ELECTRONICS WASTE MANAGEMENT

(C) The electronic waste is stored in a manner:
   (i) reflecting its value as a commodity; and
   (ii) in accordance with this rule.

(2) The electronic waste processing facility must maintain records of electronic waste coming into the electronic waste processing facility and materials leaving the electronic waste processing facility, including the following:

   (1) threaten or potentially threaten human health; or
   (2) impact or potentially impact the environment.

However, it must be a rebuttable presumption that storage of electronic debris, excluding waste that is a hazardous waste subject to regulation under 329 IAC 3.1 and e-waste, for more than six (6) months constitutes discarding and disposal. The amount that will provide for closure is determined by multiplying the maximum amount in tons of e-waste, electronic devices, and electronic debris on site at any one (1) time by two hundred dollars ($200).

c) If there is a change to the maximum amount of e-waste, electronic devices, and electronic debris specified in 329 IAC 16-5-1(f)(5), the owner, operator, or registrant must update the amount in subsection (b) within thirty (30) days after the change.

e) The owner, operator, or registrant may use a single financial assurance mechanism to meet the requirements for more than one (1) facility. Evidence of financial responsibility submitted to the commissioner must include a list showing, for each facility, the following:

(1) The registration number, name, and address.
(2) The amount of funds available through the financial assurance mechanism that must be not less than the sum of funds that would be available if a separate mechanism had been established and maintained for each facility.

An owner, operator, or registrant who has a financial assurance mechanism shall be deemed to be without the required financial responsibility in the event of bankruptcy of the institution issuing the financial assurance mechanism.

(2) Reestablish financial responsibility within sixty (60) days after loss of a financial assurance mechanism due to bankruptcy. The registered facility cannot operate outside the sixty (60) day period without establishing a financial assurance mechanism for the amount required under subsection (b).

(1) deemed to endanger human health or the environment; and

(2) grounds for a proceeding to revoke the facility's registration or to order final closure of the registered facility.

(h) After the closure certification is deemed adequate by the commissioner and the facility is so notified in writing by the commissioner, the owner, operator, or registrant of the registered facility is released from the obligation of maintaining financial assurance under this article. (i) reimburse the owner, operator, or registrant of the facility for department-approved closure work done; or
(ii) pay the department for doing required closure work.
(C) Require that annual valuations of the trust be submitted to the commissioner.
(D) Require successor trustees to notify the commissioner, in writing, of their appointment at least ten (10) days before
the effective date of the appointment.
(E) Require the trustee to notify the commissioner, in writing, of the failure of the owner, operator, or registrant of the
facility to make a required payment into the fund.

   (i) owner, operator, or registrant of the facility;
   (ii) trustee; and
   (iii) commissioner.
(G) Certify that the signer of the trust agreement for the owner, operator, or registrant of the facility was duly authorized

   notarization.
(I) Establish that the trustee is:
   (i) authorized to act as a trustee; and
   (ii) an entity whose operations are regulated and examined by a federal or state of Indiana agency.

   payment into the trust fund must be in the amount determined by section 1(b) of this rule.

(5) The trustee shall evaluate the trust fund annually, as of the day the trust was created or on an earlier date as may be
   provided in the agreement. The trustee shall notify the owner, operator, or registrant of the facility and the commissioner within
   thirty (30) days after the evaluation date.

       operator, or registrant of the facility may submit a written request to the commissioner for release of the amount in
       excess of the current cost estimate.
   (B) Within sixty (60) days after receiving a request from the owner, operator, or registrant of the facility for a release

       removal, may request reimbursement for removal expenditures by submitting itemized bills to the commissioner.
   (B) Within sixty (60) days after receiving the itemized bills for removal activities, the commissioner shall determine
       whether the expenditures are in accordance with the removal plan. The commissioner shall instruct the trustee to make
       reimbursement in the amounts the commissioner specifies in writing in accordance with the removal plan.
   (C) If the commissioner determines, based on available information, that the cost of removal will be greater than the
       value of the trust fund, the commissioner shall withhold reimbursement of the amounts necessary to accomplish removal
       until it is determined that the owner, operator, or registrant of the facility is no longer required to maintain financial
       assurance for removal. In the event the fund is inadequate to pay all claims, the commissioner shall pay claims according
       to the following priority:
       (i) A person with whom the department has contracted to perform removal activities.
       (ii) A person who has completed removal authorized by the commissioner.
       (iii) A person who has completed work that furthered the removal.
       (iv) The owner, operator, or registrant of the facility and related business entities.
