The increases in fees collected by IDEM will be used to fund its work of issuing permits to wastewater and drinking water treatment plants.

Public Participation and Work Group Information

At this time, no work group is planned for the rulemaking. If you feel that a work group or other informal discussion on the rule is appropriate, please contact MaryAnn Stevens, Rules Development Branch, Office of Legal Counsel at (317) 232-8635 or (800) 451-6027 (in Indiana).

SUMMARY/RESPONSE TO COMMENTS FROM THE FIRST COMMENT PERIOD

IDEM requested public comment from February 19, 2020, through March 20, 2020, on alternative ways to achieve the purpose of the rule and suggestions for the development of draft rule language. IDEM received no comments in response to the First Notice of Comment Period.

REQUEST FOR PUBLIC COMMENTS

This notice requests the submission of comments on the draft rule language, including suggestions for specific revisions to language to be contained in the draft rule. Comments may be submitted in one of the following ways:

Affected: [IC 13-18](#)

Sec. 2. (a) Persons currently discharging pollutants under an existing NPDES permit shall submit a new application **as follows:**

- (1) Under subsection (b) where facility expansions, production increases, or process modifications will:
 - (i) result in new or substantially increased discharges of pollutants or a change in the nature of the discharge of pollutants; or
 - (ii) violate the terms and conditions of the existing permit.
- (2) At least one hundred eighty (180) days prior to the expiration date of the existing permit, unless a later date is allowed by the commissioner.

(b) ~~(4)~~ A person proposing a new discharge of pollutants shall submit an application **according to the following:**

- (1) **The application must be submitted** at least one hundred eighty (180) days before the date ~~on which~~ **when** the discharge is to commence, unless a later date is allowed by the commissioner.
- (2) Persons planning to operate a facility ~~which that~~ is a new source or a new discharger and ~~which that~~ may fall ~~within~~ **under** the coverage of an existing general permit shall submit an NPDES application under this section and state that ~~such an~~ **an** existing general permit may cover the facility's discharge.

(c) The commissioner ~~will~~ **shall** review the application **under subsection (b)(2)** and:

- (1) ~~if he concludes that the applicant's proposed discharge falls within the coverage of the general permit, he will so~~ **the commissioner shall:**
 - (i) notify the applicant ~~of that fact~~ **coverage under the general permit applies;** and
 - (ii) suspend further processing of the application; **or**
- (2) ~~if the coverage under a general permit does not apply to the applicant's proposed discharge, the commissioner shall process the application as for an individual NPDES permit~~ **according to this article.**

~~(e)~~ (d) All applications required under this section ~~shall~~ **must** be:

- (1) completed in accordance with [327 IAC 5-2-3](#) and applicable instructions;
- (2) signed pursuant to [327 IAC 5-2-22](#); and
- (3) submitted with the appropriate fee **under section 17 of this rule** to the department of environmental management.

~~(d)~~ (e) Except for decisions to modify, revoke and reissue, or terminate a permit, no NPDES permit other than a general permit ~~shall~~ **may** be issued until the applicant has filed a complete application that complies with the filing requirements in this rule. ~~(327 IAC 5-3)~~. If an applicant fails or refuses to correct deficiencies in its NPDES application form, the permit may be denied or appropriate enforcement action may be taken under [327 IAC 5-2-20](#).

~~(e)~~ (f) If the commissioner determines that further information or a site visit is necessary in order to evaluate the discharge completely and accurately, **the commissioner shall:**

 Affected: [IC 36-1-2-23](#)

Sec. 17. (a) The fees in this section apply to NPDES permit applications and annual operations as follows:

- (1) Fees are not refundable once staff review and processing of the permit application has commenced.
- (2) Application and annual operating fees are as follows:
 - (A) NPDES industrial permits are in subsection (b).
 - (B) NPDES coal mine facility permits are in subsection (c).
 - (C) NPDES stone quarry permits are in subsection (d).
 - (D) NPDES municipal permits are in subsection (e).
 - (E) NPDES state facility permits are in subsection (f).
 - (F) NPDES federal facility permits are in subsection (g).
 - (G) NPDES semipublic facility permits are in subsection (h).
 - (H) NPDES public water system permits are in subsection (i).
 - (I) NPDES stormwater general permits are in subsection (j).

(b) For NPDES industrial permits, other than coal mine permits or stone quarry permits, the permittee shall submit the following fees:

- (1) An NPDES application fee for a new or renewed NPDES permit according to the following:
 - (A) One hundred dollars (\$100) for a major industrial facility.
 - (B) One hundred dollars (\$100) for a minor industrial facility.
- (2) An NPDES application fee for an NPDES permit modification request or variance request according to the following:
 - (A) Fifty dollars (\$50) for a major industrial facility.
 - (B) Fifty dollars (\$50) for a minor industrial facility.
- (3) An annual operation fee, including the following:
 - (A) An annual base fee for each facility as follows:
 - (i) One thousand dollars (\$1,000) for a major permit.
 - (ii) Four hundred dollars (\$400) for a minor permit.
 - (B) An annual discharge flow fee for each facility as follows:

Daily Average Actual Flow in MGD	Fee ¹
.001 - .05	\$330
.051 - .1	\$490
.101 - .2	\$1,145
.201 - .3	\$1,635
.301 - .5	\$2,290
.501 - 1.0	\$2,805

50.001 - 100.0	\$39,240
>100.0	\$47,415

¹Annual flow fees are reduced by twenty percent (20%) for discharges that are comprised of greater than ninety percent (90%) of noncontact cooling water.

- (c) For NPDES coal mine permits, the permittee shall submit the following fees:
 - (1) An NPDES application fee of one hundred dollars (\$100) for either a general permit or an individual permit for a new or renewed NPDES permit.
 - (2) An NPDES application fee of fifty dollars (\$50) for either a general permit or an individual permit for a modified NPDES permit or a variance for an NPDES permit.
 - (3) An annual operation fee according to the following:
 - (A) A facility for which a coal mine operator files a notice of intent under the general permit rules for coal mines must pay an annual fee of five hundred dollars (\$500) instead of the fee for an

individual permit required under clause (B). The annual fee must accompany the initial notice of intent and is due each year on the anniversary date of the date when the initial notice of intent was filed.

(B) A facility for which an individual coal mine permit is required must pay an annual fee based on the number of outfalls according to the following:

(1) 1 outfall	\$500
(2) 2 – 3 outfalls	\$750
(3) 4 – 6 outfalls	1,000
(4) 7 – 10 outfalls	\$1,500
(5) 11 – 20 outfalls	\$2,500
(6) 21 – 99 outfalls	\$3,500

(d) For NPDES stone quarry permits, the permittee shall submit the following fees:

(1) An NPDES application fee of one hundred dollars (\$100) for a new or renewed NPDES permit.

(2) An NPDES application fee of fifty dollars (\$50) for a modified NPDES permit or a variance for an NPDES permit.

(3) An annual fee based on the number of outfalls according to the following:

(A) 1 outfall	\$750
(B) 2 outfalls	\$1,500
(C) 3 outfalls	\$2,000
(D) 4 outfalls	\$2,500

(e) For NPDES municipal permits, the permittee shall submit the following fees:

(1) An NPDES application fee for a new or renewed NPDES permit according to the following:

(A) One hundred dollars (\$100) for a major municipal facility.

(B) One hundred dollars (\$100) for a minor municipal facility.

(2) An NPDES application fee for an NPDES permit modification request or variance request according to the following:

(A) Fifty dollars (\$50) for a major municipal facility.

(B) Fifty dollars (\$50) for a minor municipal facility.

(3) An annual operation fee, including the following:

(A) An annual base fee for each facility as follows:

(i) One thousand five hundred dollars (\$1,500) for a major permit.

(ii) Four hundred dollars (\$400) for a minor permit.

(B) An annual discharge flow fee for each facility as follows:
