(a) Except as provided in subsection (d), a fire service person or nonfire service person who can provide evidence of having completed training and testing equivalent to the requirements of the board for a particular classification shall be entitled to receive that certification from the board when all other prerequisites are met.

(b) Certification of the same level of certification by the International Fire Service Accreditation Congress or the United States Department of Homeland Security are deemed to be evidence of training and testing equivalent to the requirements of the board for that certification under the board's rules. Certifications by the National Board on Fire Service Professional Qualifications (Pro-Board), P.O. Box 690632, Quincy, MA 02269 that are issued within the two (2) calendar years immediately preceding the date of application for board certification shall be acceptable for purposes of reciprocal certification at the level evidenced by the Pro-Board certification.

(c) Completion of training provided by the department, as evidenced by a certificate of completion issued by the department, shall be acceptable for purposes of reciprocal certification at the level evidenced by the certificate of completion.

(d) In order to receive reciprocity for equivalent training for Instructor I and Instructor II/III certification, the applicant shall, in addition to the evidence required in subsection (a), provide evidence of having passed the Indiana reciprocity test.

(e) Reciprocal certification shall be granted to an applicant as follows:

(1) The applicant has an original certificate for the certification level from an entity whose programs are substantially similar to the programs contained in the board's current rules. Programs accredited by the International Fire Service Accreditation Congress are deemed to be substantially similar. Any seal or authenticating number on the certificate shall be intact and unaltered in any way.

(2) The applicant presents an original of the certificate or copy of the certificate that contains a statement by the applicant, under penalty of perjury, that the copy is a true and correct copy of the original to the board at the time of application.

Sec. 12. (a) Applications for certification shall:

- (1) be made on a form approved by the director;
- (2) include all attachments required on the application; and
- (3) bear a legible signature as required on the application form.

(b) An application for a course number shall be submitted to the authorized testing agency not less than thirty (30) calendar days before the commencement of the course. The director of the training division of the department may approve the issuance of course numbers for applications that are submitted less than thirty (30) calendar days prior to the commencement of the course if the director of the training division finds that the issuance of the course number or numbers is necessary to provide for the

continuation of training for fire service and nonfire service persons.

(c) Each request for a written cognitive examination shall be received by the authorized testing entity not less than fifteen (15) calendar days prior to the date that the test will be administered, and all such requests shall be in writing.

(d) The authorized testing entity shall obtain the form and content of each written cognitive examination from the board.

(e) All practical skills examinations shall have been successfully completed prior to the administration of the cognitive written examination.

(f) Practical skills examinations shall test all of the practical skills contained in the objectives required for the certification that is the subject of the practical skills examination.

(g) The content of each practical skills examination shall be obtained from the board.

(h) An applicant shall have passed all practical skills associated with the certification for which the application is submitted not more than one hundred eighty (180) calendar days prior to submission of the application for certification.

(i) Practical skills examination procedures shall be as follows:

(1) All examinations shall be graded on a pass/fail basis.

(2) A photo identification must be provided by the applicant along with all prerequisite documentation.

(3) Once all admission requirements have been verified, the individual will be allowed to take the examination.

(4) The lead evaluator shall make certain that all:

(A) paperwork;

(B) necessary equipment; and

(C) props;

are in order, in place, and in working order before the evaluation begins.

(5) Additional evaluators, where needed as determined by the lead evaluator, shall be selected by the lead evaluator.

(6) All evaluators shall use standards adopted by the board in this title.

(7) The lead evaluator shall ensure that evaluation forms are:

(A) properly completed in ink by any evaluator; and

(B) returned to the lead evaluator immediately following the examination.

(8) The lead evaluator shall be responsible for the following:

(A) Maintaining a safe environment while the examination is in progress.

(B) Ensuring that applicable safety and risk management protocols are followed.

(9) The lead evaluator shall:

(A) document, on a form to be provided by the training division, the successful completion of all of the practical skills examinations for each applicant; and

(B) provide the form to each applicant at the completion of all of the practical skills examinations for the certification level being tested.

(j) The procedures for written cognitive examinations shall be as follows:

(1) A minimum of a seventy percent (70%) grade is required to pass the examination.

(2) One (1) or more proctors shall monitor each examination.

(3) A photo identification must be provided by the applicant along with all prerequisite documentation.

(4) Once all admission requirements have been verified, the applicant will be allowed to take the examination. be *[sic]*

(5) Sign in and sign out sheets, on a form approved by the director of the training division, shall be provided by the proctor. Each applicant shall sign in when entering the examination room and sign out when leaving the examination room. Each entrance and exit from the examination room shall be evidenced by the applicant signing in and out as described above.

(6) Any applicant observed talking to another applicant while either has his or her answer sheet in his or her possession shall:

(A) be immediately dismissed from the examination; and

(B) receive a score of zero (0) on the examination.

(7) Any applicant observed copying from another applicant's paper shall:

(A) be immediately dismissed from the examination; and

(B) receive a score of zero (0) on the examination.

(8) The maximum time allowed for each examination shall be three (3) hours.

(9) For written examinations on paper forms, the proctor shall seal all test booklets and answer sheets and return them within seven (7) calendar days to the authorized testing agency for scoring.

(10) If more than one (1) room is being used for the examination, a minimum of one (1) proctor per room shall be required.

(11) A proctor shall remain in the room at all times that the examination is being conducted, unless the examination is being conducted at the offices of the department and only one (1) student is taking the examination.

(12) A proctor shall not discuss any test question or possible answer thereto with any student taking the examination.

(k) A student may retake any written cognitive examination not more than three (3) times within one hundred eighty (180) calendar days after receipt of notification of a failing score on the examination. If the student fails to achieve a passing score on a retake examination within the one hundred eighty (180) days, the student must retake and successfully complete all of the practical skills examinations for the requested certification prior to taking the written cognitive examination again.

(l) In order for a student to retake a written cognitive examination as described in subsection (k), a qualified proctor shall request the test under subsection (c).

(m) All appeals shall be heard by the board under IC 4-21.5. Rule 2.1. Training for Voluntary Certification Program (1996)

655 IAC 1-2.1-1 Title; purpose; availability

Authority: IC 22-14-2-7

Affected: IC 22-14-2-7

Sec. 1. (a) This rule shall be known as the Indiana firefighter training and education certification program, 1996 edition, and shall be published by the board for general distribution and use under that title.

(b) The purpose of this rule is to specify, in terms of performance objectives, the minimum requirements of professional competence required for certification as a firefighter. It is not the intent of this rule to restrict any jurisdiction from exceeding these minimum requirements. This rule shall cover the entrance requirements and the requirements for subsequent progression of certification.

(c) This rule is available for purchase from the Board of Firefighting Personnel Standards and Education, 402 West Washington Street, Room E241, Indianapolis, Indiana 46204. (*Board of Firefighting Personnel Standards and Education; 655 IAC 1-2.1-1; filed Jul 18, 1996, 3:00 p.m.: 19 IR 3390; readopted filed Dec 2, 2002, 12:59 p.m.: 26 IR 1262; readopted filed Aug 4, 2009, 2:41 p.m.: 20090902-IR-655090379RFA*)

655 IAC 1-2.1-2 Firefighter certification; general

Authority: IC 22-14-2-7

Affected: IC 22-14-2-7

Sec. 2. (a) Each of the performance objectives for any level of fire service person or nonfire service person certification shall meet the following criteria:

(1) Each shall be performed in a timely manner, safely, and with competent technique as outlined in the appropriate standard.

(2) Each objective shall be met in its entirety.

(b) It is not required for the objectives to be mastered in the order that they appear. The local program shall establish the instructional priority to prepare individuals to meet the performance objectives of this rule.

(c) Performance of practical skills objectives covered by this rule shall be evaluated by a certified instructor who shall be an authorized evaluator. An evaluator shall not evaluate sections taught by him or her. An evaluator shall be at least an Instructor I and selected by a Lead Evaluator.

(d) When the word "demonstrate" is used in this rule, performance of practical skills objectives shall require that actual performance and operation be accomplished unless otherwise indicated within the specific objective. Simulation, explanation, and illustration may be substituted when actual operation is not feasible.

(e) Wherever in this rule the terms "rules", "regulations", "procedures", "supplies", "apparatus", or "equipment" are used, they shall mean those of the authority having jurisdiction.

(f) "Authority having jurisdiction" means the organization, office, or individual responsible for approving equipment, an installation, or a procedure. The term includes, without limitation, the board, the state fire marshal, a federal, state, regional, or local department or individual having legal authority. 655 IAC 1-2.1-7 Airport Firefighter-Aircraft Crash and Rescue

Authority: IC 22-14-2-7

Affected: IC 22-14-2-7

Sec. 7. (a) The minimum training standards for Airport Firefighter-Aircraft Crash and Rescue certification shall be as set out in that certain document, being titled as NFPA 1003, Standard for Professional Qualifications for Airport Fire Fighters, Chapters 3 and 4, 2000 Edition, published by NFPA, Batterymarch Park, Quincy, Massachusetts 02269, which is hereby adopted by reference and made a part of this rule as if fully set out in this rule. To the extent that Chapters 3 and 4 of NFPA 1003 require compliance with another NFPA standard, such standard shall be that which is referred to in Chapter 4.

(b) The candidate shall have been certified as at least a Firefighter II or First Class Firefighter for a period of at least one (1) year prior to the date of application. *(Board of Firefighting Personnel Standards and Education; 655 IAC 1-2.1-7; filed Jul 18, 1996, 3:00 p.m.: 19 IR 3391; filed Nov 16, 2001, 4:37 p.m.: 25 IR 1162; readopted filed Dec 2, 2002, 12:59 p.m.: 26 IR 1262; readopted filed Aug 4, 2009, 2:41 p.m.: 20090902-IR-655090379RFA)*

655 IAC 1-2.1-7.1 Fire Officer-Strategy and Tactics

Authority: IC 22-14-2-7

Affected: IC 22-14-2-7

Sec. 7.1. (a) The minimum training standards for Fire Officer-Strategy and Tactics certification shall be as set out in this section.

(b) The candidate shall accomplish the follow objectives:

(1) List the eight (8) components of leadership and explain the importance of transition to a company officer.

(2) Explain the key safety behaviors that impact safe tactical operations.

(3) Identify the fire officer's responsibility for an organized approach to emergency incident management.

(4) Establish priorities for personal values and describe the relationship of those personal values to incident management and firefighter safety.

(5) Describe the five (5) elements of department readiness and explain the importance of each element.

(6) List four (4) benefits of effective incident communications and explain the importance of each.

(7) List the six (6) steps identified in the Communications Model and explain the importance of each step.

(8) List the five (5) classifications of building construction and explain the characteristics of each.

(9) Identify the strengths and weaknesses for each building construction classification.

(10) List and explain the critical fire behavior factors that relate to tactical operations for an assigned fire scenario.

(11) Properly calculate the required fire flow for fire suppression for structures using the National Fire Academy Fire Flow

Formula.

- (12) Given the required fire flow for a structure, estimate the fire personnel required for offensive operations.
- (13) Given an appropriate scenario, properly complete a National Fire Academy Quick Access Pre-fire Plan.
- (14) Explain why it is important to follow a logical thought process for decision making and action planning.
- (15) Identify the three (3) parts of the Command Sequence.
- (16) Identify the outcomes that result from each of the three (3) steps of the Command Sequence.
- (17) Identify the three (3) incident priorities and the order in which they shall be accomplished.
- (18) Describe the three (3) phases of size-up and their relationship to problem identification.
- (19) Describe the factors that affect size-up.
- (20) Given a simulated structural fire incident, demonstrate the ability to conduct an effective size-up, identify the problems presented, and communicate critical information as part of a concise size-up report.
- (21) Given a structural fire scenario, demonstrate the ability to develop a strategy using the command sequence.
- (22) Using the command sequence, demonstrate the ability to select tactics that will achieve a well-defined strategy.
- (23) Identify three (3) methods of implementing an action plan.
- (24) Demonstrate the ability to use effective communications to assign tactical objectives.
- (25) Given a scenario with identified strategies and tactics, determine the acceptable assignments to implement the action plan.
- (26) Explain why the use of a management system is necessary emergency incidents and demonstrate how the Incident Command System (ICS) can be applied as an effective emergency management system.
- (27) Define the five (5) ICS functions, command staff positions, and staging.
- (28) Define the role of the Incident Commander (IC) and the importance of the first on-scene fire department officer as the initial IC.
- (29) Given a scenario, establish an effective ICS organization to manage the initial phase of the incident.
- (30) Explain the purpose and use of the Communications Model and the National Fire Academy Quick Access Pre-fire Plan in tactical operations at fire incidents.
- (31) Define the relationship among incident priorities, strategy, tactics, and implementation in the command sequence.
- (32) Select an appropriate strategy mode based upon consideration of risk versus benefit and available resources.
- (33) Describe the six (6) steps required to implement the Tactical Action Model.
- (34) List the factors upon which apparatus placement is based.
- (35) Select the appropriate ventilation tactics based upon identified ventilation principles and tactical considerations.
- (36) Develop a ventilation action plan based upon the tactics selected.
- (37) Select appropriate rescue tactics based upon identified rescue principles and tactical considerations.
- (38) Develop a ventilation action plan based upon the tactics selected.
- (39) Select and deploy the appropriate hose lines to accomplish fire confinement and extinguishment.
- (40) Identify and explain the actions required to support fire confinement and extinguishment activities.
- (41) Explain the correct procedures and select the appropriate size hose lines for attaching to a fire department connection.
- (42) Describe the procedures for deployment of a hose line from a standpipe system.
- (43) Identify the principles of water supply and tactics for establishing water supplies using municipal sources, static sources, and portable sources.
- (44) Identify tactical size-up considerations for providing water supplies to meet needed fire flows and specified fire incidents.
- (45) Identify the principles and tactics for protecting exposed property and areas near the fire from becoming involved.
- (46) Identify tactical size-up considerations for providing exposure control at specified fire incidents.
- (47) Identify the principles and tactics to achieve salvage.
- (48) Identify the principles and tactics to achieve overhaul.
- (49) Identify and explain the activities required to support incident operations.
- (50) Identify the special construction factors affecting single-family dwellings.
- (51) Identify the primary concerns to be addressed when single-family dwellings are involved in a fire.
- (52) Demonstrate the use of the Communications Model while performing the role of a firefighter, fire department officer, or dispatcher.
- (53) Demonstrate the Command Sequence in a decision making scenario.
- (54) Determine strategy, select tactics, and operate within an appropriate IC organization in a given scenario.
- (55) Demonstrate effective use of the Tactical Action Model and make appropriate risk versus benefit decisions in a given

scenario.

(c) For purposes of this section, the following definitions apply:

(1) "Command sequence" means a three (3) step process as follows:

(A) Size-up, an ongoing process of gathering and analyzing information critical to incident factors that lead to problem identification.

(B) Strategy and tactics.

(C) Implementation.

(2) "Communications model" means a six (6) step process as follows:

STEP ONE: The sender formulates an idea that he or she wants to convey to another person.

STEP TWO: The sender sends the message.

STEP THREE: Transfer the message through the medium.

STEP FOUR: The receiver receives the message.

STEP FIVE: The receiver interprets the message.

STEP SIX: The receiver confirms that the message has been received and understood by providing feedback.

(3) "Fire flow formula" means the formula developed by the National Fire Academy that provides a method for determining the amount of water required, apparatus needed to deliver the water, and the number of fire companies that should be used to apply the water at an incident.

(4) "Incident command system" means the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure with responsibility for the management of assigned resources to effectively accomplish stated objectives pertaining to an incident.

(5) "Incident commander" means the individual responsible for the management of all incident operations.

(6) "National Fire Academy" means the facility operated by the United States Fire Administration under the Federal Emergency Management Agency of the United States Department of Homeland Security.

(7) "Quick access prefire planning" means a process that creates necessary information concerning a structure prior to a fire incident. The process includes obtaining information about the structure including, without limitation:

(A) building description;

(B) occupancy type;

(C) hazard to personnel;

(D) water supply;

(E) estimated fire flow;

(F) fire behavior predictions;

(G) predicted strategies;

(H) problems anticipated; and

(I) fixed fire protection/detection systems.

(8) "Tactical Action Model" means a six (6) step process as follows:

STEP ONE: Receive a tactical or task order.

STEP TWO: Conduct a tactical size-up.

STEP THREE: Assign tasks.

STEP FOUR: Take action to complete tactical assignment.

STEP FIVE: Evaluate effectiveness of tactical operations.

STEP SIX: Report to supervisor on the effectiveness of the tactical operations.

(9) "Tactical size-up" means:

(A) evaluation of safety considerations;

(B) construction and occupancy of the structure;

(C) area of involvement;

(D) probable fire spread;

(E) identification of problems;

(F) establishment of priorities; and

(G) evaluation of resources.

655 IAC 1-2.1-111 Definitions for National Incident Management System-First Responder certifications

Authority: IC 22-14-2-7

Affected: IC 36-8-10.5-7

Sec. 111. The following definitions apply to National Incident Management System-First Responder certifications:

- (1) "Agency" means the Indiana department of homeland security.
- (2) "Agency representative" means a person assigned by a primary, assisting, or cooperating federal, state, local, or tribal government agency or private entity that has been delegated authority to make decisions affecting that agency's or organization's participation in incident management activities following appropriate consultation with the leadership of that agency.
- (3) "Air operations branch" means the branch responsible for managing all aircraft operations, including both tactical and operational, at an incident.
- (4) "Area command" means an organization established to oversee the management of:
 - (A) multiple incidents that are each being handled by an ICS organization; or
 - (B) large or multiple incidents to which several incident management teams have been assigned.Area command has the responsibility to set overall strategy and priorities, allocate critical resources according to priorities, ensure that incidents are properly managed, and ensure that objectives are met and strategies followed.
- (5) "Assessment" means the evaluation and interpretation of measurements and other information to provide a basis for decision making.
- (6) "Assignments" means tasks given to resources to perform within a given operational period that are based on operational objectives defined in the IAP.
- (7) "Assistant" means the title for subordinates of principal command staff positions. The title indicates a level of technical capability, qualifications, and responsibility subordinate to the primary positions. Assistants may also be assigned to unit leaders.
- (8) "Base" means that location at which the primary logistics functions are coordinated and administered. The ICP may be collocated with the base. There is only one (1) base per incident.
- (9) "Branch" means the organizational level having functional or geographical responsibility for major aspects of incident operations. A branch is organizationally situated between the:
 - (A) section and the division or group in the operations section; and
 - (B) section and units in the logistics section.

Branches are identified by the use of Roman numerals or by functional area.

(10) "Camp" means the location where resources may be kept to support incident operations if a base is not accessible to all resources.

(11) "Chain of command" means a series of:

- (A) command;
- (B) control;
- (C) executive; or
- (D) management;

positions in hierarchical order of authority.

(12) "Chief" means the incident command system title for individuals responsible for management of functional sections, such as the following:

- (A) Operations.
- (B) Planning.
- (C) Financial/Administrative.
- (D) Logistics.

(13) "Command" means the act of:

- (A) directing;
- (B) ordering; or
- (C) controlling;

by virtue of explicit statutory, regulatory, or delegated authority.

(14) "Command staff" means the incident commander and the special staff positions of:

- (A) public information officer;
- (B) safety officer;
- (C) liaison officer; and
- (D) other positions as required;

who report directly to the incident commander. They may have an assistant or assistants, as needed.

(15) "Demobilization" means the processes and procedures used by all organizations:

- (A) federal;
- (B) state;
- (C) local; and
- (D) tribal;

for deactivating and transporting all resources that have been used to respond to or support the response to an incident to their home base.

(16) "Deputy" means a fully qualified individual who, in the absence of a superior, can be delegated the authority to manage a functional operation or perform a specific task. In some cases, a deputy can act as relief for a superior and, therefore, must be fully qualified in the position. Deputies can be assigned to the following:

- (A) The incident commander.
- (B) General staff.
- (C) Branch directors.

(17) "Direct tactical assignment" means an assignment issued by the incident commander and received by the recipient before the arrival of the resources in the staging area.

(18) "Division" means the partition of an incident into geographical areas of operation. A division is:

- (A) established when the number of resources exceeds the manageable span of control of the operations chief; and
- (B) located within the ICS organization between the branch and resources in the operations section.

(19) "Emergency operations center" or "EOC" means the physical location at which the coordination of information and resources to support domestic incident management activities normally takes place. An EOC may be a temporary facility or located in a more central or permanently established facility within a jurisdiction. EOCs may be organized by:

- (A) major functional disciplines, for example:
 - (i) fire;
 - (ii) law enforcement; and
 - (iii) medical;

- services;
- (B) jurisdiction, for example:
- (i) federal;
 - (ii) state;
 - (iii) regional;
 - (iv) county;
 - (v) city; or
 - (vi) tribal; or
- (C) some combination thereof.
- (20) "Event" means a planned, nonemergency activity, for example:
- (A) parades;
 - (B) concerts; or
 - (C) sporting events.
- (21) "Finance/administrative" means the monitoring of incident-related costs and administration of procurement contracts.
- (22) "General staff" means a group of incident management personnel organized according to function and reporting to the incident commander. The general staff normally consists of the following:
- (A) The operations section chief.
 - (B) The planning section chief.
 - (C) The logistics section chief.
 - (D) The finance/administration section chief.
- (23) "Group" means an entity established to divide the incident management structure into functional areas of operation. Groups are:
- (A) composed of resources assembled to perform a special function not necessarily within a single geographic division; and
 - (B) when activated, located between branches and resources in the operations section.
- (24) "Incident" means an occurrence or event, natural or caused by humans, that requires an emergency response to protect life or property. The term can, for example, include the following:
- (A) Major disasters.
 - (B) Emergencies.
 - (C) Terrorist attacks.
 - (D) Terrorist threats.
 - (E) Wildland and urban fires.
 - (F) Floods.
 - (G) Hazardous materials spills.
 - (H) Nuclear accidents.
 - (I) Aircraft accidents.
 - (J) Earthquakes.
 - (K) Hurricanes.
 - (L) Tornadoes.
 - (M) Tropical storms.
 - (N) War-related disasters.
 - (O) Public health and medical emergencies.
 - (P) Other occurrences requiring an emergency response.
- (25) "Incident action plan" or "IAP" means an oral or written plan containing general objectives reflecting the overall strategy for managing an incident. The term may include the following:
- (A) Identification of operational resources and assignments.
 - (B) Attachments that provide direction and important information for management of the incident during one (1) or more operational periods.
- (26) "Incident commander" or "IC" means the individual responsible for all incident activities, including the following:
- (A) The development of strategies and tactics.
 - (B) The ordering and release of resources.

The IC has overall authority and responsibility for conducting incident operations and is responsible for the management of all incident operations at the incident site.

(27) "Incident command post" or "ICP" means the field location at which the primary tactical level, on-scene incident command functions are performed. The ICP:

- (A) may be collocated with the incident base or other incident facilities; and
- (B) is normally identified by a green rotating or flashing light.

(28) "Incident command system" or "ICS" means a standardized on-scene emergency management construct specifically designed to provide for the adoption of an integrated organizational structure that reflects the complexity and demands of single or multiple incidents without being hindered by jurisdictional boundaries. An ICS is:

(A) the combination of:

- (i) facilities;
- (ii) equipment;
- (iii) personnel;
- (iv) procedures; and
- (v) communications;

operating within a common organizational structure and designed to aid in the management of resources during incidents; and

(B) used:

- (i) for all kinds of emergencies and is applicable to small as well as large and complex incidents; and
- (ii) by various jurisdictions and functional agencies, both public and private, to organize field level incident management operations.

(29) "Incident facilities" means the facilities near the incident area that will be used in the course of incident management activities including the following:

- (A) The incident command post.
- (B) Staging areas.
- (C) The base.
- (D) The camp.
- (E) The helibase and helispots.

(30) "Incident objectives" means statements of guidance and direction necessary for selecting an appropriate strategy or strategies and the tactical direction of resources. Incident objectives:

- (A) are based on realistic expectations of what can be accomplished when all allocated resources have been effectively deployed; and
- (B) must be achievable and measurable, yet flexible enough to allow strategic and tactical alternatives.

(31) "Liaison officer" means a member of the command staff responsible for coordinating with representatives from cooperating and assisting agencies.

(32) "Logistics" means providing resources and other services to support incident management.

(33) "Logistics section" means the section responsible for providing logistics support for the incident.

(34) "Major disaster" means any natural catastrophe, including any:

- (A) hurricane;
- (B) tornado;
- (C) storm;
- (D) high water;
- (E) wind-driven water;
- (F) tidal wave;
- (G) tsunami;
- (H) earthquake;
- (I) volcanic eruption;
- (J) landslide;
- (K) mudslide;
- (L) snowstorm; or
- (M) drought;

or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under 42 U.S.C. 5122 to supplement the efforts and available resources of states, tribes, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

(35) "Multi-agency coordination" means multiple agencies working together to accomplish a mutually understood common goal.

(36) "Multi-agency coordination entity" means an entity that functions within a broader multi-agency coordination system and may:

- (A) establish the priorities among incidents and associated resource allocations;
- (B) deconflict agency policies; and
- (C) provide strategic guidance and direction to support incident management activities.

(37) "Multi-agency coordination system" means a system designed to provide the architecture to support coordination for incident prioritization, critical resource allocation, communications systems integration, and information coordination. The components of a multi-agency coordination system include the following:

- (A) Facilities.
- (B) Equipment.
- (C) EOCs.
- (D) Specific multi-agency coordination entities.
- (E) Personnel.
- (F) Procedures.
- (G) Communications.

These systems assist agencies and organizations to fully integrate the subsystems of the NIMS.

(38) "Multi-jurisdictional incident" means an incident requiring action from multiple agencies that each have jurisdiction to manage certain aspects of an incident. In ICS, these incidents will be managed under unified command.

(39) "National Incident Management System" or "NIMS" means a system mandated by the federal government that provides a consistent nationwide approach for state, local, and tribal governments, the private sector, and nongovernmental organizations to work effectively and efficiently together to prepare for, respond to, and recover from domestic incidents, regardless of cause, size, or complexity. To provide for interoperability and compatibility among state, local, and tribal capabilities, the NIMS includes the following core set of concepts, principles, and terminology:

- (A) The ICS.
- (B) Multi-agency coordination systems.
- (C) Training.
- (D) The identification and management of resources, including systems for classifying types of resources.
- (E) Qualification and certification.
- (F) The collection, tracking, and reporting of incident information and incident resources.

(40) "Operational period" means the time scheduled for executing a given set of operation actions, as specified in the IAP, and can be of various lengths, although usually not over twenty-four (24) hours.

(41) "Operations section" means the section responsible for all tactical incident operations. In ICS, the term normally includes subordinate branches, divisions, and groups.

(42) "Planning" means the collection, evaluation, and dissemination of operational information related to the incident for the preparation and documentation of the IAP and includes the maintenance of information on the following:

- (A) The current and forecasted situation.
- (B) The status of resources assigned to the incident.

(43) "Planning section" means the section responsible for incident planning.

(44) "Public information officer" means a member of the command staff responsible for interfacing with:

- (A) the public and media; or
- (B) other agencies;

with incident-related information requirements.

(45) "Resource management" means a system for identifying available resources at all jurisdictional levels to enable timely and unimpeded access to resources needed to prepare for, respond to, or recover from an incident. The term under the NIMS includes the following:

- (A) Mutual aid agreements.
 - (B) The use of special:
 - (i) federal;
 - (ii) state;
 - (iii) local; and
 - (iv) tribal;teams.
 - (C) Resource mobilization protocols.
- (46) "Resources" means personnel and items of equipment, supplies, and facilities available or potentially available for assignment to incident operations and for which status is maintained. Resources:
- (A) are described by kind and type; and
 - (B) may be used in operational support or supervisory capacities at an:
 - (i) incident; or
 - (ii) EOC.
- (47) "Section" means the organizational level having responsibility for a major functional area of incident management, for example, the following:
- (A) Operations.
 - (B) Planning.
 - (C) Finance/Administrative.
 - (D) Logistics.
- The section is organizationally situated between the branch and the incident commander and is commanded by a chief.
- (48) "Single command" means a type of command that is used when:
- (A) an incident occurs within a single jurisdiction; and
 - (B) there is no jurisdictional or functional agency overlap.
- (49) "Span of control" means the number of individuals a supervisor is responsible for and is usually expressed as the ratio of supervisors to individuals. Under the NIMS, an appropriate span of control is between 1:3 and 1:7.
- (50) "Staging area" means a location established where resources can be placed while awaiting a tactical assignment. The operations section manages staging areas.
- (51) "Strategy" means the general direction selected to accomplish incident objectives set by the IC.
- (52) "Tactics" means the science of arranging and maneuvering resources in action during an incident.
- (53) "Technical specialist" means a person who:
- (A) is assigned to an incident;
 - (B) possesses special skills; and
 - (C) is activated only when needed.
- (54) "Terrorism" means an activity that involves an act dangerous to human life or potentially destructive of critical infrastructure or key resources and is:
- (A) a violation of the criminal laws of:
 - (i) the United States; or
 - (ii) any state or other subdivision of the United States in which it occurs; and
 - (B) intended to:
 - (i) intimidate or coerce the civilian population;
 - (ii) influence a government; or
 - (iii) affect the conduct of a government;by mass destruction, assassination, or kidnapping.
- (55) "Type" means a classification of resources in the ICS that refers to capability. Type 1 is generally considered to be more capable than Type 2, 3, or 4, respectively, because of:
- (A) size;
 - (B) power;
 - (C) capacity; or
 - (D) in the case of incident management teams, experience and qualifications.
- (56) "Unified area command" means an area command that is established involving multi-jurisdictional incidents.

(57) "Unified command" or "UC" means an application of ICS used when:

- (A) there is more than one (1) agency with incident jurisdiction; or
- (B) incidents cross political jurisdictions.

Agencies work together through the designated members of the UC, often the senior person from the agencies or disciplines, or both, participating in the UC, to establish a common set of objectives and strategies and a single IAP.

(58) "Unit" means the organizational element having functional responsibility for a specific incident planning or logistics activity.

(59) "Unity of command" means the concept by which each person within an organization reports to one (1) and only one (1) designated person. The purpose of unity of command is to ensure unity of effort under one (1) responsible commander for every objective.
