The commission or, upon delegation by the commission, the executive director of the commission shall, within forty-five (45) days after submission of a contract to the commission, approve or disapprove the contract, and if not acted upon by the commission within forty-five (45) days after submission, the contract shall be considered approved by the commission. Provided, however, that the commission or, upon delegation by the commission, the executive director of the commission may request additional information regarding the contract during the forty-five (45) day period and shall thereafter have thirty (30) days to act with respect to the contract after receipt of such additional information. Provided, further, that the permit holder may request that the commission take action on the contract within a shorter period of time, which may be accepted by the commission or, upon delegation by the commission, the executive director of the commission in their sole discretion upon a showing of good cause by the permit holder.

**71 IAC 11-1-13 Transfers of permits**

Authority: IC 4-31-3-9

Affected: IC 4-31-5; IC 4-31-13-1

Sec. 13. (a) A permit issued under IC 4-31-5 is for the benefit of the permit holder only and is applicable only to the location for which the permit is issued. The permit may not be sold or otherwise transferred and shall terminate upon a change of ownership of the permit holder, unless the commission has granted prior written approval of the substantial change of ownership or unless this section has been otherwise complied with.

(b) The sale, pledge, encumbrance, execution of an option agreement, or other transfer of five percent (5%) or more of the equity securities or other ownership interest of a partnership, association, corporation, or other entity holding a permit shall be considered a substantial change of ownership. A "substantial change in ownership", for purposes of this subsection, includes ownership, directly or indirectly, by a person, individually or in association with others, contingent or otherwise, whether through a subsidiary or intermediary, who acquires or has a right to acquire, directly or indirectly, a five percent (5%) or more beneficial ownership of the permit holder. Any request for approval of a substantial change in ownership shall contain the same information that is required to be furnished under section 4 of this rule. Upon receipt of all information required by the commission with regard to a proposed substantial change in ownership, the commission shall, as soon as practicable, make a determination whether to authorize and approve the substantial change in ownership of a permit holder.

(c) The sale, pledge, encumbrance, execution of an option agreement, or other transfer of ownership of a permit which is less than five percent (5%) of the equity securities or other ownership interest of a partnership, association, corporation, or other entity holding a permit shall be considered a nominal change of ownership. A request for approval to make a nominal change of ownership shall be filed with the commission within fifteen (15) days of the execution of the documents upon which the proposed nominal change of ownership will be based. The commission shall determine whether the proposed nominal change of ownership may have an adverse effect upon pari-mutuel racing or the integrity of pari-mutuel racing. The commission or the executive director of the commission shall, within sixty (60) days after the receipt of all information required by the commission or executive director, including investigation reports, approve or disapprove the requested nominal change of ownership, and if not acted upon by the commission within that sixty (60) day period the request to make a nominal change of ownership shall be considered approved by the commission.

(d) For purposes of subsections (a) and (b), commission approval is not required for:

(1) the transfer of an ownership interest in a permit holder whether substantial or nominal, direct or indirect, if by a publicly traded corporation, and if the beneficial ownership transferred is acquired by a person who will hold the voting securities of the publicly traded corporation for investment purposes only; or

(2) a debt transaction of a publicly traded corporation unless such transaction results in the pledge or encumbrance of the assets or any portion thereof of the permit holder.

A "publicly traded corporation" is one that has voting securities registered under Section 12 of the Securities and Exchange Act of 1934 (1934 Act), or issues securities subject to Section 15(d) of the 1934 Act, or has voting securities exempted from the registration requirements due to Section 3 of the Securities Act of 1933, or is required to file under the 1934 Act.

(e) Any promise, agreement, sale, pledge, encumbrance, option agreement, or other transfer of ownership of a permit, either nominal or substantial, not memorialized by and reduced to writing will be considered void by the commission.

(f) False or misleading information, omission of required information, or substantial deviations from representations in a request for a transfer of any interest in a permit issued by the commission may be cause for termination of the permit, denial of the request for approval, and the imposition of any sanction available to the commission pursuant to IC 4-31-13-1. In the event a permit holder shall fail to obtain required approval, the commission may revoke or suspend the permit holder's permit or assess such fines or penalties which the commission shall in its discretion deem appropriate. - (8) freight embargoes; and
- (9) unusually severe weather;

(c) If the cause of delay is the default of a contractor or subcontractor, and if the permit holder proves to the satisfaction of the commission that the default arose out of causes beyond the control of the permit holder, its contractors, and subcontractors, then the late fee shall not be due unless the supplies or services to be furnished by the contractor or subcontractor were obtainable from other sources in sufficient time to permit the permit holder to meet the completion date.
