(b) For a dependent student, the PC figure shall be derived from the parental data submitted on an approved application by the applicant. Also, if the applicant's parents are separated or divorced at the time of application, only the prior year's income and current household and asset information of the parent with whom the student lived the most during the last twelve (12) months, or, if the student lived with each parent an equal number of days, of the parent who provided the most financial support during the last twelve (12) months or during the most recent calendar year that support was received shall be considered, including the following:

(1) The executive director or designee may require an applicant to obtain a notarized statement from his or her parents that affirms that the parents were divorced or separated on the date the application was filed.

(2) If the custodial parent is not a resident of Indiana, but the noncustodial parent is an Indiana resident, the commission shall treat the student as an Indiana resident. In this instance, the financial, household, and asset information of the custodial parent will be used to determine the student's eligibility for an award.

(c) For an independent student, the EFC shall be derived from data submitted by the applicant on the approved application. The following shall also apply to the determination of an EFC for independent students:

(1) If the applicant is divorced or separated at the time of application, only the student's prior year's income and current household and asset information shall be used. The executive director or designee may require an applicant to obtain a notarized statement that affirms that the applicant was divorced or separated on the date the application was filed.

(2) The income and assets of the applicant's spouse.

(d) The commission may apply a factor that increases or decreases the PC and EFC of all applicants (both dependent and independent) if, in the commission's judgment, such adjustments are necessary and appropriate.

(e) The commission shall not adjust the PC or EFC or recalculate an award for any of the following reasons:

(1) Were temporarily or permanently unemployed during the year for which an application was filed.

(2) Experienced a change in farm or business assets occurring after the date an application was filed.

(3) Filed bankruptcy or experienced a loss of assets after the date an application was filed.

(4) Were married after the date an application was filed.

(5) Divorced or separated after the date an application was filed.

(6) Experienced an increase in the number of dependents or additional family members after the date an application was filed.

(7) Experienced an increase or decrease of income or assets after the filing of the need analysis application, unless prior year data was reported in error on the form.

(f) In the event of the death of one (1) of the parents of an applicant, the commission may recalculate the PC on the basis of the surviving parent's prior calendar year's income and current year's assets and issue a revised award at any time. Should an applicant be orphaned, the commission may reclassify the applicant as an independent and issue a revised award based on the applicant's revised EFC. Adjustments under either provision mentioned in this section must be made during the academic term in which the student is enrolled.

(g) In the event of the death of the spouse of an independent student, the commission may recalculate the EFC on the basis of the student's prior year's income and current year's assets and issue a revised award at any time from the beginning of an application period up to the reconciliation dates established by the commission for the eligible institution attended.

(h) For an applicant under section 5(b)(2)(A) or 5(b)(2)(B) of this rule, income from and assets of trusts administered in the applicant's behalf by a court-appointed guardian, trustee, or conservator shall be considered in calculating the EFC. The commission

shall not consider the income of relatives or others with whom an applicant may live in calculating the EFC of an applicant classified as an independent student under section 5(b)(2)(A) or 5(b)(2)(B) of this rule if such relatives or other persons are not the applicant's adoptive parents.

(i) In determining the financial resources available to an applicant, the commission may not consider excludable bond interest as prescribed under IC 20-12-21-6.2 or assets under an Internal Revenue Service Section 529 Plan. 585 IAC 1-9-7 Schedule of allowable tuition and regularly assessed fees

Authority: IC 20-12-21-5

Affected: IC 20-12-21-7; IC 20-12-21-17

Sec. 7. Unless otherwise approved by the commission, the commission's awards shall be directly related to actual tuition and regularly assessed fees charged to students by the approved institutions. Applicants are only eligible for one (1) academic year's worth of state assistance within a twelve (12) month period. For purposes of establishing the tuition and fee basis for its awards, the commission annually shall do the following:

- (1) Collect tuition and fee information for the academic year in which an application period falls from each approved institution.
- (2) Compute tuition charges for an academic year on the basis of actual credit hours if greater than eleven (11) or a maximum of fifteen (15) credit hours times the number of enrollment periods in an academic year.
- (3) Add to the computed tuition figure all regularly assessed fees.
- (4) Develop a schedule showing allowable tuition and fees for each approved institution.

The commission annually shall adopt a schedule of allowable tuition and fees. (*State Student Assistance Commission; 585 IAC 1-9-7; filed Feb 26, 1986, 4:10 p.m.: 9 IR 1578; filed Jan 9, 1996, 5:00 p.m.: 19 IR 1364; readopted filed Nov 30, 2001, 10:52 a.m.: 25 IR 1294*)

585 IAC 1-9-8 Minimum and maximum awards

Authority: IC 20-12-21-5

Affected: IC 20-12-21-7; IC 20-12-21-17

Sec. 8. The maximum award offered to applicants shall not exceed the amount authorized by the general assembly in the biennial appropriations bill. In the absence of specific instructions from the general assembly, unless otherwise approved by the commission, the maximum shall not exceed the lesser of:

- (1) the actual tuition and mandatory fees from the schedule adopted by the commission;
- (2) the actual fees charged students if less than the schedule adopted by the commission; or
- (3) the sum of:
 - (A) the highest actual tuition and mandatory fees charged to students at a public institution of higher learning for the academic year in which the application period falls; and
 - (B) the lowest appropriation per full-time student equivalent (FTE) made by the general assembly to a public institution of higher learning for the academic year in which the application period falls.

The minimum award that shall be offered to applicants shall be established annually by a resolution adopted by the commission.

585 IAC 1-9-9 Computation and adjustment of potential awards

Authority: IC 20-12-21-5

Affected: IC 20-12-21-7; IC 20-12-21-17

Sec. 9. The commission shall compute awards in the manner in which the general assembly directs in the biennial appropriations bill. In the absence of specific instructions from the general assembly, unless otherwise approved by the commission, the following calculation shall be used:

(1) Potential award is a percentage of the tuition and regularly assessed fees minus PC for dependent applicants and EFC for independent applicants. Applicants who graduated from an Indiana high school in 1998 or beyond with a Core 40 diploma and a 2.0 grade point average, and applicants who graduated from an Indiana high school in 1997 or beyond with an academic honors diploma and a 3.0 grade point average may qualify for higher awards levels than those who graduate from high school without Core 40 or academic honors diploma credentials.

(2) When potential awards for all eligible students exceed available funds, the commission shall reduce the award amounts on a pro rata basis.

(3) Based on prior year acceptances of awards offered to applicants, the commission may offer awards in a total amount greater than available funds to ensure the maximum possible utilization of grant funds.

(State Student Assistance Commission; 585 IAC 1-9-9; filed Feb 26, 1986, 4:10 p.m.: 9 IR 1578; filed Jan 9, 1996, 5:00 p.m.: 19 IR 1364; readopted filed Nov 30, 2001, 10:52 a.m.: 25 IR 1295)

585 IAC 1-9-10 Applicant's right of appeal

Authority: IC 20-12-21-5

Affected: IC 4-21.5; IC 20-12-21

Sec. 10. (a) When the commission determines that an applicant is ineligible for award consideration for reasons specified in IC 20-12-21-6, IC 20-12-21-6.1, and IC 20-12-21-7 or this rule, to the extent practicable, the commission shall attempt to notify the applicant at the address on record of the denial and of the period of time an applicant has to provide requested data or appeal the denial.

(b) An applicant who has been denied may appeal the action in the following manner:

(1) An appeal must be made in writing to the director of the grant division. Relevant documentation must accompany the written appeal and be submitted within thirty (30) days of the date the commission sent an edit letter to the student notifying them of their ineligibility for state grant assistance.

(2) Decisions made by the director of the grant division regarding the applicant's appeal shall be in writing and shall be mailed to the applicant making the appeal.

(3) An appeal decision rendered by the director of the grant division may be appealed in writing to the executive director.

(4) Decisions made by the executive director regarding the applicant's appeal shall be in writing and shall be mailed to the applicant making the appeal.

(5) An appeal decision rendered by the executive director may be appealed to the appointed members of the commission.

(6) Appeals to the appointed members of the commission shall be heard at a regular meeting or a specially called meeting. An applicant appealing to the commission is entitled to advance notice of the date, time, and place of the hearing. The applicant shall receive a copy of the official minutes that contain the decision made by the commission on the appeal.

(7) An appeal that has been denied by the commission shall be final within the meaning of IC 4-21.5.

(c) An applicant who fails to respond in writing to a request for information in the period of time specified shall be ineligible to receive award consideration for that academic year. *(State Student Assistance Commission; 585 IAC 1-9-10; filed Feb 26, 1986, 4:10 p.m.: 9 IR 1579; errata, 9 IR 2208; filed May 11, 1987, 8:45 a.m.: 10 IR 1872; filed Jan 9, 1996, 5:00 p.m.: 19 IR 1365; readopted filed Nov 30, 2001, 10:52 a.m.: 25 IR 1295)*

585 IAC 1-9-11 Adjusted or withdrawn awards

Authority: IC 20-12-21-5

Affected: IC 20-12-21-6.5; IC 20-12-21-7

Sec. 11. (a) The commission shall recalculate, adjust, or withdraw awards in any of the following circumstances:

(1) A recipient makes a change of school choice.

(2) A recipient fails to make in writing a change of school choice within thirty (30) days from the end of the last day of classes in any enrollment period at the chosen school.

(3) A recipient enrolled in an institution ceases for any reason to be a student in good standing. If, under its current standards, a fee or charge that has been paid as part of an award would otherwise be remissible by the institution to the student, the fee or charge shall be remissible to the commission.

(4) A recipient is simultaneously enrolled full time in more than one (1) institution.

(5) An approved institution submits changes in a recipient's PC and/or EFC.

(6) Inaccurate or falsified data is intentionally submitted in an effort to affect the applicant's eligibility for award consideration.

(7) A recipient fails to maintain satisfactory academic progress as defined by each approved institution.

(8) A recipient owes a Pell grant overpayment and/or is in default of any educational loan.

(9) A recipient has obtained a prior bachelor's degree.

(10) A recipient owes repayment of any federal or commission-administered student aid.

(11) It is found that a recipient is not a United States citizen or is not considered an eligible noncitizen under section 4(6) of this rule.

(12) The parents of a dependent student remove their permanent, continuous, and principal place of residence from Indiana after the beginning of the academic year; the recipient will not be eligible for award usage in subsequent academic years.

(13) A recipient is a graduating senior and enrolled less than full time during the final term prior to graduation.

(b) An action by the commission to adjust or withdraw a recipient's award may be appealed in the same manner as determinations of eligibility under section 9 of this rule. Affected: IC 20-12-21-5

Sec. 13. (a) When the commission receives evidence of fraud or willful misrepresentation on the part of a recipient, the commission shall withdraw the recipient's award and notify the recipient's approved institution of its action.

585 IAC 1-9-14 Responsibilities of approved institutions

Authority: IC 20-12-21-5

Affected: IC 20-12-21-10

Sec. 14. (a) The commission shall execute agreements with each approved institution, which shall evidence the willingness of the approved institution to abide by the commission's law, rules, and policies. Execution of an agreement with the commission binds an approved institution to meet the following requirements:

(1) Notify the commission, at the times and in the form specified by the commission, of any of the following circumstances:

(A) A recipient's failure to enroll in or maintain status as a full-time student if the student was awarded a HEG through the institution's refund period.

(B) A recipient's failure to maintain satisfactory academic progress as that may be defined by each approved institution.

(C) A recipient's grant overpayment or default of any educational loan.

(D) A recipient owes an overpayment of any federal or commission-administered student aid.

(2) Supply the commission with information it receives that may raise questions about a recipient's eligibility, including, but

not limited to, the following:

- (A) State of residency.
 - (B) Omitted, inaccurate, falsified, or conflicting information on the approved need analysis application or any other documentation received.
 - (C) Misclassification of a recipient as an independent or dependent student.
- (3) Maintain accurate and complete records sufficient to document the use of state grant funds for each recipient for at least three (3) years following the academic year in which a grant was made to a recipient and, during normal business hours, permit inspection and audit of records related to state student financial assistance programs.
- (4) Return unused, or inappropriately used, state grant funds to the commission by the established deadline dates. State grants cannot be treated as federal or institutional money for the purpose of returning funds. Returning funds to the commission must be done independent of the return of funds to the federal government, the institution, or any other granting source. Funds must be returned based on a prorated basis in such a way that if an institution charges a student a percentage of the tuition and regularly assessed fees used to calculate the award, the award can be claimed up to that percentage and the rest returned to the commission.
- (5) Submit commission-required reports by the established deadline dates. Failure to do so will result in unpaid claim reimbursements.
- (6) Assist the commission in determinations of eligibility and financial need by sharing information supplied by applicants.
- (7) Certify to the commission changes in a student's status resulting from the application of section 5(b) or 5(c) of this rule and changes in a student's PC and EFC resulting from verification under the federal methodology for federal, state, or institutional purposes that exceed the level established by the commission as significant. Approved institutions must certify changes to the commission according to the schedule published by the commission.
- (8) Disburse state award funds only after the applicant's verification process is complete regardless of whether verification is federally or institutionally mandated. Approved institutions that participate in the United States Department of Education's Quality Assurance (QA) program can disburse first-term awards to QA-selected students before completing the verification process. A QA-selected student's verification must be completed before their second term award can be disbursed. If a QA school's verification process lowers a student's HEA/FOC award, the school must refund the overawarded amount to the commission. A verification that increases a student's award amount will not be paid by the commission for a semester, trimester, or quarter that has already been reconciled.
- (9) Certify to the commission the names of all applicants for a state grant who have been classified as independent by the financial aid administrator's professional judgment and who meets one (1) of the commission-approved professional judgment (pj) dependency override categories under section 5(c) of this rule. Copies of all documents relevant to the decision shall be made available to the commission upon request. Schools must document all pj actions, adhere to their written pj policies and procedures guidelines, and follow the commissions written pj policies. For state grant purposes, final determination of status under section 5(d) of this rule rests solely with the executive director or designee.
- (10) For purposes of this section, an improperly awarded grant is defined as a grant that was issued to an applicant based on incorrect information provided to the school and/or commission by the applicant. If a school makes an error that results in a grant being improperly awarded to a student, the school is responsible for refunding the award amount to the commission.
- (11) Make a reasonable effort to collect repayment from a recipient of an improperly awarded state grant by the end of the enrollment period that is, by the end of the semester, quarter, or trimester in which the award was disbursed. Schools must notify the commission within thirty (30) calendar days after an account goes into repayment of an improperly awarded state grant.
- (A) A reasonable effort shall consist of an effort equal to the approved institution's normal process of collecting improperly awarded financial aid from students. An approved institution shall document its effort to obtain repayment of an improper grant.
 - (B) In the event an institution cannot gain repayment of an improperly disbursed award, the institution must, within thirty (30) calendar days of determining the account uncollectible, appeal to the commission to be released of its collection obligations.
 - (C) Failure to make a reasonable effort to collect and notify the commission in a timely manner of improperly awarded state grants, including the appeal procedure for uncollectible accounts, will result in an institution being held financially liable.

(12) Reconcile all awards by the deadlines established by the commission. Awards for periods that are not reconciled by the end of a school's semester, trimester, or quarter will not be available for disbursement in a subsequent period. The institution shall prorate any tuition and mandatory fee charges if those charges are less than the reported traditional student charges.

(b) The commission is not obligated to provide grant funds for the same student to more than one (1) approved institution. When more than one (1) approved institution claims commission funds for the same student, the institution in which the student first enrolled shall have claim on the commission's grant, unless the student officially withdrew from the first-enrolled institution in time to receive a full refund of tuition and regularly assessed fees.

(c) A consortium agreement between no more than two (2) approved institutions is allowed providing the two (2) schools have a written agreement that requires one (1) of the two (2) schools to consider the student enrolled full time at their institution. A home school is responsible for a student's financial aid administration and for ensuring that the student maintains satisfactory academic progress (SAP). Students' state grant awards must be based on a home school's approved tuition and fees as approved by the commission unless the tuition and fees charged students are less than what all students enrolled at the home school would otherwise pay. Home schools are responsible for reconciling state grant awards.

(d) If, during an academic period, a student enrolled in an institution ceases for any reason to be a student in good standing, the institution shall promptly give notice to the commission as to the change of status and the reason for it. If, under its current standards, a fee or charge that has been paid as part of an award would otherwise be remissible by the institution to the student, the fee or charge shall be remitted to the commission.
