Sec. 1. (a) The Indiana Meat and Poultry Inspection and Humane Slaughter Act, Chapter 302, Acts of 1967, was extensively amended by the 1969 Indiana general assembly as Chapter 377, Burns' Annotated Statutes 35-4116-35-4141. The 1969 amendments were introduced in order for the Indiana Act to be uniform with the federal Wholesome Meat Act of 1967 (81 Stat. 584).

(b) Section 10 of the Indiana Act states that operations that would be exempt under the provisions of the federal Wholesome Meat Act or the federal Poultry Products Inspection Act are exempt under the Indiana Act. The exemptions under the federal Wholesome Meat Act were not clarified until passage of the Curtis Amendment to the federal Wholesome Meat Act (July 18, 1970, P.L.91-342, 84 Stat. 438). The federal regulations governing meat inspection became effective on December 1, 1970. Completion of the revision for the state of Indiana was withheld until receipt of formal notice that the Indiana meat inspection program had been found to be "equal to" the program of meat inspection as provided by the Meat and Poultry Inspection Program, Consumer and Marketing Service, U.S. Department of Agriculture. Copies of the proposed revision were forwarded to the Indiana Meat Packers Association and the Indiana Locker and Meat Processors Association.

(c) Effective July 1, 1996, the Indiana general assembly transferred the Meat and Poultry Inspection; Humane Slaughter Act from [IC 16](#) to [IC 15-17-5](#). Jurisdiction over the meat and poultry inspection program was transferred from the Indiana state

department of health to the Indiana state board of animal health at that time. The 1997 rule revision makes substantial use of incorporation of federal rules by reference in order to maintain continuity with the federal program where possible. 345 IAC 9-2-1 Establishments requiring inspection or a grant of exemption

Authority: [IC 15-17](#)
 Affected: [IC 15-17](#)

Sec. 1. (a) Unless otherwise exempted, a person may not operate an establishment without receiving inspection service by

MEAT AND MEAT PRODUCTS INSPECTION

the division. A person desiring to operate an establishment must meet at least one (1) of the following sets of requirements:

- (1) A person may operate an official establishment by:
 - (A) meeting the requirements of the act and this article for an official establishment;
 - (B) applying to the division for inspection; and
 - (C) receiving a grant of inspection from the division;

prior to beginning operation.

- (2) A person may operate a custom exempt establishment by:
 - (A) meeting the requirements of the act and this article for a custom exempt establishment;
 - (B) applying to the division for inspection; and
 - (C) receiving a grant of exemption from inspection from the division;

prior to beginning operation.

(b) Establishments that must receive a grant of inspection under this section are those establishments that slaughter livestock or process meat, meat byproducts, or meat food products derived from livestock. Processing, for the purpose of this section, includes:

- (1) canning;
- (2) curing;
- (3) salting;
- (4) cooking;
- (5) smoking;
- (6) packing;
- (7) rendering;
- (8) manufacturing;
- (9) freezing;
- (10) drying; and
- (11) any other similar operation;

that is conducted on meat.

(c) Establishments conducting activities described in 9 CFR 303.1(a)(2) must receive a grant of exemption under this section.

(d) The division shall inspect the construction, sanitation, and operation of an applicant's establishment according to this article prior to and after granting inspection services or an exemption from inspection services. The division may temporarily or permanently withdraw inspection services or a grant of exemption from an establishment for violations of the act and this article.

(e) A person submitting an application for inspection under this section must include a description of the means by which the establishment will dispose of inedible products. The division shall approve the inedible disposal method if the proposed method complies with the act, this article, and [IC 15-17-11](#).

(f) A person conducting activities that are exempted by [IC 15-17-5-11](#) is not required to apply for and maintain inspection.

(g) The state veterinarian may refuse to provide, or withdraw, inspection service under this rule with respect to any establishment if he or she determines that the applicant or recipient is unfit to engage in any business requiring inspection under the act or rules adopted under the act because the applicant or recipient, or anyone responsibly connected with the applicant or recipient, has been convicted in a federal or state court of:

- (1) any felony; or
- (2) more than one (1) violation of any law, other than a felony;

based upon the acquiring, handling, or distributing of unwholesome, mislabeled, or deceptively packaged food or upon fraud in connection with transactions in food. This subsection shall not affect in any way other provisions of the act or rules adopted under the act for withdrawal of inspection services from establishments for any other reason. The state veterinarian's refusal or withdrawal action may be for a period of time or indefinitely as he or she deems necessary to effectuate the purposes of the act. The state veterinarian shall notify the applicant or recipient of the service of their opportunity for a hearing to review the action under [IC 15-17-17](#). For the purpose of this section, a person shall be deemed to be responsibly connected with the business if he or she was a partner, an officer, a director, a holder, or an owner of ten percent (10%) or more of its voting stock, or an employee in a managerial or an executive capacity. 345 IAC 9-2-2 Inspection of livestock and products; applicability

Authority: [IC 15-17](#)

Affected: [IC 15-17-5](#)

Sec. 2. (a) All livestock and all products entering any official establishment and all products prepared in whole or in part therein, shall be:

- (1) inspected;
- (2) handled;
- (3) stored;
- (4) prepared;
- (5) packaged;
- (6) marked; and
- (7) labeled;

as required by this article. All livestock and all products entering a custom exempt establishment shall meet those requirements in this article that apply to custom exempt establishments and those products produced at custom exempt establishments.

(b) An official establishment that believes or has reason to believe that adulterated or misbranded meat or meat product received by or originating from the establishment has entered into commerce shall notify the division within twenty-four (24) hours of learning or determining that the product has entered commerce. The official establishment shall notify the division of the:

- (1) type;
- (2) amount;
- (3) origin; and
- (4) destination;

of the meat or meat product.

(c) Each establishment shall prepare and maintain current written procedures for the recall of meat and meat products produced and shipped by the establishment. The procedures must specify how the official establishment will decide whether to conduct a product recall and how a recall will be conducted. The establishment must do the following:

- (1) Document each reassessment of its recall plans.
- (2) Make the plans available to the division upon request.

345 IAC 9-2-3 Verification of HACCP systems

Authority: [IC 15-17](#)

Affected: [IC 15-17](#)

Sec. 3. (a) Every establishment must conduct validation, verification, and reassessment activities pursuant to 9 CFR 417.4 to support that the HACCP system is designed and functioning as intended on an ongoing basis.

(b) An establishment that:

- (1) produces a non-intact beef product; and
- (2) pursuant to 9 CFR 417.2, has determined that contamination with Shiga toxin-producing Escherichia coli (STEC) is a food safety hazard reasonably likely to occur;

must include microbiological testing as a component of their ongoing verification activities. The testing must demonstrate that the

HACCP system is effectively preventing this identified hazard. The microbiological testing frequency for an establishment will be determined by the board based upon the volume of product produced, the type of product produced, the establishment's compliance history, and any other factors affecting the risk that the pathogen is in the product. 345 IAC 9-7-4 Inspection required; work schedules of establishments

Authority: [IC 15-17](#)
 Affected: [IC 15-17-5-12](#)

Sec. 4. (a) No operation requiring inspection under this article may be conducted unless it is conducted under the supervision of a division employee. All slaughtering of animals shall be done:

- (1) under the direct supervision of a division employee; and
- (2) with reasonable speed, considering the official establishment's facilities.

The division may implement inspection procedures for processing operations that are different than the inspection procedures for slaughter operations. Processing procedures may include procedures that allow for varied frequency of inspection depending on the processing operations conducted.

(b) Each official establishment shall submit a work schedule to the board for approval upon the occurrence of any of the following:

- (1) Prior to the inauguration of inspection.
- (2) When a change in work schedule is requested.
- (3) Upon request by a board employee.

Work schedules must specify for all departments the daily clock hours of inspected and custom exempt operations and must specify lunch periods.

(c) The division director shall take into account the efficient and effective use of inspection personnel when approving work schedules. The division director will designate the hours of the day and the days of the week during which inspection will be provided when an establishment conducts operations requiring inspection less than eight (8) hours a day, fewer than five (5) days a week, or less than forty (40) hours in a work week. The division director shall consult with the establishments involved when designating work schedules.

(d) Establishments shall maintain consistent work schedules. Any request by an establishment for a change in its work schedule shall be submitted to the board at least two (2) weeks in advance of the proposed change. Frequent requests for change will not be approved. Minor deviations from a daily operating schedule may be approved by the area supervisor.

(e) Request for inspection service outside an approved work schedule shall be made:

- (1) as early in the day as possible for overtime work to be performed within that same workday; or
- (2) prior to the end of the day's operation when such a request will result in overtime service at the start of the following day.

But, an inspector may be recalled to his or her assignment after completion of the daily tour of duty under section 6(d) of this rule.

(f) [IC 15-17-5-12](#) and section 6 of this rule will govern the scheduling of inspection in the following circumstances:

- (1) On any Saturday, Sunday, or holiday.
- (2) For more than eight (8) hours on any other day.
- (3) For more than forty (40) hours any one (1) week.

(g) For the purpose of administration of this rule, "few livestock" shall be construed as less than fifty (50) cattle or calves per week or an equivalent number of other species of livestock (two (2) animals of all other species being deemed equivalent to one (1) cattle). In addition, "small quantity of any product" shall be construed as less than seven hundred fifty (750) pounds per day or less than three thousand (3,000) pounds per week of any one (1) class of product. 345 IAC 9-7-6 Overtime work of inspectors

Authority: [IC 15-17](#)

Affected: [IC 15-17-5-12](#)

Sec. 6. (a) The management of an official establishment desiring to conduct operations that will require board inspection services during a time the board is not required to provide inspection under [IC 15-17-5-12](#)(a), may receive inspection but must comply with all of the following requirements:

- (1) The establishment must sufficiently in advance of the period of overtime request the area supervisor to furnish inspection service during such overtime period.
- (2) The establishment must pay the board the fee required under [IC 15-17-5-12](#)(c).

No official establishment shall be assessed for overtime services when such overtime is due to late arrival of the inspector for any cause. An official establishment that has been designated to slaughter for a limited number of hours that operates longer than the

designated period must pay any overtime caused by the extended operation.

(b) Holidays for assigned division employees that are considered overtime work days are those designated in [IC 15-17-5-12](#).

(c) Any establishment that requires the overtime services of a division employee shall pay to the board the per hour rate as designated by the state budget agency to reimburse the state for the cost of inspection so furnished. Bills are payable upon receipt and become delinquent thirty (30) days from date of billing. Overtime or holiday inspection service will not be performed at any establishment that is delinquent in payment and processing operations thereat shall be confined to the regular operating schedule of the establishment. Failure to comply with this section by nonpayment of the overtime due the board will result in inspection being withdrawn from the establishment thirty (30) days after notification of such action by certified mail. Inspection will not be reinstated until the amount due for overtime has been paid to the board.

(d) An official establishment that requests and receives the services of a division employee after the employee has completed his or her day's assignment and left the premises, or called back to duty during any overtime or holiday period, shall be billed for a minimum of two (2) hours of overtime or holiday inspection service at the established rate. Antemortem inspection of exotic livestock

345 IAC 9-9.5-1 Antemortem inspection of exotic livestock

Authority: [IC 15-17](#)

Affected: [IC 15-17-5](#)

Sec. 1. (a) Antemortem inspection of exotic livestock must be conducted according to 9 CFR 309 and subsection (b), (d), or (e).

(b) Upon request, the state veterinarian or a division employee may permit field antemortem inspection of exotic livestock if the following requirements are met:

(1) The animal's owner provides an area to perform the antemortem inspection and an area to stun or kill, shackle, hoist, stick, and bleed the animal. A division employee must approve a field-designated area and the stunning or kill area prior to the antemortem inspection.

(2) The antemortem inspection is performed on the same day as the slaughter and in the field-designated area.

(3) The antemortem inspection is conducted in accordance with the humane procedures outlined in 9 CFR 313.2.

(4) After the antemortem inspection, the animal is stunned or killed in the approved area. Immediately after an animal is stunned or killed, it must be shackled, hoisted, stuck, and bled in the approved area.

(5) The carcass is transported to an official establishment for postmortem inspection as soon as possible, but not later than the end of the day within which the animal was killed.

(6) The transport used to move the carcass to the official establishment must be approved by a division employee. A division employee may approve only those transports that are as sanitary as is reasonable and practical under the circumstances and that will not likely result in carcass contamination.

(c) The state veterinarian or a division employee may refuse to permit field antemortem inspection under any of the following circumstances:

(1) The board is unable to provide qualified persons to conduct the field antemortem inspection at the time or location desired due to commitments to provide inspection services elsewhere in the state.

(2) The safety of board personnel would be put at risk by performing the requested field antemortem inspection service.

(3) The animal's owner cannot provide a field-designated area that will permit the board to fully evaluate the animal's fitness for slaughter.

(4) The animal's owner cannot provide an area for stunning, killing, shackling, hoisting, and bleeding that will minimize

the likelihood of carcass contamination.

(5) The owner does not or cannot otherwise comply with the requirements of this rule.

(d) Antemortem inspection of exotic livestock delivered to an establishment may be performed while the animals remain in the transport vehicle if the following requirements are met:

(1) The transport vehicle is constructed so that it will reasonably protect the antemortem inspector from dangers posed by the animals.

(2) The transport vehicle and the circumstances surrounding the animal's delivery will reasonably allow the inspector to perform all of the duties required in an antemortem inspection.

(e) Antemortem inspection of exotic livestock may be conducted at an official establishment pursuant to the requirements in 9 CFR 309 and this article. Authority: [IC 15-17](#)

Affected: [IC 15-17-5](#)

Sec. 2. The following apply to the carcass and parts of carcasses of an animal that is tested for bovine spongiform encephalopathy (BSE):

(1) In an official establishment, carcass and parts thereof shall be retained until such time as the BSE test results are received and a board representative releases the carcass and parts. If the animal tests negative for BSE, the carcass and parts thereof may be passed if the carcass and parts otherwise qualify to be passed. If the animal tests positive for BSE, the carcasses and parts shall be condemned as adulterated and held for disposition in a manner approved by the state veterinarian.

(2) In a custom exempt establishment, carcass and parts thereof shall be retained until such time as the BSE test results are received and a board representative releases the carcass and parts. If the animal tests negative for BSE, the carcass and parts may be released. If the animal tests positive for BSE, the carcass and parts shall be condemned as adulterated and held for disposition in a manner approved by the state veterinarian.

345 IAC 9-12-2 Inspected and passed products; official marks

Authority: [IC 15-17-3](#)
 Affected: [IC 15-17-5](#)

Sec. 2. (a) The official inspection legend required by 9 CFR 316 to be applied to inspected and passed carcasses and parts of carcasses of cattle, sheep, swine, goats, and rabbits, meat food products in animal casings, and other products as approved by the board, shall be in the form of an outline of the state of Indiana with the words "IND. INSP. & PASSED BOAH EST. 000" inside the outline, as specified and depicted in this subsection, substituting the assigned establishment number where the number "000" is used. However, legend markers that were in use before July 1, 1996, may contain "St. B. of H" followed by "Est. 000", and the establishment number may be placed elsewhere on a label as allowed under 9 CFR 317.2. The official inspection legend described in this subsection is depicted in subdivision (2). Each mark must be a size specified in the following subdivisions but may vary by one-sixteenth (1/16) of an inch, plus or minus, in either direction:

- (1) For applications to:
 - (A) sheep, calf, goat, and rabbit carcasses;
 - (B) the loins and ribs of pork;
 - (C) beef tails; and
 - (D) all varieties of sausage and meat food products in animal casings;
 a mark that is either one and one-eighth (1 1/8) inches tall by five-eighths (5/8) inch wide or the size indicated in subdivision (2).
- (2) For applications to:
 - (A) cattle, swine, equine, cervid, and carcasses, primal parts, and cuts therefrom;

- (B) beef livers;
 - (C) beef tongues;
 - (D) beef hearts;
 - (E) smoked meats not in casings; and
 - (F) burlap, muslin, cheesecloth, heavy paper, or other acceptable material that encloses carcasses or parts of carcasses;
- a mark that is one and fifteen-sixteenths (1 15/16) inches tall by one and one-eighth (1 1/8) inches wide. The following is a picture of the mark:

(b) The official inspection legend required by 9 CFR 316 to be shown on all labels for inspected and passed products of livestock shall be in the form described and illustrated in subsection (a), except that it need not be of the size specified or illustrated, provided that it is proportionate to the size of the label, and a sufficient size and of such color as to be conspicuously displayed and readily legible and the same proportions of letter size and boldness are maintained as illustrated. This official mark shall be applied by mechanical means and shall not be applied by a hand stamp.

(c) The official inspection legend described in subsection (a) may also be used for purposes of 9 CFR 316 on shipping containers, band labels, artificial casings, and other articles with the approval of the secretary.

(d) Any brand, stamp, label, or other device approved by the board and bearing any official mark prescribed in this section shall be an official device for purposes of the act. Notwithstanding any other provision of this section, an establishment that is a selected establishment under 9 CFR Part 332 shall use the official marks, devices, and certificates in 9 CFR Part 312 for products that are intended for interstate commerce. Sec. 5. (a) The official marks required by 9 CFR 416 and 9 CFR 310 for use in postmortem inspection and identification of adulterated products and insanitary equipment and facilities are as follows:

(1) The tag that is used to retain carcasses and parts of carcasses in the slaughter department shall appear as follows:

- (A) Black and white.
- (B) Bears the legend "IND. Retained".
- (C) Is a three-section or five-section tag as used for:
 - (i) hogs;
 - (ii) sheep;
 - (iii) goats;
 - (iv) ratitae; and
 - (v) calves.
- (D) Is a five-section tag as used for:
 - (i) cattle;
 - (ii) farm-raised cervidae; and
 - (iii) bison.

(2) The "IND. Retained" mark is applied to products and articles as prescribed in 9 CFR 310 by means of a paper tag bearing the legend "IND. Retained".

(3) The "IND. Rejected" mark is used to identify insanitary buildings, rooms, or equipment as prescribed in 9 CFR 416 and is applied by means of a paper tag bearing the legend "IND. Rejected".

(4) The "IND. Passed for Cooking" mark is applied on products passed for cooking as prescribed in 9 CFR 310 by means of a brand and is in the following form:

IND. PASSED FOR COOKING

(5) The "IND. Condemned" mark is applied to products condemned as prescribed in 9 CFR 310 by means of a brand and is in the following form:

IND. CONDEMNED

(b) The IND. Retained and IND. Rejected tags, and all other brands, stamps, labels, and other devices approved by the board and bearing any official mark prescribed in this section, shall be official devices for purposes of the act.

(c) Notwithstanding any other provision of this section, an establishment that is a selected establishment under 9 CFR Part 332 shall use the official marks, devices, and certificates in 9 CFR Part 312 for products that are intended for interstate commerce. 345 IAC 9-17-4 Submission of labels for approval

Authority: [IC 15-17](#)
 Affected: [IC 15-17-5](#)

Sec. 4. (a) Notwithstanding any provision of this rule, labels for products to be shipped interstate by an establishment that is a selected establishment under 9 CFR Part 332 shall comply with the requirements for participation in the interstate shipment program, such as label approval under 9 CFR Part 317. Except as provided in subsection (d), no label shall be used on any product until it has been approved in its final form by the board. For the convenience of the establishment, sketches or proofs of new labels may be submitted in triplicate through the officer in charge to the division for approval and the preparation of finished labels deferred until such approval is obtained. All finished labels shall be submitted in triplicate through the officer in charge to the division for approval.

(b) In case of lithographed labels, paper take-offs in lieu of sections of the metal containers shall be submitted for approval. Such paper take-offs shall be in the form of a negative but shall be a complete reproduction of the label as it will appear on the package, including any color scheme involved. In case of fiber containers, printed layers, such as the kraft paper sheet, shall be submitted for approval in lieu of the complete container.

(c) Inserts, tags, liners, pasters, and like devices containing printed or graphic matter and for use on, or to be placed within, containers and coverings of product shall be submitted for approval in the same manner as provided for labels in subsection (a), except that officers in charge may permit use of such devices that contain no reference to product and bear no misleading feature.

(d) Stencils, labels, box dies, and brands may be used on shipping containers and on such immediate containers as tierces, barrels, drums, boxes, crates, and large-size fiberboard containers, provided the markings are as follows:

- (1) Applicable to the product.
- (2) Not false or deceptive.
- (3) Used with the approval of the officer in charge.

The inspection legend for use in combination with such markings shall be approved by the board. 345 IAC 9-17-5 Modifications of approved label; permission of area supervisor

Authority: [IC 15-17](#)

Affected: [IC 15-17-5](#)

Sec. 5. An area supervisor may permit modification of approved labels or markings in the following circumstances if the board's central office is notified of the changes and the labeling or marking as modified and used is not false or misleading:

(1) When all features of the label or marking are proportionately enlarged and the color scheme remains the same.

(2) When:

(A) there is substitution of such abbreviations as:

(i) "lb." for "pound"; or

(ii) "oz." for "ounce"; or

(B) the word "pound" or "ounce" is substituted for the abbreviation.

(3) When a master or stock label has been approved from which the name and address of the distributor are omitted and such name and address are applied before being used (in such case, the words "prepared for" or similar statement must be shown together with the blank space reserved for the insertion of the name and address when such labels are offered for approval).

(4) When, during Christmas and other holiday seasons, wrappers or other covers bearing floral or foliage designs or illustrations of rabbits, chicks, fireworks, or other emblematic holiday designs are used with approved labels or markings. (The use of such designs will not make necessary the application of labeling not otherwise required.)

(5) When there is a slight change in arrangement of directions pertaining to the opening of cans or the serving of the product.

(6) When there is a change in the quantity of an ingredient shown in the formula without a change in the order of predominance shown on the label; provided that the change in quantity of ingredients complies with any minimum or maximum limits for the use of such ingredients prescribed in 9 CFR 319.

Authority: [IC 15-17-3](#)

Affected: [IC 15-17-5](#)

Sec. 16. Labeling of custom prepared products must be as follows:

(1) Products that are custom prepared under 9 CFR 303.1(a)(2) must be packaged immediately after preparation and must be labeled (in lieu of information otherwise required by 9 CFR 317) with the words, "Not For Sale" in lettering not less than three-eighths (3/8) inch in height. Such exempted custom prepared products or their containers may bear additional labeling provided such labeling is not false or misleading.

(2) Inspected products that are custom prepared in an official establishment for the ultimate consumer and according to specifications shall bear identification as to the individual patron, including the date of processing. The packaged products shall comply with all of the requirements of labeling in 9 CFR 317 and this rule with the exception of the net weight declaration.

345 IAC 9-17-20 Incorporation by reference; quantity of contents labeling and procedures and requirements for accurate weights

Authority: [IC 15-17](#)

Affected: [IC 15-17](#)

Sec. 20. (a) All scales used to determine the net weight of meat and poultry products sold or otherwise distributed in commerce in establishments must meet all of the following requirements:

- (1) The scales must be installed, maintained, and operated in a manner that ensures accurate weights.
- (2) The scales must meet the applicable requirements contained in the matters incorporated by reference in 410 IAC 12-1-1.1.
- (3) The scales must have the capacity to weigh the entire unit or package.

(b) No person may use a scale in an establishment to determine the net weight of meat or poultry products unless it has been found upon test and inspection to provide accurate weight. The operator of each establishment must cause their scales to be tested for accuracy in accordance with the standards in subsection (a)(2) at least once each year. The board may order more frequent tests when scales are found not to maintain accuracy between tests.

(c) The operator of each official establishment shall display on or near each scale a valid certification of the scale's accuracy from a state or federal official or a state registered or licensed scale repair firm or person. The state veterinarian may approve alternative documented procedures showing that the scale has been tested for accuracy in accordance with the requirements in subsection (a)(2).

(d) If:

- (1) a scale is inspected or tested and found to be inaccurate; or
- (2) any repairs, adjustments, or replacements are made to the scale;

it may not be used until it has been reinspected and retested by a state or federal weights and measures official, or a state registered or licensed scale repair firm or person. All tests, inspections, repairs, adjustments, and replacements must be performed in accordance with the standards described in subsection (a).

(e) A board inspector may place a "retain" tag on a scale that does not meet the requirements of this section. A board inspector is the only person that may remove such a tag. A scale that has been tagged may not be used as long as the tag is on the scale.

(f) A product lot that is found to be out of compliance with net weight requirements upon testing in accordance with the methods prescribed in this section shall be handled as follows:

- (1) A lot tested in an official establishment and found not to comply with the net weight requirements may be reprocessed and must be reweighed and remarked in accordance with the requirements of this section.
- (2) A lot tested outside of an official establishment and found not to comply with net weight requirements must be reweighed and remarked with a proper net weight statement. Such reweighing and remarking may not deface, cover, or destroy any other marking or labeling required under this article. The net quantity of contents must be shown with the same prominence as the most conspicuous feature of a label.
