Sec. 3. (a) This subsection applies to an aggrieved member requesting an administrative appeal under section 1 or 2 of this rule as follows:

(1) If an aggrieved member requests an administrative hearing as provided in the notice of adverse action, prior to the effective date of the adverse action, plan coverage shall continue without change until an administrative law judge issues a decision after the hearing under 405 IAC 1.1-1-6. If POWER account contributions were required for that member to receive services, the member shall continue to make contributions to the member's POWER account during the appeal in order to continue coverage.

(2) If the administrative law judge sustains the action, the member shall be responsible for repaying the cost of any services furnished by reason of this section, minus any POWER account contributions made for coverage during the pendency of the appeal.

(3) If the action under appeal is overturned, the state or the insurer shall make coverage available effective to the date the overturned action was taken. This period of time shall be equal to the amount of time remaining in the applicant's payment period from the date of the office's erroneous action. Such period begins on the date of the insurer's new invoice issued after the favorable decision on appeal. If the individual makes either a fast track prepayment or POWER account contribution within this period, the individual shall receive a coverage start date intended to put such individual in the position the applicant would have been in but for the office's erroneous determination.

- (2) Family planning services.
- (3) Maternity services.

(e) A provider shall be responsible for collecting the required copayments at the time services are provided. A provider may not deny a service to a member if such member is unable to pay the copayment at the time of service delivery. If a member does not pay the copayment at the time services are provided, the member shall still be responsible for paying the copayment and the provider may bill the member for the copayment amount owed.

(f) A member's out-of-pocket cost sharing amount shall not exceed five percent (5%) of the member's annual household income, except that all HIP Plus or HIP State Plan Plus members whose household income is at or below five percent (5%) of the FPL shall be required to contribute, at a minimum, monthly one dollar (\$1) POWER account contributions.

(g) In a family with two (2) or more members, each member shall have a POWER account established in accordance with section 1 of this rule. In the case where two (2) members are married, the combined total of both spouses' required POWER account contributions cannot exceed two percent (2%) of the monthly household income, subject to the one dollar (\$1) minimum contribution amount set forth in subsection (f). Authority: IC 12-15-44.5-9

Affected: IC 12-15-44.5

Sec. 4. (a) The state shall contribute the difference between:

- (1) the member's annual contribution; and
- (2) two thousand five hundred dollars (\$2,500).

(b) Amounts may be contributed to a member's POWER account by:

- (1) a member;
- (2) a member's employer, if the contribution is not from funds payable by the employer to the employee;
- (3) any third party, subject to the restrictions in subsection (d); or
- (4) the insurer, under which the member is enrolled, if the payment:
 - (A) is to provide a health incentive to the member; and
 - (B) does not count toward the member's required contributions as set forth in section 3(a) of this rule.

(c) In no event shall a member's POWER account balance exceed two thousand five hundred dollars (\$2,500).

(d) A health care provider or provider-related entity may make a contribution to a member's POWER account in accordance with subsection (b)(3), provided:

(1) the provider or provider-related entity establishes criteria for providing assistance that do not distinguish between individuals based on whether they receive or will receive services from the contributing provider or providers or class of providers; and

(2) the provider or provider-related entity does not include the cost of such payments in either the cost of care for purposes of Medicare and Medicaid cost reporting or included as part of a Medicaid shortfall or uncompensated care for any purpose.

(Office of the Secretary of Family and Social Services; 405 IAC 10-10-4; filed May 18, 2015, 12:34 p.m.: 20150617-IR-405140339FRA)

405 IAC 10-10-5 Annual recalculation of POWER account contribution; rollover; copayment

Authority: IC 12-15-44.5-9

Affected: IC 12-15-44.5

Sec. 5. (a) For a member who remains eligible for the plan at the end of the benefit period, the state shall recalculate such member's POWER account contribution as part of the renewal process. This may occur after the new benefit period has begun. POWER account contributions recalculated pursuant to this section shall be effective the first day of the month following the recalculation.

(b) A member enrolled in HIP Plus or HIP State Plan Plus with a balance remaining in the member's POWER account at the end of the benefit period may be eligible to roll over a portion of the account balance to reduce such member's POWER account contributions for the new benefit period in accordance with subsection (c) or (d), as applicable.

(c) If a member enrolled in HIP Plus or HIP State Plan Plus has met the member's preventive care services goals as set by the office for the expiring benefit period as set forth in 405 IAC 10-7-8, the member's final rollover amount shall be calculated as follows:

(1) The member's portion is determined by adding the member's required annual contribution for the expiring benefit period to any balance rolled over from previous benefit periods and dividing that sum by two thousand five hundred dollars (\$2,500).

(2) The base rollover amount is determined by multiplying the member's portion as determined in subdivision (1) by any remaining balance in the POWER account.

(3) The final rollover amount is determined by multiplying the base rollover amount as determined in subdivision (2) by two (2).

(d) If a member enrolled in HIP Plus or HIP State Plan Plus has not met the member's preventive care services goals as set by the office for the expiring benefit period as set forth in 405 IAC 10-7-8, the member's final rollover amount shall be calculated only in accordance with subsection (c)(1) and (c)(2). Such member's base rollover amount shall not be multiplied by two (2).

(e) A HIP Basic or HIP State Plan Basic member with a POWER account balance remaining at the end of the expiring benefit period shall be eligible to receive a discount on the POWER account contribution such member would need to make in order to be enrolled in the HIP Plus or HIP State Plan Plus plan for the new benefit period. The HIP Plus discount for a HIP Basic or HIP State Plan Basic member with a POWER account balance shall be calculated as follows:

(1) Divide the remaining balance in the POWER account by two thousand five hundred dollars (\$2,500). If the resulting percentage is less than or equal to fifty percent (50%), then that percentage shall be used in subdivision (2). However, if the resulting percentage is greater than fifty percent (50%), then the percentage shall be capped at fifty percent (50%) for purposes of subdivision (2).

(2) Multiply the required POWER account contribution for the current benefit period by the percentage calculated in subdivision (1).

(3) Subtract the product calculated in subdivision (2) from the POWER account contribution for the current benefit period.

(f) The insurers may collect member debt, if any, as calculated under section 7 of this rule, from the member portion of rollover funds calculated in either subsection (c), (d), or (e). The resulting amount shall reduce the member's annual POWER account contribution for the new benefit period. No rollover funds contributed by the state may be used to pay member debt.

(g) The insurer shall reconcile a member's POWER account for the rollover process described in this section no later than one hundred twenty (120) days after the end of the benefit period. A member who remains enrolled in HIP Basic or HIP State Plan Basic at the time the member receives notice of the amount of the discount set forth in subsection (e) shall have a period of sixty

(60) days from the date of such notice to transfer to HIP Plus or HIP State Plan Plus by making a POWER account contribution at the new discounted rate.

(h) In the event the amount of the member's POWER account balance that is rolled over at the end of the benefit period exceeds the amount of the member's annual POWER account contribution for the new benefit period, the member shall not receive a refund of the excess amount. The excess funds shall be returned to the office. (*Office of the Secretary of Family and Social Services; 405 IAC 10-10-5; filed May 18, 2015, 12:34 p.m.: 20150617-IR-405140339FRA*)

405 IAC 10-10-6 POWER account balance; termination and disenrollment

Authority: IC 12-15-44.5-9

Affected: IC 12-15-44.5; IC 32-34

Sec. 6. (a) If a member loses plan eligibility due to nonpayment of POWER account contributions as specified in section 12 of this rule, the member shall be paid only a portion of the balance remaining in the member's POWER account as calculated in subsection (b).

(b) If a member loses plan eligibility for reasons set forth in subsection (a), the member refund shall be calculated as follows:

(1) Divide the total contributions made on the member's behalf in accordance with section 4(b) of this rule during the current benefit period by the total amount paid into the POWER account from all sources.

(2) Multiply the ratio calculated in subdivision (1) by the total amount remaining in the individual's POWER account.

(3) Subtract member debt, if any, as calculated under section 7 of this rule.

(4) Multiply the amount calculated in subdivision (3) by seventy-five hundredths (.75) to determine the amount to be returned to the individual.

(c) If a member loses plan eligibility for reasons other than those set forth in subsection (a), the member shall be paid a portion of the balance remaining in the member's POWER account, calculated as follows:

(1) Divide the total contributions made on the member's behalf in accordance with section 4(b) of this rule during the current benefit period by the total amount paid into the POWER account from all sources.

(2) Multiply the amount calculated in subdivision (1) by the total amount remaining in the member's POWER account to determine the amount to be returned to the individual.

(3) Subtract member debt, if any, as calculated under section 7 of this rule.

(d) The insurer shall return the amount calculated in subsection (b) or (c) to the member within sixty (60) days of the last date that the individual was a member in the plan. The former member shall be liable for the POWER account portion of any claims for covered services with dates of service occurring during the prior benefit period but after the POWER account balance has been paid to the former member. The former member shall not be liable for claims originally denied but overturned on appeal if the appealed claim is paid more than sixty (60) days following the member's last date of participation in the plan.

(e) After payment to the member of the amount calculated in subsection (b) or (c), the state shall retain any remaining POWER account balance.

(f) In the event that a member:

(1) cannot be located; or

(2) otherwise does not claim the amount calculated in subsection (b) or (c);

such amount shall be treated as unclaimed property and shall be subject to the Unclaimed Property Act, IC 32-34-1. (*Office of the Secretary of Family and Social Services; 405 IAC 10-10-6; filed May 18, 2015, 12:34 p.m.: 20150617-IR-405140339FRA*)

405 IAC 10-10-7 Member debt

Authority: IC 12-15-44.5-9

Affected: IC 12-15-44.5

Sec. 7. (a) For purposes of this section, "debt" means amounts that accrue as a result of:

(1) an insurer's advance payment of the member's portion of the deductible as provided under 405 IAC 10-9-5(a)(1) that has not been repaid through the member's POWER account contributions; or

(2) any nonsufficient funds check charges resulting from a member's payments to an insurer as a result of payment

processing.

(b) A member's debt under subsection (a)(1) shall be calculated as follows:

- (1) Divide the member's annual POWER account contribution amount by two thousand five hundred dollars (\$2,500).
- (2) Multiply the amount of claims paid up to two thousand five hundred dollars (\$2,500) during the benefit period by the amount determined in subdivision (1).
- (3) Subtract the total monthly individual contributions paid by the member during the benefit period by the amount determined under subdivision (2).

(c) A member's debt under this section shall not exceed the following amounts:

- (1) For a member with household income above one hundred percent (100%) of the FPL, an amount that does not exceed ten percent (10%) of the cost of services received.
- (2) For a member with household income at or below one hundred percent (100%) of the FPL, an amount that does not exceed the sum of the unpaid monthly contributions as determined in accordance with section 3(a) of this rule that accrued during the months in which the member received HIP Plus coverage.

(d) In some cases, the two thousand five hundred dollar (\$2,500) deductible will be met before a HIP Plus or HIP State Plan Plus member has made all of the member's required contributions. The fact that a member has not yet made all required POWER account contributions does not relieve the insurer of the responsibility to pay providers for covered services rendered. An insurer may deduct amounts a member owes from future POWER account contributions.

(e) If a member ends participation in the plan before the conclusion of the member's twelve (12) month benefit period and the individual has debt, the insurer may collect from the individual. Any excess amount shall be carried over from month to month until it is exhausted. A member shall be responsible for paying any balance in a given month.

(b) Any contribution received from an employer or other third party defined in section 4(b)(3) of this rule shall be used to offset the member's required POWER account contribution only, and shall not be used to offset the state's contribution to the POWER account set forth in section 4(a) of this rule.
