Affected: IC 12-23-18

Sec. 3. (a) In determining whether there is a need for a new opioid treatment program in a proposed opioid treatment program's geographic location, the division shall consider the following factors as presented by a proposed opioid treatment program:

- (1) The proposed opioid treatment program is at least twenty (20) miles away from an existing opioid treatment program,

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

except where there is significant need, based on criteria in subdivisions (2) through (7), to support a second opioid treatment program within the twenty (20) mile radius.

(2) The proposed opioid treatment program demonstrates that the community in the proposed opioid treatment program's geographic location has a significant number of health-related indicators of opioid misuse as illustrated by:

- (A) emergency room reports indicating opioid misuse;
- (B) death reports indicating opioid misuse;
- (C) reports of individuals infected with hepatitis C virus or human immunodeficiency virus (HIV); or
- (D) the presence of pain clinics in the area, including closed pain clinics.

(3) The proposed opioid treatment program demonstrates that the community in the proposed opioid treatment program's geographic location has a significant number of opioid-related criminal activities as illustrated by:

- (A) criminal adjudications;
- (B) arrests; or
- (C) diversions.

(4) The proposed opioid treatment program demonstrates that the community in the proposed opioid treatment program's geographic location has high rates of substance use disorders involving opioids.

(5) The proposed opioid treatment program demonstrates there is strong community support for a new proposed opioid treatment program in the proposed opioid treatment program's geographic location through letters of support from interested community members.

(6) The proposed opioid treatment program accepts health insurance, including health insurance provided by the state or federal government.

(7) The proposed opioid treatment program anticipates serving a significant number of clients with income levels at or below one hundred thirty-eight percent (138%) of the federal poverty level.

(b) The division shall consider the information provided by the proposed opioid treatment program in subsection (a) in addition to information available to the division such as:

- (1) INSPECT rates of opioid prescriptions in the proposed opioid treatment program's geographic location; and
- (2) the number of opioid treatment patients enrolled in an opioid treatment program over twenty (20) miles away from the proposed opioid treatment program's geographic location.

(c) The proposed opioid treatment program may submit to the division the information required in subsection (a)(1) through (a)(7) for a decision from the division that there is a need for the proposed opioid treatment program prior to applying for certification of an opioid treatment facility and addiction treatment facility under 440 IAC 10-3 under subsection (d).

(d) If the division determines there is a need for a new opioid treatment program in a proposed opioid treatment program's geographic location under subsections (a) and (b), the division shall permit a new opioid treatment program to apply to the division for certification of an opioid treatment facility and addiction treatment facility under 440 IAC 10-3. (*Division of Mental Health and Addiction; 440 IAC 10-2-3; filed Oct 12, 2016, 2:07 p.m.: 20161109-IR-440160001FRA*)

Rule 3. Certification of Opioid Treatment Facilities

440 IAC 10-3-1 Certification of opioid treatment facilities and addiction treatment facilities

Authority: IC 12-23-1-6; IC 12-23-18

Affected: IC 12-23-18-0.5

Sec. 1. (a) An OTP shall apply to the division annually for the following:

- (1) Certification of an opioid treatment facility under this rule.
- (2) If applicable, certification of an addiction treatment facility under this rule.

(b) In addition, an opioid treatment facility and an addiction treatment facility shall obtain and maintain certification to provide addiction treatment services under 440 IAC 4.4.

(c) An OTP shall use forms provided by the division to apply for certifications under subsections (a) and (b).

(d) If an OTP requires more space than available in the opioid treatment facility, the OTP may provide nonadministering

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

of opioid treatment medication and nonmedical recovery services at a maximum of one (1) additional addiction treatment facility. Before providing services at that location, the OTP shall obtain certifications under subsections (a) and (b).

(e) The division shall assess the OTP's compliance with the certification requirements for an opioid treatment facility and an addiction treatment facility through:

- (1) a review of application materials; and
- (2) an on-site monitoring inspection.

(f) An OTP shall apply for annual facility recertification not later than sixty (60) days prior to the expiration of the previous year's certification.

(g) The opioid treatment facility and, if applicable, one (1) additional addiction treatment facility shall be in compliance with all applicable federal, state, and local laws and rules.

(h) An OTP must be a federally certified OTP that is the subject of a current, valid certification under 42 CFR Part 8.

(i) The opioid treatment facility and any additional addiction treatment facility shall do the following:

- (1) Attain certification from the division prior to providing services.
- (2) Attain specific approval from the division prior to providing services.
- (3) Be located in the same county.
- (4) Remain in the same county in which the opioid treatment facility was situated on July 1, 2008.

(j) An OTP that has applied for opioid treatment facility certification, or that the division has previously certified, shall do the following:

- (1) Provide information requested by the division.
- (2) Respond to a request from the division as fully as reasonably possible.
- (3) Participate in the division's quality assurance program.

(k) An OTP's failure to comply with a request from the division may result in termination of the opioid treatment facility's certification under section 8 of this rule.

(l) A copy of the most recent opioid treatment facility certification issued by the division shall be available to the public upon request. (*Division of Mental Health and Addiction; 440 IAC 10-3-1; filed Dec 30, 2009, 2:00 p.m.: 20100127-IR-440080412FRA; readopted filed May 10, 2016, 11:24 a.m.: 20160608-IR-440160134RFA*)

 - (H) An individual credentialed in addictions counseling by a nationally recognized credentialing body approved by the division.
 - (4) A counselor who lacks a credential shall obtain a credential listed in subdivision (3) within three (3) years of the effective date of this article.
 - (5) Counselors are responsible for providing counseling, educational, and referral services to enrolled patients and their families as defined by OTP protocols. Counseling services shall include individual, group, and family counseling.
 - (6) An OTP shall employ one (1) full-time counselor for a minimum of forty (40) hours per week for every fifty-five (55) enrolled patients.
 - (g) An OTP shall have a clinical supervisor that meets the following requirements:
 - (1) A clinical supervisor shall have either of the following qualifications:
 - (A) Have a division-approved credential under subsection (f)(3).
 - (B) Be licensed by the state in any of the following:
 - (i) Social work (IC 25-23.6-5).
 - (ii) Marriage and family therapy (IC 25-23.6-8).
 - (iii) Mental health counseling (IC 25-23.6-8.5).
 - (2) A clinical supervisor shall have a minimum of three (3) years of experience in providing addiction treatment services.
 - (3) A clinical supervisor is responsible for supervising the work of the counselors.
 - (4) For every ten (10) counselors or portion thereof, an OTP shall employ the proportionate equivalent of one (1) full-time clinical supervisor for a minimum of forty (40) hours per week.
 - (5) A clinical supervisor may carry a patient caseload proportionate to the number of counselors supervised.

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

- Sec. 14. (a) Each OTP shall designate a staff person to serve as the staff training coordinator.
- (b) All clinical and medical staff shall annually receive a minimum of one (1) two-hour training session relevant to service delivery in an opioid treatment setting.
 - (c) In addition to subsection (b), each OTP shall establish an in-service training curriculum for counselors for at least ten (10) hours annually. The training curriculum shall:
 - (1) be based on an annual evaluation of staff training needs; and

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

(2) include a refresher course on the program's diversion control plan as part of the training curriculum each year.

(d) The OTP shall maintain documentation in each employee's personnel file of all training completed by the employee. Evidence of training obtained outside of OTP-provided workshops is acceptable as proof of training.

(e) For counselors who do not have a credential, the OTP shall provide information and training for the employee that will lead toward credentialing or licensure in addiction treatment.

(f) Each OTP shall send appropriate staff to all division-sponsored OTP workshops. (*Division of Mental Health and Addiction; 440 IAC 10-4-14; filed Dec 30, 2009, 2:00 p.m.: 20100127-IR-440080412FRA; readopted filed May 10, 2016, 11:24 a.m.: 20160608-IR-440160134RFA*)

440 IAC 10-4-15 Patient admission criteria

Authority: IC 12-23-1-6; IC 12-23-18

Affected: IC 12-23-18

Sec. 15. (a) An individual applying for admission to an OTP shall:

(1) present a government-issued photographic identification card to assure that the individual is providing accurate identity information;

(2) be addicted to an opioid drug;

(3) have become addicted at least one (1) year before admission;

(4) voluntarily choose treatment; and

(5) provide written informed consent to treatment.

(b) If an applicant lacking a laboratory study confirmation of addiction to an opioid drug is admitted to an OTP, the reason for the admission shall be documented in the patient's record.

(c) An OTP physician may waive the requirement of a one-year history of addiction for the following individuals:

(1) An individual released from a penal institution within the previous six (6) months.

(2) A pregnant woman of any age if the pregnancy is certified by an OTP physician.

(3) A patient previously treated within two (2) years of the current admission.

(d) An individual under eighteen (18) years of age may be admitted to an OTP only under the following circumstances:

(1) The individual has had two (2) unsuccessful attempts at short-term detoxification treatment or drug-free treatment within the twelve (12) month period preceding admission, as documented in records provided to the OTP.

(2) The individual shall meet one (1) of the following requirements:

(A) The individual's parent or legal guardian consents in writing to the admission and treatment.

(B) The individual is an emancipated minor.

(e) The medical director may refuse the admission of an applicant if, in the medical director's reasonable clinical judgment, the applicant would not benefit from the treatment. The medical director shall record the reason or reasons for a decision to refuse admission in an admissions denied log kept for this purpose.

(f) An admitting OTP shall verify that an individual meeting admission criteria is not currently enrolled in another OTP as provided as follows:

(1) An admitting OTP shall obtain this information via the following:

(A) The division's central registry for Indiana dual enrollment.

(B) Other processes that ensure that an individual who seeks treatment is not enrolled in another OTP in Indiana.

(2) The admitting OTP shall make good faith efforts, using available resources and mechanisms, to assure that an individual who seeks treatment is not enrolled in another OTP outside of the state of Indiana.

(3) To support the actions in subdivisions (1) and (2), an admitting OTP shall obtain appropriate written authorizations for the release of information from an individual who seeks enrollment.

(g) An OTP shall give written notice to an individual seeking treatment that, if the individual refuses or fails to give the written authorizations for the release of information required under subsection (f), the OTP may refuse to admit the individual.

(h) The OTP shall document in the individual's record the giving of the notice in subsection (g). (*Division of Mental Health and Addiction; 440 IAC 10-4-15; filed Dec 30, 2009, 2:00 p.m.: 20100127-IR-440080412FRA; readopted filed May 10, 2016,*

Authority: IC 12-23-1-6; IC 12-23-18

Affected: IC 12-23-18

Sec. 16. (a) An initial assessment shall be made upon admission to an OTP and shall meet the following requirements:

- (1) Be fully documented in the patient's record.
- (2) Be conducted by a program physician.
- (3) Include all measures and procedures necessary to determine opioid addiction.

Only a program physician shall perform an initial assessment.

(b) The initial assessment shall include the following:

- (1) Observation of the signs and symptoms of opioid withdrawal.
- (2) Obtaining an opioid use and addiction history.
- (3) Drug testing, which shall include testing for the presence of the following:
 - (A) Methadone.
 - (B) Cocaine.
 - (C) Opiates.
 - (D) Amphetamines.
 - (E) Barbiturates.
 - (F) Tetrahydrocannabinol.
 - (G) Benzodiazepines.
 - (H) Any other suspected or known drug that may have been abused by the patient.

(4) Pregnancy testing, as medically appropriate.

(5) A physical examination.

(6) The risks and benefits of treatment medication and appropriate alternative procedures or courses of treatment shall be explained to the applicant. Documentation that this explanation was made shall be included in an admitted patient's record.

(c) Documentation of the following shall be retained in a patient's record:

- (1) Individuals applying for admission to an OTP shall voluntarily choose opioid addiction treatment.
- (2) All relevant facts concerning the use of opioid treatment medication shall be clearly and adequately explained to the individual.
- (3) Each patient being admitted to treatment shall provide written informed consent to treatment.
- (d) All psychoactive prescription medications detected by drug testing shall be documented in the patient's record.
- (e) With appropriate written authorization for the release of information, the program staff shall do the following:
 - (1) Make contact with the physician prescribing the psychoactive prescription medications in subsection (d).
 - (2) Explore the need for the medication.
 - (3) Document in the patient's record the justification for the continued use of the medication if the use is contraindicated with the use of opioid treatment medication.

(f) Enrolled patients who are taking prescription medication or medications that may adversely interact with opioid treatment medication shall be advised of the following:

- (1) The contraindications for the use of prescription medications with opioid treatment medication.
- (2) The need to consider the following:
 - (A) Alternative prescriptions.
 - (B) Over-the-counter medication or medications.
 - (C) Alternative treatment protocols.

(g) An OTP shall give written notice to an individual seeking treatment that, if the individual refuses or fails to give the written authorization for release of information required under subsection (e), the OTP may refuse to admit the individual.

(h) The OTP shall document in the patient's record the OTP's request for written authorization for the release of information

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

Sec. 18. (a) An OTP shall maintain current written policies, procedures, and protocols designed to ensure that patients are admitted to opioid treatment by qualified personnel.

(b) To admit a patient to an OTP, qualified OTP personnel shall make a determination, using accepted medical criteria, that the patient meets the following criteria:

- (1) The individual is currently addicted to an opioid drug.
- (2) Based on available evidence documented in the patient record, the individual has been addicted for a minimum of one
 - (1) year before admission for treatment.
- (3) The admission criteria in 42 CFR §8.12(e) have been met.
- (c) The OTP shall record the following information in the patient's record:
 - (1) Clinical signs of addiction.
 - (2) Past drug use patterns.
 - (3) Prior treatment history.
 - (4) Other relevant information supporting the admission.
- (d) Admission to an OTP shall involve the following three (3) steps:
 - (1) A physical evaluation conducted by a program physician prior to admission.
 - (2) A medical history and a physical examination conducted by either of the following:
 - (A) A program physician.
 - (B) An authorized health care professional or professionals under the supervision of a program physician.
 - (3) A substance abuse assessment conducted by appropriate OTP personnel.

440 IAC 10-4-19 Initial opioid treatment medication

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

Sec. 19. (a) An OTP shall use only opioid treatment medications approved by the Food and Drug Administration under Section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) for use in the treatment of opioid addiction.

(b) An OTP may use any of the following medications as an alternative for methadone for opioid treatment:

(1) Buprenorphine.

(2) Buprenorphine combination products containing naloxone.

(3) Any other medication that has been approved by the federal Food and Drug Administration for use in the treatment of opioid addiction.

(c) An OTP shall maintain current procedures adequate to ensure that each treatment medication used by the program is administered in accordance with its approved product labeling. Dosing and administration decisions shall be made by a program physician familiar with the most up-to-date product labeling. These procedures shall ensure that any significant deviations from the approved labeling, including deviations with regard to dose, frequency, or the conditions of use described in the approved labeling, are specifically documented in the patient's record.

(d) Before the patient may receive the initial dose of medication, the program physician shall document the following in the patient's record:

(1) Evidence of current addiction to an opioid drug or drugs, including, but not limited to, drug testing results.

(2) Length of history of addiction to opioid drug or drugs.

(3) Any exception to the criteria for admission under section 15 of this rule.

(4) The program physician checked INSPECT prior to initial medication administration to determine any potential contraindication of any schedule prescriptions. The program physician is in compliance with the requirements of this subsection when the program physician as follows:

(A) Documents any potential contraindications in the patient's record prior to determining which opioid treatment medications to administer.

(B) Documents that informed consent was provided to the patient in the patient's record prior to administering opioid treatment medications to the patient.

The program physician shall check INSPECT as frequently as clinically indicated.

(e) For patients deemed clinically appropriate for admission, medication is titrated to a dose with the rate of increase indicated based on a clinical assessment of the following:

(1) The patient's tolerance.

(2) The patient's withdrawal symptoms.

(3) The elimination of craving.

(f) The rate of titration and dose achieved shall be determined on a case-by-case basis through the course of multiple clinical assessments. These assessments shall also monitor for the following:

(1) To assure the optimum effective dose to prevent withdrawal.

(2) To adequately block euphoric effects of other opioid drugs.

(3) To minimize or eliminate craving and dosing regimens too high for a given patient that may result in a clinically significant level of intoxication.

(g) The initial dose of the following medications shall be as follows:

(1) For methadone, the program physician may order the following:

(A) Up to thirty (30) milligrams of methadone as an initial dose for an incoming patient.

(B) After at least one (1) hour observation, up to ten (10) milligrams of additional methadone for an incoming patient if the symptoms of withdrawal have persisted.

(2) For buprenorphine, an initial dose as determined in the reasonable medical judgment of the program physician in light of the patient's circumstances.

(h) Precautions shall be taken in the induction of the opioid treatment medication to assure that an individual can tolerate the dosage of medication prescribed.

(i) A patient's initial dose of opioid treatment medication shall be administered under the direction of a program physician.

(j) A patient admitted to an OTP shall not be provided with doses of opioid treatment medication for self-administration until clinical staff has observed the patient after the administration of medication at clinic visits for a minimum of five (5) days. (*Division*

- (d) A patient shall have a drug test under this section at the following times:
 - (1) After admission but before the patient receives treatment medication.
 - (2) At least eight (8) times during each twelve (12) month period after the patient's admission.
 - (3) As required under subsection (f) following a positive drug test.
- (e) The OTP and a patient shall comply with the requirements of subsection (f) if the patient tests positive for any of the following:
 - (1) A controlled substance for which the patient does not have a prescription.
 - (2) A controlled substance that is not part of the patient's treatment plan at the OTP.
 - (3) An illegal drug other than a drug that is part of the patient's treatment plan at the OTP.
- (f) If a patient tests positive under a test for a controlled substance or an illegal drug that is not allowed under subsection (e), the following provisions shall be met:
 - (1) The OTP shall refer the patient to the on-site physician for a clinical evaluation that shall be conducted not more than ten (10) days after the date of the patient's positive test.
 - (2) The physician shall consult with medical and behavioral staff at the OTP to conduct the evaluation.
 - (3) The clinical evaluation shall recommend a remedial action for the patient that may include either of the following:
 - (A) Discharge from the OTP.
 - (B) Amending the patient's treatment plan to require a higher level of supervision.
 - (4) The OTP may not allow the patient to take any opioid treatment medications from the facility for self-administration until the patient has:
 - (A) completed the clinical evaluation under this subdivision; and
 - (B) passed a random test.
 - (5) The patient shall do the following:
 - (A) Attend the OTP daily until the on-site physician, after consultation with the medical and behavioral staff, determines that daily treatment is no longer necessary.
 - (B) Take a weekly random test until the patient passes a test under this subdivision.
- (g) The results of a single drug test shall not be the sole basis for making significant treatment decisions; provided, however, that this subsection shall not exempt an OTP from complying with the requirements of this section. 440 IAC 10-4-25 Patient compliance with program rules

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

Sec. 25. (a) To remain enrolled in the program, a patient shall do the following:

- (1) Comply with program rules and expectations.
- (2) Demonstrate progress toward identified goals.
- (b) A violation of program rules by a patient may result in either of the following:
 - (1) A medically supervised reduction of opioid treatment medication.
 - (2) The patient's termination from the program.

However, a patient's continued use of an illicit drug or drugs or a patient's nonpayment of fees is not a sufficient justification for termination or discharge of the patient from the OTP, unless the patient refuses to cooperate with the patient's treatment plan.

(c) Violations of OTP rules for which a patient may be subject to discharge from the OTP include, but are not limited to, the following:

- (1) Threats of violence or actual violence toward staff or another patient.
- (2) Other disruptive behavior.
- (3) Community incidents, including, but not limited to, any of the following:
 - (A) Loitering near the OTP.
 - (B) The diversion of opioid treatment medication.
 - (C) The sale or purchase of illicit drugs.
- (4) Continued unexcused absences from counseling and other OTP services.
- (5) An involvement in criminal activities.
- (6) Any other OTP rule violation.

(d) At the discretion of the medical director, a patient may be moved to a level of treatment necessary to reestablish stability if the patient does any of the following:

- (1) Relapses to the illicit use of controlled substances.
- (2) Abuses alcohol.
- (3) Ceases to progress in treatment.

(e) The OTP shall have written policies and procedures that address the consequences of a patient testing positive for the following:

- (1) A drug for which the patient does not have a prescription.
- (2) A drug which is not part of the patient's treatment plan.

(f) The OTP shall provide its written policies and procedures to a patient within seven (7) days of admission. (*Division of Mental Health and Addiction; 440 IAC 10-4-25; filed Dec 30, 2009, 2:00 p.m.: 20100127-IR-440080412FRA; readopted filed May 10, 2016, 11:24 a.m.: 20160608-IR-440160134RFA*)

440 IAC 10-4-26 Self-administered medication

Authority: IC 12-23-1-6; IC 12-23-18

Affected: IC 12-23-18-5

Sec. 26. (a) An OTP shall do the following:

- (1) Comply with the requirements in this section for a patient's self-administration of opioid treatment medication.
- (2) Implement practices in accordance with the principle that obtaining unsupervised doses of opioid treatment medication is a privilege given only to a patient who:

- (A) will benefit from obtaining unsupervised doses; and

- (B) has demonstrated responsibility in taking opioid treatment medication as prescribed and toward the patient's overall recovery program.

- (3) Not provide an enrolled patient with any dose of opioid treatment medication for self-administration until the clinical staff has observed the patient's ingestion of opioid treatment medication for at least five (5) days.

(b) Treatment program decisions regarding the administering of opioid treatment medications to patients for unsupervised use, beyond the requirement in subsection (d), shall be determined by the medical director. In determining which patients may be permitted unsupervised use, the medical director shall consider the take-home criteria in subsection (e).

(c) The determinations made under subsection (b) and the basis for the determinations, consistent with the criteria under subsection (e), shall be documented in the patient's medical record.

(d) An OTP may provide unsupervised opioid treatment medication based on the patient's time in treatment pursuant to 42 CFR 8.12(i)(3) unless the patient does not qualify under, and subject to the provisions of, the following:

- (1) Subsection (a)(3).

- (2) Subsection (k).

- (3) Section 22(f)(4) of this rule.

(e) In determining whether a patient may be permitted the unsupervised use of opioid treatment medication, the medical director shall consider the following take-home criteria in determining whether a patient is responsible in handling opioid treatment medication for unsupervised use:

- (1) The absence of recent abuse of drugs (opioid or non-narcotic), including alcohol.

- (2) Regularity of clinic attendance and compliance with the patient's treatment plan.

- (3) The absence of serious behavioral problems at the clinic.

- (4) The absence of known recent criminal activity, for example, drug dealing.

- (5) Stability of the patient's home environment and social relationships.

- (6) The length of time in opioid treatment.

- (7) Assurance that take-home medication can be safely and securely stored within the patient's home.

- (8) Whether the patient will derive a benefit from decreasing the frequency of clinic attendance that outweighs the potential risks of diversion.

(f) Before self-administration privileges are granted:

- (1) an OTP shall educate the patient regarding:

- (A) the safe transportation of opioid treatment medication;

- (B) storage requirements for opioid treatment medication; and

- (C) emergency procedures in case of the accidental ingestion of opioid treatment medication; and

- (2) the patient is required to provide:

- (A) an opaque, childproof locked container for transportation of opioid treatment medication; and

- (B) safe and secure home storage.

(g) The OTP shall prepare bottles for the self-administration of medication with labels containing the following information:

- (1) The patient's name.

- (2) The name of the program physician.

- (3) The medication name.

- (4) The medication dose.

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

- (5) The date the bottle was filled.
- (6) The date or dates when the medication is to be ingested.
- (7) Directions for ingesting the medication.
- (8) The name, address, and telephone number of the OTP.
- (9) Appropriate cautionary statements, including "Caution: Federal law prohibits the transfer of this drug to a person other than the patient for whom it was dispensed".
- (h) The OTP shall have written policies addressing the responsibilities of patients who are granted privileges for the self administration of opioid treatment medication, including the following:
 - (1) Methods of assuring a patient's appropriate use and storage of medication in the home.
 - (2) The return of self-administered medication bottles, including a policy and procedure that:
 - (A) requires bottles to be returned:
 - (i) immediately upon request; and
 - (ii) with labels intact; and
 - (B) addresses the consequences of a failure to return bottles as requested.
 - (i) Regardless of a patient's time in treatment, the medical director may deny or rescind, if clinically appropriate, a patient's privileges to receive opioid treatment medication for self-administration.
 - (j) Exceptions for self-administered medication may be requested, consistent with the federal requirements in 42 CFR Part 8, and submitted to the following:
 - (1) The SOTA.
 - (2) The federal Center for Substance Abuse Treatment, Division of Pharmacologic Therapy.
 - (k) An OTP shall submit exception requests to the SOTA for all self-administered opioid treatment medication for more than seven (7) days.
 - (1) Any OTP request under subsection (j) or (k) for an exception to the federal regulations for self-administered medications shall include the following:
 - (1) The dates and results of the patient's drug tests within the past three (3) months.
 - (2) The patient's progress toward treatment plan goals.
 - (3) Documentation, as appropriate, of a private physician's recommendation that the patient is unable to travel to the OTP due to a medical condition.
 - (4) Documentation of employment travel hardship, as appropriate.
 - (5) Documentation of other travel hardship, as appropriate.
 - (6) For a temporary exception request due to travel, documentation that interim services are not available at the location to which the patient is temporarily traveling.

440 IAC 10-4-27 Reduction or discontinuation of medication

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

Sec. 27. (a) An OTP shall do the following:

- (1) Comply with the requirements in this section with regard to the reduction or discontinuation of treatment medication.
- (2) Perform routine evaluations to determine the readiness of a patient to reduce or discontinue treatment medication, with the goal of achieving complete abstinence, if clinically appropriate for the patient in the reasonable judgment of an OTP program physician. An OTP is responsible for ongoing relapse prevention treatment for patients who reduce or discontinue medication, either directly or through a referral to an allied clinician or treatment program.
- (b) A medication reduction shall involve the administration of opioid treatment medication in decreasing amounts to an individual for the following reasons:
 - (1) To alleviate adverse physiological or psychological effects incidental to withdrawal from the continuous or sustained use

MINIMUM STANDARDS FOR THE PROVISION OF SERVICES BY OPIOID TREATMENT FACILITIES AND PROGRAMS

of opioids.

(2) To withdraw the individual from opioid treatment medication if clinically appropriate for the patient in the reasonable judgment of an OTP program physician.

(c) A reduction or discontinuation of opioid treatment medication shall meet the following requirements:

(1) Be initiated when requested by the patient unless clinically contraindicated.

(2) Be carried out in a manner that minimizes the psychological and physical effects of the reduction or discontinuation.

(d) A reduction or a discontinuation of a patient's opioid treatment medication may be initiated by an OTP at any of the following times:

(1) When clinically appropriate for the patient.

(2) If the patient demonstrates noncompliance with therapeutic interventions.

(3) If the patient violates program rules.

(e) The tapering of opioid treatment medication shall be completed in a manner appropriate to the following:

(1) The patient's level of medication.

(2) The circumstances justifying the action.

(f) An OTP may immediately discontinue a patient's opioid treatment medication if either of the following exists:

(1) A safety concern.

(2) A concern that opioid treatment medication has been diverted.

(g) If a patient's opioid treatment medication has been immediately discontinued under subsection (f), the OTP shall offer the patient a referral to another service.

(h) An OTP may facilitate a transfer to another program or a referral to a medical facility in place of the discontinuation of opioid treatment medication under subsection (f). 440 IAC 10-4-28 Medication in extenuating circumstances

Authority: IC 12-23-1-6; IC 12-23-18

Affected: IC 12-23-18

Sec. 28. (a) Based on reasonable clinical judgment, the medical director may grant opioid treatment medication to a patient for extenuating circumstances that prevent the patient's attendance at the OTP for a period not exceeding forty-eight (48) hours related to the following:

(1) The patient's medical condition.

(2) The patient's criminal justice requirements.

(3) The patient's family or employment circumstances.

(4) Other circumstances of the patient.

(b) The bases for the medical director's action shall be the following:

(1) The patient's conformance with the criteria listed in section 26(e) of this rule.

(2) The nature and extent of the circumstances preventing the patient's attendance at the OTP.

(c) The action, circumstances, and outcome shall be documented in the patient's record.

(d) The OTP shall do the following:

(1) Inform the division in writing within twenty-four (24) hours if the OTP administers any opioid treatment medication under this section.

(2) Submit an exception request to the state authority if extenuating circumstances prevent the patient's attendance at the OTP for a period greater than forty-eight (48) hours.

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

Sec. 29. (a) An OTP shall have written policies and procedures concerning guest dosing pertaining to both:

- (1) the OTP's patients; and
- (2) a patient receiving interim services at the OTP.

(b) A patient who has not met the criteria in section 26(e) of this rule to qualify for self-administration privileges shall first be evaluated for the availability of interim services at an OTP in close proximity to a location where the patient will be present.

(c) An OTP shall make arrangements for interim services on behalf of the patient.

(d) An OTP whose enrolled patient is receiving interim services at another OTP shall document the interim services to be received in the patient's record.

(e) If an OTP provides interim services to a patient enrolled at another OTP, the OTP providing those services shall record information concerning the services in a log maintained for that purpose. Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18

Sec. 30. (a) An OTP shall have written policies and procedures concerning a patient's transfer from one (1) OTP to another.

(b) For all transferring patients, the transferring OTP shall do the following:

(1) With written authorization from the patient:

- (A) contact the receiving OTP to inform the receiving OTP of the transfer; and
- (B) provide all relevant patient records, including necessary treatment information, to the receiving OTP.

(2) Provide the reason for the transfer.

(c) If a patient's transfer is within the state of Indiana, the OTP shall take appropriate action in the central registry to assure that the patient:

- (1) has been removed from the census of the transferring OTP; and
- (2) can be entered in the receiving OTP's census.

(d) A transferring patient is required to meet the admission criteria of the OTP to which the patient is transferring, that is, the receiving OTP.

(e) A receiving OTP shall evaluate a transferring patient upon admission to assure that the patient is placed in the appropriate level of treatment.

(f) If the patient fails or refuses to provide the necessary consent for the transfer of relevant patient records to the receiving OTP, the receiving OTP shall not be required to admit the patient. - (1) Participate in and meet the requirements of all quality assurance efforts required by the division.
- (2) Prepare and maintain current quality assurance and quality control plans that include the following:
 - (A) An annual review of program policies and procedures.
 - (B) At least an annual review and evaluation of patient outcomes, including, but not limited to, a review of random samples of the following:
 - (i) The records of patients, including pregnant patients, currently in treatment.
 - (ii) The records of patients who voluntarily withdrew from treatment, including the following:
 - (AA) Patients who completed medically supervised dosage reduction.
 - (BB) Patients who left treatment against medical advice.
 - (C) The records of patients who have undergone a medically supervised dosage reduction as a result of involuntary discharge from the program.
- (3) Use the results of the reviews and evaluations for the following purposes:
 - (A) To modify the OTP's provision of services as appropriate.
 - (B) To increase the efficacy of the OTP's services.

- (1) The number of OTPs in Indiana.
 - (2) The number of patients receiving opioid treatment in Indiana.
 - (3) The length of time each patient received opioid treatment.
 - (4) The average length of time all patients received opioid treatment.
 - (5) The cost of each patient's opioid treatment.
 - (6) The average cost of opioid treatment.
 - (7) The number of patients who are:
 - (A) determined to be no longer in need of services; and
 - (B) no longer receiving opioid treatment.
 - (8) The number of individuals, by geographic area, who are on a waiting list to receive opioid treatment.
 - (9) The patient information reported to the central registry.
 - (10) The number of patients who tested positive under a test for a controlled substance or illegal drug not allowed under section 22 of this rule.
 - (11) The number of patients in subdivision (10) who were discharged from the OTP.
 - (12) Any other information the division determines to be relevant to assure the quality of an OTP.
- (b) An OTP shall enter in the central registry all data in subsection (a) for:
- (1) all patients treated during the calendar year; and
 - (2) the period ending on December 31 of each calendar year by January 15 of the following year.

- (1) A serious patient injury with the potential loss of functioning or the marked deterioration of a patient's condition occurring under unanticipated or unexpected circumstances.
- (2) A chemical poisoning occurring within the OTP resulting in harm or injury to a patient.
- (3) An unexplained loss or theft of a controlled substance.
- (4) The death of either of the following:
 - (A) An enrolled patient.
 - (B) An individual residing with an enrolled patient if the death is related to the ingestion of opioid treatment medication.
- (5) A disruption, exceeding four (4) hours, in the continued safe operation of the OTP or in the provision of patient care, caused by any of the following:
 - (A) Internal or external disasters.
 - (B) Strikes by health care workers.
 - (C) Unscheduled revocation of vital services.
- (6) Any fire or explosion.
- (b) An OTP shall send a written report to the division within ten (10) business days of the occurrence of any of the events listed in subsection (a).
 - (c) A death report shall including the following information:
 - (1) A deceased patient's:
 - (A) opioid treatment medication; and
 - (B) dosage of opioid treatment medication at the time of death.
 - (2) The date and the results of a deceased patient's last drug test.
 - (3) The number of days per week a deceased patient was attending the OTP at the time of death.
 - (4) Whether any take-home bottles were:
 - (A) returned to the OTP after the patient's death; or
 - (B) unaccounted for after the patient's death.
 - (5) The nature and extent of the outreach provided to a deceased patient's family.
 - (6) Whether a coroner's inquest is expected concerning the patient's death.
 - (7) When available, the coroner's report shall be forwarded to the division.

Authority: IC 12-23-1-6; IC 12-23-18
Affected: IC 12-23-18-3; IC 12-23-18-4

Sec. 38. (a) Each OTP shall annually, as set forth herein, submit fees to the division to be deposited in the OTP fund administered by the division, hereinafter referred to as "the fund".

- (b) Money in the fund shall be used to pay all expenses of administering the following:
- (1) The requirements of IC 12-23-18.
 - (2) The OTP fund.

Money in the fund does not revert to the state general fund.

(c) An OTP shall pay an annual fee for each patient treated by the OTP during each calendar year; provided, however, that an OTP shall not be required to pay the fee for an individual being treated temporarily under guest dosing arrangements with another OTP.

- (d) The following methodology shall be used to calculate the fee for each patient for the calendar year:
- (1) The division's expenses from the preceding calendar year to pay the cost of implementing and administering IC 12-23-18 shall be divided by the number of patients treated by all OTPs during the preceding calendar year as reported by each OTP to the central registry.
 - (2) The resulting number represents the fee per patient for the present calendar year; provided, however, the fee shall not exceed seventy-five dollars (\$75) for each OTP patient who was treated by the OTP during the preceding calendar year.
- (e) The division shall calculate the per patient fee by February 15 of each year based on the division's expenses for the preceding calendar year to pay the cost of the implementation and administration of IC 12-23-18.

(f) On or before February 15 of each year, the division shall give each OTP written notice of the fee per patient due by May 15 of that year.

(g) By May 15 of each year, each OTP shall submit to the division the fee determined by the division in subsection (f).
