
TITLE 329 SOLID WASTE MANAGEMENT DIVISION**SECOND NOTICE OF COMMENT PERIOD**

LSA Document #20-24

SOLID WASTE AND HAZARDOUS WASTE PROGRAM PERMITTING FEES**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to rules at [329 IAC 3.1-1-14.1](#), [329 IAC 10-11-8](#), [329 IAC 10-11-9](#), [329 IAC 11-9-4.1](#), and [329 IAC 15-3-4](#), and the repeal of [329 IAC 15-3-7](#) and [329 IAC 15-4-3](#) concerning solid waste and hazardous waste program permit fees. IDEM seeks comment on the affected citations listed and any other provisions of Title 329 that may be affected by this rulemaking.

HISTORY

First Notice of Comment Period: February 19, 2020, Indiana Register (DIN: [20200219-IR-329200024FNA](#)).

CITATIONS AFFECTED: [329 IAC 3.1-1-14.1](#), [329 IAC 10-11-8](#), [329 IAC 10-11-9](#), [329 IAC 11-9-4.1](#), [329 IAC 15-3-4](#), [329 IAC 15-3-7](#), [329 IAC 15-4-3](#).

AUTHORITY: [IC 4-22-2](#); [IC 13-14-9](#); [IC 13-16](#).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING**Basic Purpose and Background**

HEA 1278, also referred to as Public Law 250-2019, was passed by the 2019 General Assembly to amend the process in [IC 13-16](#) concerning the adoption of environmental fees by the Environmental Rules Board (board). To establish or change the amount of a fee, the board is required to take into account the costs to IDEM for: (1) issuance or approval of a permit; (2) services in connection with supervision, review, and other activities related to the issuance or approval of a permit; (3) surveillance of the activity or property covered by the permit issuance or approval; (4) amendments, modifications, and renewals of a permit or approval; and (5) fees charged for equivalent activities in other states. IDEM is to assist the board in doing a periodic review of fees by: (1) arranging for an independent study of the costs that the board may consider; (2) developing information on fees charged for equivalent activities in other states; and (3) periodically developing information on activities, functions, and permits that have been added or eliminated since the previous fee structure was adopted. The board may direct IDEM to initiate a rulemaking under [IC 13-14-9](#) to address fees based on the information collected by IDEM and presented to the board. Public Law 250-2019 also establishes that the board may not change fees more than one time in five years and the fee increase may not amount to more than ten percent.

In addition to the process established in [IC 13-16](#) for future rulemakings to increase environmental fees, Public Law 250-2019 requires the board to adopt rules once before January 1, 2022, to increase the amount of the fees for waste-related programs under [IC 13-20-21](#) and [IC 13-22-12](#) along with fees for water programs under [IC 13-18-10](#), [IC 13-18-20](#), and [IC 13-18-20.5](#) by an aggregate amount of \$3,200,000 greater than the aggregate fee revenue actually received in the year immediately preceding the proposed fee increases.

This rulemaking addresses the one-time fee increases required under Public Law 250-2019 for [IC 13-20-21](#) and [IC 13-22-12](#), regarding solid waste and hazardous waste, respectively. The fees associated with issuing permits, amendments, modifications, and renewals have not changed since 1996 for these fees. The legislatively allowed fee increase of an aggregate of \$3,200,000 is shared among the affected fees in the water and waste programs and in Titles 327 and 329. IDEM's decisions regarding the amount of the fee increases took into consideration the fees charged for similar activities in other states that are in the United States Environmental Protection Agency's Region 5 and Kentucky.

IDEM seeks comment on the affected citations listed, including suggestions for specific language, any other provisions of Title 329 that may be affected by this rulemaking, and alternative ways to achieve the purpose of the rulemaking in accordance with Public Law 250-2019. Additional information about the specific fee changes can be found at: https://www.in.gov/idem/legal/files/rulemaking_fee_spreadsheet.pdf.

[IC 13-14-9-4](#) Identification of Restrictions and Requirements Not Imposed under Federal Law

The following elements of the draft rule impose either a restriction or a requirement on persons to whom the draft rule applies that is "not imposed under federal law" (NIFL element or elements):

The following information is provided with each NIFL element:

- (1) The environmental circumstance or hazard dictating the imposition of the NIFL element in order to protect human health and the environment in Indiana; and examples in which federal law is inadequate to provide this protection for Indiana.
- (2) The estimated fiscal impact and expected benefits of the NIFL element, based on the extent to which the

NIFL element exceeds the requirements of federal law.

(3) The availability for public inspection of all materials relied on by IDEM in the development of the NIFL element including, if applicable: health criteria, analytical methods, treatment technology, economic impact data, environmental assessment data, analyses of methods to effectively implement the proposed rule, and other background data.

NIFL Element (A) The increase of waste-related fees in accordance with Public Law 250-2019.

(1) The increase in fees is to support Indiana waste programs including federally delegated waste programs.

(2) The expected impact to regulated entities is a total of approximately \$1,715,595 in the next year and will provide benefits to the state's ability to operate the programs.

(3) Public Law 250-2019, IDEM - Permit Cost of Service Analysis, and IDEM Proposed Fee Increases.

Potential Fiscal Impact

This rulemaking has no fiscal impact beyond that imposed by Public Law 250-2019. It will result in a fiscal impact on regulated entities in increased fee amounts for waste-related activities of a total of approximately \$1,715,595 in the next year and a positive fiscal impact on the state in the same amount in collected fees. The increases in fees collected by IDEM will be used to fund its work of issuing permits to solid and hazardous waste facilities.

Public Participation and Work Group Information

At this time, no work group is planned for the rulemaking. If you feel that a work group or other informal discussion on the rule is appropriate, please contact Seth Engdahl, Rules Development Branch, Office of Legal Counsel at sengdahl@idem.in.gov, (317) 234-9535 or (800) 451-6027 (in Indiana).
