Sec. 5. RULES AND PRINCIPLES. The Commissioner of Insurance, in considering questions relating to the organization of a new stock company, or relating to the enlargement of the capital of an established stock insurance company, will be guided by the following concepts, rules and principles, among others:

(1) The organization and promotion of new insurance companies on a sound basis is to be commended and encouraged.

(2) The business of insurance, because of its direct and vital effects upon stockholders, policyholders and the economy generally, is vital in the public interest and welfare.

(3) The organization and capitalization of insurance companies should be carefully scrutinized in keeping with the concepts, rules and principles herein enunciated.

(4) Organization and promotion expenses, inclusive of commissions paid for sale of stock, but exclusive of legal expenses and statutory organization fees and charges, should not under any circumstances exceed ten percent of the sale price of stock actually sold. In the instance of the organization of a new company, the funds derived from the sale of stock, in excess of expenses as

limited herein, must be placed in trust or escrow until such funds can be delivered to the company upon, or subsequent to, the issuance of its certificate of authority under Section 77 [[IC 27-1-6-18](#)] of the Indiana Insurance Law.

(5) In the event a new stock issue is approved by the Department within the period of five years immediately subsequent to the date of the company's original license to do an insurance business, the sale price for the new issue shall be subject to the Commissioner's approval and may not exceed two hundred percent of the lowest price at which any shares were previously issued, except that a higher price may be fixed for a new issue, if in the opinion of the Commissioner the condition of the company justifies, taking into consideration the company's financial condition, business in force and facts relating to the stock's history, such as stock splits, stock dividends, changes in par value, and the like.

(6) The sale price of stock should be payable either in cash or by an interest-bearing promissory note payable within ninety days. In event a promissory note is given in payment for stock, there should be no tie-in with or inter-dependence between the note obligation and the purchase of insurance or with projected dividends from such insurance.

(7) With respect to stock companies hereafter organized, any arrangement, device, plan or scheme, however contrived or formulated, having as its end or purpose a diversion, either directly or indirectly, of the company's funds, other than in payment of legitimate dividends or costs of doing business, to any officer(s), director(s), organizer(s), or promoter(s) of the company, or to any association, corporation, partnership or trust owned or controlled by any officer(s), director(s), organizer(s) or promoter(s) of the company, is hereby declared in violation of the statutory mandate that "every insurance company conduct and transact its business in a safe and prudent manner" and "maintain safe and sound business methods."

Sec. 3. (a) If a creditor makes available to the debtors more than one (1) plan of consumer credit insurance, every debtor must be informed of each plan for which the debtor is eligible and of the premium or insurance charge for each.

(b) When a creditor requires insurance as additional security for a debt, the creditor shall inform the debtor that the debtor has the option of procuring alternative coverage. The debtor shall be informed by the creditor of the right to provide alternative coverage before the transaction is completed.

(c) The following applies to the termination of a group consumer credit insurance policy:

(1) If a debtor is covered by a group consumer credit insurance policy providing for the payment of single premiums to the insurer, or any other premium payment method that prepays coverage beyond one (1) month, then provision shall be made by the insurer that in the event of termination of the policy for any reason, insurance coverage with respect to any debtor insured under the policy shall be continued for the entire period for which the premium has been paid.

(2) If a debtor is covered by a group consumer credit insurance policy providing for the payment of premiums to the insurer on

a monthly basis, then the policy shall provide that, in the event of termination of the policy, termination notice shall be given to the insured debtor at least thirty (30) days prior to the effective date of termination, except where replacement of the coverage by the same or another insurer in the same or greater amount takes place without lapse of coverage. The insurer shall provide or cause to be provided this required information to the debtor.

(d) If the creditor adds identifiable insurance charges or premiums for consumer credit insurance to the debt, and any direct or indirect finance, carrying, credit, or service charge is made to the debtor on the insurance charges or premiums, the creditor must remit and the insurer shall collect the premium within sixty (60) days after it is added to the debt.

(e) If the debt is discharged due to refinancing prior to the scheduled maturity date, the insurance in force shall be terminated before any new insurance may be issued in connection with the refinanced debt. In all cases of termination prior to scheduled maturity, a refund of all unearned premium or unearned insurance charges paid by the debtor shall be paid or credited to the debtor as provided in section 8 of this rule. In any refinancing of the debt, the effective date of the coverage as respects any policy provision shall be deemed to be the first date on which the debtor became insured under the policy with respect to the debt that was refinanced, at least to the extent of the amount and term of the debt outstanding at the time of refinancing of the debt.

(f) A provision in an individual policy or group certificate that sets a maximum limit on total claim payments must apply only to that individual policy or group certificate.

(g) If a debtor prepays the debt in full, then any consumer credit insurance covering the debt shall be terminated and an appropriate refund of the consumer credit insurance premium shall be paid or credited to the debtor in accordance with section 8 of this rule. However, if the prepayment is a result of death or any other lump sum consumer credit insurance payment, no refund shall be required for the coverage under which the lump sum was paid. If a claim under credit accident and health coverage is in progress at the time of prepayment, the amount of refund may be determined as if the prepayment did not occur until the payment of benefits terminates. No refund need be paid during any period of disability for which credit accident and health benefits are payable. A refund shall be computed as if prepayment occurred at the end of the disability period.

(h) If a creditor has opened a line of credit for a debtor and, if permitted under [IC 27-8-4-4\(A\)](#) or [IC 27-1-12-37\(2\)\(F\)](#), is charging for this line of credit rather than the amount of debt in the event of the death of the debtor, the insured amount due is the amount of the established amount of credit against which premium was last charged. Sec. 4. (a) Benefits provided by consumer credit insurance policies must be reasonable in relation to the premium charged. This requirement is satisfied if the premium rate charged develops or may reasonably be expected to develop a loss ratio of not less than fifty-five percent (55%). With the exception of deviations approved under section 10 of this rule, the rates shown in sections 6 and 7 of this rule, as adjusted pursuant to section 9 of this rule, shall be presumed to satisfy this loss ratio standard. Anticipated losses that develop or are expected to develop a loss ratio of not less than fifty-five percent (55%) shall be presumed reasonable. Any insurer filing a deviation in accordance with section 10 of this rule must satisfy the fifty-five percent (55%) loss ratio standard for their total consumer credit insurance business.

(b) If any insurer files for approval of any form providing coverage different than that described in sections 6 and 7 of this rule, the insurer shall demonstrate to the satisfaction of the commissioner that the premium rates to be charged for such coverage are:

(1) reasonably expected to develop a loss ratio of not less than fifty-five percent (55%); or

(2) actuarially consistent with the rates used for standard coverages.

Sec. 5. (a) An insurer shall not pay compensation in excess of forty percent (40%) of the net written prima facie premium of which not more than thirty-three [percent] (33%) of net written prima facie premium may be paid to a creditor.

(b) For purposes of subsection (a), prima facie premium means premium using the premium rates set out in sections 6 and 7 of this rule, or actuarially consistent premium rates for plans not described in sections 6 and 7 of this rule, without any adjustment pursuant to section 10 of this rule. 760 IAC 1-5.1-6 Credit life insurance rates

Authority: [IC 27-1-3-7](#); [IC 27-8-4-12](#)

Affected: [IC 24-4.5-4-102](#)

Sec. 6. (a) Subject to the conditions and requirements in subsection (b) and section 10 of this rule, the following prima facie rates are considered to meet the requirements of section 4 of this rule, and may be used without filing additional actuarial support:

(1) For monthly outstanding balance basis, sixty-nine cents (\$0.69) per month per one thousand dollars (\$1,000) of outstanding insured debt on single life and one dollar and fifteen cents (\$1.15) per month per one thousand dollars (\$1,000) of outstanding insured debt on joint life if premiums are payable on a monthly outstanding balance basis.

(2) If the premium is charged on a single premium basis, the rate shall be computed according to the following formula or according to a formula approved by the commissioner that produces rates substantially the same as those produced by the following formula:

$$S_p = \sum_{t=1}^n \left(\frac{O_p}{10} \times \frac{I_t}{I_i} \times (v^{t-1}) \right)$$

$$v = \frac{1}{1 + (\text{dis})}$$

- Where:
- S_p = Single premium per one hundred dollars (\$100) of initial consumer credit life insurance coverage.
 - O_p = 0.69, the prima facie consumer credit life insurance premium rate for monthly outstanding balance coverage from subdivision (1).
 - I_t = The scheduled amount of insurance for month t.
 - I_i = Initial amount of insurance. For a net insurance policy, I_i equals the initial principal balance of the loan.
 - dis = 0.0044, representing an annual discount rate of 5.0% for interest plus four-tenth [sic., four-tenths] of one percent (0.4%) for mortality.
 - n = The number of months in the term of the insurance.

(3) If the benefits provided are other than those described in this section, premium rates for such benefits shall be actuarially consistent with the rates provided in subdivisions (1) and (2).

(4) The prima facie rates included in this subsection and any other rates approved for use that are computed in accordance with the formula in subdivision (2) are presumed sufficient to provide for up to two (2) months of delinquencies. Therefore, the determination of the premium shall not reflect delinquencies.

(b) The premium rates in subsection (a) shall apply to contracts providing credit life insurance that are offered to all eligible debtors, that do not require evidence of individual insurability from any eligible debtor electing to purchase coverage within thirty (30) days of the date the debtor becomes eligible, and that contain the following provisions:

- (1) Coverage for death by whatever means caused, except that coverage may exclude death resulting from any of the following:
 - (A) War or any act of war.
 - (B) Suicide within six (6) months after the effective date of the coverage.

- (C) A preexisting condition or conditions. For the purpose of this subsection, the following apply:
- (i) "Preexisting condition" means any condition for which the debtor received medical advice or treatment within six (6) months preceding the effective date of coverage.
 - (ii) No preexisting condition exclusion shall apply unless:
 - (AA) death is caused by or substantially contributed to by the preexisting condition; and
 - (BB) death occurs within six (6) months following the effective date of coverage.
 - (iii) A preexisting condition exclusion shall apply only if and to the extent that the amount of coverage to which it would otherwise apply (in the absence of this limitation) exceeds one thousand dollars (\$1,000).

(2) For the exclusions listed in subdivisions (1)(B) and (1)(C), the effective date of coverage for each part of the insurance attributable to a different advance or a charge to the plan account is the date on which the advance or charge occurs.

(3) At the option of the insurer and in lieu of a preexisting condition exclusion on insurance written in connection with open-ended consumer credit, a provision may be included to limit the amount of insurance payable on death due to natural causes to the balance as it existed six (6) months prior to the date of death if there has been one (1) or more increases in the outstanding balance during the six (6) month period and if evidence of individual insurability has not been required in the six (6) month period prior to the date of death. This provision applies only if and to the extent that the amount of coverage to which it would otherwise apply (in the absence of this limitation) exceeds one thousand dollars (\$1,000).

(4) An age restriction providing that no insurance will become effective on debtors on or after the attainment of age sixty-six (66) and that all insurance will terminate upon attainment by the debtor of age sixty-six (66).

(c) The insurer shall apply rates as follows:

(1) If the insurer, its agent, or the application form for credit life insurance does not request or require that the debtor provide evidence of insurability, then the premium rates deemed reasonable will be the prima facie rates in subsection (a).

(2) Except as provided in subdivision (3), if the insurer, its agent, or the application form for credit life insurance requests or requires that the debtor provide evidence of insurability and the initial amount of insurance is fifteen thousand dollars (\$15,000) or less, then the premium rates deemed reasonable will be the rates in subsection (a) multiplied by ninety percent (90%).

(3) If the insurer, its agent, or the application form for credit life insurance requests or requires that the debtor provide evidence of insurability and the initial amount of insurance is greater than fifteen thousand dollars (\$15,000) or the applicant elects to purchase coverage more than thirty (30) days after the date the debtor became eligible under a group plan of insurance, then the premium rates deemed reasonable will be the prima facie rates in subsection (a). For policies insuring open lines of credit, the insurer may require evidence of insurability for commitments that increase the outstanding debt above fifteen thousand dollars (\$15,000).

(d) Insurers may use the same application forms for credit life insurance whether or not underwriting questions are asked pursuant to subsection (c). The commissioner will presume that any application form for which all relevant underwriting questions have been left unanswered represents a policy that has not been underwritten and for which prima facie rates are permissible. A form for which any relevant underwriting questions have been answered or filled in represents a policy for which premium decreases pursuant to subsection (c) are required. Insurers should maintain in their files their rules for those circumstances where underwriting questions shall be asked. Those rules shall be communicated to and followed by the insurer's agents and producers. Authority: [IC 27-1-3-7](#); [IC 27-8-4-12](#)

Affected: [IC 24-4.5-4-102](#)

Sec. 7. (a) Subject to the conditions and requirements in subsection (b) and section 10 of this rule, the following prima facie rates are considered to meet the requirements of section 4 of this rule, and may be used without filing additional actuarial support:

(1) If premiums are payable on a single-premium basis for the duration of the coverage, the prima facie rate per one hundred dollars (\$100) of initial insured debt for single accident and health is as set forth in the following table and rates for monthly periods other than those listed shall be interpolated or extrapolated:

DEPARTMENT OF INSURANCE

Original Number of Equal Monthly Installments	14 Day		30 Day	
	Retroactive Policy	Nonretroactive Policies	Retroactive Policies	Nonretroactive Policies
6	1.54	1.01	1.04	0.79
12	2.04	1.42	1.40	1.05
24	2.73	1.97	1.97	1.37
36	3.35	2.57	2.53	1.83
48	3.71	2.93	2.89	2.16
60	4.00	3.22	3.19	2.44
72	4.27	3.47	3.45	2.69
84	4.49	3.71	3.68	2.93
96	4.71	3.93	3.89	3.15
108	4.92	4.13	4.10	3.36
120	5.12	4.32	4.29	3.55

(2) If premiums are paid on the basis of a premium rate per month per thousand of outstanding insured gross debt, these premiums shall be computed according to the following formula or according to a formula approved by the commissioner, that produces rates actuarially consistent with the single premium rates in subdivision (1):

$$OP_n = \frac{10SP_n}{\left\{ \frac{\sum_{t=1}^n (v^{t-1} \times (n-t+1))}{n} \right\}}$$

$$v = \frac{1}{1 + (dis)}$$

- Where:
- SP_n = Single premium rate per one hundred dollars (\$100) of initial insured debt repayable in n equal monthly installments as shown in subdivision (1).
 - OP_n = Monthly outstanding balance premium rate per one thousand dollars (\$1,000).
 - n = The number of months in the term of the insurance.
 - dis = 0.0041, representing an annual discount rate of five percent (5.0%) for interest.

(3) If the coverage provided is a constant maximum indemnity for a given period of time, the actuarial equivalent of subdivisions (1) and (2) shall be used.

(4) If the coverage provided is a combination of a constant maximum indemnity for a given period of time after which the maximum indemnity begins to decrease in even amounts per month, an appropriate combination of the premium rate for a constant maximum indemnity for a given period of time, and the premium rate for a maximum indemnity that decreases in even amounts per month shall be used.

(5) The outstanding balance rate for credit accident and health insurance may be either a term-specified rate or may be a single composite term outstanding balance rate.

(b) Subject to the conditions and requirements in subsection (c) and section 10 of this rule, the prima facie rates for credit accident and health insurance calculated as shown in this subsection are considered to meet the requirements of section 4 of this rule in the situation where the insurance is written on an open-end loan. These prima facie rates and the formulae used to calculate them may be used without filing additional actuarial support. Other formulae to convert from a closed-end credit rate to an open-end credit rate may be used if approved by the commissioner. The following establishes the prima facie rates for credit accident and health insurance on an open-end loan:

(1) If the maximum benefit of the insurance equals the net debt on the date of disability, the term of the loan is calculated according to the following formula:

$$1/(\text{minimum payment percent}).$$

The prima facie rate is determined by applying the calculated term to the rates shown in subsection (a). A composite minimum payment percentage may be used in place of the minimum payment percentage for a specific credit transaction.

(2) If the maximum benefit of the insurance equals the outstanding balance of the loan on the date of disability plus any interest accruing on that amount during disability, the term of the insurance (n) is estimated by using the following formula:

DEPARTMENT OF INSURANCE

$$n = \ln \{1 - (1000i / x)\} / \ln(v)$$

Where: i = Interest rate on the account or a composite interest rate used for the type of policy.
 x = Monthly payment per one thousand dollars (\$1,000) of coverage consistent with the term calculated in this subdivision.

$$v = 1/(1 + i)$$

The calculated value of the term is used to look up an initial rate in subsection (a). The final prima facie rate is calculated by multiplying the initial rate by the following:

the adjustment n/a_n

Where: n = The term calculated as per the following equation:

$$a_n = (1 - v^n)/i$$

As an alternative to the calculation required in subsection (b) [*this subsection*], a composite rate for open-end revolving loans may be filed for approval by the commissioner. This rate must be actuarially equivalent to the prima facie rate.

(c) If the accident and health coverage is sold on a joint basis (involving two (2) people), the rate for the joint coverage shall be filed with the commissioner prior to use.

(d) If the benefits provided are other than those described in subsection (a) or (b), rates for those benefits shall be actuarially consistent with rates provided in subsection [*sic.*, *subsections*] (a) and (b).

(e) The premium rates in subsection (a) shall apply to contracts providing credit accident and health insurance that are offered to all eligible debtors, that do not require evidence of individual insurability from any eligible debtor electing to purchase coverage within thirty (30) days of the date the debtor becomes eligible and that contain the following provisions:

(1) Coverage for disability by whatever means caused, except that coverage may be excluded for disabilities resulting from:

- (A) normal pregnancy;
- (B) war or any act of war;
- (C) elective surgery;
- (D) intentionally self-inflicted injury;
- (E) sickness or injury caused by or resulting from the use of alcoholic beverages or narcotics (including hallucinogens) unless they are administered on the advice of and taken as directed, by a licensed physician other than the insured;
- (F) flight in any aircraft other than a commercial scheduled aircraft; or
- (G) a preexisting condition.

(2) For the exclusion listed in subdivision (1)(G), the effective date of coverage for each part of the insurance attributable to a different advance or a charge to the plan account is the date on which the advance or charge occurs.

(3) A definition of disability providing that for the first twelve (12) months of disability, total disability shall be defined as the inability to perform the essential functions of the insured's own occupation. Thereafter, it shall mean the inability of the insured to perform the essential functions of any occupation for which he or she is reasonably suited by virtue of education, training, or experience.

(4) No employment requirement more restrictive than one requiring that the debtor be employed full time on the effective date of coverage and for at least twelve (12) consecutive months prior to the effective date of coverage. As used in this subdivision, "full time" means a regular work week of not less than thirty (30) hours.

(5) An age restriction providing that no insurance will become effective on debtors on or after the attainment of age sixty-six (66) and that all insurance will terminate upon attainment by the debtor of age sixty-six (66).

(6) A daily benefit of not less than one-thirtieth ($1/30$) of the monthly benefit payable under the policy.

(f) Requirements for applying rates shall be as follows:

(1) If the insurer, its agent, or the application form for credit life insurance does not request or require that the debtor provide evidence of insurability, then the premium rates deemed reasonable will be the prima facie rates in subsection (a).

(2) Except as provided in subdivision (3), if the insurer, its agent, or the application form for credit life insurance requests or requires that the debtor provide evidence of insurability and the initial amount of insurance is fifteen thousand dollars (\$15,000) or less, then the premium rates deemed reasonable will be the rates in subsection (a) multiplied by ninety percent (90%).

(3) If the insurer, its agent, or the application form for credit life insurance requests or requires that:

- (A) the debtor provide evidence of insurability and the initial amount of insurance is greater than fifteen thousand dollars (\$15,000); or
- (B) the applicant elects to purchase coverage more than thirty (30) days after the date the debtor became eligible under a

group plan of insurance;

then the premium rates deemed reasonable will be the prima facie rates in subsection (a). For policies insuring open lines of credit, the insurer may require evidence of insurability for commitments that increase the outstanding debt above fifteen thousand dollars (\$15,000).

(g) Insurers may use the same application forms for credit accident and health insurance whether or not underwriting questions are asked pursuant to subsection (f). The commissioner will presume that any application form for which all relevant underwriting questions have been left unanswered represents a policy that has not been underwritten and for which prima facie rates are permissible. A form for which any relevant underwriting questions have been answered or filled in represents a policy for which premium decreases pursuant to subsection (f) are required. Insurers should maintain in their files their rules for those circumstances where underwriting questions shall be asked. Those rules shall be communicated to and followed by the insurer's agents or other producers. The report shall utilize the Credit Insurance Supplement–Annual Statement Blank as approved by the NAIC, and shall contain data separately for each state, rather than an allocation of the company's countrywide experience. The filing shall be made in accordance with and no later than the due date in the instructions to the annual statement.

(b) The commissioner will, on a triennial basis, review the loss ratio standards set forth in section 4 of this rule and the prima facie rates set forth in sections 6 and 7 of this rule and determine the rate of expected claims on a statewide basis, compare such rate of expected claims with the rate of actual claims for the preceding three (3) years determined from the incurred claims and earned premiums at prima facie rates reported in the annual statement supplement or other available source, and publish in the Indiana Register the adjusted actual statewide prima facie rates to be used by insurers during the next triennium. The rates will reflect the difference between actual claims based on experience and expected claims based on the loss ratio standards set forth in section 4 of this rule applied to the prima facie rates set forth in sections 6 and 7 of this rule. If the commissioner determines, at the conclusion of the triennial review, that the rate adjustment is de minimus [*sic., de minimis*], then the statewide prima facie rate will not be changed. The commissioner will publish a statement that the rate will not change and the results of the rate review required by this subsection.

(c) The commissioner will, on a triennial basis, review the discount rates for interest included in the formulae in sections 6(a) and 7(a) of this rule, and adjust those discount rates to equal the average of the rates being paid at that time on three (3) year United

States Treasury notes as reported in the Wall Street Journal on the last day of sale in the most recent three (3) calendar years. The commissioner shall publish the revised discount rates in the Indiana Register. If the commissioner determines, at the conclusion of the triennial review, that the rate adjustment is de minimus [*sic., de minimis*], then the discount rate will not be changed. Sec. 10. (a) An insurer that files rates or has rates on file that are equivalent to the prima facie rates shown in sections 6 and 7 of this rule, to the extent adjusted pursuant to section 9 of this rule, may use those rates without further proof of their reasonableness.

(b) An insurer may file for approval of and use rates that are higher than the prima facie rates shown in sections 6 and 7 of this rule, to the extent adjusted pursuant to section 9 of this rule, as long as the filed rates are consistent with section 4 of this rule. If rates higher than the prima facie rates shown in sections 6 and 7 of this rule, to the extent adjusted pursuant to section 9 of this rule, are filed for approval, the filing shall specify the account or accounts to which the rates apply. The rates may be applied:

(1) uniformly to all accounts of the insurer;

(2) on an equitable basis approved by the commissioner to only one (1) or more accounts of the insurer for which the experience has been less favorable than expected; or

(3) according to a case-rating procedure on file with the commissioner.

(c) The approval period of deviated rates are established as follows:

(1) A deviated rate will be in effect for a period of time not longer than the experience period used to establish the rate, that is, one (1) year, two (2) years, or three (3) years. An insurer may file for a new rate before the end of a rate period, but not more often than once during any twelve (12) month period.

(2) Notwithstanding the provision of subsection (a), if an account changes insurers, the rate approved to be used for the account by the prior insurer is the maximum rate that may be used by the succeeding insurer for the remainder of the rate approval period approved for the prior insurer or until a new rate is approved for use on the account, if sooner.

(d) An insurer may at any time use a rate for an account that is lower than its filed rate without notice to the commissioner. - (ii) the exchange is made on the basis of the market values applicable to the securities at the time of the exchange, and
- (iii) the consent of the department to such exchange has been obtained in advance.

(b) The sale of securities, for cash, from a segregated investment account and the purchase thereof, for cash, by an insurance

Sec. 6. Information to be Furnished to Security Holders. (1) No solicitation subject to this regulation [760 IAC 1-11] shall be made unless each person solicited is concurrently furnished or has previously been furnished with a written proxy statement containing the information specified in Schedule A [760 IAC 1-11-12].

Subject to the foregoing requirements with respect to financial statements, the annual report to security holders may be in any form deemed suitable by the management.

(3) Two copies of each report sent to the security holders pursuant to this section shall be mailed to the Commissioner not later than the date on which such report is first sent or given to security holders or the date on which preliminary copies of solicitation material are filed with the Commissioner pursuant to subsection one of section seven [760 IAC 1-11-8(1)], whichever date is later.

Sec. 7. Requirements as to Proxy and Information Statement. (1) The form of proxy (a) shall indicate in bold-face type whether or not the proxy is solicited on behalf of the management, (b) shall provide a specifically designated blank space for dating the proxy, and (c) shall identify clearly and impartially each matter or group of related matters intended to be acted upon, whether proposed by the management, or security holders. No reference need be made to proposals as to which discretionary authority is conferred pursuant to subsection three hereof.

(2) (a) Means shall be provided in such proxy for the person solicited to specify by ballot a choice between approval or disapproval of each matter or group of related matters referred to therein, other than elections to office. A proxy may confer discretionary authority with respect to matters as to which a choice is not so specified if the form of proxy states in bold-face type how it is intended to vote the shares or authorization represented by the proxy in each such case.

(b) A form of proxy which provides both for elections to office and for action on other specified matters shall be prepared so as to clearly provide, by a box or otherwise, means by which the security holder may withhold authority to vote for elections to office. Any such form of proxy which is executed by the security holder in such manner as not to withhold authority to vote for elections to office shall be deemed to grant such authority, provided the form of proxy so states in bold-face type.

(3) Such proxy may confer discretionary authority with respect to other matters which may come before the meeting, provided the persons on whose behalf the solicitation is made are not aware a reasonable time prior to the time the solicitation is made that any other matters are to be presented for action at the meeting and provided further that a specific statement to that effect is made in the proxy statement or in the form of proxy.

(4) No such proxy shall confer authority (a) to vote for the election of any person to any office for which a bona fide nominee is not named in the proxy statement, or (b) to vote at any annual meeting other than the next annual meeting (or any adjournment thereof) to be held after the date on which the proxy statement and form of proxy are first sent or given to security holders.

(5) Such proxy statement or form of proxy shall provide, subject to reasonable specified conditions, that such proxy will be voted and that where the person solicited specifies by means of ballot provided pursuant to subsection two [760 IAC 1-11-7(2)] hereof a choice with respect to any matter to be acted upon, the vote will be in accordance with the specifications so made.

(1) For the purpose of determining whether the equity securities of an insurer are held of record by one hundred or more persons, securities shall be deemed to be "held of record" by each person who is identified as the owner of such securities on records of security holders maintained by or on behalf of the insurer, subject to the following:

(a) In any case where the records of security holders have not been maintained in accordance with accepted practice, any additional person who would be identified as such an owner on such records if they had been maintained in accordance with accepted practice shall be included as a holder of record.

(b) Securities identified as held of record by a corporation, a partnership, a trust whether or not the trustees are named, or other organization shall be included as so held by one person.

(c) Securities identified as held of record by one or more persons as trustees, executors, guardians, custodians or in other fiduciary capacities with respect to a single trust, estate or account shall be included as held of record by one person.

(d) Securities held by two or more persons as co-owners shall be included as held by one person.

(e) Each outstanding unregistered or bearer certificate shall be included as held of record by a separate person, except to the extent that the insurer can establish that, if such securities were registered, they would be held of record, under the provisions of this rule, by a lesser number of persons.

(f) Securities registered in substantially similar names where the insurer has reason to believe because of the address or other indications that such names represent the same person, may be included as held of record by one person.

(2) Notwithstanding subsection (1) of this paragraph:

(a) Securities held, to the knowledge of the insurer, subject to a voting trust, deposit agreement or similar arrangement shall be included as held of record by the record holders of the voting trust certificates, certificates of deposit, receipts or similar evidences of interest in such securities; provided however, that the insurer may rely in good faith on such information as is received in response to its request from a non-affiliated insurer of the certificates or evidences of interest.

(b) If the insurer knows or has reason to know that the form of holding securities of record is used primarily to circumvent the provisions of the Act, the beneficial owners of such securities shall be deemed to be the record owners thereof.

(f) "Class" means all securities of an insurer which are of substantially similar character and the holders of which enjoy substantially similar rights and privileges. 760 IAC 1-12-10 Ownership of securities held in trust

Authority: [IC 27-1-3-7](#)

Sec. 10. Ownership of Securities Held in Trust. (a) Beneficial ownership of a security for the purpose of Section 1 [[IC 27-2-10-1](#)]

shall include:

- (1) The ownership of securities as a trustee whether either the trustee or members of his immediate family have a vested interest in the income or corpus of the trust,
- (2) the ownership of a vested beneficial interest in a trust, and
- (3) the ownership of securities as a settlor of a trust in which the settlor has the power to revoke the trust without obtaining the consent of all the beneficiaries.

(b) Except as provided in paragraph (c) hereof, beneficial ownership of securities solely as a settlor or beneficiary of a trust shall be exempt from the provisions of Section 1 [\[IC 27-2-10-1\]](#) where less than twenty percent in market value of the securities having a readily ascertainable market value held by such trust, determined as of the end of the preceding fiscal year of the trust, consists of equity securities with respect to which reports would otherwise be required. Exemption is likewise accorded from Section 1 [\[IC 27-2-10-1\]](#) with respect to any obligation which would otherwise be imposed solely by reason of ownership as settlor or beneficiary of securities held in trust, where the ownership, acquisition, or disposition of such securities by the trust is made without prior approval by the settlor or beneficiary. No exemption pursuant to this subsection shall, however, be acquired or lost solely as a result of changes in the value of the trust assets during any fiscal year or during any time when there is no transaction by the trust in the securities otherwise subject to the reporting requirements of Section 1 [\[IC 27-2-10-1\]](#).

(c) In the event that 10 per cent of any class of equity security of an insurer is held in a trust, that trust and the trustees thereof as such shall be deemed a person required to file the reports specified in Section 1 [\[IC 27-2-10-1\]](#) of the Act.

(d) Not more than one report need be filed to report any holdings or with respect to any transaction in securities held by a trust, regardless of the number of officers, directors or ten per cent stockholders who are either trustees, settlors, or beneficiaries of a trust, provided that the report filed shall disclose the names of all trustees, settlors and beneficiaries who are officers, directors or ten per cent stockholders. A person having an interest only as a beneficiary of a trust shall not be required to file any such report so long as he relies in good faith upon an understanding that the trustee of such trust will file whatever reports might otherwise be required of such beneficiary.

(e) As used in this section the "immediate family" of a trustee means:

- (1) a son or daughter of the trustee, or a descendant of either,
- (2) a stepson or stepdaughter of the trustee,
- (3) the father or mother of the trustee, or an ancestor of either,
- (4) a stepfather or stepmother of the trustee,
- (5) a spouse of the trustee.

For the purpose of determining whether any of the foregoing relations exists, a legally adopted child of a person shall be considered a child of such person by blood.

(f) In determining, for the purposes of Section 1 [\[IC 27-2-10-1\]](#) of the Act, whether a person is the beneficial owner, directly or indirectly, of more than 10 per cent of any class of any equity security, the interest of such person in the remainder of a trust shall be excluded from the computation.

(g) No report shall be required by any person, whether or not otherwise subject to the requirement of filing reports under Section 1 [\[IC 27-2-10-1\]](#), with respect to his indirect interest in portfolio securities held by:

- (1) a pension or retirement plan holding securities of an insurer whose employees generally are the beneficiaries of the plan,
- (2) a business trust with over 25 beneficiaries.

760 IAC 1-12-14 Exemption from [IC 27-2-10-2](#) of acquisitions under stock bonus or stock option plans

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-2-10](#)

Sec. 14. Exemption from Section 2 [[IC 27-2-10-2](#)] of Acquisitions of Shares of Stock and Stock Options under Certain Stock Bonus, Stock Option or Similar Plans. Any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) pursuant to a stock bonus, profit sharing, retirement, incentive, thrift, savings or similar plan, or any acquisition of a qualified or a restricted stock option pursuant to a qualified or a restricted stock option plan, or a stock option pursuant to an employee stock purchase plan, by a director or officer of an insurer issuing such stock or stock option shall be exempt from the operation of Section 2 [[IC 27-2-10-2](#)] of the Act if the plan meets the following conditions:

(a) The plan has been approved, directly or indirectly, (1) by the affirmative votes of the holders of a majority of the securities of such insurer present, or represented, and entitled to vote at a meeting duly held in accordance with the applicable laws of the State of Indiana, or (2) by the written consent of the holders of a majority of the securities of such insurer entitled to vote: provided, however, that if such vote or written consent was not solicited substantially in accordance with the proxy rules and regulations prescribed by the National Association of Insurance Commissioners, if any, in effect at the time of such vote or written consent, the insurer shall furnish in writing to the holders of record of the securities entitled to vote for the plan substantially the same information concerning the plan which would be required by any such rules and regulations so prescribed and in effect at the time such information is furnished, if proxies to be voted with respect to the approval or disapproval of the plan were then being solicited, on or prior to the date of the first annual meeting of security holders held subsequent to the later of (i) the date the Act first applies to such insurer, or (ii) the acquisition of an equity security for which exemption is claimed. Such written information may be furnished by mail to the last known address of the security holders of record within 30 days prior to the date of mailing. Four copies of such written information shall be filed with, or mailed for filing to, the Commissioner not later than the date on which it is first sent or given to security holders of the insurer. For the purposes of this paragraph, the term "insurer" includes a predecessor corporation if the plan or obligations to participate thereunder were assumed by the insurer in connection with the succession.

(b) If the selection of any director or officer of the insurer to whom stock may be allocated or to whom qualified, restricted or employee stock purchase plan stock options may be granted pursuant to the plan, or the determination of the number or maximum number of shares of stock which may be allocated to any such director or officer or which may be covered by qualified, restricted or employee stock purchase plan stock options granted to any such director or officer, is subject to the discretion of any person, then such discretion shall be exercised only as follows:

(1) With respect to the participation of directors—

(A) by the board of directors of the insurer, a majority of which board and a majority of the directors acting in the matter are disinterested persons;

(B) by, or only in accordance with the recommendations of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons; or

(C) otherwise in accordance with the plan, if the plan (i) specifies the number or maximum number of shares of stock which directors may acquire or which may be subject to qualified, restricted or employee stock purchase plan stock options granted to directors and the terms upon which, and the times at which, or the periods within which, such stock may be acquired or such options may be acquired and exercised; or (ii) sets forth, by formula or otherwise, effective and determinable limitations with respect to the foregoing based upon earnings of the insurer, dividends paid, compensation received by participants, options prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time, or similar factors.

(2) With respect to the participation of officers who are not directors—

(A) by the board of directors of the insurer or a committee of three or more directors; or
(B) by, or only in accordance with the recommendations of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons.

For the purpose of this paragraph, a director or committee member shall be deemed to be a disinterested person only if such person is not at the time such discretion is exercised eligible and has not at any time within one year prior thereto been eligible for selection as a person to whom stock may be allocated or to whom qualified, restricted or employee stock purchase plan stock options may be granted pursuant to the plan or any other plan of the insurer or any of its affiliates entitling the participants therein to acquire stock or qualified, restricted or employee stock purchase plan stock options of the insurer or any of its affiliates.

(3) The provisions of this paragraph shall not apply with respect to any option granted, or other equity security acquired, prior to the date that Sections 1, 2 and 3 [[IC 27-2-10-1](#) – [IC 27-2-10-3](#)] of the Act first become applicable with respect to any class of equity securities of any insurer.

(c) As to each participant or as to all participants the plan effectively limits the aggregate dollar amount or the aggregate number of shares of stock which may be allocated, or which may be subject to qualified, restricted, or employee stock purchase plan stock options granted, pursuant to the plan. The limitations may be established on an annual basis, or for the duration of the plan, whether or not the plan has a fixed termination date; and may be determined either by fixed or maximum dollar amounts or fixed or maximum numbers of shares or by formulas based upon earnings of the insurer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time, or similar factors which will result in an effective and determinable limitation. Such limitations may be subject to any provisions for adjustment of the plan or of stock allocable or options outstanding thereunder to prevent dilution or enlargement of rights.

(d) Unless the context otherwise requires, all terms used in this section shall have the same meaning as in the Act [[IC 27-2-10](#)] and in Section 1 [[760 IAC 1-12-2](#)] of these regulations. In addition, the following definitions apply:

(1) The term "plan" includes any plan, whether or not set forth in any formal written document or documents and whether or not approved in its entirety at one time.

(2) The definition of the terms "qualified stock option" and "employee stock purchase plan" that are set forth in Sections 422 and 423 of the Internal Revenue Code of 1954, as amended, are to be applied to those terms where used in this section. The term "restricted stock option" as defined in Section 424(b) of the Internal Revenue Code of 1954, as amended, shall be applied to that term as used in this section, provided however, that for the purposes of this section an option which meets all of the conditions of that Section, other than the date of issuance shall be deemed to be a "restricted stock option."

(3) The term "exercise of an option, warrant or right" contained in the parenthetical clause of the first paragraph of this section shall not include (i) the making of any election to receive under any plan and award of compensation in the form of stock or credits therefore, provided, that such election is made prior to the making of the award; and provided further that such election is irrevocable until at least six months after termination of employment; (ii) the subsequent crediting of such stock; (iii) the making of any election as to a time for delivery of such stock after termination of employment, provided that such election is made at least six months prior to any such delivery; (iv) the fulfillment of any condition to the absolute right to receive such stock; or (v) the acceptance of certificates for shares of such stock.

Sec. 1. Authority and Purpose of Regulation. The following rules [[760 IAC 1-13](#)] are promulgated pursuant to the rule making authority provided in Indiana Insurance Law of 1935, Acts 1935, Chapter 162, Section 14 [[IC 27-1-3-7](#)], Page 588, Section 39-3311 [[IC 27-1-3-7](#)], Burns Indiana Statutes Annotated, and to implement the provisions of the "Unfair Competition and Practice Act," being Acts of 1947, Chapter 112 [[IC 27-4-1](#)], Page 328, as amended in the Acts of 1955, Chapter 10, Section 1 [[IC 27-4-1-4](#)], Page 8, being Section 39-5304 [[IC 27-4-1-4](#)] of Burns Indiana Statutes Annotated. The procedure followed in adopting these rules is that prescribed in the uniform method of promulgating rules by agencies of the State of Indiana, being Acts of 1945, Chapter 120 [[IC 4-22-2](#)], Page 250, and being Section 60-1501 through 60-1511 [[IC 4-22-2](#)] of Burns Indiana Statutes Annotated. The purpose of these rules is to identify, clarify and prohibit certain acts and practices which are considered to be unsound methods of transacting the life insurance business in Indiana or unfair and deceptive acts and practices in the transaction of the business of life insurance in Indiana as provided by law and to establish certain requirements in the solicitation and sale of life insurance in Indiana to the end that policyholders and the insurance buying public shall not be misinformed or misled concerning contracts of life insurance or annuities purchased by them. No insurance company, insurance agent or insurance company representative shall deliver within this state, or issue for delivery within this state, any life insurance policy or contract of annuity in which are used such words as "investment plan," "expansion plan," "profit-sharing," "charter plan," "founders plan," "surplus-sharing," or similar language in such context or under such circumstances or conditions as to have the capacity or tendency to mislead a purchaser or prospective purchaser of life insurance to believe that he will receive or that it is probable he will receive something other than an insurance policy, or contract, or some benefit not provided in the policy or contract or some benefit not available to other persons of the same class and equal expectation of life. Sec. 3. No insurance company, insurance agent or insurance company representative shall deliver within this state, or issue for delivery within this state, a policy of life insurance containing benefits in the form of "coupons" or "guaranteed annual endowment" benefits unless the premium charged for the insurance coverage and the premium charged for the "coupons" or "guaranteed annual endowment" benefits are prominently specified in the policy separately from each other in dollar amounts. This Rule 2 [*this section*] shall not apply to any policy in which the amount of any pure endowment or periodic benefit or benefits payable during any policy year is greater than the total annual premium for such year.

In connection therewith, the policy must provide for a distinction between the surrender values available under the insurance coverage as distinct from the "coupon" or "guaranteed annual endowment" benefits. This is to be accomplished by the use of a separate "table of values" in the policy. Sec. 5. No life insurance company and no agent, solicitor, broker, or representative of such company shall, within this state:

- (1) Make any statement or reference relating to the growth of the life insurance industry or to the tax status of life insurance companies in connection with any solicitation of an application for life insurance in a context which would reasonably be understood to interest a prospect in the purchase of shares of stock in an insurance company rather than in the purchase of a life insurance policy;
- (2) Make any statement which reasonably gives rise to the inference that the insured or prospective insured will enjoy a status common to a stockholder or will acquire a stock ownership interest in the insurance company by virtue of purchasing the life insurance policy;
- (3) Make any reference to or statement concerning a company's "Investment Department," "Insured Investment Department," or similar terminology in such a manner as to imply that the policy was sold or issued or is serviced by the investment department of the life insurance company;

- (4) Make any statement or reference which would reasonably tend to imply that by purchasing a policy, the purchaser or prospective purchaser will become a member of a limited group of persons who may receive, in the payment of dividends, special advantages, benefits, or favored treatment unless such is specifically provided in the insurance contract; this clause has no relation or applicability to policies under which insured persons of one class of risk may receive dividends at a higher rate than persons of another class of risk;
- (5) State or imply that only a limited number of persons, or limited class of persons, will be eligible to buy a particular kind of policy, unless such limitation is related to recognized underwriting practices and can be verified by the underwriting practices of the company;
- (6) State or imply that policyholders who act as "centers of influence" for an insurance company will share, because of so acting, in the company's surplus earnings in some manner not available to other policyholders who are otherwise in the same class;
- (7) State or imply that the principal amounts payable under coupons which may be attached to a life insurance policy represent interest, earnings, return on investment, or anything other than policy benefits, the cost of which is included in the total premium shown in the policy;
- (8) Describe or refer to premium payments in language which states the payment is a "deposit," unless:
 - (a) the payment establishes a debtor-creditor relationship between the life insurance company and the policyholders and a showing is made as to when and how the deposit may be withdrawn; or
 - (b) the term is used in conjunction with the word "premium" or similar language in such a manner as to clearly indicate the true character of the payment;
- (9) Provide any illustration or projection of future dividends on any policy unless:
 - (a) the illustration or projection is based on the experience currently used by the company for dividends or upon a scale adopted by the company, and
 - (b) the illustration or projection clearly indicates that the dividends shown are not guaranteed;
- (10) Use the words "dividends," "cash dividends," "surplus," or similar phrases in such a manner as to state or imply that the payment of dividends is guaranteed or certain to occur;
- (11) State or imply that a purchaser of a policy will share in a stated percentage or portion of the earnings of the company, unless such is specifically provided in the Insurance Contract;
- (12) Make any statement or imply that projected dividends under a participating policy will be or can be sufficient at any time to assure the receipt of benefits, such as a paid-up policy without the further payment of premiums, unless the statement is accompanied by an adequate explanation as to:
 - (a) what benefits or coverage would be provided or discontinued at such time;
 - (b) the conditions under which this would occur;
- (13) Describe a life insurance policy or premium payments therefor in terms of "units of participation" unless accompanied by other language fairly indicating their reference to a life insurance policy or to premium payments, as the case may be;
- (14) Include in sales kits and prepared sales presentations proposed answers to a prospect's questions as to whether life insurance is being sold which are designed to avoid a clear and unequivocal statement that life insurance is the subject matter of the solicitation;
- (15) State that the insured is guaranteed certain benefits if the policy is allowed to lapse without making an adequate explanation of the nonforfeiture benefits;
- (16) Display to a prospective policyholder any printed material which includes illustrations, using dollar amounts, in connection with the proposed sale of a life insurance policy or endowment benefits unless the printed material clearly identifies the subject to which the dollar amounts pertain and the subject has an economic relationship to the guaranteed values and dividends of the policy;
- (17) Make any statement that a company makes a profit as a result of policy lapses or surrenders;
- (18) Make comparisons to the past experience of other life insurance companies as a means of projecting possible experience of the soliciting company when the comparisons are designed to enhance the characteristics of the policy being sold by confining the comparisons to companies having favorable experience with that type of policy without a fair disclosure of companies which have had unfavorable experience and omitting references to other companies which have had unfavorable experience with such type policies, when it is within the knowledge of the company or agent that other companies have had such unfavorable experience;
- (19) Fail or omit to indicate in a writing left with the applicant at the time an application for any life insurance policy containing

"coupon" or "guaranteed annual endowment" benefits is obtained that there will be separately stated premium charge for these benefits; provided, however, that this clause (19) shall not apply where the amount of any pure endowment or periodic benefit or benefits payable during any policy year is greater than the total annual premium for such year.

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-23-3](#)

Sec. 11. (a) Any authorized insurer may file a registration statement on behalf of any affiliated insurer or insurers which are required to register under [IC 27-1-23-3](#). A registration statement may include information regarding any insurer in the insurance holding company system even if such insurer is not authorized to do business in this state. In lieu of filing a registration statement on Form B, the authorized insurer may file a copy of the registration statement or similar report which it is required to file in its state of domicile, provided:

- (1) the statement or report contains substantially similar information required to be furnished on Form B; and
- (2) the filing insurer is the principal insurance company in the insurance holding company system.

The question of whether the filing insurer is the principal insurance company in the insurance holding company system is a question of fact, and an insurer filing a registration statement or report in lieu of Form B on behalf of an affiliated insurer shall set forth a simple statement of facts which will substantiate the filing insurer's claim that it, in fact, is the principal insurer in the insurance holding company system.

(b) Any authorized insurer may take advantage of [IC 27-1-23-3\(h\)](#) or [IC 27-1-23-3\(i\)](#) without obtaining the prior approval of the commissioner. The commissioner, however, reserves the right to require individual filings if the commissioner deems such filings necessary in the interest of clarity, ease of administration, or the public good.

(c) A foreign or alien insurer otherwise subject to [IC 27-1-23-3](#) shall not be required to register if in the domiciliary state it is subject to disclosure requirements and standards adopted by statute or regulation which are substantially similar to those contained in [IC 27-1-23-3](#), provided, the commissioner may require a copy of the registration statement or other information filed with the domiciliary state or the principal insurer.

(d) The state of entry of an alien insurer shall be deemed to be its domiciliary state for purposes of [IC 27-1-23-3](#).

(e) Any insurer not otherwise exempt or excepted from [IC 27-1-23-3](#) may apply for an exemption by submitting a statement to the commissioner of the department of insurance setting forth its reason for being exempt.

(f) An amendment to Form B shall be filed by a registered insurer within fifteen (15) days after the end of the month in which it learns of any material change or addition in the information required to be furnished on Form B. An annual financial statement, an annual report to shareholders, and any proxy material of the ultimate controlling person shall be deemed a material change or addition requiring the filing of an amendment to Form B. Sec. 12. (a) Requests by domestic insurers for approval of extraordinary dividends or any other extraordinary distribution to security holders shall include the following:

- (1) The:
 - (A) date established for payment of the dividend; and
 - (B) amount of the proposed dividend.
- (2) A statement as to whether the dividend is to be in cash or other property and, if in property, a description thereof, its cost, and its fair market value together with an explanation of the basis for valuation.
- (3) The amounts and dates of all dividends or distributions (including regular dividends but excluding distributions of the insurer's own securities) paid within the period of twelve (12) consecutive months ending on the date fixed for payment of the proposed dividend for which approval is sought and commencing on the day after the same day of the same month in the last preceding year.
- (4) Surplus as regards policyholders (total capital and surplus) as of the thirty-first day of December next preceding.
- (5) A brief statement as to the effect of the proposed dividend upon the insurer's surplus and the reasonableness of surplus in

relation to the insurer's outstanding liabilities and the adequacy of surplus relative to the insurer's financial needs, including an analysis of the factors contained in [IC 27-1-23-4\(f\)](#).

(6) If the insurer is a life insurer, the net gain from operations for the twelve (12) month period ending December 31 next preceding.

(7) If the insurer is not a life insurer, the net income less realized capital gains for the twelve (12) month period ending December 31 next preceding and the two (2) preceding twelve (12) month periods.

(8) If the insurer is not a life insurer, the dividends paid to security holders in the preceding two (2) calendar years.

(9) If the insurer is not a life insurer, the dividends paid to stockholders excluding distributions of that insurer's own securities in the preceding two (2) calendar years.

(10) A balance sheet and statement of income for the period intervening from the last annual statement filed with the commissioner and the end of the month preceding the month in which the request for dividend approval is submitted.

(b) The factors set forth in [IC 27-1-23-4\(f\)](#) are not intended to be an exhaustive list. In determining the adequacy and reasonableness of an insurer's surplus, no single factor shall be controlling. The commissioner, instead, will consider the net effect of all of these factors, plus other factors bearing on the financial condition of the insurer. In comparing the surplus maintained by other insurers, the commissioner will consider the extent to which each of these factors varies from company to company and in determining the quality and liquidity of investments in subsidiaries, the commissioner will consider the individual subsidiary and may discount or disallow its valuation to the extent that the individual investments so warrant. Sec. 1. Basic Principles of Interpretation. The proper promotion, sale and expansion of accident and sickness insurance are in the public interest, and the Rules [760 IAC 1-18] are to be construed in such a manner as not to restrict, inhibit or retard such promotion, sale and expansion.

In applying the Rules [760 IAC 1-18] it must be recognized that advertising plays an essential part in promoting a broader distribution of accident and sickness insurance. Advertising necessarily seeks to serve this purpose in various ways. Some advertisements are the direct or principal sales inducement and are designed to invite offers to contract. In other advertisements the function is to describe coverage broadly for the purpose of inviting inquiry for further information. Still other advertisements are solely for the purpose of promoting the reader's interest in the concept of accident and sickness insurance or of promoting the insurer sponsoring the advertisement. These differences should be given recognition through interpretation of the Rules [760 IAC 1-18]. Further, it should be recognized that exceptions, reductions and limitations have an important role in defining coverage for the purpose of keeping insurance costs within reasonable bounds.

Therefore, when applying the Rules [760 IAC 1-18] to a specific advertisement, it will be necessary to take into consideration the detail, character, purpose, use and entire content of the advertisement. (*Department of Insurance; Reg 19; filed May 9, 1972, 4:15 pm: Rules and Regs. 1973, p. 401; readopted filed Sep 14, 2001, 12:22 p.m.: 25 IR 531; readopted filed Nov 27, 2007, 4:01 p.m.: [20071226-IR-760070717RFA](#); readopted filed Nov 26, 2013, 3:43 p.m.: [20131225-IR-760130479RFA](#); readopted filed Nov 19, 2019, 9:18 a.m.: [20191218-IR-760190497RFA](#))*

Sec. 2. Specific Principles of Interpretation. The Rules [760 IAC 1-18] apply to group as well as individual accident and sickness insurance. Because the two differ widely in many respects, it follows that one interpretation will not always suffice for both. When that is the case, a specific interpretation for group is set forth. Some of the distinctions between individual and group that should be taken into account in applying the Rules [760 IAC 1-18] are:

- (1) Frequently the prospective group policyholder is thoroughly conversant with insurance or employs competent insurance advisors.
- (2) Group plans are often the result of collective bargaining whereunder the plan must continue in existence for a specified period of time even though the insurance carrier may be changed.
- (3) Many group contracts are tailor-made to fit the policyholder's particular situation and are the result of extensive negotiations.
- (4) Group insurance generally contemplates that all or part of the premium is to be paid by the group policyholder.
- (5) The insurance provided by a group plan may be underwritten by several different insurers.
- (6) Much group insurance material is prepared and published after the contract is written.
- (7) Some states have statutory forms of group coverage.

NOTE: Notwithstanding the principles set out above, the interpretations which follow are intended for purposes of guidance only, and are not considered by the Indiana Department of Insurance as being all-inclusive. Where appropriate, a particular set of facts will be governed by recourse to the interpretations of the rules included herein; however, the rules may be interpreted other than as expressed herein in any case where the Department, in its discretion, feels that such treatment is warranted. DEPARTMENT OF INSURANCE

(b) descriptive literature and sales aids of all kinds issued by an insurer for presentation to members of the public, including but not limited to circulars, leaflets, booklets, depictions, illustrations, and form letters; and

(c) prepared sales talks, presentations and material for use by agents and brokers, and representations made by agents and brokers in accordance therewith.

(2) The term "policy" for the purpose of these regulations shall include any policy, plan, certificate, contract, agreement, statement of coverage, rider or endorsement which provides accident or sickness benefits, or medical, surgical or hospital expense benefits, whether on a cash indemnity, reimbursement, or service basis, except when issued in connection with another kind of insurance other than life, and except disability and double indemnity benefits included in life insurance and annuity contracts.

(3) The term "insurer" for the purpose of these regulations shall include any individual, corporation, association, partnership, reciprocal exchange, inter-insurer, Lloyds, fraternal benefit society, and any other legal entity engaged in the advertisement of a policy as herein defined.

(4) The term "exception" shall mean any provision in a policy whereby coverage for a specified hazard is entirely eliminated; it is a statement of risk not assumed under the policy.

(5) The term "reduction" shall mean any provision which reduces the amount of the benefit; a risk of loss is assumed but payment upon the occurrence of such loss is limited to some amount or period less than would be otherwise payable had such reduction clause not been used.

(6) The term "limitation" shall mean any provision which restricts coverage under the policy other than an exception or a reduction.

Interpretation of Section A 1 (a)

Advertisements for the sole purpose of obtaining employees, agents, agencies or brokers are among those not to be considered within the definition of an advertisement.

Interpretation of Section A 1 (b)

The definition of the word "Advertisement" is intended to include material used in the solicitation of renewals and reinstatements except for communications or notices which mention the cost of the insurance but do not describe benefits. It does not include: material in house organs of insurers; communications within an insurer's own organization not intended for dissemination to the public; individual communications of a personal nature; nor correspondence between a prospective group policyholder and an insurer in the course of negotiating a group contract.

With respect to existing groups, reprints of group booklets after the effective date of the Rules [760 IAC 1-18] shall be considered within the definition of an advertisement however, until January 1, 1973, insurance companies shall not be prohibited from distributing already printed group booklets.

A general announcement from a group policyholder to eligible individuals that a contract has been written is not intended to be an advertisement within the meaning of the Rules [760 IAC 1-18] if it clearly indicates that it is preliminary to a booklet.

Interpretation of Section A 1 (c)

Materials to be used solely for the training and education of its employees, agents or brokers are not within the purview of the Rules [760 IAC 1-18].

Interpretation of Section A 2

The language in Section A 2 "except disability and double indemnity benefits included in life insurance and annuity contracts" shall be interpreted to mean, "except disability and double indemnity benefits included in life insurance endowment or annuity contract or contracts supplemental thereto which contain only such provisions relating to accident and sickness insurance as (a) provide additional benefits in case of death or dismemberment or loss of sight by accident, or as (b) operate to safeguard such contracts against lapse, or to give a special surrender value or special benefit or an annuity in the event that the insured or annuitant shall become totally and permanently disabled, as defined by the contract or supplemental contract."

Interpretation of Section A 3

An insurer is not responsible for an advertisement which is not under its direct or indirect control. Sec. 4. Section B. STANDARDS. ADVERTISEMENTS IN GENERAL. Advertisements shall be truthful and not misleading in fact or in implication. Words or phrases the meaning of which is clear only by implication or by familiarity with insurance terminology shall not be used. Interpretation of Section B 1

The purpose of the first sentence of Section B 1 is twofold. First, it states the general purpose of the Rules [760 IAC 1-18] by prohibiting advertisements which are not only false but which may mislead either in fact or by implication. It does for instance recognize that advertisements may be misleading even though literally true and capable of proof. Secondly, it establishes a broad principle designed to prohibit untruthful and misleading advertisements in addition to those principles covered by specific sections of the Rules [760 IAC 1-18]. To that extent it may be considered a "catch-all" rule.

The second sentence of this section is intended to prohibit the use of incomplete statements and words or phrases which, because of the reader's unfamiliarity with insurance terminology, have the tendency and capacity to mislead or deceive. It places no prohibition on the use of any particular words or phrases but does require that all terminology used in an advertisement, whether it be insurance terminology or otherwise, be sufficiently clear so as to avoid being misleading. In interpreting this particular portion of Section B 1, it must be recognized that insurance terminology is often essential to properly explain the coverage being advertised.

As a general principle, words or phrases which are commonly understood by the public with respect to insurance, for example, such words or phrases as premiums, policies, contracts, reinstatement, lapse, grace period, capital, assets, investments, legal reserve, insurer, insured, policyholders, insurance company and insurance usually need not be further clarified in the context of the advertisement. However, certain words or phrases may, unless adequately clarified in the context of the advertisement, mislead those who are not familiar with insurance terminology. (*Department of Insurance; Reg 19, Sec B1; filed May 9, 1972, 4:15 pm: Rules and Regs. 1973, p. 404; readopted filed Sep 14, 2001, 12:22 p.m.: 25 IR 531; readopted filed Nov 27, 2007, 4:01 p.m.: [20071226-IR-760070717RFA](#); readopted filed Nov 26, 2013, 3:43 p.m.: [20131225-IR-760130479RFA](#); readopted filed Nov 19, 2019, 9:18 a.m.: [20191218-IR-760190497RFA](#))*

760 IAC 1-18-5 Benefits payable, losses covered or premiums payableAuthority: [IC 27-1-3-7](#)Affected: [IC 27-4-1-4](#)

Sec. 5. ADVERTISEMENTS OF BENEFITS PAYABLE, LOSSES COVERED OR PREMIUMS PAYABLE. (a) Deceptive Words, Phrases or Illustrations. Words, phrases or illustrations shall not be used in a manner which misleads or has the capacity and tendency to deceive as to the extent of any policy benefit payable, loss covered or premium payable. An advertisement relating to any policy benefit payable, loss covered or premium payable shall be sufficiently complete and clear as to avoid deception or the capacity and tendency to deceive.

Explanation:

(i) The words and phrases "all", "full", "complete", "comprehensive", "unlimited", "up to", "as high as", "this policy will pay your hospital and surgical bills" or "this policy will replace your income" or similar words or phrases shall not be used so as to exaggerate any benefit beyond the terms of the policy, but may be used only in such manner as fairly to describe such benefit.

(ii) A policy covering only one disease or a list of specified diseases shall not be advertised so as to imply coverage beyond the terms of the policy. Synonymous terms shall not be used to refer to any disease so as to imply broader coverage than is the fact.

(iii) The benefits of a policy which pays varying amounts for the same loss occurring under different conditions, or which pays benefits only when a loss occurs under certain conditions, shall not be advertised without disclosing the limited conditions under which the benefits referred to are provided by the policy.

(iv) Phrases such as "this policy pays \$1,800 for hospital room and board expenses" are incomplete without indicating the maximum daily benefit and the maximum time limit for hospital room and board expenses.

(b) Exceptions, Reductions and Limitations

When an advertisement refers to any dollar amount, period of time for which any benefit is payable, cost of policy, or specific policy benefit or the loss for which such benefit is payable, it shall also disclose those exceptions, reductions and limitations affecting the basic provisions of the policy without which the advertisement would have the capacity and tendency to mislead or

deceive.

Explanation:

(i) Waiting, Elimination, Probationary or Similar Periods

When a policy contains a time period between the effective date of the policy and the effective date of coverage under the policy or a time period between the date a loss occurs and the date benefits begin to accrue for such a loss, an advertisement shall disclose the existence of such periods.

(ii) Pre-existing Conditions

(a) An advertisement shall disclose the extent to which any loss is not covered if the cause of such loss is traceable to a condition existing prior to the effective date of the policy.

(b) When a policy does not cover losses traceable to pre-existing conditions, no advertisement of the policy shall state or imply that the applicant's physical condition or medical history will not affect the issuance of the policy or payment of a claim thereunder. This limits the use of the phrase "no medical examination required" and phrases of similar import.

Interpretation of Section B 2 *[this section]* generally

To interpret Section B 2 *[this section]* properly, it is necessary, first, to distinguish between Sections B 2(a) and B 2(b) *[subsections (a) and (b) of this section]*. Generally, the purpose of Section B 2(a) *[subsection (a) of this section]* is to prevent an insurer from exaggerating the extent of policy benefits or minimizing cost by using phraseology which either overstates benefits or is so incomplete as to leave an exaggerated idea of benefits in the mind of the reader. The first sentence of the Section and Explanations (i) and (ii) prohibit and explain exaggeration by overstatement. The second sentence of the Section and Explanations (iii) and (iv) prohibit and explain exaggeration by incompleteness.

Section B 2(b) *[subsection (b) of this section]* extends this principle of "no exaggeration." In essence it states that in certain types of advertisements the only way that exaggeration of benefits can be avoided is to set forth in the same advertisements certain of the limitations, exceptions and reductions affecting the benefits described.

Section B 2(a) *[subsection (a) of this section]* applies to any advertisement which discusses benefits. Section B 2(b) *[subsection (b) of this section]* applies only to an advertisement which discusses benefits to the extent of mentioning the dollar amount or time limit of the benefits or cost of the policy or benefits thereunder.

Because the basic purpose of both Rules *[subsections (a) and (b) of this section]* is the same—to prevent exaggeration, they must necessarily overlap at times. For example: In advertising a policy which contains an aggregate benefit limit, it would be improper to use alone the phrase, "no limit on the number of claims" because the second sentence of Section B 2(a) *[subsection (a) of this section]* requires completion of the statement in some manner like "no limit on the number of claims until the aggregate amount X dollars has been paid." If elsewhere the advertisement contains a discussion of dollar amount or time limit of benefits or cost of the policy or its benefits, Section B 2(b) *[subsection (b) of this section]* requires that the aggregate amount be set forth because it is an important "limitation." Therefore, in this example, the aggregate amount should be set out because both Sections B 2(a) *[subsection (a) of this section]* and B 2(b) *[subsection (b) of this section]* require it.

The distinction between Sections B 2(a) *[subsection (a) of this section]* and B 2(b) *[subsection (b) of this section]* can best be explained as follows: Section B 2(a) *[subsection (a) of this section]* is only concerned with phraseology of benefit descriptions in an advertisement. Section B 2(b) *[subsection (b) of this section]* is not primarily concerned with phraseology, but, in advertisements to which it applies, in having certain limitations, exceptions and reductions set forth. It is simply coincidental that to meet the phraseology requirements of Section B 2(a) *[subsection (a) of this section]* it may sometimes be necessary to describe a limitation, exception or reduction.

Interpretation of Section B 2(a) *[subsection (a) of this section]* specifically

In interpreting Section B 2(a) *[subsection (a) of this section]* the following suggestions should be observed:

(1) Language which states or implies that a certain age group or groups are eligible for coverage when such is not the fact is unacceptable.

(2) Language which states or implies that each member under a "family" contract is covered as to the maximum benefits advertised when such is not the fact is unacceptable.

(3) Advertisements which indicate that a particular coverage or policy is exclusively for "preferred risks" or a particular segment of people are unacceptable if in the issuance of policies such distinctions are not maintained.

(4) The importance of diseases rarely or never found in the class of persons to whom the policy is offered shall not be exaggerated in an advertisement.

(5) Section B 2(a)(iii) *[subsection (a)(iii) of this section]* applies only to "limited benefit" type policies, the term to be given the

connotation it usually receives in the industry.

(6) A limited benefit-type policy should be identified as such when advertised by disclosure of its limited character.

For example, automobile, air and railroad travel policy advertisements should disclose that they are limited to accidents resulting from automobile, air or railroad travel, as the case may be, as well as the limited manner in which the accident must occur, including any unusual conditions.

Advertising of policies which are specifically tailored to augment benefits available to medicare insureds should disclose in unmistakable language what medicare benefits the policy is designed to supplement, e.g., hospital benefits only and further which medicare benefits it will not supplement, e.g., does not pay doctors bills.

(7) Examples of what benefits may be paid under a policy shall not disclose only maximum benefits unless such maximum benefits are paid for losses from common and probable illnesses rather than exceptional or rare illnesses.

(8) When a range of hospital room rate benefits is set forth in an advertisement, it must be made clear that the insured will receive only the room rate benefit written or printed in the policy selected. Language which implies that the insured may select his room rate benefit at the time of hospitalization is unacceptable.

(9) Language which implies that the amount of benefits payable under a loss-of-time policy may be increased at time of disability according to the needs of the insured, is unacceptable.

(10) The term "confining sickness" is an abbreviated expression and in the case of either lifetime benefits or benefits for shorter periods the term must be explained in the advertisement. An example of an acceptable explanation would be: "Benefits are payable for total disability due to confining sickness only so long as the insured is necessarily confined indoors." Captions such as "Lifetime Sickness Benefits" or "Five Year Sickness Benefits" are incomplete if such benefits are subject to confinement requirements. When sickness benefits are subject to confinement requirements, captions such as "Lifetime Confining Sickness Benefits" or "Five Year Confining Sickness Benefits" would be acceptable.

(11) The following are specific examples of the type of advertising prohibited or permitted by Section B 2(a) [*subsection (a) of this section*]:

- Advertisements shall not state that the insurer—
- "pays hospital, surgical, etc. bills,"
- "pays dollars to offset the cost of medical care,"
- "safeguards your standard of living,"
- "pays full coverage" or "pays complete coverage,"
- "pays for financial needs,"
- "provides for replacement of your lost paycheck,"

unless the statement in each instance is literally true. Where appropriate such or similar words or phrases may properly be used if preceded by the words "help," "aid," "assist" or similar words or phrases. Advertisements shall not emphasize the total amounts payable under hospital indemnity coverage or other benefits in such policy, such as benefits for private duty nursing, unless it provides with substantially equal prominence and in close conjunction with such statements the actual amounts payable per day for such indemnity or benefit.

(12) Advertisements which state that the premiums will not be changed in the future are not acceptable, unless such is the fact.

Any solicitation which states or implies immediate coverage or guaranteed issuance of a policy shall be made only if suitable administrative procedures exist so that the policy is issued within a reasonable time after the application is received.

Interpretation of Section B 2(b) [*subsection (b) of this section*] specifically

That part of Section B 2(b) [*subsection (b) of this section*] which reads as follows:

"When an advertisement refers to any dollar amount, period of time for which any benefit is payable, cost of policy, or specific policy benefit or the loss for which such benefit is payable, ***."

attempts to define the type of advertisement which must meet the requirements set forth in the remaining language of the Section.

The words "dollar amount" appearing above should be interpreted as meaning "dollar amount of benefits."

It is possible to have an advertisement which does not specifically mention dollar, time or cost, but accomplishes the same objective by indirection. For example, if there were a hospital and surgical expense policy which paid all incidental hospital expenses, it might be advertised as follows: "When you are covered under our hospital and surgical expense policy, we pay all your incidental hospital expenses." Or an advertisement of a major medical expense policy may truthfully promise to pay 75% of hospital, medical and surgical expenses in excess of the deductible. In both of these examples, language is employed which is sufficiently specific to indirectly disclose to the reader the dollar amount to which he may become entitled. The language of the rule mentioned

above, to wit: "specific policy benefit or the loss for which such benefit is payable" was inserted to describe this type of advertisement.

As was noted in the "Basic Principles of Interpretation" advertisements generally fall within three categories. To properly apply the philosophy expressed in the first paragraph of the "Basic Principles", the meaning of Section B 2(b) *[subsection (b) of this section]* must be examined in the light of each category. The first category of advertisements includes those which are the direct or principal sales inducements and are designed to invite offers to contract, i.e., clearly attempt to persuade the reader or listener to purchase the policy or policies advertised. When such an advertisement mentions dollar amount or time limit of benefits or cost of policy or policy benefits, it is always subject to the limitations imposed by the mandatory portion of Section B 2(b) *[subsection (b) of this section]*.

The second category of advertisements includes those designed to attract the reader's interest in the policy or policies advertised so that he will inquire for further details and information. This type of advertisement usually describes benefits broadly. It may make some mention of dollar amount, time limits or cost. Such mention, however, does not in itself mean that the requirements of Section B 2(b) *[subsection (b) of this section]* are applicable if the advertisement clearly falls within the category of an invitation to inquire.

To illustrate the foregoing: A brief television commercial or a direct mail card may state, "X company invites you to inquire for full information about their \$14 a day hospital expense policy." This advertisement is obviously not in the first category, an invitation to contract, but rather in the second category, an invitation to inquire. The viewer or reader could not reasonably decide to purchase the policy described on the basis of the information given even though it does mention a dollar amount.

But suppose the advertisement states, "X company invites you to inquire for full information about its \$14 a day hospital expense policy which will cost you only 4¢ a day." Unlike the first example, it is more than a mere invitation to inquire for further details and should fall within the scope of Section B 2(b) *[subsection (b) of this section]*. The distinction between the two advertisements is plain, if it is borne in mind, in the examples given that at least two kinds of information are needed by a prospective purchaser to determine whether he wishes to buy. He needs to know (1) what he will get, and (2) what it will cost. If he only knows what he will get without knowing the cost or if he knows only what he must pay without knowing what he will get, his only reasonable course is to seek further information. The principle followed in the above examples is that if those advertisements which fall within the category of an invitation to inquire withhold some facts without which no one could reasonably decide to buy the policies advertised, such advertisements are not subject to the limitations imposed by Section B 2(b) *[subsection (b) of this section]*. It should be recognized that there is no single conclusive test and that each advertisement is weighed individually.

It is also true that if the description of dollar, time or cost is merely for the purpose of identifying the policy, Section B 2(b) *[subsection (b) of this section]* should not apply. Conversely, if the mention of dollar, time or cost is for the purpose of doing more than identifying the policy, Section B 2(b) *[subsection (b) of this section]*, may apply.

Thus, it can be seen that many advertisements falling within the "invitation to inquire" category are not subject to the requirements of Section B 2(b) *[subsection (b) of this section]*, but as has been shown, there will be times when their language is such as to make compliance necessary.

The third category of advertisements includes those of an institutional type. Rarely is it likely that dollar amounts, time limits, or cost will be mentioned in this class. Section B 2(b) *[subsection (b) of this section]*, therefore, has little or no application to advertisements in this category.

The phrase "no medical examination required" and phrases of similar import referred to in Rule B 2(b) (ii) (b) *[subsection (b) (ii) (b) of this section]* may be used, provided that (1) they are modified to indicate that they apply only to the issuance of the policy or to both issuance of the policy and payment of claims, whichever the case may be, (e.g. "No medical examination required to apply"; "No medical examination to apply for the policy or any benefits") and (2) additional wording is included in close conjunction with the phrases to indicate any time period following the effective date of the policy during which losses traceable to preexisting conditions are not covered. (E.g., "preexisting conditions not covered during first ____ years the policy is in force.")

We turn now to consideration of the mandatory portion of Section B 2(b) *[subsection (b) of this section]* which reads as follows: "*** it shall also disclose those exceptions, reductions and limitations affecting the basic provisions of the policy without which the advertisement would have the capacity and tendency to mislead or deceive."

Where Section B 2(b) *[subsection (b) of this section]* applies, it is clear that it is not necessary to disclose all exceptions, reductions and limitations. The following are examples of exceptions, reductions and limitations that generally do affect the basic provisions and "without which the advertisement would have the capacity and tendency to mislead or deceive." Also included are examples of those that generally are not of sufficient significance to affect the basic provisions or to mislead if omitted. The lists are not intended to be complete and the advertiser should use the lists as a guide in determining the character of exceptions,

reductions and limitations that do not appear.

Some advertisements of the first category relating to hospital indemnity coverage when used in newspaper and magazine advertising, which contain an application form or otherwise invite offers to contract, may disclose exceptions, reductions or limitations as required by Section B 2(b) [subsection (b) of this section] but the advertisement is so lengthy as to obscure the disclosure of the preexisting condition exclusion, the limitation on the payment of benefits for the first ____ days of hospital confinement if any, or the fact that the policy does not pay physician's benefits. In such circumstances special emphasis shall be given to such applicable exceptions, reductions or limitations in a prominent or clearly noticeable area in such advertisement. 760 IAC 1-18-6 Disclosure of renewal, cancellation and termination provisions

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-4-1-4](#)

Sec. 6. NECESSITY FOR DISCLOSING POLICY PROVISIONS RELATING TO RENEWABILITY, CANCELLABILITY AND TERMINATION. An advertisement which refers to renewability, cancellability or termination of a policy, or which refers to a policy benefit, or which states or illustrates time or age in connection with eligibility of applicants or continuation of the policy, shall disclose the provisions relating to renewability, cancellability and termination and any modification of benefits, losses covered or premiums because of age or for other reasons, in manner which shall not minimize or render obscure the qualifying conditions.

Interpretation of Section B 3 [this section]

Section B 3 [this section] is divided into two parts. The first part defines the type of advertisement that is subject to the restrictions imposed upon such advertisement by the second part.

The first part of Section B 3 [this section] reads as follows:

"An advertisement which refers to renewability, cancellability or termination of policy, or which refers to a policy benefit, or which states or illustrates time or age in connection with eligibility of applicants or continuation of the policy ... "

Three distinct categories of advertisements are described:

In the first category is that type of advertisement "which refers to renewability, cancellability or termination of a policy." This language was inserted in the Section to prevent the advertisement of a non-cancellable or guaranteed renewable insurance policy in such a manner as to over-state the non-cancellable or guaranteed renewable feature. For example, suppose a non-cancellable and guaranteed renewable to age 65, at a level premium, loss-of-time policy was advertised briefly in the following manner: "X company sells a non-cancellable loss-of-time benefits policy." In this simple advertisement the insurer has chosen to discuss renewability or as the rule puts it "refers to renewability", etc. It is, therefore, bound by the provisions of Section B 3 [*this section*] and the language of its advertisement would have to read something like: "X company sells a non-cancellable and guaranteed renewable to age 65 loss-of-time benefits policy." Statements like "This policy safeguards your renewal" or "Yours for as long as you want it" are further examples of advertisements which refer to renewability so as to make them subject to the limitations imposed by Section B 3 [*this section*]. It is important to note that the restriction applies only to advertisements of specific policies.

In the second category is that type of advertisement "which refers to a policy benefit." In determining what is meant by the phrase "refers to a policy benefit," we must keep in mind the "Basic Principles of Interpretation." It will be recalled that these principles divide advertisements into three classes: "offers to contract," "invitations to inquire" and "institutional advertisements."

"Offers to contract" invariably describe benefits in considerable detail because their purpose is to convince the reader that he should purchase the policy described. This type of advertisement is always subject to the requirements of Section B 3 [*this section*].

"Invitations to Inquire" are designed to attract the reader's interest in the policy so that he will inquire as to further details and information. Often these are brief advertisements used in television and radio commercials, pre-call letters, newspapers or magazines. The limitations imposed by Section B 3 [*this section*] should apply to this type of advertisement to the same extent that the limitations imposed by Section B 2(b) [*760 IAC 1-18-5(b)*] were found to apply to them. In other words, the language of the rule "refers to a policy benefit" should be interpreted to mean that an "invitation to inquire" which discusses dollar, time or cost extensively is subject to the limitations imposed by Section B 3 [*this section*]. If, however, the mention of dollar, time or cost is such that the advertisement withholds some facts without which no one could reasonably decide to buy the policies advertised, the advertisement is not subject to the limitations imposed by Section B 3 [*this section*]. This is an application to Section B 3 [*this section*] of the principle established in the interpretation of Section B 2(b) [*760 IAC 1-18-5(b)*].

The third class outlined in the Basic Principles of Interpretation is the institutional type advertisement. It is unlikely that this type of advertisement will ever be subject to Section B 3 [*this section*] unless it "refers to renewability," etc. of a specific policy. As was discussed in an earlier paragraph, it should be remembered that every advertisement, regardless of its class, is always subject to Section B 3 [*this section*] if it refers "to renewability, cancellability or termination of a policy."

In the third category is that type of advertisement "which states or illustrates time or age in connection with eligibility of applicants or continuation of the policy."

There are advertisements which do not "refer to renewability", etc. nor "refer to a policy benefit" but nevertheless are subject to Section B 3 [*this section*].

These are advertisements which imply permanency by a discussion of age. For example, an advertisement of a cancellable policy may say: "Coverage—Ages 18 to 70", or "does not terminate at any specific age—no reduction in benefits as you grow older." Although technically truthful when standing alone, the above type of statement in an advertisement may imply permanency unless properly qualified. It is not the intent of the rules, however, to bring all statements about eligibility age under Section B 3 [*this section*] but only those statements which have the tendency and capacity to mislead as to the permanence and continuability of the protection. Simple statements disclosing the company's underwriting policy with respect to age such as "issued to people between the ages of 55 and 65" do not bring the advertisement under Section B 3 [*this section*]. It is essential for the advertiser to use words in describing the issue ages which cannot be construed to imply that the ages refer to renewability. One example has been given. Another approach would be to say something like, "For sale to persons between 18 and 59 years of age."

This completes a determination of the type of advertisement subject to Section B 3 [*this section*]. The remainder of Section B 3 [*this section*] relates to compliance and reads as follows:

*** shall disclose the provisions relating to renewability, cancellability and termination and any modification of benefits, losses covered or premiums, because of age or for other reasons, in a manner which shall not minimize or render obscure the qualifying conditions."

The word "provisions" used above does not contemplate that the policy language must be used. Rather, the rule requires a

summary of the pertinent information with respect to renewability, etc. This word was used merely to distinguish it from the word "conditions" used later in the paragraph.

In applying Section B 3 [this section], the advertiser of a cancellable or optional-renewal policy is concerned only with the requirement that a summary of policy renewal provisions be set forth and is not concerned with that part of the rule which deals with "qualifying conditions." Advertisements of cancellable policies that come under Section B 3 [this section] must state that the contract in question is cancellable or renewable at the option of the company, as the case may be. For example, a policy which is cancellable should be advertised in a manner similar to, "This policy can be cancelled by the company at any time." Policies which are renewable at the company's option should be advertised in a manner similar to, "Renewable at the option of the Company," or "The company has the right to refuse renewal of this policy" or "The acceptance of a renewal premium is optional with the company."

With respect to the non-cancellable or guaranteed renewable type policy, the rule requires two things, first that a summary of the policy provisions with respect to renewability be set forth and, second, that anything that modifies the permanent character of the policy be set forth. The disclosure of provisions relating to renewability, etc., will require the use of language such as "non-cancellable", "guaranteed renewable", "non-cancellable and guaranteed renewable" or "renewable at the option of the insured." In addition to the requirement for disclosure of "provisions relating to renewability", etc., the rule requires a statement of the qualifying conditions which constitute limitations on the permanent nature of the coverage. These customarily fall into three categories (1) age limits, (2) reservation of a right to change premiums and (3) the establishment of aggregate limits. For example, "non-cancellable and guaranteed renewable" does not fulfill the requirement of Section B 3 [this section]. If the policy contains a terminal insurance age of 65 a proper statement would be, "Non-cancellable and guaranteed renewable to age 65". An advertisement is not required to distinguish among terminations (a) on the insured's birthday, (b) on the policy anniversary nearest or following such date, (c) on the premium date following such date, or (d) any similar method of defining the termination date. If a right to change premiums is reserved, the statement must be amplified to language similar to, "guaranteed renewable to age 65 but the company reserves the right to change premium rates on a class basis." If the contract contains an aggregate limit after which no further benefits are payable, the above statement must be amplified with the phrase, "Subject to maximum dollar amounts payable by the company as set out in the policy", or similar language. It should be borne in mind that one policy may have one or more of the three basic limitations. The advertisement must show those which the policy contains.

In addition to the above basic requirements, the rule necessitates a disclosure of "*** any modification of benefits, losses covered or premiums because of age or for other reasons ***". Because of the context of the section as a whole, this must be interpreted to mean only "modification of benefits", etc. which detract from the permanent nature of the coverage being offered. In other words, the rule is not a repetition of Section B 2(b) [760 IAC 1-18-5(b)] which requires the setting forth of certain limitations, exceptions and reductions when an advertisement describes benefits extensively. Rather, Section B 3 [this section], under certain circumstances, requires only the description of those limitations which directly affect the permanent nature of the policy. For example, a provision for modification of benefits or increase of premium on account of change of occupation does not affect the permanent nature of the policy and, therefore, is not required to be disclosed by Section B 3 [this section]. Another example of a modification of benefits which does not affect the permanent nature of the coverage is a terminal reduction, i.e., a provision for the termination of benefit payments at or about the terminal age (65 for example).

On the other hand, provisions for reduction of benefits at stated ages, other than terminal reductions, would have to be set forth because such a reduction does affect the permanent nature of the coverage. For example, a policy may contain a provision which reduces benefits 50% after age 50 although it is renewable to age 65. Such a reduction would have to be set forth. Also a provision for the elimination of certain hazards at any specific ages or after the policy has been in force for a specified time affects the permanent nature of the coverage and would have to be set forth. In this same category is the policy which provides for a stepped-up premium periodically. This, too, affects the permanency of coverage and would have to be set forth.

The foregoing is related to the type of advertisements subject to Section B 3 [this section] and what must be disclosed. The remainder of this interpretation relates to how the qualifying conditions must be disclosed. The language of the section reads: "*** in a manner which shall not minimize or render obscure the qualifying conditions."

The qualifying conditions should be set forth with the language describing renewability. For example, "Non-cancellable and guaranteed renewable to age 65." In this example, "to age 65" is properly stated with the words "non-cancellable and guaranteed renewable."

It should be mentioned that when Section B 3 [this section] requires that an advertisement state the terminal age of a permanent type policy, the statement of the age limit in the advertisement does not of itself bring the advertisement under Section B 2(b)

[760 IAC 1-18-5(b)].

In an advertisement of a group plan, subject to Section B 3 [this section], it is not necessary to describe the terms of the policy concerning cancellability or non-renewability but the certificate holder must be advised therein that during the continuance of the contract his benefits are contingent upon his continued membership in the group.

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-4-1-4](#)

Sec. 7. METHOD OF DISCLOSURE OF REQUIRED INFORMATION. All information required to be disclosed by these rules [760 IAC 1-18] shall be set out conspicuously and in close conjunction with the statements to which such information relates or under appropriate captions of such prominence that it shall not be minimized, rendered obscure or presented in an ambiguous fashion or intermingled with the context of the advertisements so as to be confusing or misleading.

(a) Policy provided waiting periods, such as "there will be a waiting period of three (3) days before which sick benefits become payable," shall be printed as prominently as the amount of policy benefits payable.

(b) Policy provisions which reduce benefits due to age, such as "after age 65," shall be printed as prominently as the amount of policy benefits payable under the age specified.

(c) Statements such as "this policy pays \$1,000 a month for hospitalization for accident only" must have the phrase "ACCIDENT ONLY" printed in the same size print as the "\$1,000."

Interpretation of Section B 4 [this section]

The purpose of this Section is to assure that all information required to be disclosed by the Rules [760 IAC 1-18] will be disclosed under one of two alternative methods in such a manner that the arrangement of the material itself will not have the capacity and tendency to confuse or mislead.

The first alternative permits the disclosure of exceptions, limitations, reductions and other restrictions either in the description of a specific benefit to which they relate or in a paragraph set out in close conjunction with the description of specific policy benefits. An example of incorporating a reduction in the description of a specific policy benefit follows:

\$200.00 per month will be paid during total disability, beginning with the first day of such disability for as long as 24 months. Benefits are reduced 50 per cent for disability commencing after attainment of age 65.

An example of incorporating exceptions, limitations, reductions and other restrictions in a paragraph set out in close conjunction with the description of specific policy benefits follows:

THIS PLAN WILL PAY YOU

Accident Benefits

\$1,000.00 for accidental death.

\$200.00 per month for total disability, beginning with the first day of such disability for as long as 5 years.

\$100.00 per month for partial disability, beginning with the first day of such disability or immediately following total disability for as long as 6 months.

Sickness Benefits

\$200.00 per month for total disability, beginning with the 8th day of such disability for as long as 2 years.

Hospital and Surgical Benefits

\$10.00 per day during hospital confinement from first day of such confinement for as long as 90 days.

\$5.00 to \$200.00 under comprehensive surgical schedule specifying the maximum payment for each operation listed. The maximum payment will vary depending upon the nature of your operation.

Total premium \$ _____ per _____.

The benefits described do not cover injury or disease: (1) existing before the policy date; (2) caused by war; or (3) occurring or commencing while in the Armed Forces.

The acceptance of a renewal premium is optional with the Company. Benefits payable are reduced 50% for disability commencing or loss occurring after attainment of age 65.

The second alternative would permit the disclosure of exceptions, limitations, reductions and other restrictions in some portion of the advertisement which is not in close conjunction with the provisions describing specific policy benefits, provided they were properly captioned.

For example, assuming that the last two paragraphs of the preceding example were separated from the description of the specific policy benefits by other material so as not to be in close conjunction with the benefit descriptions, then such paragraphs would have to be appropriately captioned as follows:

LIMITATIONS

The benefits described do not cover injury or disease: (1) existing before the policy date; (2) caused by war; or (3) occurring or commencing while in the Armed Forces. The acceptance of a renewal premium is optional with the Company. Benefits payable are reduced 50% for disability commencing or loss occurring after attainment of age 65.

The particular caption used above need not be used. For example, instead of the caption "Limitations," you might use "Exceptions," "Exclusions," "Not Covered," "Restrictions," "Extent of Coverage," or any other caption or combination of captions which would serve as notice of the exceptions, limitations or reductions from policy coverage.

An example of incorporating the amounts payable per day under a hospital indemnity policy which sets forth the total amount of indemnity payable would be: "This policy provides benefits in the amount of \$600 per month at the rate of \$20 per day when confined in a hospital."

Because of the different types of advertising media used to sell and promote accident and sickness insurance and the tremendous number and variety of techniques employed in each media, it was not practical to establish minimum and maximum requirements with respect to the size and style of type. Therefore, the "equal prominence" test was not employed in the Rule [760 IAC 1-18] nor should it be applied in the interpretation of the Rule [760 IAC 1-18].

In summary, the purpose of this Rule [760 IAC 1-18] is to make certain that the information required to be disclosed is presented clearly and in such a manner as to be readily noticed. 760 IAC 1-18-8 Testimonials in advertising

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-4-1-4](#)

Sec. 8. TESTIMONIALS. Testimonials used in advertisements must be genuine, represent the current opinion of the author, be applicable to the policy advertised and be accurately reproduced. The insurer, in using a testimonial, makes as its own all of the statements contained therein, and the advertisement including such statements is subject to all of the provisions of these rules [760 IAC 1-18].

Interpretation of Section B 5 [*this section*]

The purpose of this Section is to establish certain requirements to be observed when using testimonials in advertisements. Considering the rule in its component parts: first, all testimonials must be genuine. They must not be fictitious. Under this rule, the manufacturing, unscrupulous editing or "doctoring up" of a testimonial is clearly prohibited as being false and misleading.

Next, the testimonial must represent the current opinion of the author. When a testimonial is submitted in good faith, setting forth appreciation for benefits and favorable treatment received from an insurer, it follows, as a natural corollary, that the use of such testimonial must be limited to those instances where the testimonial, no matter when written, is still representative of the current opinion of the author. In other words, at the time of publication, the author should still believe what he had originally stated. The purpose of this requirement is to eliminate, as misleading, the use of testimonials in those cases where it is reasonable to presume that the views expressed in the testimonial do not correctly reflect current opinion of the author. It is conceivable that the writer of a testimonial, for one reason or another, might change his mind and no longer entertain the views originally expressed. This does not mean, per se, that an insurer, in each instance, is required to check with the author each time his testimonial is used to ascertain that the views expressed have not altered; but an insurer may not use a testimonial when it has information indicating a substantial change of view on the part of the author. A testimonial should be checked before use in those instances when a change of views might be probable or reasonable to assume, particularly by virtue of the passage of a considerable period of time. In this connection an insurer should not use a testimonial for more than two years after the date it is originally given or following a prior confirmation

without obtaining a confirmation from the author that the testimonial represents his then current opinion.

This Section, furthermore, prohibits testimonials which do not correctly reflect the present practices of the insurer. In other words, a testimonial even though recently written and otherwise usable under this Section, cannot be used if its statements describe practices no longer followed by the insurer. Such a testimonial would clearly be misleading.

A further possible misuse of testimonials is prohibited under the third part of the Section in which it is required that the testimonial must be applicable to the policy or benefit being advertised. This is intended to eliminate the using of a testimonial given in connection with one policy to advertise another policy where such use would be misleading. This, of course, does not apply to testimonials of a general nature in which the author expresses appreciation for courteous treatment received, the prompt payment of benefits, and so forth.

Finally, this Section states that the testimonial must be accurately reproduced. Any change or omission which distorts the plain meaning or intent of the testimonial as originally written is prohibited. However, a testimonial need not stand or fall in its entirety as originally written. Certainly if a testimonial should reveal information of a personal nature or contain a statement that is not absolutely correct insofar as company procedures or practices are concerned, an insurer may omit such matter from a testimonial and then use the residual matter in its advertising, provided, of course, that in so doing the original view is not distorted. Also, a portion or a segment of a testimonial can be used provided such use does not result in a meaning different from that when such excerpt appeared in context in the original testimonial. The basic purpose is to prohibit distortion of the original views expressed in the testimonials in such manner that their use would be misleading.

The purpose of the last sentence of the Section is to place responsibility for the truthfulness and accuracy of the testimonial on the insurer, and to prevent an insurer from avoiding the other requirements of the rules by the exclusive use of testimonial advertising. For example, if a testimonial refers to the dollar amount of any benefit, period of time for which any benefit is payable, or the cost of any benefit or policy, it would fall within the scope of Section B 2(b) [760 IAC 1-18-5(b)] and other applicable sections of the Rules [760 IAC 1-18] in the same manner as any other advertisements. However, a mere recital of the amount a company had paid to a claimant over a designated period of time in connection with a specific claim would not in itself render the testimonial subject to Section B 2(b) [760 IAC 1-18-5(b)].

When the amount of aggregate benefits which have been paid to a particular claimant are recited in a testimonial, the statement of this claim payment should not have the capacity and tendency to mislead a reader as to the true nature of the insurance coverage for which the payment was made. For example, if the author of a testimonial owned a loss-of-time policy which had paid him \$600 loss-of-time benefits for a three-month disability, it might create the impression that the policy paid for hospital expenses if he said, "When I was in the hospital for three months, the company paid me \$600.00." Sec. 9. USE OF STATISTICS. Such an advertisement shall not imply that such statistics are derived from the policy advertised unless such is the fact.

Interpretation of Section B 6 [*this section*]

If the term "loss ratio" is quoted, it should be based on (a) premiums received and benefits paid, or (b) premiums earned and losses incurred.

An advertisement representing the dollar amounts of claims paid must also indicate the period over which such claims have been paid. Sec. 1. AUTHORITY AND PURPOSES. This regulation [760 IAC 1-19] is issued pursuant to the authority set out at I.C. 1971, 27-1-3-7.

Many Indiana citizens have purchased coverage under group disability policies which contain pre-existing conditions limitations. If the policy holder replaces an existing group disability policy issued by a succeeding carrier, pre-existing conditions limitations in the new policy may cause unfair hardship on the insureds. Sec. 2.5. (a) A health care provider may use a policy of insurance issued by any of the following types of insurer as proof of financial responsibility:

- (1) An insurance company holding a certificate of authority from the department under [IC 27-1-6](#) or [IC 27-1-17](#).

The commissioner may require an insurer to increase the funding if it is determined that the insurer's financial condition poses a financial risk to the PCF.
- (2) The commissioner may disapprove the use of an insurer as proof of financial responsibility if the commissioner determines, after notice and an opportunity to be heard, the insurer's financial condition poses a financial risk to the PCF. A disapproval must be in writing and served upon the insurer. If the insurer uses an agent to file proof of financial responsibility, service on that agent shall be considered service on the insurer.

(c) Upon request of the commissioner, an insurer shall provide a copy of the policy form and premium rates used as proof of financial responsibility.

(d) Claims made coverage or occurrence coverage may be used as proof of financial responsibility. No other policy type of coverage may be used as proof of financial responsibility until the policy form is:

However, the PCF will not allow retroactive coverage that begins before the date of issue of the first policy of insurance from any insurer used as proof of financial responsibility for the PCF.

(f) A health care provider who fails to purchase a reporting endorsement policy will not be allowed PCF coverage for any claim made after the termination date of the final claims made coverage used as proof of financial responsibility for the PCF, unless the underlying insurer considers the claim to be covered under its policy language because it was previously reported.

(g) In the event a policy of insurance is rescinded, the health care provider's status as a qualified health care provider is similarly rescinded. The department will refund any surcharge that was received for the period that was subject to the rescission. The insurer

shall notify the department within ten (10) days of any policy that is rescinded.

(h) If an insurer is placed into insolvency or receivership and the department has not previously disapproved the insurer as acceptable for establishing financial responsibility under subsection (b), the following apply:

- (1) The health care provider remains a qualified health care provider.
- (2) The PCF is not responsible for any amounts due by the health care provider except as provided in [IC 34-18-15-4](#).

Sec. 10. (a) A hospital's or psychiatric hospital's coverage with the PCF is limited to facilities identified in the hospital's or psychiatric hospital's application for licensure to operate as facilities operated under the hospital or psychiatric hospital license. Each hospital or psychiatric hospital shall identify on the surcharge calculation worksheet prescribed by the department all of the:

- (1) facilities operated under the license; and
- (2) classes of employees intended to be included in the coverage.

(b) Any health care provider, including a physician or independent ancillary provider, that uses an assumed business name must state the assumed business name on the PCF certificate of insurance filed with the department for the assumed business name to be included in the health care provider's status as a qualified provider as defined by [IC 34-18-2-24.5](#). A health care provider may amend a filing to add a d/b/a. In the event of such an amendment, the health care provider shall remit the greater of the following:

- (1) Additional surcharge if the d/b/a brings any additional risk to the coverage already filed.
- (2) A minimum surcharge payment of one hundred dollars (\$100).

If a proposed complaint has been filed, the d/b/a may only be added if it does not bring any additional risk that was not already considered in its surcharge payment.

(c) To become a qualified health care provider each physician and independent ancillary provider shall do the following:

- (1) File individual proof of financial responsibility.
- (2) Pay a surcharge as required by 760 IAC 1-60 or [IC 34-18-5](#), or both.

(f) A hospital, psychiatric hospital, or nursing home may include an employed physician or employed independent ancillary provider in its qualification under the following conditions:

- (1) The hospital, psychiatric hospital, or nursing home shall pay an appropriate surcharge for each. For a physician the appropriate surcharge is the current rate for the specialty class defined at 760 IAC 1-60.
- (2) For an independent ancillary provider, the appropriate surcharge is encompassed in the calculations contained in the PCF's hospital or nursing home calculation sheet.
- (3) The physician's or independent ancillary provider's qualification status is limited to duties performed within the scope of his or her employment as an employee of the hospital, psychiatric hospital, or nursing home.

(g) A hospital, psychiatric hospital, or nursing home may include a nonemployed medical director in its qualification under the following conditions:

- (1) The medical director provides no direct patient care as part of the medical director duties.
 - (2) The medical director's qualification status is limited to duties performed within the scope of his or her medical directorship.
- No additional surcharge is required for a nonemployed medical director who meets the conditions set forth in subdivisions (1) and (2).

(h) A hospital or psychiatric hospital may include in its qualification a nonemployed resident or fellow under the following conditions:

- (1) The hospital or psychiatric hospital shall pay an appropriate surcharge for each resident or fellow.
- (2) The resident's or fellow's qualification status is limited to duties performed within the scope of his or her residency or fellowship with the hospital or psychiatric hospital.
- (3) In the case of a fellow, the fellowship is full time and the fellow engages in no additional medical practice except for part-time moonlighting work.

(i) An institution of higher education may include in its qualification dentists and optometrists who are faculty members in its school of dentistry and school of optometry, respectively, acting within the scope of their employment as faculty members.

(j) An institution of higher education may include in its qualification a fellow, resident, or student of the institution of higher education pursuing a degree as a health care provider listed in [IC 34-18-2-14](#)(1) or as a pharmacist with respect to activities that are associated with the educational requirements of the institution of higher learning. If item 9 is completed, the patient's signature authorizes releasing of the information to the insurer or agency shown. In assigned cases, the physician agrees to accept the charge determination of the Medicare carrier as the full charge, and the patient is responsible only for the deductible, coinsurance, and noncovered services. SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services shown on this form were medically indicated and necessary for the health of the patient and were personally rendered by me or were rendered incident to my professional service by my employee under immediate personal supervision, except as otherwise expressly permitted by Medicare regulations.

For services to be considered as 'incident to' a physician's professional service 1) they must be rendered under the physician's immediate personal supervision by his employee, 2) there was a covered physician's service rendered of which the other services are an integral, although incidental part, 3) they must be kinds commonly furnished in physicians' offices, and 4) the services of nonphysicians must be included on the physician's bill.

NOTICE: Anyone who misrepresents or falsifies essential information to receive payment from federal funds requested by this form may upon conviction be subject to fine and imprisonment under applicable federal laws.

MEDICAID PAYMENTS: I hereby agree to keep such records as are necessary to disclose fully the extent of services provided to individuals under the state's Title XIX plan and to furnish information regarding any payments claimed for providing such services as the state agency may request. I further agree to accept, as payment in full, the amount paid by the Medicaid program for those claims submitted for payment under that program, with the exception of authorized deductibles and coinsurance.

SIGNATURE OF PHYSICIAN (OR SUPPLIER): I certify that the services listed above were medically indicated and necessary to the health of this patient and were personally rendered by me or under my personal direction.

NOTICE: This is to certify that the foregoing information is true, accurate, and complete.

I understand that payment and satisfaction of this claim will be from federal and state funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable federal or state laws.

Sec. 4. Definitions. For the purpose of this regulation [760 IAC 1-24], the following definitions shall apply:

(A) Buyer's Guide. A Buyer's Guide is a document which contains, and is limited to, the language contained in the Appendix [760 IAC 1-24-9] to this regulation or language approved by the Commissioner of Insurance.

(B) Cash Dividend. A Cash Dividend is the current illustrated dividend which can be applied toward payment of the gross premium.

(C) Equivalent Level Annual Dividend. The Equivalent Level Annual Dividend is calculated by applying the following steps:

(1) Accumulate the annual cash dividends at five percent interest compounded annually to the end of the tenth and twentieth policy years.

(2) Divide each accumulation of Step (1) [subsection (C)(1) of this section] by an interest factor that converts it into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the values in Step (1) [subsection (C)(1) of this section] over the respective periods stipulated in Step (1) [subsection (C)(1) of this section]. If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.

(3) Divide the results of Step (2) [subsection (C)(2) of this section] by the number of thousands of the Equivalent Level Death Benefit to arrive at the Equivalent Level Annual Dividend.

(D) Equivalent Level Death Benefit. The Equivalent Level Death Benefit of a policy or term life insurance rider is an amount calculated as follows:

- (1) Accumulate the guaranteed amount payable upon death, regardless of the cause of death, at the beginning of each policy year

for ten and twenty years at five per cent interest compounded annually to the end of the tenth and twentieth policy years respectively.

(2) Divide each accumulation of Step (1) [subsection (D)(1) of this section] by an interest factor that converts it into one equivalent level annual amount that, if paid at the beginning of each year, would accrue to the value in Step (1) [subsection (D)(1) of this section] over the respective periods stipulated in Step (1) [subsection (D)(1) of this section]. If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.

(E) Generic Name. Generic Name means a short title which is descriptive of the premium and benefit patterns of a policy or rider.

(F) Life Insurance Cost Indexes.

(1) Life Insurance Surrender Cost Index. The Life Insurance Surrender Cost Index is calculated by applying the following steps:

(a) Determine the guaranteed cash surrender value, if any, available at the end of the tenth and twentieth policy years.

(b) For participating policies, add the terminal dividend payable upon surrender, if any, to the accumulation of the annual Cash Dividends at five per cent interest compounded annually to the end of the period selected and add this sum to the amount determined in Step (a) [subsection (F)(1)(a) of this section].

(c) Divide the result of Step (b) [subsection (F)(1)(b) of this section] (Step (a) [subsection (F)(1)(a) of this section] for guaranteed-cost policies) by an interest factor that converts it into an equivalent level amount that, if paid at the beginning of each year, would accrue to the value in Step (b) [subsection (F)(1)(b) of this section] (Step (a) [subsection (F)(1)(a) of this section] for guaranteed-cost policies) over the respective periods stipulated in Step (a) [subsection (F)(1)(a) of this section]. If the period is ten years, the factor is 13.207 and if the period is twenty years, the factor is 34.719.

(d) Determine the equivalent level premium by accumulating each annual premium payable for the basic policy or rider at five per cent interest compounded annually to the end of the period stipulated in Step (a) [subsection (F)(1)(a) of this section] and dividing the result by the respective factors stated in Step (c) [subsection (F)(1)(c) of this section] this amount is the annual premium payable for a level premium plan).

(e) Subtract the result of Step (c) [subsection (F)(1)(c) of this section] from Step (d) [subsection (F)(1)(d) of this section].

(f) Divide the result of Step (e) [subsection (F)(1)(e) of this section] by the number of thousands of the Equivalent Level Death Benefit to arrive at the Life Insurance Surrender Cost Index.

(2) Life Insurance Net Payment Cost Index. The Life Insurance Net Payment Cost Index is calculated in the same manner as the comparable Life Insurance Cost Index except that the cash surrender value and any terminal dividend are set at zero.

(G) Policy Summary. For the purpose of this regulation, Policy Summary means a written statement describing the elements of the policy including but not limited to:

(1) A prominently placed title as follows: STATEMENT OF POLICY COST AND BENEFIT INFORMATION.

(2) The name and address of the insurance agent, or, if no agent is involved, a statement of the procedure to be followed in order to receive responses to inquiries regarding the Policy Summary.

(3) The full name and home office or administrative office address of the company in which the life insurance policy is to be or has been written.

(4) The Generic Name of the basic policy and each rider.

(5) The following amounts, where applicable, for the first five policy years and representative policy years thereafter sufficient to clearly illustrate the premium and benefit patterns, including, but not necessarily limited to, the years for which Life Insurance Cost Indexes are displayed and at least one age from sixty through sixty-five or maturity whichever is earlier:

(a) The annual premium for the basic policy.

(b) The annual premium for each optional rider.

(c) Guaranteed amount payable upon death, at the beginning of the policy year regardless of the cause of death other than suicide, or other specifically enumerated exclusions, which is provided by the basic policy and each optional rider, with benefits provided under the basic policy and each rider shown separately.

(d) Total guaranteed cash surrender values at the end of the year with values shown separately for the basic policy and each rider.

(e) Cash Dividends at current scale payable at the end of the year with values shown separately for the basic policy and each rider. (Dividends need not be displayed beyond the twentieth policy year.)

(f) Guaranteed endowment amounts payable under the policy which are not included under guaranteed cash surrender values above.

(6) The effective policy loan annual percentage interest rate, if the policy contains this provision, specifying whether this rate

is applied in advance or in arrears. If the policy loan interest rate is variable, the Policy Summary shall state the maximum annual percentage rate.

(7) Life Insurance Cost Indexes for ten and twenty years but in no case beyond the premium paying period. Separate indexes are displayed for the basic policy and for each optional term life insurance rider. Such indexes need not be included for optional riders which are limited to benefits such as accidental death benefits, disability waiver of premium, preliminary term life insurance coverage of less than 12 months and guaranteed insurability benefits nor for the basic policies or optional riders covering more than one life.

(8) The Equivalent Level Annual Dividend, in the case of participating policies and participating optional term life insurance riders, under the same circumstances and for the same durations at which Life Insurance Cost Indexes are displayed.

(9) A Policy Summary which includes dividends shall also include a statement that dividends are based on the company's current dividend scale and are not guaranteed, in addition to a statement in close proximity to the Equivalent Level Annual Dividend as follows: An explanation of the intended use of the Equivalent Level Annual Dividend is included in the Life Insurance Buyer's Guide.

(10) A statement in close proximity to the Life Insurance Cost Indexes as follows: An explanation of the intended use of these indexes is provided in the Life Insurance Buyer's Guide.

(11) The date on which the Policy Summary is prepared.

The Policy Summary must consist of a separate document. All information required to be disclosed must be set out in such a manner as to not minimize or render any portion of it obscure. Any amounts which remain level for two or more years of the policy may be represented by a single number if it is clearly indicated what amounts are applicable for each policy year. Amounts in item 5 of this section [*subsection (G)(5) of this section*] shall be listed in total, not on a per thousand nor per unit basis. If more than one insured is covered under one policy or rider, guaranteed death benefits shall be displayed separately for each insured or for each class of insureds if death benefits do not differ within the class. Zero amounts shall be displayed as zero and shall not be displayed as a blank space. (C) Terms such as financial planner, investment advisor, financial consultant, or financial counseling shall not be used in such a way as to imply that the insurance agent is generally engaged in an advisory business in which compensation is unrelated to sales unless such is actually the case.

(D) Any reference to policy dividends must include a statement that dividends are not guaranteed.

The Buyer's Guide shall contain the following language at the bottom of page 2:

The National Association of Insurance Commissioners is an association of state insurance regulatory officials. This association helps the various Insurance Departments to coordinate insurance laws for the benefit of all consumers. You are urged to use this Guide in making a life insurance purchase.

This Guide Does not Endorse Any Company or Policy. The remaining text of the Buyer's Guide shall begin on page 3 as follows:

Buying Life Insurance. When you buy life insurance, you want a policy which fits your needs without costing too much. Your first step is to decide how much you need, how much you can afford to pay and the kind of policy you want. Then, find out what various companies charge for that kind of policy. You can find important differences in the cost of life insurance by using the life insurance cost indexes which are described in this guide. A good life insurance agent or company will be able and willing to help you with each of these shopping steps.

If you are going to make a good choice when you buy life insurance, you need to understand what kinds are available. If one kind does not seem to fit your needs, ask about the other kinds which are described in this guide. If you feel that you need more information than is given here, you may want to check with a life insurance agent or company or books on life insurance in your public library.

Choosing the Amount. One way to decide how much life insurance you need is to figure how much cash and income your dependents would need if you were to die. You should think of life insurance as a source of cash needed for expenses of final illnesses, paying taxes, mortgages or other debts. It can also provide income for your family's living expenses, educational costs and other future expenses. Your new policy should come as close as you can afford to making up the difference between (1) what your dependents would have if you were to die now, and (2) what they would actually need.

Choosing the Right Kind. All life insurance policies agree to pay an amount of money if you die. But all policies are not the same. There are three basic kinds of life insurance.

- (1) Term insurance
- (2) Whole life insurance
- (3) Endowment insurance

Remember, no matter how fancy the policy title or sales presentation might appear, all life insurance policies contain one or more of the three basic kinds. If you are confused about a policy that sounds complicated, ask the agent or company if it combines more than one kind of life insurance. The following is a brief description of the three basic kinds:

Term Insurance. Term insurance is death protection for a "term" of one or more years. Death benefits will be paid only if you die within that term of years. Term insurance generally provides the largest immediate death protection for your premium dollar.

Some term insurance policies are "renewable" for one or more additional terms even if your health has changed. Each time you renew the policy for a new term, premiums will be higher. You should check the premiums at older ages and the length of time the policy can be continued.

Some term insurance policies are also "convertible". This means that before the end of the conversion period, you may trade the term policy for a whole life or endowment insurance policy even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Whole Life Insurance. Whole life insurance gives death protection for as long as you live. The most common type is called "straight life" or "ordinary life" insurance, for which you pay the same premiums for as long as you live. These premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term insurance policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher than for ordinary life insurance since the premium payments are squeezed into a shorter period.

Although you pay higher premiums, to begin with, for whole life insurance than for term insurance, whole life insurance policies develop "cash values" which you may have if you stop paying premiums. You can generally either take the cash, or use it to buy some continuing insurance protection. Technically speaking, these values are called "nonforfeiture benefits". This refers to benefits you do not lose (or "forfeit") when you stop paying premiums. The amount of these benefits depends on the kind of policy you have,

its size, and how long you have owned it.

A policy with cash values may also be used as collateral for a loan. If you borrow from the life insurance company, the rate of interest is shown in your policy. Any money which you owe on a policy loan would be deducted from the benefits if you were to die, or from the cash value if you were to stop paying premiums.

Endowment Insurance. An endowment insurance policy pays a sum or income to you—the policyholder—if you live to a certain age. If you were to die before then, the death benefit would be paid to your beneficiary. Premiums and cash values for endowment insurance are higher than for the same amount of whole life insurance. Thus endowment insurance gives you the least amount of death protection.

Finding a Low Cost Policy. After you have decided what kind of life insurance fits your needs, look for a good buy. Your chances of finding a good buy are better if you use two types of index numbers that have been developed to aid in shopping for life insurance. One is called the "Surrender Cost Index" and the other is the "Net Payment Cost Index". It will be worth your time to try to understand how these indexes are used, but in any event, use them only for comparing the relative costs of similar policies. **LOOK FOR POLICIES WITH LOW COST INDEX NUMBERS.**

What is Cost? "Cost" is the difference between what you pay and what you get back. If you pay a premium for life insurance and get nothing back, your cost for the death protection is the premium. If you pay a premium and get something back later on, such as a cash value, your cost is smaller than the premium.

The cost of some policies can also be reduced by dividends; these are called "participating" policies. Companies may tell you what their current dividends are, but the size of future dividends is unknown today and cannot be guaranteed. Dividends actually paid are set each year by the company.

Some policies do not pay dividends. These are called "guaranteed cost" or "non-participating" policies. Every feature of a guaranteed cost policy is fixed so that you know in advance what your future cost will be.

The premiums and cash values of a participating policy are guaranteed, but the dividends are not. Premiums for participating policies are typically higher than for guaranteed cost policies, but the cost to you may be higher or lower, depending on the dividends actually paid.

What are Cost Indexes? In order to compare the cost of policies, you need to look at:

- (1) Premiums
- (2) Cash Values
- (3) Dividends

Cost indexes use one or more of these factors to give you a convenient way to compare relative costs of similar policies. When you compare costs, an adjustment must be made to take into account that money is paid and received at different times. It is not enough to just add up the premiums you will pay and to subtract the cash values and dividends you expect to get back. These indexes take care of the arithmetic for you. Instead of having to add, subtract, multiply and divide many numbers yourself, you just compare the index numbers which you can get from life insurance agents and companies:

(1) **Life Insurance Surrender Cost Index.** This index is useful if you consider the level of the cash values to be of primary importance to you. It helps you compare costs if at some future point in time, such as 10 or 20 years, you were to surrender the policy and take its cash value.

Life Insurance Net Payment Cost Index. This index is useful if your main concern is the benefits that are to be paid at your death and if the level of cash values is of secondary importance to you. It helps you compare costs at some future point in time, such as 10 or 20 years, if you continue paying premiums on your policy and do not take its cash value.

There is another number called the Equivalent Level Annual Dividend. It shows the part dividends play in determining the cost index of a participating policy. Adding a policy's Equivalent Level Annual Dividend to its cost index allows you to compare total costs of similar policies before deducting dividends. However, if you make any cost comparisons of a participating policy with a non-participating policy, remember that the total cost of the participating policy will be reduced by dividends, but the cost of the non-participating policy will not change.

How Do I Use Cost Indexes? The most important thing to remember when using cost indexes is that a policy with a small index number is generally a better buy than a comparable policy with a larger index number. The following rules are also important:

- (1) Cost comparisons should only be made between similar plans of life insurance. Similar plans are those which provide essentially the same basic benefits and require premium payments for approximately the same period of time. The closer policies are to being identical, the more reliable the cost comparison will be.
- (2) Compare index numbers only for the kind of policy, for your age and for the amount you intend to buy. Since no one company

offers the lowest cost for all types of insurance at all ages and for all amounts of insurance, it is important that you get the indexes for the actual policy, age and amount which you intend to buy. Just because a "Shopper's Guide" tells you that one company's policy is a good buy for a particular age and amount, you should not assume that all of that company's policies are equally good buys.

(3) Small differences in index numbers could be offset by other policy features, or differences in the quality of service you may expect from the company or its agent. Therefore, when you find small differences in cost indexes, your choice should be based on something other than cost.

(4) In any event, you will need other information on which to base your purchase decision. Be sure you can afford the premiums, and that you understand its cash values, dividends and death benefits. You should also make a judgment on how well the life insurance company or agent will provide service in the future, to you as a policyholder.

(5) These life insurance cost indexes apply to new policies and should not be used to determine whether you should drop a policy you have already owned for awhile, in favor of a new one. If such a replacement is suggested, you should ask for information from the company which issued the old policy before you take action.

Important Things to Remember—A Summary. The first decision you must make when buying a life insurance policy is choosing a policy whose benefits and premiums most closely meet your needs and ability to pay. Next, find a policy which is also a relatively good buy. If you compare Surrender Cost Indexes and Net Payment Cost Indexes of similar competing policies, your chances of finding a relatively good buy will be better than if you do not shop. **REMEMBER, LOOK FOR POLICIES WITH LOWER COST INDEX NUMBERS.** A good life insurance agent can help you to choose the amount of life insurance and kind of policy you want and will give you cost indexes so that you make cost comparisons of similar policies.

Don't buy life insurance unless you intend to stick with it. A policy which is a good buy when held for 20 years can be very costly if you quit during the early years of the policy. If you surrender such a policy during the first few years, you may get little or nothing back, and much of your premium may have been used for company expenses.

Read your new policy carefully, and ask the agent or company for an explanation of anything you do not understand. Whatever you decide now, it is important to review your life insurance program every few years to keep up with changes in your income and responsibilities. Sec. 2. As used in 760 IAC 1-33: (a) "Affiliate" of an insurer means any person, directly or indirectly, controlling, controlled by, or under common control with such insurer; any person who regularly furnishes investment advice to such insurer with respect to its separate accounts for which a specific fee or commission is charged; or any director, officer, partner, or employee of any such insurer, controlling or controlled person, or person providing investment advice or any member of the immediate family of such person.

(b) "Agent" means any person, corporation, partnership, or other legal entity which is licensed by this state as a life insurance agent.

(c) "Assumed investment rate" means the rate of investment return which would be required to be credited to a variable life insurance policy, after deduction of charges for taxes, investment expenses, and mortality and expense guarantees to maintain the variable death benefit equal at all times to the amount of death benefit, other than incidental insurance benefits, which would be payable under the plan of insurance if the death benefit did not vary according to the investment experience of the separate account.

(d) "Benefit base" means the amount, to which the net investment return is applied.

(e) "Commissioner" means the insurance commissioner of this state.

(f) "Control" (including the terms "controlling," "controlled by" and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or non-management services, or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds with the power to vote, or holds proxies representing more than ten percent (10%) of the voting securities of any other person. This presumption may be rebutted by a showing made to the satisfaction of the commissioner that control does not exist in fact. The commissioner may determine, after furnishing all persons in interest notice and opportunity to be heard and make specific findings of fact to support such determination, that control exists in fact, notwithstanding the absence of a presumption to that effect.

(g) "Flexible premium policy" means any variable life insurance policy other than a scheduled premium policy as specified in (o).

(h) "General account" means all assets of the insurer other than assets in separate accounts established pursuant to [IC 27-1-5-1](#) Class 1(c) of the insurance laws of this state, or pursuant to the corresponding section of the insurance laws of the state of domicile of a foreign or alien insurer, whether or not for variable life insurance.

(i) "Incidental insurance benefit" means all insurance benefits in a variable life insurance policy, other than the variable death benefit and the minimum death benefit, including but not limited to accidental death and dismemberment benefits, disability benefits, guaranteed insurability options, family income, or term riders.

(j) "May" is permissive.

(k) "Minimum death benefit" means the amount of the guaranteed death benefit, other than incidental insurance benefits, payable under a variable life insurance policy regardless of the investment performance of the separate account.

(l) "Net investment return" means the rate of investment return in a separate account to be applied to the benefit base.

(m) "Person" means an individual, corporation, partnership, association, trust, or fund.

(n) "Policy processing day" means the day on which charges authorized in the policy are deducted from the policy's cash value.

(o) "Scheduled premium policy" means any variable life insurance policy under which both the amount and timing of premium payments are fixed by the insurer.

(p) "Separate account" means a separate account established pursuant to [IC 27-1-5-1](#) Class 1(c) of the insurance laws of this state or pursuant to the corresponding section of the insurance laws of the state of domicile of a foreign or alien insurer.

(q) "Shall" is mandatory.

(r) "Variable death benefit" means the amount of the death benefit, other than incidental insurance benefits, payable under a variable life insurance policy dependent on the investment performance of the separate account, which the insurer would have to pay in the absence of any minimum death benefit.

(s) "Variable life insurance policy" means any individual policy which provides for life insurance the amount or duration of which varies according to the investment experience of any separate account or accounts established and maintained by the insurer as to such policy, pursuant to [IC 27-1-5-1](#) Class 1(c) of the insurance laws of this state or pursuant to the corresponding section of the insurance laws of the state of domicile of a foreign or alien insurer. Sec. 3. The following requirements are applicable to all insurers either seeking authority to issue variable life insurance in this state or having authority to issue variable life insurance in this state.

(1) Licensing and approval to do business in this state. An insurer shall not deliver or issue for delivery in this state any variable life insurance policy unless:

(A) The insurer is licensed or organized to do a life insurance business in this state.

(B) The insurer has obtained the written approval of the commissioner for the issuance of variable life insurance policies in this state. The commissioner shall grant such written approval only after he has found that:

(i) The plan of operation for the issuance of variable life insurance policies is not unsound.

(ii) The general character, reputation, and experience of the management and those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer are such as to reasonably assure competent operation of the variable life insurance business of the insurer in this state.

(iii) The present and foreseeable future financial condition of the insurer and its method of operation in connection with the issuance of such policies is not likely to render its operation hazardous to the public or its policyholders in this state. The commissioner shall consider, among other things:

(AA) The history of operation and financial condition of the insurer.

(BB) The qualifications, fitness, character, responsibility, reputation, and experience of the officers and directors and other management of the insurer and those persons or firms proposed to supply consulting, investment, administrative, or custodial services to the insurer.

(CC) The applicable law and regulations under which the insurer is authorized in its state of domicile to issue variable life insurance policies. The state of entry of an alien insurer shall be deemed its state of domicile for this purpose.

(DD) If the insurer is a subsidiary of, or is affiliated by common management or ownership with another company, its relationship to such other company and the degree to which the requesting insurer, as well as the other company, meet these standards.

(2) Filing for approval to do business in this state. The commissioner may, at his discretion, require that an insurer, before it delivers or issues for delivery any variable life insurance policy in this state, file with this department the following information for the consideration of the commissioner in making the determination required by (1)(B):

(A) Copies of and a general description of the variable life insurance policies it intends to issue.

(B) A general description of the methods of operation of the variable life insurance business of the insurer, including methods of distribution of policies and the names of those persons or firms proposed to supply consulting, investment, administrative, custodial or distribution services to the insurer.

(C) With respect to any separate account maintained by an insurer for any variable life insurance policy, a statement of the investment policy the issuer intends to follow for the investment of the assets held in such separate account, and a statement of procedures for changing such investment policy. The statement of investment policy shall include a description of the investment objectives intended for the separate account.

(D) A description of any investment advisory services contemplated as required by 760 IAC 1-33-6(k).

(E) A copy of the statutes and regulations of the state of domicile of the insurer under which it is authorized to issue variable life insurance policies.

(F) Biographical data with respect to officers and directors of the insurer on the National Association of Insurance Commissioners Uniform Biographical Data Form.

(G) A statement of the insurer's actuary describing the mortality and expense risks which the insurer will bear under the policy.

(3) Standards of suitability. Every insurer seeking approval to enter into the variable life insurance business in this state shall establish and maintain a written statement specifying the standards of suitability to be used by the insurer. Such standards of suitability shall specify that no recommendations shall be made to an applicant to purchase a variable life insurance policy and that no variable life insurance policy shall be issued in the absence of reasonable grounds to believe that the purchase of such policy is not unsuitable for such applicant on the basis of information furnished after reasonable inquiry of such applicant concerning the applicant's insurance and investment objectives, financial situation and needs, and any other information known to the insurer or to the agent making the recommendation.

(4) Use of sales materials. An insurer authorized to transact variable life insurance business in this state shall not use any sales material, advertising material, or descriptive literature or other materials of any kind in connection with its variable life insurance business in this state which is false, misleading, deceptive, or inaccurate.

(5) Requirements applicable to contractual services. Any material contract between an insurer and suppliers of consulting, investment, administrative, sales, marketing, custodial, or other services with respect to variable life insurance operations shall be in writing and provide that the supplier of such services shall furnish the commissioner with any information or reports in connection with such services which the commissioner may request in order to ascertain whether the variable life insurance operations of the insurer are being conducted in a manner consistent with 760 IAC 1-33 and any other applicable law or regulations.

(6) Reports to the commissioner. Any insurer authorized to transact the business of variable life insurance in this state shall submit to the commissioner, in addition to any other materials which may be required by 760 IAC 1-33 or any other applicable laws or regulations:

(A) an annual statement of the business of its separate account or accounts in such form as may be prescribed by the National Association of Insurance Commissioner *[sic.]*; and

(B) prior to the use in this state any information furnished to applicants as provided for in 760 IAC 1-33-7; and

(C) prior to the use in this state the form of any of the reports to policyholders as provided for in 760 IAC 1-33-9; and

(D) such additional information concerning its variable life insurance operations or its separate accounts as the commissioner shall deem necessary.

Any material submitted to the commissioner under this section shall be disapproved if it is found to be false, misleading, deceptive, or inaccurate in any material respect and, if previously distributed, the commissioner shall require the distribution of amended material.

(7) Authority of commissioner to disapprove. Any material required to be filed with an *[sic.]* approved by the commissioner shall be subject to disapproval if at any time is found by him not to comply with the standards established by 760 IAC 1-33.

Sec. 4. Policy qualification. The commissioner shall not approve any variable life insurance form filed pursuant to 760 IAC 1-33 unless it conforms to the requirements of this section.

(b) Filing of variable life insurance policies. All variable life insurance policies, and all riders, endorsements, applications, and other documents which are to be attached to and made a part of the policy and which relate to the variable nature of the policy, shall be filed with the commissioner and approved by him prior to delivery or issuance for delivery in this state.

(1) The procedures and requirements for such filing and approval shall be, to the extent appropriate and not inconsistent with

DEPARTMENT OF INSURANCE

760 IAC 1-33, the same as those otherwise applicable to other life insurance policies.

(2) The commissioner may approve variable life insurance policies and related forms with provisions the commissioner deems to be not less favorable to the policyholder and the beneficiary than those required by 760 IAC 1-33.

(c) Mandatory policy benefit and design requirements. Variable life insurance policies delivered or issued for delivery in this state shall comply with the following minimum requirements:

(1) Mortality and expense risks shall be borne by the insurer. The mortality and expense charges shall be subject to the maximums stated in the contract.

(2) For scheduled premium policies, a minimum death benefit shall be provided in an amount at least equal to the initial face amount of the policy so long as premiums are duly paid (subject to the provisions of (e)).

(3) The policy shall reflect the investment experience of one (1) or more separate accounts established and maintained by the insurer. The insurer must demonstrate that the variable life insurance policy is actuarially sound.

(4) Each variable life insurance policy shall be credited with the full amount of the net investment return applied to the benefit base.

(5) Any changes in variable death benefits of each variable life insurance policy shall be determined at least annually.

(6) The cash value of each variable life insurance policy shall be determined at least monthly. The method of computation of cash values and other non-forfeiture benefits, as described either in the policy or in a statement filed with the commissioner of the state in which the policy is delivered, or issued for delivery, shall be in accordance with actuarial procedures that recognize the variable nature of the policy. The method of computation must be such that, if the net investment return credited to the policy at all times from the date of issue should be equal to the assumed investment rate with premiums and benefits determined accordingly under the terms of the policy, then the resulting cash values and other non-forfeiture benefits must be at least equal to the minimum values required by [IC 27-1-12-7](#) of the insurance laws of this state (standard non-forfeiture law) for a general account policy with such premiums and benefits. The assumed investment rate shall not exceed the maximum interest rate permitted under the standard non-forfeiture law of this state. If the policy does not contain an assumed investment rate this demonstration shall be based on the maximum interest rate permitted under the standard non-forfeiture law. The method of computation may disregard incidental minimum guarantees as to the dollar amounts payable. Incidental minimum guarantees include, for example, but are not to be limited to, a guarantee that the amount payable at death or maturity shall be at least equal to the amount that otherwise would have been payable if the net investment return credited to the policy at all times from the date of issue had been equal to the assumed investment rate.

(7) The computation of values required for each variable life insurance policy may be based upon such reasonable and necessary approximations as are acceptable to the commissioner.

(d) Mandatory policy provisions. Every variable life insurance policy filed for approval in this state shall contain at least the following:

(1) The cover page or pages corresponding to the cover pages of each such policy shall contain:

(A) A prominent statement in either contrasting color or in boldface type that the amount or duration of death benefits may be variable or fixed under specified conditions.

(B) A prominent statement in either contrasting color or in boldface type that cash values may increase or decrease in accordance with the experience of the separate account subject to any specified minimum guarantees.

(C) A statement describing any minimum death benefit required pursuant to (c)(2).

(D) The method, or a reference to the policy provision which describes the method, for determining the amount of insurance payable at death.

(E) To the extent permitted by state law, a captioned provision that the policyholder may return the variable life insurance policy within ten (10) days of receipt of the policy by the policyholder, and receive a refund equal to the sum of (i) the difference between the premiums paid including any policy fees or other charges and the amounts allocated to any separate accounts under the policy and (ii) the value of the amounts allocated to any separate accounts under the policy, on the date the returned policy is received by the insurer or its agent. Until such time as state law authorizes the return of payments as calculated in the preceding sentence, the amount of the refund shall be the total of all premium payments for such policy.

(F) Such other items as are currently required for fixed benefit life insurance policies and which are not inconsistent with 760 IAC 1-33.

(2)(A) For scheduled premium policies, a provision for a grace period of not less than thirty-one (31) days from the premium due date which shall provide that where the premium is paid within the grace period, policy values will be the same, except for the

deduction of any overdue premium, as if the premium were paid on or before the due date.

(B) For flexible premium policies, a provision for a grace period beginning on the policy processing day when the total charges authorized by the policy that are necessary to keep the policy in force until the next policy processing day exceed the amounts available under the policy to pay such charges in accordance with the terms of the policy. Such grace period shall end on a date not less than sixty-one (61) days after the mailing date of the report to policyholders required by 760 IAC 1-33-9(3).

The death benefit payable during the grace period will equal the death benefit in effect immediately prior to such period less any overdue charges. If the policy processing days occur monthly, the insurer may require the payment of not more than three (3) times the charges which were due on the policy processing day on which the amounts available under the policy were insufficient to pay all charges authorized by the policy that are necessary to keep such policy in force until the next policy processing day.

(3) For scheduled premium policies, a provision that the policy will be reinstated at any time within two (2) years from the date of default upon the written application of the insured and evidence of insurability, including good health, satisfactory to the insurer, unless the cash surrender value has been paid or the period of extended insurance has expired, upon the payment of any outstanding indebtedness arising subsequent to the end of the grace period following the date of default together with accrued interest thereon to the date of reinstatement and payment of an amount not exceeding the greater of:

(A) All overdue premiums with interest at a specified rate and any indebtedness in effect at the end of the grace period following the date of default with interest at a rate specified in [IC 27-1-12.3](#) et seq.; or

(B) 110% of the increase in cash value resulting from reinstatement plus all overdue premiums for incidental insurance benefits with interest at a specified rate.

(4) A full description of the benefit base and of the method of calculation and application of any factors used to adjust variable benefits under the policy.

(5) A provision designating the separate account to be used and stating that:

(A) The assets of such separate account shall be available to cover the liabilities of the general account of the insurer only to the extent that the assets of the separate account exceed the liabilities of the separate account arising under the variable life insurance policies supported by the separate account.

(B) The assets of such separate account shall be valued at least as often as any policy benefits vary but at least monthly.

(6) A provision specifying what documents constitute the entire insurance contract under state law.

(7) A designation of the officers who are empowered to make an agreement or representation on behalf of the insurer and an indication that statements by the insured, or on his behalf, shall be considered as representations and not warranties.

(8) An identification of the owner of the insurance contract.

(9) A provision setting forth conditions or requirements as to the designation, or change of designation, of a beneficiary and a provision for disbursement of benefits in the absence of a beneficiary designation.

(10) A statement of any conditions or requirements concerning the assignment of the policy.

(11) A description of any adjustments in policy values to be made in the event of misstatement of age or sex of the insured.

(12) A provision that the policy shall be incontestable by the insurer after it has been in force for two (2) years during the lifetime of the insured, provided, however, that any increase in the amount of the policy's death benefits subsequent to the policy issue date, which increase occurred upon a new application or request of the owner and was subject to satisfactory proof of the insured's insurability, shall be incontestable after any such increase has been in force, during the lifetime of the insured, for two (2) years from the date of issue of such increase.

(13) A provision stating that the investment policy of the separate account shall not be changed without the approval of the insurance commissioner of the state of domicile of the insurer, and that the approval process is on file with the commissioner of this state.

(14) A provision that payment of variable death benefits in excess of any minimum death benefits, cash values, policy loans, or partial withdrawals (except when used to pay premiums) or partial surrenders may be deferred:

(A) for up to six (6) months from the date of request, if such payments are based on policy values which do not depend on the investment performance of the separate account; or

(B) otherwise, for any period during which the New York Stock Exchange is closed for trading (except for normal holiday closing) or when the Securities and Exchange Commission has determined that a state of emergency exists which may make such payment impractical.

(15) If settlement options are provided, at least one (1) such option shall be provided on a fixed basis only.

(16) A description of the basis for computing the cash value and the surrender value under the policy shall be included.

(17) Premiums or charges for incidental insurance benefits shall be stated separately.

(18) Any other policy provision required by 760 IAC 1-33.

(19) Such other items as are currently required for fixed benefit life insurance policies and are not inconsistent with 760 IAC 1-33.

(20) A provision for non-forfeiture insurance benefits. The insurer may establish a reasonable minimum cash value below which any non-forfeiture insurance options will not be available.

(e) Policy loan provisions. Every variable life insurance policy, other than term insurance policies and pure endowment policies, delivered or issued for delivery in this state shall contain provisions which are not less favorable to the policyholder than the following:

A provision for policy loans (which may at the option of the insurer be entitled and referred to as a partial withdrawal provision) not less favorable to the policyholder than the following:

(1) At least seventy-five percent (75%) of the policy's cash surrender value may be borrowed.

(2) The amount borrowed shall bear interest at a rate not to exceed that permitted by state insurance law.

(3) Any indebtedness shall be deducted from the proceeds payable on death.

(4) Any indebtedness shall be deducted from the cash surrender value upon surrender or in determining any non-forfeiture benefit.

(5) For scheduled premium policies, whenever the indebtedness exceeds the cash surrender value, the insurer shall give notice of any intent to cancel the policy if the excess indebtedness is not repaid within thirty-one (31) days after the date of mailing of such notice. For flexible premium policies, whenever the total charge authorized by the policy that are necessary to keep the policy in force until the next following processing day exceed the amounts available under the policy to pay such charges, a report must be sent to the policyholder containing the information specified by 760 IAC 1-33-9(3).

(6) The policy may provide that if, at any time, so long as premiums are duly paid, the variable death benefit is less than it would have been if no loan or withdrawal had ever been made, the policyholder may increase such variable death benefit up to what it would have been if there had been no loan or withdrawal by paying an amount not exceeding 110% of the corresponding increase in cash value and by furnishing such evidence of insurability as the insurer may request.

(7) The policy may specify a reasonable minimum amount which may be borrowed at any time but such minimum shall not apply to any automatic premium loan provision.

(8) No policy loan provision is required if the policy is under extended insurance non-forfeiture option.

(9) The policy loan provisions shall be constructed so that variable life insurance policyholders who have not exercised such provisions are not disadvantaged by the exercise thereof.

(10) Amounts paid to the policyholders upon the exercise of any policy loan provision shall be withdrawn from the separate account and shall be returned to the separate account upon repayment except that a stock insurer may provide the amounts for policy loans from the general account.

(f) Other policy provisions. The following provisions may in substance be included in a variable life insurance policy or related form delivered or issued for delivery in this state:

(1) An exclusion for suicide within two (2) years of the issue date of the policy; provided, however, that to the extent of the increased death benefits only, the policy may provide an exclusion for suicide within two (2) years of any increase in death benefits which results from an application of the owner subsequent to the policy issue date.

(2) Incidental insurance benefits may be offered on a fixed or variable basis.

(3) Policies issued on a participating basis shall offer to pay dividend amounts in cash. In addition, such policies may offer the following dividend options:

(A) the amount of the dividend may be credited against premium payments;

(B) the amount of the dividend may be applied to provide amounts of additional fixed or variable benefit life insurance;

(C) the amount of the dividend may be deposited in the general account at a specified minimum rate of interest;

(D) the amount of the dividend may be applied to provide paid-up amounts of fixed benefit one-year term insurance;

(E) the amount of the dividend may be deposited as a variable deposit in a separate account.

(4) A provision allowing the policyholder to elect in writing in the application for the policy or thereafter an automatic premium loan on a basis not less favorable than that required of policy loans under (e), except that a restriction that no more than two (2) consecutive premiums can be paid under this provision may be imposed.

(5) A provision allowing the policyholder to make partial withdrawals.

(6) Any other policy provision approved by the commissioner.

760 IAC 1-33-5 Reserve liabilities for variable life insurance

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12-7](#)

Sec. 5. (a) Reserve liabilities for variable life insurance policies shall be established under the standard valuation law in accordance with actuarial procedures that recognize the variable nature of the benefits provided and any mortality guarantees.

(b) For scheduled premium policies, reserve liabilities for the guaranteed minimum death benefit shall be the reserve needed to provide for the contingency of death occurring when the guaranteed minimum death benefit exceeds the death benefit that would be paid in the absence of the guarantee, and shall be maintained in the general account of the insurer and shall be not less than the greater of the following minimum reserves:

(1) the aggregate total of the term costs, if any, covering a period of one (1) full year from the valuation date, of the guarantee on each variable life insurance contract, assuming an immediate one-third (1/3) depreciation in the current value of the assets of the separate account followed by a net investment return equal to the assumed investment rate; or

(2) the aggregate total of the "attained age level" reserves on each variable life insurance contract. The "attained age level" reserve on each variable life insurance contract shall not be less than zero (0) and shall equal the "residue," as described in (2)(A), of the prior year's "attained age level" reserve on the contract, with any such "residue," increased or decreased by a payment computed on an attained age basis as described in (2)(B);

(A) The "residue" of the prior year's "attained age level" reserve on each variable life insurance contract shall not be less than zero (0) and shall be determined by adding interest at the valuation interest rate to such prior year's reserve, deducting the tabular claims based on the "excess," if any, of the guaranteed minimum death benefit over the death benefit that would be payable in the absence of such guarantee, and dividing the net result by the tabular probability of survival. The "excess" referred to in the preceding sentence shall be based on the actual level of death benefits that would have been in effect during the preceding year in the absence of the guarantee, taking appropriate account of the reserve assumptions regarding the distribution of death claim payments over the year.

(B) The payment referred to in (b)(2) shall be computed so that the present value of a level payment of that amount each year over the future premium paying period of the contract is equal to (A) minus (B) minus (C), where (A) is present value of the future guaranteed minimum death benefits, (B) is the present value of the future death benefits that would be payable in the absence of such guarantee, and (C) is any "residue," as described in (2)(A), of the prior year's "attained age level" reserve on such variable life insurance contract. If the contract is paid up, the payment shall equal (A) minus (B) minus (C). The amounts of future death benefits referred to in (B) shall be computed assuming a net investment return of the separate account which may differ from the assumed investment rate and/or the valuation interest rate but in no event may exceed the maximum interest rate permitted for the valuation of life contracts.

(3) The valuation interest rate and mortality table used in computing the two minimum reserves described in (1) and (2) above shall conform to permissible standards for the valuation of life insurance contracts. In determining such minimum reserve, the company may employ suitable approximations and estimates, including but not limited to groupings and averages.

(c) For flexible premium policies, reserve liabilities for any guaranteed minimum death benefit shall be maintained in the general account of the insurer and shall be not less than the aggregate total of the term costs, if any, covering the period provided for in the guarantee not otherwise provided for by the reserves held in the separate account assuming an immediate one-third (1/3) depreciation in the current value of the assets of the separate account followed by a net investment return equal to the valuation interest rate.

The valuation interest rate and mortality table used in computing this additional reserve, if any, shall conform to permissible standards for the valuation of life insurance contracts. In determining such minimum reserve, the company may employ suitable approximations and estimates, including but not limited to groupings and averages.

(d) Reserve liabilities for all fixed incidental insurance benefits and any guarantees associated with variable incidental insurance benefits shall be maintained in the general account and reserve liabilities for all variable aspects of the variable incidental insurance benefits [*sic.*] shall be maintained in a separate account, in amounts determined in accordance with the actuarial procedures

appropriate to such benefit. 760 IAC 1-33-6 Separate accounts

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-5-1](#); [IC 27-1-12-7](#)

Sec. 6. (a) The following requirements apply to the establishment and administration of variable life insurance separate accounts by any domestic insurer.

(b) Establishment and administration of separate accounts. Any domestic insurer issuing variable life insurance shall establish one (1) or more separate accounts pursuant to [IC 27-1-5-1](#) Class 1(c) of the insurance law of this state.

(1) If no law or other regulation provides for the custody of separate account assets and if such insurer is not the custodian of such separate account assets, all contracts for custody of such assets shall be in writing and the commissioner shall have authority to review and approve of both the terms of any such contract and the proposed custodian prior to the transfer of custody.

(2) Such insurer shall not without the prior written approval of the commissioner employ in any material connection with the handling of separate account asset any person who:

(A) within the last ten (10) years has been convicted of any felony or a misdemeanor arising out of such person's conduct involving embezzlement, fraudulent conversion, or misappropriation of funds or securities or involving violation of Sections 1341, 1342, or 1343 of Title 18, United States Code; or

(B) within the last ten (10) years has been found by any state regulatory authority to have violated or has acknowledged violation of any provision of any state insurance law involving fraud, deceit, or knowing misrepresentation; or

(C) within the last ten (10) years has been found by federal or state regulatory authorities to have violated or has acknowledged violation of any provision of federal or state securities laws involving fraud, deceit, or knowing misrepresentation.

(3) All persons with access to the cash, securities, or other assets of the separate account shall be under bond in the amount of not less than \$10,000.

(4) The assets of such separate accounts shall be valued at least as often as variable benefits are determined but in any event at least monthly.

(c) Amounts in the separate account. The insurer shall maintain in each separate account assets with a value at least equal to the greater of the valuation reserves for the variable portion of the variable life insurance policies or the benefit base for such policies.

(d) Investments by the separate account. (1) No sale, exchange, or other transfer of assets may be made by an insurer or any of its affiliates between any of its separate accounts or between any other investment account and one (1) or more of its separate accounts unless:

(A) in case of a transfer into a separate account, such transfer is made solely to establish the account or to support the operation of the policies with respect to the separate account to which the transfer is made; and

(B) such transfer, whether into or from a separate account, is made by a transfer of cash; but other assets may be transferred if approved by the commissioner in advance.

(2) The separate account shall have sufficient net investment income and readily marketable assets to meet anticipated withdrawals under policies funded by the account.

(e) Limitations on ownership. (1) A separate account shall not purchase or otherwise acquire the securities of any issuer, other than securities issued or guaranteed as to principal and interest by the United States, if immediately after such purchase or acquisition the value of such investment, together with prior investments of such account in such security valued as required by 760 IAC 1-33, would exceed ten percent (10%) of the value of the assets of the separate account. The commissioner may waive this limitation in writing if he believes such waiver will not render the operation of the separate account hazardous to the public or the policyholders in this state.

(2) No separate account shall purchase or otherwise acquire the voting securities of any issuer if as a result of such acquisition the insurer and its separate accounts, in the aggregate, will own more than ten percent (10%) of the total issued and outstanding voting securities of such issuer. The commissioner may waive this limitation in writing if he believes such waiver will not render

the operation of the separate account hazardous to the public or the policyholders in this state or jeopardize the independent operations of the issuer of such securities.

(3) The percentage limitation specified in (1) and (2) shall not be construed to preclude the investment of the assets of separate accounts in shares of investment companies registered pursuant to the Investment Company Act of 1940 or other pools of investment assets if the investments and investment policies of such investment companies or asset pools comply substantially with the provisions of (d) and other applicable portions of 760 IAC 1-33.

(f) Valuation of separate account assets. Investments of the separate account shall be valued at their market value on the date of valuation, or at amortized cost if it approximates market value.

(g) Separate account investment policy. The investment policy of a separate account operated by a domestic insurer filed under 760 IAC 1-33-3(2)(C) shall not be changed without first filing such change with the insurance commissioner.

(1) Any change filed pursuant to this section shall be effective sixty (60) days after the date it was filed with the commissioner, unless the commissioner notifies the insurer before the end of such sixty (60) day period of his disapproval of the proposed change. At any time the commissioner may, after notice and public hearing, disapprove any change that has become effective pursuant to this subsection.

(2) the commissioner may disapprove the change if he determined that the change would be detrimental to the interests of the policyholder participating in such separate account.

(h) Charges against separate account. The insurer must disclose in writing, prior to or contemporaneously with delivery of the policy, all charges that may be made against the separate account, including, but not limited to, the following:

(1) taxes or reserves for taxes attributable to investment gains and income of the separate account;

(2) actual cost of reasonable brokerage fees and similar direct acquisition and sale costs incurred in the purchase or sale of separate account assets;

(3) actuarially determined costs of insurance (tabular costs) and the release of separate account liabilities;

(4) charges for administrative expenses and investment management expenses, including internal costs attributable to the investment management of assets of the separate account;

(5) a charge, at a rate specified in the policy, for mortality and expense guarantees;

(6) any amounts in excess of those required to be held in the separate accounts;

(7) charges for incidental insurance benefits.

(i) Standards of conduct. Every insurer seeking approval to enter into the variable life insurance business in this state shall adopt by formal action of its board of directors a written statement specifying the standards of conduct of the insurer, its officers, directors, employees, and affiliates with respect to the purchase or sale of investments of separate accounts. Such standards of conduct shall be binding on the insurer and those to whom it refers. A code or codes of ethics meeting the requirements of Section 17j under the Investment Company Act of 1940 and applicable rules and regulations thereunder shall satisfy the provisions of this section.

(j) Conflicts of interest. Rules under any provision of the insurance laws of this state or any regulation applicable to the officers and directors of insurance companies with respect to conflicts of interest shall also apply to members of any separate account's committee or other similar body.

(k)(a) Investment advisory services to a separate account. An insurer shall not enter into a contract under which any person undertakes, for a fee, to regularly furnish investment advice to such insurer with respect to its separate accounts maintained for variable life insurance policies unless:

(1) the person providing such advice is registered as an investment adviser under the Investment Advisers Act of 1940; or

(2) the person providing such advice is an investment manager under the Employee Retirement Income Security Act of 1974 with respect to the assets of each employee benefit plan allocated to the separate account; or

(3) the insurer has filed with the commissioner and continues to file annually the following information and statements concerning the proposed adviser:

(A) the name and form of organization, state of organization, and its principal place of business;

(B) the names and addresses of its partners, officers, directors, and persons performing similar functions or, if such an investment adviser be an individual, of such individual;

(C) a written standard of conduct complying in substance with the requirements of (i) which has been adopted by the investment adviser and is applicable to the investment adviser, his officers, directors, and affiliates;

(D) a statement provided by the proposed adviser as to whether the adviser or any person associated therewith:

(i) has been convicted within ten (10) years of any felony or misdemeanor arising out of such person's conduct as an

employee, salesman, officer or director of an insurance company, a banker, an insurance agent, a securities broker, or an investment adviser involving embezzlement, fraudulent conversion, or misappropriation of funds or securities, or involving the violation of Sections 1341, 1342, or 1343 of Title 18 of the United States Code;

(ii) has been permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from acting as an investment adviser, underwriter, broker, or dealer, or as an affiliated person or as an employee of any investment company, bank, or insurance company or from engaging in or continuing any conduct or practice in connection with any such activity;

(iii) has been found by federal or state regulatory authorities to have willfully violated or have acknowledged willful violation of any provision of federal or state securities laws or state insurance laws or of any rule or regulation under any such laws; or

(iv) has been censured, denied an investment adviser registration, had a registration as an investment adviser revoked or suspended, or been barred or suspended from being associated with an investment adviser by order of federal or state regulatory authorities; and

(4) such investment advisory contract shall be in writing and provide that it may be terminated by the insurer without penalty to the insurer or the separate account upon no more than sixty (60) days' written notice to the investment adviser.

(b) The commissioner may, after notice and opportunity for hearing, by order require such investment advisory contract to be terminated if he deems continued operation thereunder to be hazardous to the public or the insurer's policyholders. Sec. 7. An insurer delivering or issuing for delivery in this state any variable life insurance policies shall deliver to the applicant for the policy, and obtain a written acknowledgment of receipt from such applicant coincident with or prior to the execution of the application, the following information. The requirements of this section shall be deemed to have been satisfied to the extent that a disclosure containing information required by this section is delivered, either in the form of (1) a prospectus included in the requirements of the Securities Act of 1933 and which was declared effective by the Securities and Exchange Commission; or (2) all information and reports required by the Employee Retirement Income Security Act of 1974 if the policies are exempted from the registration requirements of the Securities Act of 1933 pursuant to Section 3(a)(2) thereof.

(1) A summary explanation, in non-technical terms, of the principal features of the policy, including a description of the manner in which the variable benefits will reflect the investment experience of the separate account and the factors which affect such variation. Such explanation must include notices of the provision required by 760 IAC 1-33-4(d)(1)(E) and (d)(6).

(2) A statement of the investment policy of the separate account, including:

Affected: [IC 27-1-12-7](#)

Sec. 8. The application for a variable life insurance policy shall contain:

- (1) a prominent statement that the death benefit may be variable or fixed under specified conditions;
- (2) a prominent statement that cash values may increase or decrease in accordance with the experience of the separate account (subject to any specified minimum guarantees);
- (3) questions designed to elicit information which enables the insurer to determine the suitability of variable life insurance for the applicant.

760 IAC 1-33-9 Reports to policyholders

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12-7](#)

Sec. 9. Any insurer delivering or issuing for delivery in this state any variable life insurance policies shall mail to each variable life insurance policyholder at his or her last known address the following reports:

- (1) Within thirty (30) days after each anniversary of the policy, a statement or statements of the cash surrender value, death benefit, any partial withdrawal or policy loan, any interest charge, any optional payments allowed pursuant to 760 IAC 1-33-4(e) under the policy computed as of the policy anniversary date. Provided, however, that such statement may be furnished within thirty (30) days after a specified date in each policy year so long as the information contained therein is computed as of a date not more than sixty (60) days prior to the mailing of such notice. This statement shall state that, in accordance with the investment experience of the separate account, the cash values and the variable death benefit may increase or decrease, and shall prominently identify any value described therein which may be recomputed prior to the next statement required by this section. If the policy guarantees that the variable death benefit on the next policy anniversary date will not be less than the variable death benefit specified in such statement, the statement shall be modified to so indicate. For flexible premium policies, the report must contain a reconciliation of the change since the previous report in cash value and cash surrender value, if different, because of payments made (less deductions for expense charges), withdrawals, investment experience, insurance charges and any other charges made against the cash value. In addition, the report must show the projected cash value and cash surrender value, if different, as of one (1) year from the end of the period covered by the report assuming that: (i) planned periodic premiums, if any, are paid as scheduled, (ii) guaranteed costs of insurance are deducted, and (iii) the net investment return is equal to the guaranteed rate or, in the absence of a guaranteed rate, is not greater than zero (0). If the projected value is less than zero (0), a warning message must be included that states that the policy may be in danger of terminating without value in the next twelve (12) months unless additional premium is paid.

(2) Annually, a statement or statements including:

- (A) a summary of the financial statement of the separate account based on the annual statement last filed with the commissioner;
- (B) the net investment return of the separate account for the last year and, for each year after the first, a comparison of the investment rate of the separate account during the last year with the investment rate during prior years, up to a total of not less than five (5) years when available;
- (C) a list of investments held by the separate account as of a date not earlier than the end of the last year for which an annual statement was filed with the commissioner;
- (D) any charges levied against the separate account during the previous year;
- (E) a statement of any change, since the last report, in the investment objective and orientation of the separate account, in

any investment restriction or material quantitative or qualitative investment requirement applicable to the separate account or in the investment adviser of the separate account.

(3) For flexible premium policies, a report must be sent to the policyholder if the amounts available under the policy on any policy processing day to pay the charges authorized by the policy are less than the amount necessary to keep the policy in force until the next following policy processing day. The report must indicate the minimum payment required under the terms of the policy to keep it in force and the length of the grace period for payment of such amount.

Sec. 4. (a) Except as provided in subsections (b) and (c), the 1983 Table "a" is recognized and approved as an individual annuity mortality table for valuation and, at the option of the company, may be used for purposes of determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after August 31, 1979.

(b) Except as provided in subsection (c), either the 1983 Table "a" or the Annuity 2000 Mortality Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 1987.

(c) Except as provided in subsection (d), the Annuity 2000 Mortality Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after December 31, 1999.

(d) The 2012 IAR Table shall be used for determining the minimum standard of valuation for any individual annuity or pure endowment contract issued on or after January 1, 2015.

(e) The 1983 Table "a" without projection is to be used for determining the minimum standards of valuation for an individual annuity or pure endowment contract issued on or after December 31, 1999, solely when the contract is based on life contingencies and is issued to fund periodic benefits arising from any of the following:

- (1) Settlements of various forms of claims pertaining to court settlement or out of court settlement from tort actions.
- (2) Settlements involving similar actions, such as worker's compensation claims.
- (3) Settlement of long term disability claims where a temporary or life annuity has been used in lieu of continuing disability payments.

760 IAC 1-35-4.5 Application of the 2012 IAR Table

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12](#)

Sec. 4.5. In using the 2012 IAR Table, the mortality rate for a person age x in year (2012 + n) is calculated as follows:

$$q_x^{2012+n} = q_x^{2012} (1 - G2_x)^n$$

The resulting q_x^{2012+n} shall be rounded to three decimal places per 1,000, e.g., 0.741 deaths per 1,000. Also, the rounding shall occur according to the formula above, starting at the 2012 period table rate.

For example, for a male age 30, $q_x^{2012} = 0.741$.

$$q_x^{2013} = 0.741 * (1 - 0.010)^1 = 0.73359, \text{ which is rounded to } 0.734.$$

$$q_x^{2014} = 0.741 * (1 - 0.010)^2 = 0.7262541, \text{ which is rounded to } 0.726.$$

A method leading to incorrect rounding would be to calculate q_x^{2014} as $q_x^{2013} * (1 - 0.010)$, or $0.734 * 0.99 = 0.727$. It is incorrect to use the already rounded q_x^{2013} to calculate q_x^{2014} .

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 1. The purpose of this rule is to:

- (1) permit, but not require, plans to include a coordination of benefits provision;

- (2) establish an order in which plans pay their claims;
- (3) provide the authority for the orderly transfer of information needed to pay claims promptly;
- (4) reduce duplication of benefits by permitting a reduction of the benefits paid by a plan when the plan, pursuant to these rules, does not have to pay its benefits first;
- (5) reduce claims payment delays; and
- (6) make all contracts that contain a coordination of benefits provision consistent with this rule.

760 IAC 1-38.1-2 "Allowable expenses" defined

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 2. (a) As used in this rule, "allowable expenses" means any health care expense, including:

- (1) coinsurance or copayments; and
- (2) without reduction for any applicable deductible;

that is covered at least in part under any of the plans covering the person, except where a statute requires a different definition.

(b) If:

- (1) a plan is advised by a covered person that all plans covering the person are high-deductible health plans; and
- (2) the person intends to contribute to a health savings account established in accordance with Section 223 of the Internal Revenue Code of 1986;

the primary high-deductible health plan's deductible is not an allowable expense, except for any health care expense incurred that may not be subject to the deductible as described in Section 223(c)(2)(C) of the Internal Revenue Code of 1986.

(c) An expense or a portion of an expense that is not covered by any of the plans is not an allowable expense.

(d) Any expense that a provider:

- (1) by law; or
- (2) in accordance with a contractual agreement;

is prohibited from charging a covered person is not an allowable expense.

(e) Notwithstanding subsection (a), items of expense under coverages, such as dental care, vision care, prescription drug, or hearing aid programs, may be excluded from the definition of allowable expense. A plan that limits the application of coordination of benefits to certain coverages or benefits may limit definition of allowable in its contract to expenses that are similar to the expenses that it provides. When coordination of benefits is restricted to specific coverages or benefits in a contract, the definition of allowable expense shall include similar expense to which coordination of benefits applies.

(f) When a plan provides benefits in the form of service, the reasonable cash value of each service will be considered as both of the following:

- (1) An allowable expense.
- (2) A benefit paid.
- (g) The difference between the cost of a:

- (1) private hospital room; and
- (2) semiprivate room;

is not considered an allowable expense under subsection (a) unless the patient's stay in a private hospital room is medically necessary in terms of generally accepted medical practice.

(h) When benefits are reduced under a primary plan because a covered person does not comply with the plan provisions related to:

- (1) second surgical opinions;
- (2) precertification of admissions or services; and
- (3) preferred provider arrangements;

the amount of the reduction will not be considered an allowable expense.

(i) If a person is covered as follows by two (2) or more plans that:

(1) Compute their benefits payments on the basis of:

- (A) usual and customary fees;
- (B) relative value schedule reimbursement; or
- (C) other similar reimbursement methodology;

any amount charged by the provider in excess of the highest reimbursement amount for a specified benefit is not an allowable expense.

(2) Provide benefits or services on the basis of negotiated fees, any amount in excess of the highest of the negotiated fees is not an allowable expense.

(j) If a person is covered by:

(1) one (1) plan that calculates its benefits or services on the basis of:

- (A) usual and customary fees;
- (B) relative value schedule reimbursement; or
- (C) other similar reimbursement methodology; and

(2) another plan that provides its benefits or services on the basis of negotiated fees;

the primary plan's payment arrangement shall be the allowable expense for all plans. However, if the provider has contracted with the secondary plan to provide the benefit or service for a specific negotiated fee or payment amount that is different than the primary plan's payment arrangement and if the provider's contract permits, that negotiated fee or payment shall be the allowable expense used by the secondary plan to determine its benefits. 760 IAC 1-38.1-7 "Plan" defined

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 7. (a) As used in this rule, "plan" means a form of coverage with which coordination is allowed. Separate parts of a plan for members of a group that are:

- (1) provided through alternative contracts; and
- (2) intended to be part of a coordinated package of benefits;

are considered one (1) plan, and there is no COB among the separate parts of the plan. If a plan coordinates benefits, the definition of plan in the group contract must state the types of coverage that will be considered in applying the coordination of benefits provision of that contract. The right to include a type of coverage is limited by subsections (b) through (d).

(b) This rule uses the term "plan". However, a group contract may instead use "program" or some other term.

(c) A plan may include the following:

- (1) Group and nongroup insurance contracts and subscriber contracts.
- (2) Uninsured arrangements of group or group-type coverage.
- (3) Group or nongroup coverage through closed panel plans.
- (4) Group-type contracts.
- (5) The medical care components of long term care contracts, such as skilled nursing care.
- (6) The medical benefits coverage in:
 - (A) automobile "no fault"; and
 - (B) traditional automobile "fault";

type contracts.

(7) Medicare or other governmental benefits, except as provided in subsection (d)(7). That part of the definition of plan may be limited to the hospital, medical, and surgical benefits of the governmental program.

(d) A plan shall not include the following:

- (1) Accident only coverage.
- (2) Specified disease or specified accident coverage.
- (3) Limited health benefit coverage.
- (4) Benefits provided in long term care insurance policies for either of the following:
 - (A) Nonmedical services, such as the following:
 - (i) Personal care.
 - (ii) Adult day care.
 - (iii) Homemaker services.
 - (iv) Assistance with activities of daily living.
 - (v) Respite care and custodial care.
 - (B) Contracts that pay a fixed daily benefit without regard to expenses incurred or the receipt of services.

(5) Hospital indemnity coverage benefits or other fixed indemnity coverage.

(6) School accident-type coverages covering grammar, high school, and college students for accidents only, including athletic injuries, either on a:

- (A) twenty-four (24) hour; or
- (B) "to and from school";

basis.

(7) A state plan under Medicaid or a government plan that, by law, provides benefits that are in excess of those of any:

- (A) private insurance plan; or
- (B) other nongovernmental plan.

(8) Medicare supplement policies.

Affected: [IC 27-8-5-19](#)

Sec. 8. As used in this rule, "primary plan" means a plan whose benefits for a person's health care coverage must be determined without taking the existence of any other plan into consideration. A plan is a primary plan if either of the following conditions are true:

- (1) The plan either has:
 - (A) no order of benefit determination rules; or
 - (B) rules that differ from those permitted by this rule.
- (2) All plans that cover the person use the order of benefit determination provisions of this rule, and under this rule the plan determines its benefits first.

760 IAC 1-38.1-11 Model coordination of benefits provision; prohibited coordination; benefit design

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 11. (a) A model coordination of benefits provision for use in group contracts, contained as Appendix A to the Group Coordination of Benefits Model Regulation as adopted and amended in April 2005, by the National Association of Insurance Commissioners (NAIC) (2005 Proc. I), appearing in the NAIC Model Insurance Laws, Regulations and Guidelines, Vol. I, pages 120-14 through 120-19, is hereby adopted by reference, as if fully set out in this rule.

(b) A group contract's coordination of benefits provision does not have to use the words and format shown in the model provision adopted by reference in subsection (a). Changes may be made to:

- (1) fit the language and style of the rest of the group contract; or
- (2) reflect the difference among plans that:
 - (A) provide services;
 - (B) pay benefits for expenses incurred; and
 - (C) indemnify.

No substantive changes are allowed.

(c) A COB provision may not be used that permits a plan to reduce its benefits on the basis that:

- (1) another plan exists and the covered person did not enroll in that plan; or
- (2) a person:
 - (A) is or could have been covered under another plan, except with respect to Part B of Medicare; or
 - (B) has elected an option under another plan providing a lower level of benefits than another option that could have been elected.

(d) No contract may contain a provision that its benefits are "always excess" or "always secondary" to any plan as defined in section 7 of this rule, except in compliance with this rule.

(e) Under the terms of a closed panel plan, benefits are not payable if the covered person does not use the services of a closed panel provider. In most instances, COB does not occur if a covered person:

- (1) is enrolled in two (2) or more closed panel plans; and
- (2) obtains services from a provider in one (1) of the closed panel plans because the other closed panel plan (the one (1) whose providers were not used) has no liability.

However, COB may occur during the plan year when the covered person receives emergency services that would have been covered by both plans. The secondary plan shall use the provisions of section 17 of this rule to determine the amount to pay for the benefit.

(f) No plan may use a COB provision or any other provision that allows it to reduce its benefits with respect to any other coverage its insured may have that does not meet the definition of plan as defined by section 7 of this rule. 760 IAC 1-38.1-12 Order of benefits; general and nondependent/dependent

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 12. (a) When a person is covered by two (2) or more plans, the primary plan must pay or provide its benefits as if the secondary plan or plans did not exist. The following apply:

(1) If the:

(A) primary plan is a closed panel plan; and

(B) secondary plan is not a closed panel plan;

the secondary plan shall pay or provide benefits as if it were the primary plan when a covered person uses a nonpanel provider, except for emergency services or authorized referrals that are paid or provided by the primary plan.

(2) When multiple contracts providing coordinated coverage are treated as a single plan under this rule:

(A) this section applies only to the plan as a whole; and

(B) coordination among the component contracts is governed by the terms of the contracts.

If more than one (1) carrier pays or provides benefits under the plan, the carrier designated as primary within the plan shall be responsible for the plan's compliance with this rule.

(3) If a person is covered by more than one (1) secondary plan, the order of benefits determination rules of this rule decide the order in which secondary plans benefits are determined in relation to each other. Each secondary plan shall take into consideration the benefits of:

(A) the primary plan or plans; and

(B) any other plan that under the rules of this rule has its benefits determined before those of that secondary plan.

(b) A plan that does not include a coordination of benefits provision consistent with this rule is always the primary plan unless the provisions of both plans state that the complying plan is primary. However, coverage that is obtained by virtue of membership in a group designed to supplement a part of a basic package of benefits may provide that the supplementary coverage shall be excess to any other parts of the plan provided by the contract holder. The following are examples:

(1) Major medical coverages that are superimposed over base plan hospital and surgical benefits.

(2) Insurance type coverages that are written in connection with a closed panel plan to provide out of network benefits.

(c) A plan may take the benefits of another plan into account only when, under this rule, it is secondary to that other plan. Each plan determines its order of benefits using the first of the rules in sections 12 through 16.5 [*this section and sections 13 through 15.5*] of this rule.

(d) The benefits of the plan that covers the person as an employee, member, subscriber, policyholder, or retiree (that is, other than as a dependent) are determined before those of the plan that covers the person as a dependent. If the person is a Medicare beneficiary, and, as a result of the provisions of Title XVIII of the Social Security Act and implementing regulations, Medicare is:

(1) secondary to the plan covering the person as a dependent; and

(2) primary to the plan covering the person as other than a dependent, such as a retired employee;

then the order of benefits is reversed so that the plan covering the person as an employee, member, subscriber, policyholder, or retiree is the secondary plan and the other plan covering the person as a dependent is the primary plan. 760 IAC 1-38.1-14 Order of benefits for dependent child/separated or divorced parents

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 14. (a) For a dependent child whose parents are divorced or separated or do not live together, whether or not they have ever been married, this subsection applies:

(1) If there is no court decree allocating responsibility for the child's health care expenses or health care coverage, the order of benefits for the child are as follows:

- (A) The plan of the custodial parent.
- (B) The plan of the spouse of the custodial parent.
- (C) The plan of the noncustodial parent.
- (D) The plan of the spouse of the noncustodial parent.

(2) If the:

(A) specific terms of a court decree state that one (1) of the parents is responsible for the health care expenses of the child; and

(B) entity obligated to pay or provide the benefits of the plan of that parent has actual knowledge of those terms; that plan is primary. If the parent with the responsibility has no health care coverage for the dependent child's health care expenses, but that parent's spouse does, that parent's spouse's plan is the primary plan. This subsection does not apply with respect to any claim determination period or plan year during which any benefits are actually paid or provided before the entity has that actual knowledge.

(3) If the specific terms of a court decree state that both parents are responsible for the dependent child's health care expenses or health care coverage, the provisions of section 13 of this rule shall determine the order of benefits.

(4) If a court decree states that the parents have joint custody without specifying that one (1) parent has responsibility for the health care expenses or health care coverage of the dependent child, the provisions of section 13 of this rule shall determine the order of benefits.

(b) For a dependent child covered under more than one (1) plan of individuals who are not the parents of the child, the order of benefits shall be determined as applicable under section 13 of this rule as if those individuals were parents of the child. Sec. 16. (a) If the provisions of sections 12 through 15.5 of this rule do not determine the order of benefits, the benefits of the plan that covered the person for the:

- (1) longer period of time is the primary plan; and
- (2) shorter period of time is the secondary plan.

(b) To determine the length of time a person has been covered under a plan, two (2) plans shall be treated as one (1) plan if the claimant was eligible under the second plan within twenty-four (24) hours after the first plan ended.

(c) The start of a new plan does not include a change:

- (1) in the amount or scope of a plan's benefits;
- (2) in the entity that pays, provides, or administers the plan's benefits; or
- (3) from one (1) type of plan to another, such as from a single employer plan to that of a multiple employer plan.

(d) The claimant's length of time covered under a plan is measured from the claimant's first date of coverage under the plan. The secondary plan:

- (1) may reduce its payment by the amount so that, when combined with the amount paid by the primary plan, the total benefits paid or provided by all plans for the claim do not exceed one hundred percent (100%) of the total allowable expense for that claim; and

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-8-5-19](#)

Sec. 19. (a) A plan with order of benefit determination provisions that comply with this rule (complying plan) may coordinate its benefits with a plan that is "excess" or "always secondary", or that uses order of benefit determination provisions that are inconsistent with those contained in this rule (noncomplying plan) on the following basis:

(1) If the complying plan is the:

(A) primary plan, it shall pay or provide its benefits on a primary basis; or

(B) secondary plan, it shall, nevertheless, pay or provide its benefits first, but the amount of the benefits payable shall be determined as if the complying plan were the secondary plan. In such a situation, the payment shall be the limit of the complying plan's liability.

(2) If the noncomplying plan does not provide the information needed by the complying plan to determine its benefits within a reasonable time after it is requested to do so, the complying plan shall do the following:

(A) Assume that the benefits of the noncomplying plan are identical to its own.

(B) Pay its benefits accordingly. If, within two (2) years of payment, the complying plan receives information as to the actual benefits of the noncomplying plan, it shall adjust payment accordingly.

(b) If the noncomplying plan:

(1) reduces its benefits so that the covered person receives less in benefits than he or she would have received had the complying plan paid or provided its benefits as the secondary plan; and

(2) paid or provided its benefits as the primary plan;

and governing state law allows the right of subrogation under section 21 of this rule, then the complying plan shall advance to or on behalf of the covered person an amount equal to the difference.

(c) In no event shall the complying plan advance more than the complying plan would have paid had it been the primary plan less any amount it previously paid for the same expense or service. In consideration of such advance, the complying plan shall be subrogated to all rights of the employee, subscriber, or member against the noncomplying plan. Such advance by the complying plan shall also be without prejudice to any claim it may have against the noncomplying plan in the absence of the subrogation. Sec. 5. An insurer may require a potential insured to submit to any medical tests, at the insurer's expense, the purpose of which is to determine infection with HIV, subject to the following conditions:

(1) The test is necessary to render a fully informed underwriting determination based upon sound actuarial principles concerning whether to accept or rate a particular risk.

(2) Whenever an applicant is requested to take a test to determine HIV infection in connection with an application for insurance, the use of such a test must be revealed to the applicant and his or her written consent obtained. No adverse underwriting decision shall be made on the basis of such a positive test unless an established test protocol has been followed.

(3) The following test protocol is established and must be the basis of an adverse underwriting determination:

(A) Two (2) positive ELISA tests.

(B) One (1) Western Blot test, which is not negative, must be obtained from the same sample b from tests conducted by a qualified laboratory.

Notwithstanding, the commissioner may approve an alternative screening and confirmatory test protocol that utilizes a screening and confirmatory test approved by the federal Food and Drug Administration for detecting the presence of HIV or HIV antibodies that is no less accurate than ELISA and Western Blot protocol.

(4) All results of tests to determine HIV infection and application responses are confidential and shall not be shared with anyone other than the applicant, the applicant's physician, and the insurer's underwriting department, except as follows:

(A) Test results and application responses may be shared with underwriting departments of affiliates of the insurer and reinsurers, who shall be subject to all provisions of this rule as if they were the insurer to which application was originally made.

(B) Test results may be reported to the Medical Information Bureau, Inc., provided that:

(i) the insurer will not report that tests of an applicant showed the presence of HIV, but only that unspecified test results were abnormal; and

(ii) reports must use a general code that also covers results of tests for many diseases or conditions that are not related to HIV or AIDS.

- (1) Sexual orientation may not be used in the underwriting process or in the determination of insurability.
- (2) Insurance support organizations shall be directed by insurers not to investigate, directly or indirectly, the sexual orientation of an applicant or a beneficiary.
- (3) Neither the marital status, the living arrangements, the occupation, the gender, the medical history, the beneficiary designation, nor the zip code or other territorial classification of an applicant may be used to establish, or aid in establishing, the applicant's sexual orientation.
- (4) For purposes of rating an applicant for health and life insurance, an insurer may impose territorial rates, but only if the rates are based on sound actuarial principles or are related to actual or reasonably anticipated experience.
- (5) No adverse underwriting decision shall be made because medical records or a report from an insurance support organization shows that the applicant has demonstrated concern about HIV by seeking testing or counseling from health care professionals.

Affected: [IC 27-1-12](#)

Sec. 6. (a) The terminology "accelerated benefit" shall be included in the descriptive title. Products subject to this rule shall not be described or marketed as long term care insurance or as providing long term care benefits.

(b) A disclosure statement that receipt of these accelerated benefits may be taxable and that assistance should be sought from a personal tax advisor is required at the time of application for the policy or rider and at the time the accelerated benefit payment request is submitted. The disclosure statement shall be prominently displayed on the first page of the policy or rider and any other related documents.

(c) The following disclosure requirements apply:

(1) A written disclosure including, but not necessarily limited to, a brief description of the accelerated benefit and definitions of the conditions or occurrences triggering payment of the benefits shall be given to the applicant. The description shall include an explanation of any effect of the payment of a benefit on the policy's cash value, accumulation account, death benefit, premium, policy loans, and policy liens. In addition, the following apply:

(A) In the case of agent solicited insurance, the agent shall provide the disclosure form to the applicant prior to or concurrently with the application. Acknowledgement of the disclosure shall be signed by the applicant and writing agent.

(B) In the case of a solicitation by direct response methods, the insurer shall provide the disclosure form to the applicant at the time the policy is delivered, with a notice that a full premium refund shall be received if the policy is returned to the company within the free look period.

(C) In the case of group insurance policies, the disclosure form shall be contained as part of the certificate of coverage or any related document furnished by the insurer for the certificate holder.

(2) If there is a premium or cost of insurance charge, the insurer shall give the applicant a generic illustration numerically demonstrating any effect of the payment of a benefit on the policy's cash value, accumulation account, death benefit, premium, policy loans, and policy liens. In addition, the following apply:

(A) In the case of agent solicited insurance, the agent shall provide the illustration to the applicant prior to or concurrently with the application.

(B) In the case of a solicitation by direct response methods, the insurer shall provide the illustration to the applicant at the time the policy is delivered.

(C) In the case of group insurance policies, the illustration form shall be contained as part of the certificate of coverage or any related document furnished by the insurer for the certificate holder.

(3) The following disclosure of premium charges apply:

(A) Insurers with financing options other than as described in section 10(a)(2) and 10(a)(3) of this rule shall disclose to the policy owner any premium or cost of insurance charge for the accelerated benefit. These insurers shall make a reasonable effort to assure that the certificate holder is aware of any additional premium or cost of insurance charge if the certificate holder is required to pay such charge.

(B) Insurers shall furnish an actuarial demonstration to the insurance department when filing the product disclosing the method of arriving at their cost for the accelerated benefit.

(4) The insurer shall disclose to the policy owner any administrative expense charge. The insurer shall make a reasonable effort to assure that the certificate holder is aware of any administrative expense charge if the certificate holder is required to pay such charge.

(d) When a policy owner or certificate holder requests an acceleration, the insurer shall send a statement to the policy owner or certificate holder and irrevocable beneficiary showing any effect that the payment of the accelerated benefit will have on the policy's cash value, accumulation account, death benefit, premium, policy loans, and policy liens. Also, the statement must show the effect

that a policy loan and a partial withdrawal, if available, would have on the policy's cash value, accumulation account, death benefit, premiums, and policy loans. The statement shall disclose that receipt of accelerated benefit payments may adversely affect the recipient's eligibility for Medicaid or other government benefits or entitlements. In addition, the statement shall disclose that receipt of any accelerated benefit payment may be taxable and that assistance should be sought from a personal tax advisor. When a previous disclosure statement becomes invalid as a result of an acceleration of the death benefit, the insurer shall send a revised disclosure statement to the policy owner or certificate holder and irrevocable beneficiary. When the insurer agrees to accelerate death benefits, the insurer shall issue an amended schedule page to the policyholder or notify the certificate holder under a group policy to reflect any new, reduced in-force face amount of the contract. - (A) the current yield on ninety (90) day treasury bills; or
- (B) the current maximum statutory adjustable policy loan interest rate.

The interest rate accrued on the portion of the accelerated benefits which limit the amount available as a policy loan shall be no more than the policy loan interest rate stated in the contract.

(b) Accelerated benefit payments may have the following effects on cash value:

(1) When payment of an accelerated benefit results in a reduction in the death benefit, there shall be no more than a pro rata reduction in the cash value based on the percentage of death benefits accelerated to produce the accelerated benefit payment.

(2) Alternatively, the payment of accelerated benefits, any administrative expense charges, any future premiums, and any accrued interest can be considered a lien against the death benefit of the policy or rider. As long as such a lien is outstanding, access to the cash value, whether by surrender, partial withdrawal, or policy loan, may be restricted to any excess of the cash value over the sum of any outstanding policy loans and a pro rata portion of the cash value. At any point in time, such pro rata portion of the cash value shall be the cash value at that point times the ratio of the lien at that point divided by the insured's death benefit at that point.

(c) The payment of an accelerated benefit may not be required to be applied toward repaying an amount greater than a pro rata proportion of any outstanding policy loans. Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12](#)

Sec. 11. (a) A qualified actuary shall describe the accelerated benefits, the risks, the expected costs, and the calculation of statutory reserves in an actuarial memorandum accompanying each filing. The insurer shall maintain in its files descriptions of the bases and procedures used to calculate benefits payable under these provisions. These descriptions shall be made available for examination by the commissioner of the department of insurance upon request.

(b) When benefits are provided through the acceleration of benefits under group or individual life policies or riders to such policies, policy reserves shall be determined in accordance with the Standard Valuation Law. All valuation assumptions used in constructing the reserves shall be determined as appropriate for statutory valuation purposes by a member in good standing of the American Academy of Actuaries. Mortality tables and interest currently recognized for life insurance reserves by the National Association of Insurance Commissioners (NAIC) may be used as well as appropriate assumptions for the other provisions incorporated in the policy form. The actuary must follow both actuarial standards and certification for good and sufficient reserves. Reserves in the aggregate must be sufficient to cover:

- (1) policies upon which no claim has yet arisen; and
- (2) policies upon which an accelerated claim has arisen.

(c) For policies and certificates that provide actuarially equivalent benefits, no additional reserves need to be established.

(d) Policy liens and policy loans, including accrued interest, represent assets of the company for statutory reporting purposes. For any policy on which the policy lien exceeds the policy's statutory reserve liability, such excess must be held as a nonadmitted asset. If the application is complete, the applicant will be advised that the application has been received and accepted for review.

(2) The department of insurance shall have sixty (60) days from the date the application is determined to be complete under subdivision (1) to process the application and approve or disapprove it. (4) The ability of an assuming reinsurer to perform and whether the insurer's reinsurance program provides sufficient protection for the insurer's remaining surplus after taking into account the insurer's cash flow and the classes of business written as well as the financial condition of the assuming reinsurers.

(5) Whether the insurer's operating loss in the last twelve (12) month period or any shorter period of time, including, but not limited to:

(A) net capital gain or loss;

(B) change in nonadmitted assets; and

Sec. 5. (a) If the commissioner determines that the continued operation of the insurer licensed to transact business in this state may be hazardous to the policyholders or the general public, then the commissioner may, in addition to any other action the commissioner may take under [IC 27-9-2-1\(b\)](#) or any other statute or rule, issue an order requiring the insurer to do the following:

- (1) Reduce the total amount of present and potential liability for policy benefits by reinsurance.
- (2) Reduce, suspend, or limit the volume of business being accepted or renewed.
- (3) Reduce general insurance and commission expenses by specified methods.
- (4) Increase the insurer's capital and surplus.
- (5) Suspend or limit the declaration and payment of dividends by an insurer to its stockholders or to its policyholders.
- (6) File reports in a form acceptable to the commissioner concerning the market value of an insurer's assets.
- (7) Limit or withdraw from certain investments or discontinue certain investment practices to the extent the commissioner deems necessary.
- (8) Document the adequacy of premium rates in relation to the risks insured.
- (9) File, in addition to regular annual statements, interim financial reports on the form adopted by the NAIC or in such format as promulgated by the commissioner.
- (10) Correct corporate governance practice deficiencies and adopt and utilize governance practices acceptable to the commissioner.
- (11) Provide a business plan to the commissioner in order to continue to transact business in the state.
- (12) Notwithstanding any other provision of law limiting the frequency or amount of premium rate adjustments, adjust rates for any non-life insurance product written by the insurer that the commissioner considers necessary to improve the financial condition of the insurer.

If the insurer is a foreign insurer, the order of the commissioner may be limited to the extent provided by statute.

(b) Any insurer subject to an order under subsection (a) may request a hearing to review that order as permitted under [IC 4-21.5-4-4](#). The notice of hearing shall be served upon the insurer under [IC 4-21.5-4-3](#). The notice of hearing shall include the following information:

- (1) The time and place of hearing.
- (2) The conduct, condition, or ground upon which the commissioner based the order.

Unless mutually agreed between the commissioner and the insurer, the hearing shall occur not less than ten (10) days nor more than thirty (30) days after notice is served. The hearing shall be held in Marion County, Indiana. The commissioner shall hold all hearings under this subsection privately, unless the insurer requests a public hearing, in which case the hearing shall be public. *(Department of Insurance; 760 IAC 1-53-5; filed Aug 24, 1993, 5:00 p.m.: 17 IR 9; readopted filed Sep 14, 2001, 12:22 p.m.: 25 IR 531; readopted filed Nov 27, 2007, 4:01 p.m.: [20071226-IR-760070717RFA](#); filed May 16, 2013, 11:18 a.m.: [20130612-IR-760120464FRA](#); readopted filed Nov 26, 2013, 3:43 p.m.: [20131225-IR-760130479RFA](#); readopted filed Nov 19, 2019, 9:18 a.m.: [20191218-IR-760190497RFA](#))*

Sec. 2. (a) The department of insurance recognizes that licensed insurers routinely enter into reinsurance agreements that yield legitimate relief to the ceding insurer from strain to surplus.

(b) However, it is improper for a licensed insurer, in the capacity of ceding insurer, to enter into reinsurance agreements for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business being reinsured. In substance or effect, the expected potential liability to the ceding insurer remains basically unchanged by the reinsurance transaction, notwithstanding certain risk elements in the reinsurance agreement, such as catastrophic mortality or extraordinary survival. The terms of such agreements referred to in this subsection and described in section 4 of this rule violate:

- (1) [IC 27-1-20-21](#) relating to financial statements which do not properly reflect the financial condition of the ceding insurer;
- (2) 760 IAC 1-56 relating to reinsurance reserve credits, thus resulting in a ceding insurer improperly reducing liabilities or

establishing assets for reinsurance ceded; and

(3) [IC 27-9-2-1](#) relating to creating a situation that may be hazardous to policyholders and the people of this state.

Sec. 3. This rule shall apply to all domestic life and accident and health insurers and to all other licensed life and accident and health insurers who are not subject to a substantially similar regulation in their domiciliary state. This rule shall also similarly apply to licensed property and casualty insurers with respect to their accident and health business. Sec. 4. (a) No insurer subject to this rule shall, for reinsurance ceded, reduce any liability or establish any asset in any financial statement filed with the department of insurance if, by the terms of the reinsurance agreement, in substance or effect, any of the following conditions exist:

(1) Renewal expense allowances provided or to be provided to the ceding insurer by the reinsurer in any accounting period, are not sufficient to cover anticipated allocable renewal expenses of the ceding insurer on the portion of the business reinsured, unless a liability is established for the present value of the shortfall (using assumptions equal to the applicable statutory reserve basis on the business reinsured). Those expenses include commissions, premium taxes, and direct expenses, including, but not limited to, billing, valuation, claims, and maintenance expected by the company at the time the business is reinsured.

(2) The ceding insurer can be deprived of surplus at the reinsurer's option or automatically upon the occurrence of some event, such as the insolvency of the ceding insurer, except that termination of the reinsurance agreement by the reinsurer for nonpayment of reinsurance premiums or other amounts due, such as modified coinsurance reserve adjustments, interest, and adjustments on funds withheld, and tax reimbursements, shall not be considered to be such a deprivation of surplus.

(3) The ceding insurer is required to reimburse the reinsurer for negative experience under the reinsurance agreement, except that neither offsetting experience refunds against current and prior years' losses under the agreement nor payment by the ceding insurer of an amount equal to the current and prior years' losses under the agreement upon voluntary termination of in-force reinsurance by the ceding insurer shall be considered such a reimbursement to the reinsurer for negative experience. Voluntary termination does not include situations where termination occurs because of unreasonable provisions which allow the reinsurer to reduce its risk under the agreement. An example of such a provision is the right of the reinsurer to increase reinsurance premiums or risk and expense charges to excessive levels forcing the ceding company to prematurely terminate the reinsurance treaty.

(4) The ceding insurer must, at specific points in time scheduled in the agreement, terminate or automatically recapture all or part of the reinsurance ceded.

(5) The reinsurance agreement involves the possible payment by the ceding insurer to the reinsurer of amounts other than from income realized from the reinsured policies. For example, it is improper for a ceding company to pay reinsurance premiums or other fees or charges to a reinsurer which are greater than the direct premiums collected by the ceding company.

(6) The treaty does not transfer all of the significant risks inherent in the business being reinsured. The table in this subdivision identifies, for a representative sampling of products or type of business, the risks which are considered to be significant. For products not specifically included, the risks determined to be significant shall be consistent with the following:

DEPARTMENT OF INSURANCE

Risk categories:

- a = Morbidity.
- b = Mortality.
- c = Lapse. This is the risk that a policy will voluntarily terminate prior to the recoupment of any statutory surplus strain experienced at issue of the policy.
- d = Credit quality (C1). This is the risk that invested assets supporting the reinsured business will decrease in value. The main hazards are that assets will default or that there will be a decrease in earning power. It excludes market value declines due to changes in interest rate.
- e = Reinvestment (C3). This is the risk that interest rates will fall and funds reinvested (coupon payments or monies received upon asset maturity or call) will therefore earn less than expected. If asset durations are less than liability durations, the mismatch will increase.
- f = Disintermediation (C3). This is the risk that interest rates rise and policy loans and surrenders increase or maturing contracts do not renew at anticipated rates of renewal. If asset durations are greater than the liability durations, the mismatch will increase. Policyholders will move their funds into new products offering higher rates. The company may have to sell assets at a loss to provide for these withdrawals.
- + = Significant.
- o = Insignificant.

*LTC = long term care insurance.

LTD = long term disability insurance.

(7)(A) The credit quality, reinvestment, or disintermediation risk is significant for the business reinsured and the ceding company does not (other than for the classes of business excepted in clause (B)) either transfer the underlying assets to the reinsurer or legally segregate such assets in a trust or escrow account or otherwise establish a mechanism satisfactory to the commissioner which legally segregates the underlying assets.

(B) Notwithstanding the requirements of clause (A), the assets supporting the reserves for the following classes of business and any classes of business which do not have a significant credit quality, reinvestment, or disintermediation risk may be held by the ceding company without segregation of such assets:

DEPARTMENT OF INSURANCE

- (i) Health insurance—LTC/LTD.
- (ii) Traditional non-par permanent.
- (iii) Traditional par permanent.
- (iv) Adjustable premium permanent.
- (v) Indeterminate premium permanent.
- (vi) Universal life fixed premium (no dump-in premiums allowed).

The associated formula for determining the reserve interest rate adjustment must use a formula which reflects the ceding company's investment earnings and incorporates all realized and unrealized gains and losses reflected in the preceding year's statutory statement. The following is an acceptable formula:

$$\text{Rate} = \frac{2(I + CG)}{X + Y - I - CG}$$

- Where:
- I = the net investment income (Exhibit 2, Line 16, Column 7).
 - CG = capital gains less capital losses (Exhibit 4, Line 10, Column 6).
 - X = the current year cash and invested assets (Page 2, Line 10A, Column 1) plus investment income due and accrued (Page 2, Line 16, Column 1) less borrowed money (Page 3, Line 22, Column 1).
 - Y = the same as X but for the prior year.

(8) Settlements are made less frequently than quarterly or payments due from the reinsurer are not made in cash within ninety (90) days of the settlement date.

(9) The ceding insurer is required to make representations or warranties not reasonably related to the business being reinsured.

(10) The ceding insurer is required to make representations or warranties about future performance of the business being reinsured.

(11) The reinsurance agreement is entered into for the principal purpose of producing significant surplus aid for the ceding insurer, typically on a temporary basis, while not transferring all of the significant risks inherent in the business reinsured.

(b) Notwithstanding subsection (a), an insurer subject to this rule may, with the approval of the commissioner of the department of insurance, take such reserve credit or establish such asset as the commissioner of the department of insurance may deem consistent with Indiana insurance law and rules, including actuarial interpretations or standards adopted by the department of insurance.

(c)(1) Agreements entered into after the effective date of this rule which involve the reinsurance of business issued prior to the effective date of the agreements, along with any subsequent amendments thereto, shall be filed by the ceding company with the commissioner of the department of insurance within thirty (30) days from its date of execution. Each such filing shall include data detailing the financial impact of the transaction. A retrocession agreement and its corresponding accepted reinsurance agreement shall be treated as a single transaction for these purposes. The ceding insurer's actuary who signs the financial statement actuarial opinion with respect to valuation of reserves shall consider this rule and any applicable actuarial standards of practice when determining the proper credit in financial statements filed with the department of insurance. The actuary should maintain adequate documentation and be prepared upon request to describe the actuarial work performed for inclusion in the financial statement and to demonstrate that such work conforms to this rule.

(2) Any increase in surplus net of federal income tax resulting from arrangements described in subdivision (1) shall be identified separately on the insurer's statutory financial statement as a surplus item (aggregate write-ins for gains and losses in surplus in the capital and surplus account, page 4 of the annual statement) and recognition of the surplus increase as income shall be reflected on a net of tax basis in the "reinsurance ceded" line, page 4 of the annual statement, as earnings emerge from the business reinsured. For example, on the last day of calendar year N, Company XYZ pays a twenty million dollar (\$20,000,000) initial commission and expense allowance to company ABC for reinsuring an existing block of business. Assuming a thirty-four percent (34%) tax rate, the net increase in surplus at inception is thirteen million two hundred thousand dollars (\$13,200,000) (twenty million dollars (\$20,000,000) - six million eight hundred thousand dollars (\$6,800,000)) which is reported on the "aggregate write-ins for gains and losses in surplus" line in the capital and surplus account. Six million eight hundred thousand dollars (\$6,800,000) (thirty-four percent (34%) of twenty million dollars (\$20,000,000)) is reported as income on the "commissions and expense allowances on reinsurance ceded" line of the summary of operations. At the end of year N + 1, the business has earned four million dollars (\$4,000,000). ABC has paid five hundred thousand dollars (\$500,000) in profit and risk charges in arrears for the year and has received a one million dollar (\$1,000,000) experience refund. Company ABC's annual

statement would report one million six hundred fifty thousand dollars (\$1,650,000) (sixty-six percent (66%) of (four million dollars (\$4,000,000) - one million dollars (\$1,000,000) - five hundred thousand dollars (\$500,000)) up to a maximum of thirteen million two hundred thousand dollars (\$13,200,000)) on the "commissions and expense allowance on reinsurance ceded" line of the summary of operations, and one million six hundred fifty thousand dollars (\$1,650,000) on the "aggregate write-ins for gains and losses in surplus" line of the capital and surplus account. The experience refund would be reported separately as a miscellaneous income item in the summary of operations.

Authority: [IC 27-1-3-7](#); [IC 27-6-10.1-5](#)

Affected: [IC 27-6-10.1](#)

Sec. 7. (a) Under [IC 27-6-10.1-2](#), the commissioner of the department of insurance shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that, as of the date of the ceding insurer's statutory financial statement, maintains a trust fund in an amount prescribed in this section in a qualified United States financial institution, as defined in [IC 27-6-10.1-4](#), for the payment of the valid claims of its United States policyholders and ceding insurers, their assigns, and successors in interest. The assuming insurer shall report annually to the commissioner of the department of insurance substantially the same information as that required to be reported on the National Association of Insurance Commissioners' annual statement form by licensed insurers to enable the commissioner of the department of insurance to determine the sufficiency of the trust fund.

(b) The following requirements apply to the following categories of assuming insurer:

(1) The trust fund for a single assuming insurer shall consist of funds in trust in an amount not less than the assuming insurer's liabilities attributable to business written in the United States and, in addition, a trustee surplus of not less than twenty million dollars (\$20,000,000), except as provided in subdivision (2).

(2) At any time after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least three (3) full years, the commissioner of the department of insurance with principal regulatory oversight of the trust may authorize a reduction in the required trustee surplus, but only after a finding, based on an assessment of the risk, that the new required surplus level is adequate for the protection of U.S. ceding insurers, policyholders, and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial review, including an independent analysis of reserves and cash flows, and shall consider all material risk factors, including, when applicable, the lines of business involved, the stability of the incurred loss estimates, and the effect of the surplus requirements on the assuming insurer's liquidity or solvency. The minimum required trustee surplus may not be reduced to an amount less than thirty percent (30%) of the assuming insurer's liabilities attributable to reinsurance ceded by U.S. ceding insurers covered by the trust.

(3) The trust fund for a group, including incorporated and individual unincorporated underwriters, shall consist of the following:

(A) For reinsurance ceded under reinsurance agreements with an inception, amendment, or renewal date on or after January 1, 1993, funds in trust in an amount not less than the respective underwriters' several liabilities attributable to business ceded by U.S. domiciled ceding insurers to any underwriter of the group.

(B) For reinsurance ceded under reinsurance agreements with an inception date on or before December 31, 1992, and not amended or renewed after that date, notwithstanding the other provisions of this rule, funds in trust in an amount not less than the respective underwriters' several insurance and reinsurance liabilities attributable to business written in the United States.

In addition, the group shall maintain a trustee surplus of which one hundred million dollars (\$100,000,000) shall be held jointly for the benefit of the United States ceding insurers of any member of the group for all the years of account. The incorporated members of the group shall not be engaged in any business other than underwriting as a member of the group and shall be subject to the same level of solvency regulation and control by the group's domiciliary regulator as are the unincorporated members. The group shall, within ninety (90) days after its financial statements are due to be filed with the group's domiciliary regulator, provide to the commissioner an annual certification by the group's domiciliary regulator of the solvency of each underwriter member of the group or if a certification is unavailable, a financial statement, prepared by independent public accountants, of each underwriter member of the group.

(4) The trust fund for a group of incorporated insurers under common administration, whose members possess aggregate policyholders surplus of ten billion dollars (\$10,000,000,000) (calculated and reported in substantially the same manner as prescribed by the annual statement instructions and Accounting Practices and Procedures Manual of the National Association of Insurance Commissioners (NAIC)) and that has continuously transacted an insurance business outside the United States for at least three (3) years immediately prior to making application for accreditation, shall consist of funds in trust in an amount not

less than the assuming insurer's liabilities attributable to business ceded by United States ceding insurers to any members of the group pursuant to reinsurance contracts issued in the name of such group and, in addition, the group shall maintain a joint trustee surplus of which one hundred million dollars (\$100,000,000) shall be held jointly for the benefit of United States ceding insurers of any member of the group. The group shall do the following:

(A) File a properly executed Form AR-1 as evidence of the submission to this state's authority to examine the books and records of any of its members.

(B) Certify that any member examined will bear the expense of any such examination.

(C) Make available to the commissioner of the department of insurance annual certifications by the members' domiciliary regulators and their independent public accountants of the solvency of each member of the group within ninety (90) days after its financial statements are due to be filed with the group's domiciliary regulator.

(c) The trust shall be established in a form approved by the commissioner of the department of insurance and complying with [IC 27-6-10.1-2](#) and this section. The trust instrument shall provide the following:

(1) Contested claims shall be valid and enforceable out of funds in trust to the extent remaining unsatisfied thirty (30) days after entry of the final order of any court of competent jurisdiction in the United States.

(2) Legal title to the assets of the trust shall be vested in the trustee for the benefit of the grantor's United States policyholders and ceding insurers, their assigns, and successors in interest.

(3) The trust shall be subject to examination as determined by the commissioner of the department of insurance.

(4) The trust shall remain in effect for as long as the assuming insurer, or any member or former member of a group of insurers, shall have outstanding obligations under reinsurance agreements subject to the trust.

(5) No later than February 28 of each year, the trustees of the trust shall do the following:

(A) Report to the commissioner of the department of insurance in writing setting forth the balance in the trust and listing the trust's investments at the preceding year end.

(B) Certify the date of termination of the trust, if so planned, or certify that the trust shall not expire prior to the next following December 31.

(6) No amendment to the trust shall be effective unless reviewed and approved in advance by the commissioner of the department of insurance.

(d) Notwithstanding any other provisions in the trust instrument, if the trust fund is inadequate because it contains an amount less than the amount required by this subsection or if the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation, or similar proceedings under the laws of its state or country of domicile, the trustee shall comply with an order of the commissioner with regulatory oversight over the trust or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner of the department of insurance with regulatory oversight over the trust or other designated receiver all of the assets of the trust fund.

(e) The assets shall be distributed by and claims shall be filed with and valued by the commissioner with regulatory oversight over the trust in accordance with the laws of the state in which the trust is domiciled applicable to the liquidation of domestic insurance companies.

(f) If the commissioner with regulatory oversight over the trust determines that the assets of the trust fund or any part thereof are not necessary to satisfy the claims of the U.S. beneficiaries of the trust, the commissioner with regulatory oversight over the trust shall return the assets, or any part thereof, to the trustee for distribution in accordance with the trust agreement.

(g) The grantor shall waive any right otherwise available to it under U.S. law that is inconsistent with this provision.

(h) For purposes of this section, "liabilities" means the assuming insurer's gross liabilities attributable to reinsurance ceded by U.S. domiciled insurers, excluding liabilities that are otherwise secured by acceptable means, and shall include the following:

(1) For business ceded by domestic insurers authorized to write accident and health, and property and casualty insurance, the following:

(A) Losses and allocated loss expenses paid by the ceding insurer, recoverable from the assuming insurer.

(B) Reserves for the following:

For purposes of applying the preceding sentence, a depository receipt denominated in U.S. dollars and representing rights conferred by a foreign security shall be classified as a foreign investment denominated in a foreign currency. (6) The following for equity interests:

(A) Investments in common shares or partnership interests of a solvent U.S. institution are permissible if:

(i) its obligations and preferred shares, if any, are eligible as investments under this subsection; and

(ii) the equity interests of the institution (except an insurance company) are registered on a national securities exchange as provided in the Securities Exchange Act of 1934, 15 U.S.C. 78a to 78kk or otherwise registered pursuant to that Act, and, if otherwise registered, price quotations for them are furnished through a nationwide automated quotations system approved by the Financial Industry Regulatory Authority, or successor organization. A trust shall not invest in equity interests under this subdivision an amount exceeding one percent (1%) of the assets of the trust even though the equity interests are not so registered and are not issued by an insurance company.

(B) Investments in common shares of a solvent institution organized under the laws of a country that is a member of the Organization for Economic Cooperation and Development are permissible if:

(i) all its obligations are rated A or higher (or the equivalent) by a rating agency recognized by the Securities Valuation Office of the NAIC; and

(ii) the equity interests of the institution are registered on a securities exchange regulated by the government of a country that is a member of the Organization for Economic Cooperation and Development.

(C) An investment in or loan upon any one (1) institution's outstanding equity interests shall not exceed one percent (1%) of the assets of the trust. The cost of an investment in equity interests made pursuant to this subdivision, when added to the aggregate cost of other investments in equity interests then held pursuant to this subdivision, shall not exceed ten percent (10%) of the assets in the trust.

(7) Obligations issued, assumed, or guaranteed by a multinational development bank, provided the obligations are rated A or higher (or the equivalent) by a rating agency recognized by the Securities Valuation Office of the NAIC.

(8) The following for investment companies:

(A) Securities of an investment company registered pursuant to the Investment Company Act of 1940, 15 U.S.C. 80a, are permissible investments if the investment company invests at least ninety percent (90%) of its assets in the types of:

(i) securities that qualify as investment under subdivision (1), (2), or (3) or invests in securities that are determined by the commissioner to be substantively similar to the types of securities set forth in subdivision (1), (2), or (3); or

(ii) equity interests that qualify as an investment under subdivision (6)(A).

(B) Investments made by a trust in investment companies under this subdivision shall not exceed the following limitations:

(i) An investment in an investment company qualifying under clause (A)(i) shall not exceed ten percent (10%) of the assets in the trust and the aggregate amount of investment in qualifying investment companies shall not exceed twenty-five percent (25%) of the assets in the trust.

(ii) Investments in an investment company qualifying under clause (A)(ii) shall not exceed five percent (5%) of the assets in the trust and the aggregate amount of investment in qualifying investment companies shall be included when calculating the permissible aggregate value of equity interests under subdivision (6)(A).

(9) The following for letters of credit:

(A) In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the commissioner), to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.

(B) The trust agreement shall provide that the trustee shall be liable for its negligence, willful misconduct, or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would be required shall be deemed to be negligence or willful misconduct, or both.

(j) A specific security provided to a ceding insurer by an assuming insurer under section 8 of this rule shall be applied, until exhausted, to the payment of liabilities of the assuming insurer to the ceding insurer holding the specific security prior to, and as a condition precedent for, presentation of a claim by the ceding insurer for payment by a trustee of a trust established by the assuming insurer under this section. 760 IAC 1-56-7.5 Credit for reinsurance; certified reinsurers

Authority: [IC 27-1-3-7](#); [IC 27-6-10.1-5](#)

Affected: [IC 5-14-3-4](#); [IC 27-6-10.1](#)

Sec. 7.5. (a) Under [IC 27-6-10.1-2](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that has been certified as a reinsurer in this state at all times for which statutory financial statement credit for reinsurance is claimed under this section. The credit allowed shall be based upon the security held by or on behalf of the ceding insurer in accordance with a rating assigned to the certified reinsurer by the commissioner. The security shall be in a form consistent with the provisions of [IC 27-6-10.1-2](#) and [IC 27-6-10.1-3](#) and section 10, 11, or 12 of this rule. The amount of security required in order for full credit to be allowed shall correspond with the following requirements:

(1)	Ratings	Security Required
	Secure – 1	0%
	Secure – 2	10%
	Secure – 3	20%
	Secure – 4	50%
	Secure – 5	75%
	Vulnerable – 6	100%

(2) Affiliated reinsurance transactions shall receive the same opportunity for reduced security requirements as all other reinsurance transactions.

(3) The commissioner shall require the certified reinsurer to post one hundred percent (100%), for the benefit of the ceding insurer or its estate, security upon the entry of an order of rehabilitation, liquidation, or conservation against the ceding insurer.

(4) In order to facilitate the prompt payment of claims, a certified reinsurer shall not be required to post security for catastrophe recoverables for a period of one (1) year from the date of the first instance of a liability reserve entry by the ceding company as a result of a loss from a catastrophic occurrence as recognized by the commissioner. The one (1) year deferral period is contingent

upon the certified reinsurer continuing to pay claims in a timely manner. Reinsurance recoverables for only the following lines of business as reported on the National Association of Insurance Commissioners (NAIC) annual financial statement related specifically to the catastrophic occurrence will be included in the deferral:

- (A) Line 1: Fire.
- (B) Line 2: Allied lines.
- (C) Line 3: Farmowners multiple peril.
- (D) Line 4: Homeowners multiple peril.
- (E) Line 5: Commercial multiple peril.
- (F) Line 9: Inland marine.
- (G) Line 12: Earthquake.
- (H) Line 21: Auto physical damage.

(5) Credit for reinsurance under this section shall apply only to reinsurance contracts entered into or renewed on or after the effective date of the certification of the assuming insurer. Any reinsurance contract entered into prior to the effective date of the certification of the assuming insurer that is subsequently amended after the effective date of the certification of the assuming insurer, or a new reinsurance contract, covering any risk for which collateral was provided previously, shall only be subject to this section with respect to losses incurred and reserves reported from and after the effective date of the amendment or new contract.

(6) Nothing in this section shall prohibit the parties to a reinsurance agreement from agreeing to provisions establishing security requirements that exceed the minimum security requirements established for certified reinsurers under this section.

(b) The procedure for certification shall be as follows:

(1) The commissioner shall post notice on the insurance department's website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The commissioner may not take final action on the application until at least thirty (30) days after posting the notice required by this subdivision.

(2) The commissioner shall issue written notice to an assuming insurer that has made application and been approved as a certified reinsurer. Included in such notice shall be the rating assigned the certified reinsurer in accordance with subsection (a). The commissioner shall publish a list of all certified reinsurers and their ratings.

(3) In order to be eligible for certification, the assuming insurer shall meet the following requirements:

(A) The assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a qualified jurisdiction, as determined by the commissioner under subsection (c).

(B) The assuming insurer must maintain capital and surplus, or its equivalent, of not less than two hundred fifty million dollars (\$250,000,000) calculated in accordance with subdivision (4)(H). This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents (net of liabilities) of at least two hundred fifty million dollars (\$250,000,000) and a central fund containing a balance of at least two hundred fifty million dollars (\$250,000,000).

(C) The assuming insurer must maintain financial strength ratings from two (2) or more rating agencies deemed acceptable by the commissioner. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings will be one (1) factor used by the commissioner in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:

- (i) Standard & Poor's.
- (ii) Moody's Investors Service.
- (iii) Fitch Ratings.
- (iv) A.M. Best Company.
- (v) Any other nationally recognized statistical rating organization.

(D) The certified reinsurer must comply with any other requirements reasonably imposed by the commissioner.

(4) Each certified reinsurer shall be rated on a legal entity basis, with due consideration being given to the group rating where appropriate, except that an association including incorporated and individual unincorporated underwriters that has been approved to do business as a single certified reinsurer may be evaluated on the basis of its group rating. Factors that may be considered as part of the evaluation process include, but are not limited to, the following:

(A) The certified reinsurer's financial strength rating from an acceptable rating agency. The maximum rating that a certified

DEPARTMENT OF INSURANCE

reinsurer may be assigned will correspond to its financial strength rating as outlined in the table below. The commissioner shall use the lowest financial strength rating received from an approved rating agency in establishing the maximum rating of a certified reinsurer. A failure to obtain or maintain at least two (2) financial strength ratings from acceptable rating agencies will result in loss of eligibility for certification.

(B) The business practices of the certified reinsurer in dealing with its ceding insurers, including its record of compliance with reinsurance contractual terms and obligations.

(C) For certified reinsurers domiciled in the U.S., a review of the most recent applicable NAIC Annual Statement Blank, either Schedule F (for property/casualty reinsurers) or Schedule S (for life and health reinsurers).

(D) For certified reinsurers not domiciled in the U.S., a review annually of Form CR-F (for property/casualty reinsurers) or Form CR-S (for life and health reinsurers).

(E) The reputation of the certified reinsurer for prompt payment of claims under reinsurance agreements, based on an analysis of ceding insurers' Schedule F reporting of overdue reinsurance recoverables, including the proportion of obligations that are more than ninety (90) days past due or are in dispute, with specific attention given to obligations payable to companies that are in administrative supervision or receivership.

(F) Regulatory actions against the certified reinsurer.

(G) The report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in clause (H).

(H) For certified reinsurers not domiciled in the U.S., audited financial statements, regulatory filings, and actuarial opinion (as filed with the non-U.S. jurisdiction supervisor, with a translation into English). Upon the initial application for certification, the commissioner will consider audited financial statements for the last two (2) years filed with its non-U.S. jurisdiction supervisor.

(I) The liquidation priority of obligations to a ceding insurer in the certified reinsurer's domiciliary jurisdiction in the context of an insolvency proceeding.

(J) A certified reinsurer's participation in any solvent scheme of arrangement, or similar procedure, which involves U.S. ceding insurers. The commissioner shall receive prior notice from a certified reinsurer that proposes participation by the certified reinsurer in a solvent scheme of arrangement.

(K) Any other information deemed relevant by the commissioner.

(5) Based on the analysis conducted under subdivision (4)(E) of a certified reinsurer's reputation for prompt payment of claims, the commissioner may make appropriate adjustments in the security the certified reinsurer is required to post to protect its liabilities to U.S. ceding insurers, provided that the commissioner shall, at a minimum, increase the security the certified reinsurer is required to post by one (1) rating level under subdivision (4)(A) if the commissioner finds that:

(A) more than fifteen percent (15%) of the certified reinsurer's ceding insurance clients have overdue reinsurance recoverables on paid losses of ninety (90) days or more that:

(i) are not in dispute; and

(ii) exceed one hundred thousand dollars (\$100,000) for each cedent; or

(B) the aggregate amount of reinsurance recoverables on paid losses that are not in dispute that are overdue by ninety (90) days or more exceeds fifty million dollars (\$50,000,000).

(6) The assuming insurer must submit a properly executed Form CR-1, as established in section 16 of this rule, as evidence of its submission to the jurisdiction of this state, appointment of the commissioner as an agent for service of process in this state, and agreement to provide security for one hundred percent (100%) of the assuming insurer's liabilities attributable to reinsurance

ceded by U.S. ceding insurers if it resists enforcement of a final U.S. judgment. The commissioner shall not certify any assuming insurer that is domiciled in a jurisdiction that the commissioner has determined does not adequately and promptly enforce final U.S. judgments or arbitration awards.

(7) The certified reinsurer must agree to meet applicable information filing requirements as determined by the commissioner, both with respect to an initial application for certification and on an ongoing basis. All information submitted by certified reinsurers that are not otherwise public information subject to disclosure shall be exempted from disclosure under [IC 5-14-3-4](#) and shall be withheld from public disclosure. The applicable information filing requirements are as follows:

(A) Notification within ten (10) days of any regulatory actions taken against the certified reinsurer, any change in the provisions of its domiciliary license, or any change in rating by an approved rating agency, including a statement describing such changes and the reasons therefor.

(B) Annually, Form CR-F or CR-S, as applicable.

(C) Annually, the report of the independent auditor on the financial statements of the insurance enterprise, on the basis described in clause (D).

(D) Annually, the most recently audited financial statements, regulatory filings, and actuarial opinion (as filed with the certified reinsurer's supervisor, with a translation into English). Upon the initial certification, audited financial statements for the last two (2) years filed with the certified reinsurer's supervisor.

(E) At least annually, an updated list of all disputed and overdue reinsurance claims regarding reinsurance assumed from U.S. domestic ceding insurers.

(F) A certification from the certified reinsurer's domestic regulator that the certified reinsurer is in good standing and maintains capital in excess of the jurisdiction's highest regulatory action level.

(G) Any other information that the commissioner may reasonably require.

(8) If a certified reinsurer experiences a change in rating or the commissioner revokes the certified reinsurer's certification, the following apply:

(A) In the case of a downgrade by a rating agency or other disqualifying circumstance, the commissioner shall, upon written notice, assign a new rating to the certified reinsurer in accordance with the requirements of subdivision (4)(A).

(B) The commissioner shall have the authority to suspend, revoke, or otherwise modify a certified reinsurer's certification at any time if the certified reinsurer fails to meet its obligations or security requirements under this section, or if other financial or operating results of the certified reinsurer, or documented significant delays in payment by the certified reinsurer, lead the commissioner to reconsider the certified reinsurer's ability or willingness to meet its contractual obligations.

(C) If the rating of a certified reinsurer is upgraded by the commissioner, the certified reinsurer may meet the security requirements applicable to its new rating on a prospective basis, but the commissioner shall require the certified reinsurer to post security under the previously applicable security requirements as to all contracts in force on or before the effective date of the upgraded rating. If the rating of a certified reinsurer is downgraded by the commissioner, the commissioner shall require the certified reinsurer to meet the security requirements applicable to its new rating for all business it has assumed as a certified reinsurer.

(D) Upon revocation of the certification of a certified reinsurer by the commissioner, the assuming insurer shall be required to post security in accordance with section 9 of this rule in order for the ceding insurer to continue to take credit for reinsurance ceded to the assuming insurer. If funds continue to be held in trust in accordance with section 7 of this rule, the commissioner may allow additional credit equal to the ceding insurer's pro rata share of such funds, discounted to reflect the risk of uncollectibility and anticipated expenses of trust administration. Notwithstanding the change of a certified reinsurer's rating or revocation of its certification, a domestic insurer that has ceded reinsurance to that certified reinsurer may not be denied credit for reinsurance for a period of three (3) months for all reinsurance ceded to that certified reinsurer, unless the reinsurance is found by the commissioner to be at high risk of uncollectibility.

(c) The following apply with respect to qualified jurisdictions:

(1) If, upon conducting an evaluation under this section with respect to the reinsurance supervisory system of any non-U.S. assuming insurer, the commissioner determines that the jurisdiction qualifies to be recognized as a qualified jurisdiction, the commissioner shall publish notice and evidence of such recognition in an appropriate manner. The commissioner may establish a procedure to withdraw recognition of those jurisdictions that are no longer qualified.

(2) In order to determine whether the domiciliary jurisdiction of a non-U.S. assuming insurer is eligible to be recognized as a

qualified jurisdiction, the commissioner shall evaluate the reinsurance supervisory system of the non-U.S. jurisdiction, both initially and on an ongoing basis, and consider the rights, benefits, and the extent of reciprocal recognition afforded by the non-U.S. jurisdiction to reinsurers licensed and domiciled in the U.S. The commissioner shall determine the appropriate approach for evaluating the qualifications of such jurisdictions, and create and publish a list of jurisdictions whose reinsurers may be approved by the commissioner as eligible for certification. A qualified jurisdiction must agree to share information and cooperate with the commissioner with respect to all certified reinsurers domiciled within that jurisdiction. Additional factors to be considered in determining whether to recognize a qualified jurisdiction, in the discretion of the commissioner, include, but are not limited to, the following:

- (A) The framework under which the assuming insurer is regulated.
- (B) The structure and authority of the domiciliary regulator with regard to solvency regulation requirements and financial surveillance.
- (C) The substance of financial and operating standards for assuming insurers in the domiciliary jurisdiction.
- (D) The form and substance of financial reports required to be filed or made publicly available by reinsurers in the domiciliary jurisdiction and the accounting principles used.
- (E) The domiciliary regulator's willingness to cooperate with U.S. regulators in general and the commissioner in particular.
- (F) The history of performance by assuming insurers in the domiciliary jurisdiction.
- (G) Any documented evidence of substantial problems with the enforcement of final U.S. judgments in the domiciliary jurisdiction. A jurisdiction will not be considered to be a qualified jurisdiction if the commissioner has determined that it does not adequately and promptly enforce final U.S. judgments or arbitration awards.
- (H) Any relevant international standards or guidance with respect to mutual recognition of reinsurance supervision adopted by the International Association of Insurance Supervisors or successor organization.
- (I) Any other matters deemed relevant by the commissioner.

(3) A list of qualified jurisdictions shall be published through the NAIC committee process. The commissioner shall consider this list in determining qualified jurisdictions. If the commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions, the commissioner shall provide thoroughly documented justification with respect to the criteria provided under subdivision (2)(A) through (2)(I).

(4) U.S. jurisdictions that meet the requirements for accreditation under the NAIC financial standards and accreditation program shall be recognized as qualified jurisdictions.

(d) The following apply to the recognition of certification issued by an NAIC accredited jurisdiction:

(1) If an applicant for certification has been certified as a reinsurer in an NAIC accredited jurisdiction, the commissioner has the discretion to defer to that jurisdiction's certification, and to defer to the rating assigned by that jurisdiction, if the assuming insurer submits a properly executed Form CR-1 and such additional information as the commissioner requires. The assuming insurer shall be considered to be a certified reinsurer in this state.

(2) Any change in the certified reinsurer's status or rating in the other jurisdiction shall apply automatically in this state as of the date it takes effect in the other jurisdiction. The certified reinsurer shall notify the commissioner of any change in its status or rating within ten (10) days after receiving notice of the change.

(3) The commissioner may withdraw recognition of the other jurisdiction's rating at any time and assign a new rating in accordance with subsection (b)(8)(A).

(4) The commissioner may withdraw recognition of the other jurisdiction's certification at any time, with written notice to the certified reinsurer. Unless the commissioner suspends or revokes the certified reinsurer's certification in accordance with subsection (b)(8)(B), the certified reinsurer's certification shall remain in good standing in this state for a period of three (3) months, which shall be extended if additional time is necessary to consider the assuming insurer's application for certification in this state.

(e) In addition to the clauses required under section 13 of this rule, reinsurance contracts entered into or renewed under this section shall include a proper funding clause, which requires the certified reinsurer to provide and maintain security in an amount sufficient to avoid the imposition of any financial statement penalty on the ceding insurer under this section for reinsurance ceded to the certified reinsurer.

(f) The commissioner shall comply with all reporting and notification requirements that may be established by the NAIC with respect to certified reinsurers and qualified jurisdictions.

Authority: [IC 27-1-3-7](#); [IC 27-6-10.1-5](#)

Sec. 7.8. (a) Pursuant to [IC 27-6-10.1-2\(F\)\(1\)](#), the commissioner shall allow credit for reinsurance ceded by a domestic insurer to an assuming insurer that is licensed to write reinsurance by, and has its head office or is domiciled in, a reciprocal jurisdiction, and which meets the other requirements of this rule.

(b) A reciprocal jurisdiction is a jurisdiction, as designated by the commissioner pursuant to subsection (d), that meets one (1) of the following:

(1) A non-U.S. jurisdiction that is subject to an in-force covered agreement with the United States, each within its legal authority, or, in the case of a covered agreement between the United States and the European Union, is a member state of the European Union. For purposes of this subsection, a "covered agreement" is an agreement entered into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, 31 U.S.C. §§ 313 and 314, that is currently in effect or in a period of provisional application and addresses the elimination, under specified conditions, of collateral requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in this state or for allowing the ceding insurer to recognize credit for reinsurance;

(2) A U.S. jurisdiction that meets the requirements for accreditation under the National Association of Insurance Commissioners (NAIC) financial standards and accreditation program; or

(3) A qualified jurisdiction, as determined by the commissioner pursuant to [IC 27-6-10.1-2\(E\)\(3\)](#) and section 7.5(c) of this rule, which is not otherwise described in subdivision (1) or (2), and which the commissioner determines meets all of the following additional requirements:

(A) Provides that an insurer which has its head office or is domiciled in such qualified jurisdiction shall receive credit for reinsurance ceded to a U.S. domiciled assuming insurer in the same manner as credit for reinsurance is received for reinsurance assumed by insurers domiciled in such qualified jurisdiction.

(B) Does not require a U.S. domiciled assuming insurer to establish or maintain a local presence as a condition for entering into a reinsurance agreement with any ceding insurer subject to regulation by the non-U.S. jurisdiction or as a condition to allow the ceding insurer to recognize credit for such reinsurance.

(C) Recognizes the U.S. state regulatory approach to group supervision and group capital, by providing written confirmation by a competent regulatory authority, in such qualified jurisdiction, that insurers and insurance groups that are domiciled or maintain their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject only to worldwide prudential insurance group supervision, including worldwide group governance, solvency and capital, and reporting, as applicable, by the commissioner or the commissioner of the domiciliary state, and will not be subject to group supervision at the level of the worldwide parent undertaking of the insurance or reinsurance group by the qualified jurisdiction.

(D) Provides written confirmation by a competent regulatory authority in such qualified jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated entities, if applicable, shall be provided to the commissioner in accordance with a memorandum of understanding or similar document between the commissioner and such qualified jurisdiction, including, but not limited to, the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda of understanding coordinated by the NAIC.

(c) Credit shall be allowed when the reinsurance is ceded from an insurer domiciled in this state to an assuming insurer meeting each of the following conditions:

(1) The assuming insurer must be licensed to transact reinsurance by, and have its head office or be domiciled in, a reciprocal jurisdiction.

(2) The assuming insurer must have and maintain on an ongoing basis minimum capital and surplus, or its equivalent, calculated on at least an annual basis as of the preceding December 31 or at the annual date otherwise statutorily reported to the reciprocal

jurisdiction, and confirmed as set forth in subdivision (7) according to the methodology of its domiciliary jurisdiction, in the following amounts:

(A) Not less than two hundred fifty million dollars (\$250,000,000).

(B) If the assuming insurer is an association, including incorporated and individual unincorporated underwriters:

(i) minimum capital and surplus equivalents (net of liabilities) or own funds of the equivalent of at least two hundred fifty million dollars (\$250,000,000); and

(ii) a central fund containing a balance of the equivalent of at least two hundred fifty million dollars (\$250,000,000).

(3) The assuming insurer must have and maintain on an ongoing basis a minimum solvency or capital ratio, as applicable, as follows:

(A) If the assuming insurer has its head office or is domiciled in a reciprocal jurisdiction as defined in subsection (b)(1), the ratio specified in the applicable covered agreement.

(B) If the assuming insurer is domiciled in a reciprocal jurisdiction as defined in subsection (b)(2), a risk-based capital (RBC) ratio of three hundred percent (300%) of the authorized control level, calculated in accordance with the formula developed by the NAIC.

(C) If the assuming insurer is domiciled in a reciprocal jurisdiction as defined in subsection (b)(3), after consultation with the reciprocal jurisdiction and considering any recommendations published through the NAIC Committee Process, such solvency or capital ratio as the commissioner determines to be an effective measure of solvency.

(4) The assuming insurer must agree to and provide adequate assurance, in the form of a properly executed Form RJ-1, as set forth in section 17 of this rule, of its agreement to the following:

(A) The assuming insurer must agree to provide prompt written notice and explanation to the commissioner if it falls below the minimum requirements set forth in subdivision (2) or (3), or if any regulatory action is taken against it for serious noncompliance with applicable law.

(B) The assuming insurer must consent in writing to the jurisdiction of the courts of this state and to the appointment of the commissioner as agent for service of process. The commissioner may also require that such consent be provided and included in each reinsurance agreement under the commissioner's jurisdiction.

(C) Nothing in this provision shall limit or in any way alter the capacity of parties to a reinsurance agreement to agree to alternative dispute resolution mechanisms, except to the extent such agreements are unenforceable under applicable insolvency or delinquency laws.

(D) The assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, obtained by a ceding insurer, that have been declared enforceable in the territory where the judgment was obtained.

(E) Each reinsurance agreement must include a provision requiring the assuming insurer to provide security in an amount equal to one hundred percent (100%) of the assuming insurer's liabilities attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists enforcement of a final judgment that is enforceable under the law of the jurisdiction in which it was obtained or a properly enforceable arbitration award, whether obtained by the ceding insurer or by its legal successor on behalf of its estate, if applicable.

(F) The assuming insurer must confirm that it is not presently participating in any solvent scheme of arrangement, which involves this state's ceding insurers, and agrees to notify the ceding insurer and the commissioner and to provide one hundred percent (100%) security to the ceding insurer consistent with the terms of the scheme, should the assuming insurer enter into such a solvent scheme of arrangement. Such security shall be in a form consistent with the provisions of [IC 27-6-10.1-2\(E\)](#) and [IC 27-6-10.1-3](#) and section 10, 11, or 12 of this rule. For purposes of this rule, the term "solvent scheme of arrangement" means a foreign or alien statutory or regulatory compromise procedure subject to requisite majority creditor approval and judicial sanction in the assuming insurer's home jurisdiction, either to finally commute liabilities of duly noticed classed members or creditors of a solvent debtor, or to reorganize or restructure the debts and obligations of a solvent debtor on a final basis, and which may be subject to judicial recognition and enforcement of the arrangement by a governing authority outside the ceding insurer's home jurisdiction.

(G) The assuming insurer must agree in writing to meet the applicable information filing requirements as set forth in subdivision (5).

(5) The assuming insurer or its legal successor must provide, if requested by the commissioner, on behalf of itself and any legal predecessors, the following documentation to the commissioner:

(A) For the two (2) years preceding entry into the reinsurance agreement and on an annual basis thereafter, the assuming

insurer's annual audited financial statements, in accordance with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as applicable, including the external audit report.

(B) For the two (2) years preceding entry into the reinsurance agreement, the solvency and financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor.

(C) Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for ninety (90) days or more, regarding reinsurance assumed from ceding insurers domiciled in the United States.

(D) Prior to entry into the reinsurance agreement and not more than semi-annually thereafter, information regarding the assuming insurer's assumed reinsurance by ceding insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth in subdivision (6).

(6) The assuming insurer must maintain a practice of prompt payment of claims under reinsurance agreements. The lack of prompt payment will be evidenced if any of the following criteria is met:

(A) More than fifteen percent (15%) of the reinsurance recoverables from the assuming insurer are overdue and in dispute as reported to the commissioner.

(B) More than fifteen percent (15%) of the assuming insurer's ceding insurers or reinsurers have overdue reinsurance recoverable on paid losses of ninety (90) days or more which are not in dispute and which exceed for each ceding insurer one hundred thousand dollars (\$100,000), or as otherwise specified in a covered agreement.

(C) The aggregate amount of reinsurance recoverable on paid losses which are not in dispute, but are overdue by ninety (90) days or more, exceeds fifty million dollars (\$50,000,000), or as otherwise specified in a covered agreement.

(7) The assuming insurer's supervisory authority must confirm to the commissioner on an annual basis that the assuming insurer complies with the requirements set forth in subdivisions (2) and (3).

(8) Nothing in this subdivision precludes an assuming insurer from providing the commissioner with information on a voluntary basis.

(d) The commissioner shall timely create and publish a list of reciprocal jurisdictions in the following manner:

(1) A list of reciprocal jurisdictions is published through the NAIC Committee Process. The commissioner's list shall include any reciprocal jurisdiction as defined under subsection (b)(1) and (b)(2) and shall consider any other reciprocal jurisdiction included on the NAIC list. The commissioner may approve a jurisdiction that does not appear on the NAIC list of reciprocal jurisdictions as provided by applicable law, regulation, or in accordance with criteria published through the NAIC Committee Process.

(2) The commissioner may remove a jurisdiction from the list of reciprocal jurisdictions upon a determination that the jurisdiction no longer meets one (1) or more of the requirements of a reciprocal jurisdiction, as provided by applicable law, rule, or in accordance with a process published through the NAIC Committee Process, except that the commissioner shall not remove from the list a reciprocal jurisdiction as defined under subsection (b)(1) and (b)(2). Upon removal of a reciprocal jurisdiction from this list, credit for reinsurance ceded to an assuming insurer domiciled in that jurisdiction shall be allowed, if otherwise allowed pursuant to [IC 27-6-10.1](#) or this rule.

(e) The commissioner shall timely create and publish a list of assuming insurers that have satisfied the conditions set forth in this section and to which cessions shall be granted credit in accordance with this rule in the following manner:

(1) If an NAIC accredited jurisdiction has determined that the conditions set forth in subsection (c) have been met, the commissioner has the discretion to defer to that jurisdiction's determination, and add such assuming insurer to the list of assuming insurers to which cessions shall be granted credit in accordance with this subsection. The commissioner may accept financial documentation filed with another NAIC accredited jurisdiction or with the NAIC in satisfaction of the requirements of subsection (c).

(2) When requesting that the commissioner defer to another NAIC accredited jurisdiction's determination, an assuming insurer must submit a properly executed Form RJ-1 and additional information as the commissioner may require. A state that has received such a request will notify other states through the NAIC Committee Process and provide relevant information with respect to the determination of eligibility.

(f) If the commissioner determines that an assuming insurer no longer meets one (1) or more of the requirements under this section, the commissioner may revoke or suspend the eligibility of the assuming insurer for recognition under this rule in the following manner:

(1) While an assuming insurer's eligibility is suspended, no reinsurance agreement issued, amended, or renewed after the effective date of the suspension qualifies for credit except to the extent that the assuming insurer's obligations under the contract are secured in accordance with section 9 of this rule.

(2) If an assuming insurer's eligibility is revoked, no credit for reinsurance may be granted after the effective date of the revocation with respect to any reinsurance agreements entered into by the assuming insurer, including reinsurance agreements entered into prior to the date of revocation, except to the extent that the assuming insurer's obligations under the contract are secured in a form acceptable to the commissioner and consistent with the provisions of section 9 of this rule.

(g) Before denying statement credit or imposing a requirement to post security with respect to subsection (f), or adopting any similar requirement that will have substantially the same regulatory impact as security, the commissioner shall:

(1) communicate with the ceding insurer, the assuming insurer, and the assuming insurer's supervisory authority that the assuming insurer no longer satisfies one (1) of the conditions listed in subsection (c);

(2) provide the assuming insurer with thirty (30) days from the initial communication to submit a plan to remedy the defect, and ninety (90) days from the initial communication to remedy the defect, except in exceptional circumstances in which a shorter period is necessary for policyholder and other consumer protection;

(3) after the expiration of ninety (90) days or less, as set out in subdivision (2), if the commissioner determines that no action or insufficient action was taken by the assuming insurer, the commissioner may impose any of the requirements as set out in this subsection; and

(4) provide a written explanation to the assuming insurer of any of the requirements set out in this subsection.

(h) If subject to a legal process of rehabilitation, liquidation, or conservation, as applicable, the ceding insurer, or its representative, may seek and, if determined appropriate by the court in which the proceedings are pending, may obtain an order requiring that the assuming insurer post security for all outstanding liabilities. Sec. 9. (a) Under [IC 27-6-10.1-3](#), the commissioner of the department of insurance shall allow a reduction from liability for reinsurance ceded by a domestic insurer to an assuming insurer not meeting the requirements of [IC 27-6-10.1-2](#) in an amount not exceeding the liabilities carried by the ceding insurer. Such reduction shall be in the amount of funds held by or on behalf of the ceding insurer, including funds held in trust for the exclusive benefit of the ceding insurer, under a reinsurance contract with such assuming insurer as security for the payment of obligations thereunder. Such security must be held in the United States subject to withdrawal solely by, and under the exclusive control of, the ceding insurer or, in the case of a trust, held in a qualified United States financial institution as defined in [IC 27-6-10.1-4](#).

(b) The security required by subsection (a) may be in the form of any of the following:

(1) Cash.

(2) Securities listed by the Securities Valuation Office of the National Association of Insurance Commissioners, including those

(4) Any other form of security acceptable to the commissioner of the department of insurance.

(c) An admitted asset or reduction from liability for reinsurance ceded to an unauthorized assuming insurer under subsection (b)(1), (b)(2), or (b)(3) shall be allowed only when the requirements of section 13 of this rule and the applicable portions of section 10, 11, or 12 of this rule are met. 760 IAC 1-56-10 Trust agreements qualified under section 9 of this rule

Authority: [IC 27-1-3-7](#); [IC 27-6-10.1-5](#)

Affected: [IC 27-6-10.1-4](#)

Sec. 10. (a) The following definitions apply throughout this section:

(1) "Beneficiary" means the entity for whose sole benefit the trust has been established and any successor of the beneficiary by operation of law. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes and is limited to the court appointed domiciliary receiver (including conservator, rehabilitator, or liquidator).

(2) "Grantor" means the entity that has established a trust for the sole benefit of the beneficiary. When established in conjunction with a reinsurance agreement, the grantor is the unlicensed, unaccredited assuming insurer.

(3) "Obligations", as used in subsection (b)(11), means the following:

(A) Reinsured losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer.

(B) Reserves for the following:

(i) Reinsured losses reported and outstanding.

(ii) Reinsured losses incurred but not reported.

(iii) Allocated reinsured loss expenses and unearned premiums.

(b) The following are required conditions:

(1) The trust agreement shall be entered into between the beneficiary, the grantor, and the trustee, which shall be a qualified United States financial institution as defined in [IC 27-6-10.1-4](#).

(2) The trust agreement shall create a trust account into which assets shall be deposited.

(3) All assets in the trust account shall be held by the trustee at the trustee's office in the United States.

(4) The trust agreement shall provide that:

(A) the beneficiary shall have the right to withdraw assets from the trust account at any time, without notice to the grantor, subject only to written notice from the beneficiary to the trustee;

(B) no other statement or document is required to be presented in order to withdraw assets except that the beneficiary may be required to acknowledge receipt of withdrawn assets;

(C) it is not subject to any conditions or qualifications outside of the trust agreement; and

(D) it shall not contain references to any other agreements or documents except as provided for under subdivisions (11) and (12).

(5) The trust agreement shall be established for the sole benefit of the beneficiary.

(6) The trust agreement shall require the trustee to do the following:

(A) Receive assets and hold all assets in a safe place.

(B) Determine that all assets are in such form that the beneficiary, or the trustee upon direction by the beneficiary, may whenever necessary negotiate any such assets, without consent or signature from the grantor or any other person or entity.

- (C) Furnish to the grantor and the beneficiary a statement of all assets in the trust account upon its inception and at intervals no less frequently than the end of each calendar quarter.
- (D) Notify the grantor and the beneficiary within ten (10) days of any deposits to or withdrawals from the trust account.
- (E) Upon written demand of the beneficiary, immediately take any and all steps necessary to transfer absolutely and unequivocally all right, title, and interest in the assets held in the trust account to the beneficiary and deliver physical custody of the assets to the beneficiary.
- (F) Allow no substitutions or withdrawals of assets from the trust account, except on written instructions from the beneficiary except that the trustee may, without the consent of but with notice to the beneficiary, upon call or maturity of any trust asset, withdraw such asset upon condition that the proceeds are paid into the trust account.
- (7) The trust agreement shall provide that at least thirty (30) days, but not more than forty-five (45) days, prior to termination of the trust account, written notification of termination shall be delivered by the trustee to the beneficiary.
- (8) The trust agreement shall be made subject to and governed by the laws of the state in which the trust is domiciled.
- (9) The trust agreement shall prohibit invasion of the trust corpus for the purpose of paying compensation to, or reimbursing the expenses of, the trustee. In order for a letter of credit to qualify as an asset of the trust, the trustee shall have the right and the obligation pursuant to the deed of trust or some other binding agreement (as duly approved by the commissioner), to immediately draw down the full amount of the letter of credit and hold the proceeds in trust for the beneficiaries of the trust if the letter of credit will otherwise expire without being renewed or replaced.
- (10) The trust agreement shall provide that the trustee shall be liable for its own negligence, willful misconduct, or lack of good faith. The failure of the trustee to draw against the letter of credit in circumstances where such draw would be required shall be deemed to be negligence or willful misconduct, or both.
- (11) Notwithstanding other provisions of this rule, when a trust agreement is established in conjunction with a reinsurance agreement covering risks other than life, annuities, and accident and health, where it is customary practice to provide a trust agreement for a specific purpose, such a trust agreement may, notwithstanding any other conditions in this rule, provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, for any of the following purposes:
- (A) To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement regarding any losses and allocated loss expenses paid by the ceding insurer, but not recovered from the assuming insurer, or for unearned premiums due to the ceding insurer if not otherwise paid by the assuming insurer.
 - (B) To make payment to the assuming insurer of any amounts held in the trust account that exceed one hundred two percent (102%) of the actual amount required to fund the assuming insurer's obligations under the specific reinsurance agreement.
 - (C) Where the ceding insurer has received notification of termination of the trust account and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged for ten (10) days prior to the termination date, to withdraw amounts equal to the obligations and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified United States financial institution as defined in [IC 27-6-10.1-4](#) apart from its general assets, in trust for such uses and purposes specified in clauses (A) and (B) as may remain executory after such withdrawal and for any period after the termination date.
- (12) Notwithstanding other provisions of this rule, when a trust agreement is established to meet the requirements of section 9 of this rule in conjunction with a reinsurance agreement covering life, annuities, or accident and health risks, where it is customary to provide a trust agreement for a specific purpose, the trust agreement may provide that the ceding insurer shall undertake to use and apply amounts drawn upon the trust account, without diminution because of the insolvency of the ceding insurer or the assuming insurer, only for any of the following purposes:
- (A) To pay or reimburse the ceding insurer for the assuming insurer's share under the specific reinsurance agreement of:
 - (i) premiums returned, but not yet recovered from the assuming insurer, to the owners of policies reinsured under the reinsurance agreement on account of cancellations of the policies; and
 - (ii) surrenders and benefits or losses paid by the ceding insurer, but not yet recovered from the assuming insurer, under the terms and provisions of the policies reinsured under the reinsurance agreement.
 - (B) To pay to the assuming insurer amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.
 - (C) Where the ceding insurer has received notification of termination of the trust and where the assuming insurer's entire obligations under the specific reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the

termination date, to withdraw amounts equal to the assuming insurer's share of liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer, and deposit those amounts in a separate account, in the name of the ceding insurer in any qualified U.S. financial institution apart from its general assets, in trust for the uses and purposes specified in clauses (A) and (B) as may remain executory after withdrawal and for any period after the termination date.

(13) Either the reinsurance agreement or the trust agreement must stipulate that assets deposited in the trust account shall be valued according to their current fair market value and shall consist only of cash in United States dollars, certificates of deposit issued by a United States bank and payable in United States dollars, and investments permitted by [IC 27](#) or any combination of the above, provided investments in or issued by an entity controlling, controlled by, or under common control with either the grantor or the beneficiary of the trust shall not exceed five percent (5%) of total investments. The agreement may further specify the types of investments to be deposited. If the reinsurance agreement covers life, annuities, or accident and health risks, then the provisions required by this subdivision must be included in the reinsurance agreement.

(c) The following are permitted conditions:

(1) The trust agreement may provide that the trustee may resign upon delivery of a written notice of resignation, effective not less than ninety (90) days after receipt by the beneficiary and grantor of the notice and that the trustee may be removed by the grantor by delivery to the trustee and beneficiary of the written notice of removal, effective not less than ninety (90) days after receipt by the trustee and the beneficiary of the notice, provided that no such resignation or removal shall be effective until a successor trustee has been duly appointed and approved by the beneficiary and the grantor and all assets in the trust have been duly transferred to the new trustee.

(2) The grantor may have the full and unqualified right to vote any shares of stock in the trust account and to receive from time to time payments of any dividends or interest upon any shares of stock or obligations included in the trust account. Any such interest or dividend shall be either forwarded promptly upon receipt to the grantor or deposited in a separate account established in the grantor's name.

(3) The trustee may be given authority to invest, and accept substitutions of, any funds in the account, provided that no investment or substitution shall be made without prior approval of the beneficiary unless the trust agreement specifies categories of investments acceptable to the beneficiary and authorizes the trustee to invest funds and to accept substitutions that the trustee determines are at least equal in market value to the assets withdrawn and that are consistent with the restrictions in subsection (d)(1)(B).

(4) The trust agreement may provide that the beneficiary may at any time designate a party to which all or part of the trust assets are to be transferred. Such transfer may be conditioned upon the trustee receiving, prior to or simultaneously, other specified assets.

(5) The trust agreement may provide that, upon termination of the trust account, all assets not previously withdrawn by the beneficiary shall, with written approval by the beneficiary, be delivered over to the grantor.

(d) The following are additional conditions applicable to reinsurance agreements:

(1) A reinsurance agreement, which is entered into in conjunction with a trust agreement and the establishment of a trust account, may contain provisions that do the following:

(A) Require the assuming insurer to enter into a trust agreement and to establish a trust account for the benefit of the ceding insurer, specifying what the agreement is to cover.

(B) Require the assuming insurer, prior to depositing assets with the trustee, to execute assignments or endorsements in blank, or to transfer legal title to the trustee of all shares, obligations, or any other assets requiring assignments, in order that the ceding insurer, or the trustee upon the direction of the ceding insurer, may whenever necessary negotiate these assets without consent or signature from the assuming insurer or any other entity.

(C) Require that all settlements of account between the ceding insurer and the assuming insurer be made in cash or its equivalent.

(D) Stipulate that the assuming insurer and the ceding insurer agree that the assets in the trust account, established pursuant to the provisions of the reinsurance agreement, may be withdrawn by the ceding insurer at any time, notwithstanding any other provisions in the reinsurance agreement, and shall be utilized and applied by the ceding insurer or its successors in interest by operation of law, including, without limitation, any liquidator, rehabilitator, receiver, or conservator of such company, without diminution because of insolvency on the part of the ceding insurer or the assuming insurer, only for the following purposes:

(i) To reimburse the ceding insurer for the assuming insurer's share of premiums returned, but not yet recovered from

the assuming insurer, to the owners of policies reinsured under the reinsurance agreement because of cancellations of such policies.

(ii) To reimburse the ceding insurer for the assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer pursuant to the provisions of the policies reinsured under the reinsurance agreement.

(iii) To pay or reimburse the ceding insurer for any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.

(iv) To make payment to the assuming insurer of amounts held in the trust account in excess of the amount necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.

(2) The reinsurance agreement may also contain provisions that do the following:

(A) Give the assuming insurer the right to seek approval from the ceding insurer to withdraw from the trust account all or any part of the trust assets and transfer those assets to the assuming insurer, provided:

(i) the assuming insurer shall, at the time of withdrawal, replace the withdrawn assets with other qualified assets having a market value equal to the market value of the assets withdrawn so as to maintain at all times the deposit in the required amount; or

(ii) after withdrawal and transfer, the market value of the trust account is not less than one hundred two percent (102%) of the required amount.

The ceding insurer shall not unreasonably or arbitrarily withhold its approval.

(B) Provide for the return of any amount withdrawn in excess of the actual amounts required for subdivision (1)(D) and for interest payments at a rate not in excess of the prime rate of interest on such amounts.

(C) Permit the award by any arbitration panel or court of competent jurisdiction of:

(i) interest at a rate different from that provided in clause (B);

(ii) court or arbitration costs;

(iii) attorney's fees; and

(iv) any other reasonable expenses.

(3) A trust agreement may be used to reduce any liability for reinsurance ceded to an unauthorized assuming insurer in financial statements required to be filed with the department of insurance in compliance with this rule when established on or before the date of filing of the financial statement of the ceding insurer. Further, the reduction for the existence of an acceptable trust account may be up to the current fair market value of acceptable assets available to be withdrawn from the trust account at that time, but such reduction shall be no greater than the specific obligations under the reinsurance agreement that the trust account was established to secure.

(4) Notwithstanding the effective date of this rule, any trust agreement or underlying reinsurance agreement in existence prior to December 31, 2013, will continue to be acceptable until December 31, 2014, at which time the agreements will have to be in full compliance with this rule for the trust agreement to be acceptable.

(5) The failure of any trust agreement to specifically identify the beneficiary as defined in subsection (a)(1) shall not be construed to affect any actions or rights that the commissioner of the department of insurance may take or possess pursuant to the provisions of the laws of this state.

Authority: [IC 27-1-3-7](#); [IC 27-6-10.1-5](#)

Affected: [IC 27-6-10.1-4](#)

Sec. 11. (a) The letter of credit must be clean, irrevocable, and unconditional and issued or confirmed by a qualified United States financial institution as defined in [IC 27-6-10.1-4](#). The letter of credit shall:

(1) contain an issue date and date of expiration;

(2) stipulate that the beneficiary need only draw a sight draft under the letter of credit and present it to obtain funds and that no

other document need be presented; and

(3) indicate that it is not subject to any condition or qualifications outside of the letter of credit.

In addition, the letter of credit itself shall not contain reference to any other agreements, documents, or entities, except as provided in subsection (i)(1). As used in this section, "beneficiary" means the domestic insurer for whose benefit the letter of credit has been established and any successor of the beneficiary by operation of law. If a court of law appoints a successor in interest to the named beneficiary, then the named beneficiary includes, and is limited to, the court appointed domiciliary receiver (including conservator, rehabilitator, or liquidator).

(b) The heading of the letter of credit may include a boxed section that contains the name of the applicant and other appropriate notations to provide a reference for the letter of credit. The boxed section shall be clearly marked to indicate that such information is for internal identification purposes only.

(c) The letter of credit shall contain a statement to the effect that the obligation of the qualified United States financial institution under the letter of credit is in no way contingent upon reimbursement with respect thereto.

(d) The term of the letter of credit shall be for at least one (1) year and shall contain an evergreen clause that prevents the expiration of the letter of credit without due notice from the issuer. The evergreen clause shall provide for a period of not less than a thirty (30) day notice prior to expiry date or nonrenewal.

(e) The letter of credit shall state whether it is subject to and governed by the laws of this state or the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce Publication 600 (UCP 600) or International Standby Practices of the International Chamber of Commerce Publication 590 (ISP98), or any successor publication, and all drafts drawn thereunder shall be presentable at an office in the United States of a qualified United States financial institution.

(f) If the letter of credit is made subject to the Uniform Customs and Practice for Documentary Credits of the International Chamber of Commerce (Publication 500), or any successor publication, then the letter of credit shall specifically address and make provisions for an extension of time to draw against the letter of credit in the event that one (1) or more of the occurrences specified in Article 17 of Publication 500, or any successor publication, occur.

(g) The letter of credit shall be issued or confirmed by a qualified United States financial institution authorized to issue letters of credit under [IC 27-6-10.1-4](#).

(h) If the letter of credit is issued by a qualified United States financial institution authorized to issue letters of credit, other than a qualified United States financial institution as described in subsection (g), then the following additional requirements shall be met:

(1) The issuing qualified United States financial institution shall formally designate the confirming qualified United States financial institution as its agent for the receipt and payment of the drafts.

(2) The evergreen clause shall provide for a thirty (30) day notice prior to expiration date for nonrenewal.

(i) Reinsurance agreement provisions shall be as follows:

(1) The reinsurance agreement in conjunction with which the letter of credit is obtained may contain provisions that do the following:

(A) Require the assuming insurer to provide letters of credit to the ceding insurer and specify what they are to cover.

(B) Stipulate that the assuming insurer and the ceding insurer agree that the letter of credit provided by the assuming insurer pursuant to the provisions of the reinsurance agreement may be drawn upon at any time, notwithstanding any other provision in the agreement, and shall be utilized by the ceding insurer or its successors in interest only for one (1) or more of the following reasons:

(i) To reimburse the ceding insurer for the assuming insurer's share of premiums returned to the owners of policies reinsured under the reinsurance agreement on account of cancellations of such policies.

(ii) To reimburse the ceding insurer for the assuming insurer's share of surrenders and benefits or losses paid by the ceding insurer under the terms and provisions of the policies reinsured under the reinsurance agreement.

(iii) To pay any other amounts necessary to secure the credit or reduction from liability for reinsurance taken by the ceding insurer.

(iv) Where the letter of credit will expire without renewal or be reduced or replaced by a letter of credit for a reduced amount and where the assuming insurer's entire obligations under the reinsurance agreement remain unliquidated and undischarged ten (10) days prior to the termination date, to withdraw amounts equal to the assuming insurer's share of the liabilities, to the extent that the liabilities have not yet been funded by the assuming insurer and exceed the amount of any reduced or replacement letter of credit, and deposit those amounts in a separate account in the name of the ceding insurer in a qualified U.S. financial institution apart from its general assets, in trust for such uses and

- (F) If the appointed actuary chooses to add a paragraph briefly describing the assumptions that form the basis for the actuarial opinion.

(b) A statement of actuarial opinion issued in accordance with this section must contain all pertinent aspects of the language provided in this section. The language may be modified as needed to meet the circumstances of a particular case, but the appointed actuary should use language that clearly expresses his or her professional judgment. The following language is that which in typical circumstances would be included in a statement of actuarial opinion in accordance with this section:

(1) The opening paragraph shall include an identification of the appointed actuary and a description of the appointed actuary's relationship to the company and his or her qualifications to sign the opinion. The opening paragraph of the actuarial opinion shall read as follows:

The scope paragraph shall include a statement such as, "I have examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items listed below, as shown in the annual statement of the company, as prepared for filing with state regulatory officials, as of December 31, []. The following tabulation contains those reserves and related actuarial items which have been subjected to asset adequacy analysis":

Notes:

- (a) The additional actuarial reserves are the reserves established under section 5(e)(2) of this rule.
- (b) The appointed actuary should indicate the method of analysis, determined in accordance with the standards for asset adequacy analysis referred to in section 5(d) of this rule, by means of symbols that should be defined in footnotes to the table.
- (c) Allocated amount.
 - (3) The reliance paragraph shall describe those areas, if any, where the appointed actuary has deferred to other experts in developing data, procedures, or assumptions, for example, anticipated cash flows according to economic scenarios. The reliance paragraph shall include the following:
 - (A) If the appointed actuary has relied on other experts to develop certain portions of the analysis, the reliance paragraph shall include the statement:

"I have relied on [name], [title] for [e.g., 'anticipated cash flows from currently owned assets, including variations in cash flows according to economic scenarios' or 'certain critical aspects of the analysis performed in conjunction with forming my opinion'] as certified in the attached statement. I have reviewed the information relied upon for reasonableness."

 A statement of reliance on other experts shall be accompanied by a statement by each of such experts in the form prescribed by subsection (e).
 - (B) If the appointed actuary has examined the underlying asset and liability records, the reliance paragraph shall also include the statement, "My examination included such review of the actuarial assumptions and actuarial methods and of the underlying basic asset and liability records and such tests of the actuarial calculations as I considered necessary. I also reconciled the underlying basic asset and liability records to [exhibits and schedules listed as applicable] of the company's current annual statement."
 - (C) If the appointed actuary has not examined the underlying records, but has relied upon data (for example, listings and summaries of policies in force and/or asset records) prepared by the company, the reliance paragraph shall include the

statement,

"In forming my opinion on [specify reserves] I relied upon data prepared by [name and title of company officer certifying in-force records or other data] as certified in the attached statements. I evaluated that data for reasonableness and consistency. I also reconciled that data to [exhibits and schedules to be listed as applicable] of the company's current annual statement. In other respects, my examination included review of the actuarial assumptions and actuarial methods used and tests of the calculations I considered necessary."

A statement of reliance on other experts shall be accompanied by a statement by each of such experts in the form prescribed by subsection (e).

(4) The opinion paragraph shall express the appointed actuary's opinion with respect to the adequacy of the supporting assets to mature the liabilities. The opinion paragraph shall include a statement, such as, "In my opinion the reserves and related actuarial values concerning the statement items identified above:

(A) are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;

(B) are based on actuarial assumptions which produce reserves at least as great as those called for in any contract provision as to reserve basis and method and are in accordance with all other contract provisions;

(C) meet the requirements of [state of domicile] insurance law and regulations and are at least as great as the minimum aggregate amounts required by the state in which this statement is filed;

(D) are computed on the basis of assumptions consistent with those used in computing the corresponding items in the annual statement of the preceding year end (with any exceptions noted below); or

(E) include provision for all actuarial reserves and related statement items which ought to be established.

The reserves and related items, when considered in light of the assets held by the company with respect to such reserves and related actuarial items, including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the company. The actuarial methods, considerations, and analyses used in forming my opinion conform to the appropriate Standards of Practice as Promulgated by the Actuarial Standards Board, which standards form the basis of this statement of opinion.

This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion.

The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis of asset adequacy portion of this opinion should be viewed recognizing that the company's future experience may not follow the assumptions used in the analysis.

(c) The adoption for new issues or new claims or other new liabilities of an actuarial assumption, which differs from a corresponding assumption used for prior new issues or new claims or other new liabilities, is not a change in actuarial assumptions within the meaning of this section.

(d) If the appointed actuary is unable to form an opinion, then he or she shall refuse to issue a statement of actuarial opinion. If the appointed actuary's opinion is adverse or qualified, he or she shall issue an adverse or qualified actuarial opinion explicitly stating the reason or reasons for such opinion. This statement should follow the scope paragraph and precede the opinion paragraph.

(e) If the appointed actuary does not express an opinion as to the accuracy and completeness of the listings and summaries of policies in force and/or asset oriented information, there shall be attached to the opinion a statement similar to either of the following by a company officer or the accounting firm who prepared such underlying data:

(1) "I [name of officer], [title], of [name and address of company or accounting firm], hereby affirm that the listings and summaries of policies and contracts in force as of December 31, [], prepared for and submitted to [name of appointed actuary] were prepared under my direction and, to the best of my knowledge and belief, are substantially accurate and complete.

(2) "I, [name of officer], [title] of [name and address of company, accounting firm, or security analyst], hereby affirm that the listings, summaries, and analyses relating to data prepared for and submitted to [name of appointed actuary] in support of the asset oriented aspects of the opinion were prepared under my direction and, to the best of my knowledge and belief, are substantially accurate and complete.

(f) The commissioner may accept the valuation of a foreign insurer when that valuation meets the requirement applicable to a company domiciled in this state in the aggregate. As an alternative to the requirements of subsection (b)(4)(C), the commissioner may make one (1) or more of the following additional approaches available to the opining actuary:

(1) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and the formal written standards and conditions of this state for filing an opinion based on the law of the state of domicile". If the commissioner chooses to allow this alternative, a formal written list of standards and conditions shall be made available. If a company chooses to use this alternative, the standards and conditions in effect on July 1 of a calendar year shall apply to statements for that calendar year, and they shall remain in effect until they are revised or revoked. If no list is available, this alternative is not available.

(2) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have verified that the company's request to file an opinion based on the laws of the state of domicile has been approved and that any conditions required by the commissioner for approval of that request have been met". If the commissioner chooses to allow this alternative, a formal written statement of such allowance shall be issued no later than March 31 of the year it is first effective. Subsequent to that statement being issued, if a company chooses to use this alternative, the company shall file a request to do so, along with justification for its use, no later than April 30 of the year of the opinion to be filed. The request shall be deemed approved on October 1 of that year if the commissioner has not denied the request by that date.

(3) A statement that the reserves "meet the requirements of the insurance laws and regulations of the State of [state of domicile] and I have submitted the required comparison as specified by this state", including the following:

(A) If the commissioner chooses to allow this alternative, a formal written list of products (to be added to the table in clause (B)) for which the required comparison shall be provided will be published. If a company chooses to use this alternative, the list in effect on July 1 of a calendar year shall apply to statements for that calendar year, and it shall remain in effect until it is revised or revoked. If no list is available, this alternative is not available.

(B) If a company desires to use this alternative, the appointed actuary shall provide a comparison of the gross nationwide reserves held to the gross nationwide reserves that would be held under NAIC codification standards. Gross nationwide reserves are the total reserves calculated for the total company in force business directly sold and assumed, indifferent to the state in which the risk resides, without reduction for reinsurance ceded. The information provided shall be at least:

(1) Product Type	(2) Death Benefit or Account Value	(3) Reserves Held	(4) Codification Reserves	(5) Codification Standard

(C) The information listed shall include all products identified by either the state of filing or any other states subscribing to this alternative.

(D) If there is no codification standard for the type of product or risk in force or if the codification standard does not

directly address the type of product or risk in force, the appointed actuary shall provide detailed disclosure of the specific method and assumptions used in determining the reserves held.

(E) The comparison provided by the company is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

Notwithstanding this subsection, the commissioner may reject an opinion based on the laws and regulations of the state of domicile and require an opinion based on the laws of this state. If a company is unable to provide the opinion within sixty (60) days of the request or such other period of time determined by the commissioner after consultation with the company, the commissioner may contract an independent actuary at the company's expense to prepare and file the opinion. 760 IAC 1-57-9 Description of actuarial memorandum including an asset adequacy analysis

Authority: [IC 27-1-12.8-21](#)

Affected: [IC 27-1-3.1](#)

Sec. 9. (a) In accordance with [IC 27-1-12-10.1](#) [*IC 27-1-12-10.1 was repealed by P.L.276-2013, SECTION 6, effective July 1, 2013.*], the appointed actuary shall prepare a memorandum to the company describing the analysis done in support of his or her opinion regarding the reserves under an opinion issued pursuant to section 8 of this rule. The memorandum shall be made available for examination by the commissioner upon his or her request but shall be returned to the company after such examination and shall not be considered a record of the insurance department or subject to automatic filing with the commissioner.

(b) In preparing the memorandum, the appointed actuary may rely on, and include as a part of his or her own memorandum, memoranda prepared and signed by other actuaries who are qualified within the meaning of section 5(b) of this rule, with respect to the areas covered in such memoranda, and so state in their memoranda.

(c) If the commissioner requests a memorandum and no such memorandum exists or if the commissioner finds that the analysis described in the memorandum fails to meet the standards of the Actuarial Standards Board or the standards and requirements of this rule, the commissioner may designate a qualified actuary to review the opinion and prepare such supporting memorandum as is required for review. The reasonable and necessary expense of the independent review shall be paid by the company but shall be directed and controlled by the commissioner.

(d) The reviewing actuary shall have the same status as an examiner under [IC 27-1-3.1](#) for purposes of obtaining data from the company. The work papers and documentation of the reviewing actuary shall be retained by the commissioner; provided, however, that any information provided by the company to the reviewing actuary and included in the work papers shall be considered as material provided by the company to the commissioner and shall be kept confidential to the same extent as is prescribed by law with respect to other material provided by the company to the commissioner pursuant to [IC 27-1-12-10](#) [*IC 27-1-12-10 was repealed by P.L.276-2013, SECTION 5, effective July 1, 2013.*] and [IC 27-1-12-10.1](#) [*IC 27-1-12-10.1 was repealed by P.L.276-2013, SECTION 6, effective July 1, 2013.*]. The reviewing actuary shall not be an employee of a consulting firm involved with the preparation of any prior memorandum or opinion for the insurer under this rule for the current year or any one (1) of the preceding three (3) years.

(e) The appointed actuary shall prepare a regulatory asset adequacy issues summary, the contents of which are specified in subsection (g). The regulatory asset adequacy issues summary shall be submitted no later than March 15 of the year following the year for which a statement of actuarial opinion based on adequacy is required. The regulatory asset adequacy issues summary is to be kept confidential to the same extent and under the same conditions as the actuarial memorandum.

(f) When an actuarial opinion is provided, the memorandum shall demonstrate that the analysis has been done in accordance with the standards for asset adequacy analysis referred to in section 5(d) of this rule and any additional standards under this rule. It shall specify the following:

(1) For reserves:

- (A) product descriptions, including market description, underwriting and other aspects of a risk profile, and the specific risks the appointed actuary deems significant;
- (B) source of liability in force;
- (C) reserve method and basis;
- (D) investment reserves;

- (E) reinsurance arrangements;
- (F) identification of any explicit or implied guarantees made by the general account in support of benefits provided through a separate account or under a separate account policy or contract and the methods used by the appointed actuary to provide for the guarantees in the asset adequacy analysis; and
- (G) documentation of assumptions to test reserves for:
 - (i) lapse rates (both base and excess);
 - (ii) interest crediting rate strategy;
 - (iii) mortality;
 - (iv) policyholder dividend strategy;
 - (v) competitor or market interest rate;
 - (vi) annuitization rates;
 - (vii) commissions and expenses; and
 - (viii) morbidity.

The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions.

(2) For assets:

- (A) portfolio descriptions, including a risk profile disclosing the quality, distribution, and types of assets;
- (B) investment and disinvestment assumptions;
- (C) source of asset data;
- (D) asset valuation bases; and
- (E) documentation of assumptions made for the following:
 - (i) default costs;
 - (ii) bond call function;
 - (iii) mortgage prepayment function;
 - (iv) determining market value for assets sold due to disinvestment strategy; and
 - (v) determining yield on assets acquired through the investment strategy.

The documentation of the assumptions shall be such that an actuary reviewing the actuarial memorandum could form a conclusion as to the reasonableness of the assumptions.

(3) Analysis basis:

- (A) methodology;
- (B) rationale for inclusion or exclusion of different blocks of business and how pertinent risks were analyzed;
- (C) rationale for degree of rigor in analyzing different blocks of business;
- (D) criteria for determining asset adequacy; and
- (E) whether the impact of federal income taxes was considered and the method of treating reinsurance in the asset adequacy analysis.

(4) Summary of material changes in methods, procedures, or assumptions from prior year's asset adequacy analysis.

(5) Summary of results.

(6) Conclusion.

(g) The memorandum shall include a statement similar to, "Actuarial methods, considerations, and analysis used in the preparation of this memorandum conform to the appropriate Standards of Practice as promulgated by the Actuarial Standards Board, which standards form the basis for this memorandum."

(h) The regulatory asset adequacy issues summary required by subsection (e) shall state the name of the company for which it is being supplied and shall be signed and dated by the appointed actuary rendering the actuarial opinion. The regulatory asset adequacy issues summary shall include the following:

- (1) Descriptions of the scenarios tested (including whether those scenarios are stochastic or deterministic) and the sensitivity testing done relative to those scenarios. If negative ending surplus results under certain tests in the aggregate, the actuary should describe those tests and the amount of additional reserve as of the valuation date which, if held, would eliminate the negative aggregate surplus values. Ending surplus values shall be determined by either extending the projection until the in force and associated assets and liabilities at the end of the projection period are immaterial or by adjusting the surplus amount at the end of the projection period by an amount that appropriately estimates the value that can reasonably be expected to arise from the

assets and liabilities remaining in force.

(2) The extent to which the appointed actuary uses assumptions in the asset adequacy that are materially different than the assumptions used in the previous asset adequacy analysis.

(3) The amount of reserves and the identity of the product lines that had been subjected to asset adequacy analysis in the prior opinion but were not subject to analysis for the current opinion.

(4) Comments on any interim results that may be of significant concern to the appointed actuary.

(5) The methods used by the actuary to recognize the impact of reinsurance on the company's cash flows, including both assets and liabilities, under each of the scenarios tested.

(6) Whether the actuary has been satisfied that all options whether explicit or embedded, in any asset or liability (including, but not limited to, those affecting cash flows embedded in fixed income securities) and equity-like features in any investments have been appropriately considered in the asset adequacy analysis.

760 IAC 1-57-10 Additional considerations for analysis

Authority: [IC 27-1-12.8-21](#)

Affected: [IC 27-1-12.8-21](#)

Sec. 10. (a) The appointed actuary shall analyze only those assets held in support of the reserves that are the subject for specific analysis, hereafter called "specified reserves". A particular asset or portion thereof supporting a group of specified reserves cannot support any other group of specified reserves. An asset may be allocated over several groups of specified reserves. The annual statement value of the assets held in support of the reserves shall not exceed the annual statement value of the specified reserves, except as provided in subsection (b). If the method of asset allocation is not consistent from year to year, the extent of its inconsistency should be described in the supporting memorandum.

(b) An appropriate allocation of assets in the amount of the Interest Maintenance Reserve (IMR), whether positive or negative, must be used in any asset adequacy analysis. Analysis of risks regarding asset default may include an appropriate allocation of assets supporting the Asset Valuation Reserve (AVR); these AVR assets may not be applied for any other risks with respect to reserve adequacy. Analysis of these and other risks may include assets supporting other mandatory or voluntary reserves available to the extent not used for in risk analysis and reserve support.

(c) The amount of the assets used for the AVR must be disclosed in the Table of Reserves and Liabilities of the opinion and in the memorandum. The method used for selecting particular assets or allocated portions of assets must be disclosed in the memorandum.

(d) Interest rate scenarios used in performing the asset adequacy analysis shall be as follows:

(1) For the purpose of performing the asset adequacy analysis required by this rule, the qualified actuary is expected to follow standards adopted by the Actuarial Standards Board; however, the appointed actuary must consider in the analysis the effect of at least the following interest rate scenarios:

(A) Level with no deviation.

(B) Uniformly increasing over ten (10) years at one-half percent (0.5%) per year and then level.

(C) Uniformly increasing at one percent (1%) per year over five (5) years and then uniformly decreasing at one percent (1%) per year to the original level at the end of ten (10) years and then level.

(D) An immediate increase of three percent (3%) and then level.

(E) Uniformly decreasing over ten (10) years at one-half percent (0.5%) per year and then level.

(F) Uniformly decreasing at one percent (1%) per year over five (5) years and then uniformly increasing at one percent (1%) per year to the original level at the end of ten (10) years and then level.

(G) An immediate decrease of three percent (3%) and then level.

For these and other scenarios that may be used, projected interest rates for a five (5) year Treasury Note need not be reduced beyond the point where the five (5) year Treasury Note yield would be at fifty percent (50%) of its initial level.

(2) The beginning interest rates may be based on:

(A) interest rates for new investments as of the valuation date similar to recent investments allocated to support the product

being tested; or

(B) an outside index, such as Treasury yields, of assets of the appropriate length on a date close to the valuation date.

Whatever method is used to determine the beginning yield curve and associated interest rates should be specifically defined. The beginning yield curve and associated interest rates should be consistent for all interest rate scenarios.

(e) The appointed actuary shall retain on file, for at least seven (7) years:

- (1) sufficient documentation so that it will be possible to determine the procedures followed;
- (2) the analysis performed;
- (3) the bases for assumptions; and
- (4) the results obtained.

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12-25](#); [IC 27-4-1-4](#)

Sec. 2. The following definitions apply throughout this rule:

- (1) "Actuarial standards board" means the board established by the American Academy of Actuaries to develop and promulgate standards of actuarial practice.
- (2) "Commissioner" means the commissioner of the Indiana department of insurance.
- (3) "Contract premium" means the gross premium that is required to be paid under a fixed premium policy, including the premium for a rider for which benefits are shown in the illustration.
- (4) "Currently payable scale" means a scale of nonguaranteed elements in effect for a policy form as of the preparation date of the illustration or declared to become effective within the next ninety-five (95) days.
- (5) "Disciplined current scale" means a scale of nonguaranteed elements constituting a limit on illustrations currently being illustrated by an insurer that is reasonably based on actual recent historical experience, as certified annually by an illustration actuary designated by the insurer. Further guidance in determining the disciplined current scale as contained in standards established by the actuarial standards board may be relied upon if the standards:
 - (A) are consistent with all provisions of this rule;
 - (B) limit a disciplined current scale to reflect only actions that have already been taken or events that have already occurred;
 - (C) do not permit a disciplined current scale to include any projected trends of improvements in experience or any assumed

improvements in experience beyond the illustration date; and

(D) do not permit assumed expenses to be less than minimum assumed expenses.

(6) "Generic name" means a short title descriptive of the policy being illustrated, such as "whole life", "term life", or "flexible premium adjustable life".

(7) "Guaranteed elements" means the premiums, benefits, values, credits, or charges under a policy of life insurance that are guaranteed and determined at issue.

(8) "Illustrated scale" means a scale of nonguaranteed elements currently being illustrated that is not more favorable to the policy owner than the lesser of:

(A) the disciplined current scale; or

(B) the currently payable scale.

(9) "Illustration" means a presentation or depiction that includes nonguaranteed elements of a policy of life insurance over a period of years and that is one (1) of the following three (3) types:

(A) "Basic illustration" means a ledger or proposal used in the sale of a life insurance policy that shows both guaranteed and nonguaranteed elements.

(B) "Supplemental illustration" means an illustration furnished in addition to a basic illustration that meets the applicable requirements of this rule, and that may be presented in a format differing from the basic illustration, but may only depict a scale of nonguaranteed elements that is permitted in a basic illustration.

(C) "In force illustration" means an illustration furnished at any time after the policy that it depicts has been in force for one (1) year or more.

(10) "Illustration actuary" means an actuary meeting the requirements of section 9 of this rule who certifies to illustrations based on the standard of practice promulgated by the Actuarial Standards Board.

(11) "Lapse-supported illustration" means an illustration of a policy form failing the test of self-supporting as defined in subdivision (17), under a modified persistency rate assumption using persistency rates underlying the disciplined current scale for the first five (5) years and one hundred percent (100%) policy persistency thereafter.

(12) "Minimum assumed expenses" means the minimum expenses that may be used in the calculation of the disciplined current scale for a policy form. The insurer may choose to designate each year the method of determining assumed expenses for all policy forms from the following:

(A) Fully allocated expenses.

(B) Marginal expenses.

(C) A generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the commissioner.

Marginal expenses may be used only if greater than a generally recognized expense table. If no generally recognized expense table is approved, fully allocated expenses must be used.

(13) "Nonguaranteed elements" means the premiums, benefits, values, credits, or charges under a policy of life insurance that are not guaranteed or not determined at issue.

(14) "Nonterm group life" means a group policy or individual policies of life insurance issued to members of an employer group or other permitted group where:

(A) every plan of coverage was selected by the employer or other group representative;

(B) some portion of the premium is paid by the group or through payroll deduction; and

(C) group underwriting or simplified underwriting is used.

(15) "Policy owner" means the owner named in the policy or the certificate holder in the case of a group policy.

(16) "Premium outlay" means the amount of premium assumed to be paid by the policy owner or other premium payer out-of-pocket.

(17) "Self-supporting illustration" means an illustration of a policy form for which it can be demonstrated that, when using experience assumptions underlying the disciplined current scale, for all illustrated points in time on or after the fifteenth policy anniversary or the twentieth policy anniversary for second-or-later-to-die policies (or upon policy expiration if sooner), the accumulated value of all policy cash flows equals or exceeds the total policy owner value available. For this purpose, policy owner value will include cash surrender values and any other illustrated benefit amounts available at the policy owner's election.

Sec. 3. (a) Each insurer marketing policies to which this rule is applicable shall notify the commissioner whether a policy form is to be marketed with or without an illustration. For all policy forms being actively marketed on the effective date of this rule, the insurer shall identify in writing those forms and whether or not an illustration will be used with them. For policy forms filed after the effective date of this rule, the identification shall be made at the time of filing. Any previous identification may be changed by notice to the commissioner.

(b) If the insurer identifies a policy form as one to be marketed without an illustration, any use of an illustration for any policy using that form prior to the first policy anniversary is prohibited.

(c) If a policy form is identified by the insurer as one to be marketed with an illustration, a basic illustration prepared and delivered in accordance with this rule is required, except that a basic illustration need not be provided to individual members of a group or to individuals insured under multiple lives coverage issued to a single applicant unless the coverage is marketed to these individuals. The illustration furnished an applicant for a group life insurance policy or policies issued to a single applicant on multiple lives may be either an individual or composite illustration representative of the coverage on the lives of members of the group or the multiple lives covered.

(d) Potential enrollees of nonterm group life subject to this rule shall be furnished a quotation with the enrollment materials. The quotation shall show potential policy values for sample ages and policy years on a guaranteed and nonguaranteed basis appropriate to the group and the coverage. This quotation shall not be considered an illustration for purposes of this rule, but all information provided shall be consistent with the illustrated scale. A basic illustration shall be provided at delivery of the certificate to enrollees for nonterm group life who enroll for more than the minimum premium necessary to provide pure death benefit protection. In addition, the insurer shall make a basic illustration available to any nonterm group life enrollee who requests it. Sec. 4. (a) An illustration used in the sale of a life insurance policy shall satisfy the applicable requirements of this rule, be clearly labeled "life insurance illustration", and contain the following basic information:

- (1) Name of insurer.
- (2) Name and business address of producer or insurer's authorized representative, if any.
- (3) Name, age, and sex of proposed insured, except where a composite illustration is permitted under this rule.
- (4) Underwriting or rating classification upon which the illustration is based.
- (5) Generic name of policy, the company product name, if different, and form number.
- (6) Initial death benefit.
- (7) Dividend option election or application of nonguaranteed elements, if applicable.

(b) When using an illustration in the sale of a life insurance policy, an insurer or its producers or other authorized representatives shall not do any of the following:

- (1) Represent the policy as anything other than a life insurance policy.
- (2) Use or describe nonguaranteed elements in a manner that is misleading or has the capacity or tendency to mislead.
- (3) State or imply that the payment or amount of nonguaranteed elements is guaranteed.
- (4) Use an illustration that does not comply with the requirements of this rule.
- (5) Use an illustration that at any policy duration depicts policy performance more favorable to the policy owner than that produced by the illustrated scale of the insurer whose policy is being illustrated.

- (6) Provide an applicant with an incomplete illustration.
- (7) Represent in any way that premium payments will not be required for each year of the policy in order to maintain the illustrated death benefits unless that is the fact.
- (8) Use the term "vanish" or "vanishing premium" or a similar term that implies the policy becomes paid up to describe a plan for using nonguaranteed elements to pay a portion of future premiums.
- (9) Except for policies that can never develop nonforfeiture values, use an illustration that is lapse-supported.
- (10) Use an illustration that is not self-supporting.

(c) If an interest rate used to determine the illustrated nonguaranteed elements is shown, it shall not be greater than the earned interest rate underlying the disciplined current scale. Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-12-25](#); [IC 27-4-1-4](#)

Sec. 5. (a) A basic illustration shall conform with the following requirements:

- (1) The illustration shall be labeled with the date on which it was prepared.
- (2) Each page, including any explanatory notes or pages, shall be numbered and show its relationship to the total number of pages in the illustration, for example, the fourth page of a seven (7) page illustration shall be labeled "page 4 of 7 pages".
- (3) The assumed dates of payment receipt and benefit pay-out within a policy year shall be clearly identified.
- (4) If the age of the proposed insured is shown as a component of the tabular detail, it shall be issue age plus the numbers of years the policy is assumed to have been in force.
- (5) The assumed payments on which the illustrated benefits and values are based shall be identified as premium outlay or contract premium as applicable. For policies that do not require a specific contract premium, the illustrated payments shall be identified as premium outlay.
- (6) Guaranteed death benefits and values available upon surrender, if any, for the illustrated premium outlay or contract premium shall be shown and clearly labeled guaranteed.
- (7) If the illustration shows any nonguaranteed elements, they cannot be based on a scale more favorable to the policy owner than the insurer's illustrated scale at any duration. These elements shall be clearly labeled nonguaranteed.
- (8) The guaranteed elements, if any, shall be shown before corresponding nonguaranteed elements and shall be specifically referred to on any page of an illustration that shows or describes only the nonguaranteed elements, for example, "see page one for guaranteed elements".
- (9) The account or accumulation value of a policy, if shown, shall be identified by the name this value is given in the policy being illustrated and shown in close proximity to the corresponding value available upon surrender.
- (10) The value available upon surrender shall be identified by the name this value is given in the policy being illustrated and shall be the amount available to the policy owner in a lump sum after deduction of surrender charges, policy loans, and policy loan interest as applicable.
- (11) Illustrations may show policy benefits and values in graphic or chart form in addition to the tabular form.
- (12) Any illustration of nonguaranteed elements shall be accompanied by a statement indicating the following:
 - (A) The benefits and values are not guaranteed.
 - (B) The assumptions on which they are based are subject to change by the insurer.
 - (C) Actual results may be more or less favorable.
- (13) If the illustration shows that the premium payer may have the option to allow policy charges to be paid using nonguaranteed values, the illustration must clearly disclose that a charge continues to be required and that, depending on actual results, the premium payer may need to continue or resume premium outlays. Similar disclosure shall be made for premium outlay of lesser amounts or shorter durations than the contract premium. If a contract premium is due, the premium outlay display shall not be left blank or show zero (0) unless accompanied by an asterisk or similar mark to draw attention to the fact that the policy is not paid up.
- (14) If the applicant plans to use dividends or policy values, guaranteed or nonguaranteed, to pay all or a portion of the contract

premium or policy charges, or for any other purpose, the illustration may reflect those plans and the impact on future policy benefits and values.

(b) The narrative summary of a basic illustration shall include the following:

- (1) A brief description of the policy being illustrated, including a statement that it is a life insurance policy.
- (2) A brief description of the premium outlay or contract premium, as applicable, for the policy. For a policy that does not require payment of a specific contract premium, the illustration shall show the premium outlay that must be paid to guarantee coverage for the term of the contract, subject to maximum premiums allowable to qualify as a life insurance policy under the applicable provisions of the Internal Revenue Code.
- (3) A brief description of any policy features, riders, or options, guaranteed or nonguaranteed, shown in the basic illustration and the impact they may have on the benefits and values of the policy.
- (4) Identification and a brief definition of column headings and key terms used in the illustration.
- (5) A statement containing, in substance, the following: "This illustration assumes that the currently illustrated nonguaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown."

(c) Numeric summary information shall include the following:

(1) Following the narrative summary, a basic illustration shall include a numeric summary of the death benefits and values and the premium outlay and contract premium as applicable. For a policy that provides for a contract premium, the guaranteed death benefits and values shall be based on the contract premium. This summary shall be shown for at least policy years five (5), ten (10), and twenty (20) and at age seventy (70), if applicable, on the three (3) bases as follows:

(A) Policy guarantees.

(B) Insurer's illustrated scale.

(C) Insurer's illustrated scale used, but with the nonguaranteed elements reduced as follows:

(i) Dividends at fifty percent (50%) of the dividends contained in the illustrated scale used.

(ii) Nonguaranteed credited interest at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used.

(iii) All nonguaranteed charges, including, but not limited to, term insurance charges, mortality, and expense charges, at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used.

For multiple life policies the summary shall show policy years five (5), ten (10), twenty (20), and thirty (30).

(2) In addition, if coverage would cease prior to policy maturity or age one hundred (100), the year in which coverage ceases shall be identified for each of the three (3) bases.

(d) Statements substantially similar to the following shall be included on the same page as the numeric summary and signed by the applicant, or the policy owner in the case of an illustration provided at time of delivery, as required in this rule:

(1) A statement to be signed and dated by the applicant or policy owner reading, "I have received a copy of this illustration and understand that any nonguaranteed elements illustrated are subject to change and could be either higher or lower. The agent has told me they are not guaranteed."

(2) A statement to be signed and dated by the insurance producer or other authorized representative of the insurer reading, "I certify that this illustration has been presented to the applicant and that I have explained that any nonguaranteed elements illustrated are subject to change. I have made no statements that are inconsistent with the illustration."

(e) Requirements for tabular detail are as follows:

(1) A basic illustration shall include the following for at least each policy year from one (1) to ten (10) and for every fifth policy year thereafter ending at age one hundred (100), policy maturity or final expiration, and, except for term insurance beyond the twentieth year, for any year in which the premium outlay and contract premium, if applicable, is to change:

(A) The premium outlay and mode the applicant plans to pay and the contract premium as applicable.

(B) The corresponding guaranteed death benefit as provided in the policy.

(C) The corresponding guaranteed value available upon surrender as provided in the policy.

(2) For a policy that provides for a contract premium, the guaranteed death benefit and value available upon surrender shall correspond to the contract premium.

(3) Nonguaranteed elements may be shown if described in the contract. In the case of an illustration for a policy on which the insurer intends to credit terminal dividends, they may be shown if the insurer's current practice is to pay terminal dividends. If any nonguaranteed elements are shown, they must be shown at the same duration as the corresponding guaranteed elements, if

any. If no guaranteed benefit or value is available at any duration for which a nonguaranteed benefit or value is shown, a zero (0) shall be displayed in the guaranteed column.

Sec. 6. (a) A supplemental illustration may be provided so long as the following requirements are met:

(1) It is appended to, accompanied by, or preceded by a basic illustration that complies with this rule.

(2) The nonguaranteed elements shown are not more favorable to the policy owner than the corresponding elements based on the scale used in the basic illustration.

(3) It contains the same statement required of a basic illustration that nonguaranteed elements are not guaranteed.

(4) For a policy that has a contract premium, the contract premium underlying the supplemental illustration is equal to the contract premium shown in the basic illustration. For policies that do not require a contract premium, the premium outlay underlying the supplemental illustration shall be equal to the premium outlay shown in the basic illustration.

(b) The supplemental illustration shall include a notice referring to the basic illustration for guaranteed elements and other important information. *(Department of Insurance; 760 IAC 1-62-6; filed Sep 27, 1999, 9:00 a.m.: 23 IR 339, eff Jan 1, 2000; readopted filed Sep 25, 2006, 3:23 p.m.: [20061004-IR-760060200RFA](#); readopted filed Nov 21, 2012, 4:15 p.m.: [20121219-IR-760120454RFA](#); readopted filed Nov 13, 2018, 10:02 a.m.: [20181212-IR-760180372RFA](#))*

Sec. 7. (a) If a basic illustration is used by an insurance producer or other authorized representative of the insurer in the sale of a life insurance policy and the policy is applied for as illustrated, a copy of that illustration, signed in accordance with this rule, shall be submitted to the insurer at the time of policy application. A copy also shall be provided to the applicant. If the policy is issued other than as applied for, a revised basic illustration conforming to the policy as issued shall be sent with the policy. The revised illustration shall:

(1) conform to the requirements of this rule;

(2) be labeled "Revised Illustration"; and

(3) be signed and dated by the applicant or policy owner and producer or other authorized representative of the insurer; no later than the time the policy is delivered. A copy shall be provided to the insurer and the policy owner.

(b) If no illustration is used by an insurance producer or other authorized representative in the sale of a life insurance policy, or if the policy is applied for other than as illustrated, the producer or representative shall certify to that effect in writing on a form provided by the insurer. On the same form, the applicant shall acknowledge that no illustration conforming to the policy applied for was provided and shall further acknowledge an understanding that an illustration conforming to the policy as issued will be provided no later than at the time of policy delivery. This form shall be submitted to the insurer at the time of policy application. If the policy is issued, a basic illustration conforming to the policy as issued shall be sent with the policy and signed no later than the time the policy is delivered. A copy shall be provided to the insurer and the policy owner.

(c) If the basic illustration or revised illustration is sent to the applicant or policy owner by mail from the insurer, it shall include instructions for the applicant or policy owner to sign the duplicate copy of the numeric summary page of the illustration for the policy issued and return the signed copy to the insurer. The insurer's obligation under this subsection shall be satisfied if it can demonstrate that it has made a diligent effort to secure a signed copy of the numeric summary page. The requirement to make a diligent effort shall be deemed satisfied if the insurer includes in the mailing a self-addressed, postage prepaid envelope with instructions for the return of the signed numeric summary page.

(d) A copy of the basic illustration and a revised basic illustration, if any, signed, as applicable, along with any certification that

either no illustration was used or that the policy was applied for other than as illustrated, shall be retained by the insurer until three (3) years after the policy is no longer in force. Affected: [IC 27-1-12-25](#); [IC 27-4-1-4](#)

Sec. 8. (a) In the case of a policy designated as one for which illustrations will be used, the insurer shall provide each policy owner with an annual report on the status of the policy that shall contain at least the following information:

(1) For universal life policies, the report shall include the following:

(A) The beginning and end date of the current report period.

(B) The policy value at the end of the previous report period and at the end of the current report period.

(C) The total amounts that have been credited or debited to the policy value during the current report period, identifying each by type, for example, the following:

(i) Interest.

(ii) Mortality.

(iii) Expense.

(iv) Riders.

(D) The current death benefit at the end of the current report period on each life covered by the policy.

(E) The net cash surrender value of the policy as of the end of the current report period.

(F) The amount of outstanding loans, if any, as of the end of the current report period.

(G) For fixed premium policies, if, assuming guaranteed interest, mortality and expense loads and continued scheduled premium payments, the policy's net cash surrender value is such that it would not maintain insurance in force until the end of the next reporting period, a notice to this effect shall be included in the report.

(H) For flexible premium policies, if, assuming guaranteed interest, mortality, and expense loads, the policy's net cash surrender value will not maintain insurance in force until the end of the next reporting period unless further premium payments are made, a notice to this effect shall be included in the report.

(2) For all other policies, where applicable:

(A) current death benefit;

(B) annual contract premium;

(C) current cash surrender value;

(D) current dividend;

(E) application of current dividend; and

(F) amount of outstanding loan.

(3) Insurers writing life insurance policies that do not build nonforfeiture values shall only be required to provide an annual report with respect to these policies for those years when a change has been made to nonguaranteed policy elements by the insurer.

(b) If the annual report does not include an in force illustration, it shall contain a notice, displayed prominently stating, "IMPORTANT POLICY OWNER NOTICE: You should consider requesting more detailed information about your policy to understand how it may perform in the future. You should not consider replacement of your policy or make changes in your coverage without requesting a current illustration. You may annually request, without charge, such an illustration by calling [insurer's phone number], writing to [insurer's name] at [insurer's address], or contacting your agent. If you do not receive a current illustration of your policy within thirty (30) days from your request, you should contact your state insurance department." The insurer may vary the sequential order of the methods for obtaining an in force illustration.

(c) Upon the request of the policy owner, the insurer shall furnish an in force illustration of current and future benefits and values based on the insurer's present illustrated scale. This illustration shall comply with the requirements of sections 4(a), 4(b), 5(a), and 5(e) of this rule. No signature or other acknowledgment of receipt of this illustration shall be required.

(d) If an adverse change in nonguaranteed elements that could affect the policy has been made by the insurer since the last annual

report, the annual report shall contain a notice of that fact and the nature of the change prominently displayed. (c) Requirements for an illustration actuary shall be as follows:

(1) Be a member in good standing of the American Academy of Actuaries.

(2) Be familiar with the standard of practice regarding life insurance policy illustrations.

(3) Not have been found by the commissioner, following appropriate notice and hearing, to have:

(A) violated any provision of, or any obligation imposed by, the insurance law or other law in the course of his or her dealings as an illustration actuary;

(B) been found guilty of fraudulent or dishonest practices;

(C) demonstrated his or her incompetence, lack of cooperation, or untrustworthiness to act as an illustration actuary; or

(5) Disclose in the annual certification whether, since the last certification, a currently payable scale applicable for business issued within the previous five (5) years and within the scope of the certification has been reduced for reasons other than changes in the experience factors underlying the disciplined current scale. If nonguaranteed elements illustrated for new policies are not consistent with those illustrated for similar in force policies, disclosure shall be made in the annual certification. If nonguaranteed elements illustrated for both new and in force policies are not consistent with the nonguaranteed elements actually being paid, charged, or credited to the same or similar forms, disclosure shall be made in the annual certification.

(6) Disclose in the annual certification the method used to allocate overhead expenses for all illustrations, including:

(A) fully allocated expenses;

(B) marginal expenses; or

(C) a generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the commissioner.

(d) The illustration actuary shall file a certification with the board of directors of the insurer and with the commissioner:

(1) annually for all policy forms for which illustrations are used; and

(2) before a new policy form is illustrated.

If an error in a previous certification is discovered, the illustration actuary shall notify the board of directors of the insurer and the commissioner promptly.

(e) If an illustration actuary is unable to certify the scale for any policy form illustration the insurer intends to use, the actuary shall notify the board of directors of the insurer and the commissioner promptly of his or her inability to certify.

(f) A responsible officer of the insurer, other than the illustration actuary, shall certify annually that the:

(1) illustration formats meet the requirements of this rule, and the scales used in insurer-authorized illustrations are those scales certified by the illustration actuary; and

(2) company has provided its agents with information about the expense allocation method used by the company in its illustrations

and made disclosures as required in subsection (c)(6).

(g) The annual certifications shall be provided to the commissioner each year by a date determined by the insurer.

(h) If an insurer changes the illustration actuary responsible for all or a portion of the company's policy forms, the insurer shall notify the commissioner of that fact promptly and disclose the reason for the change. - (5) Any variable universal life insurance policy that provides for life insurance, the amount or duration of which varies according to the investment experience of any separate account or accounts.
- (6) A group life insurance certificate unless the certificate provides for a stated or implied schedule of maximum gross premiums required in order to continue coverage in force for a period in excess of one (1) year.
- (d) Calculation of the minimum valuation standard for policies with guaranteed nonlevel gross premiums or guaranteed nonlevel benefits (other than universal life policies), or both, shall be in accordance with the provisions of section 4 of this rule.
- (e) Calculation of the minimum valuation standard for flexible premium and fixed premium universal life insurance policies that contain provisions resulting in the ability of a policyholder to keep a policy in force over a secondary guarantee period shall be in accordance with the provisions of section 5 of this rule. Authority: [IC 27-1-12-10.5](#)

Affected: [IC 27-1-12-10](#); [IC 27-1-12.8-21](#)

Sec. 2. (a) In addition to the definitions in [IC 27-1-12-10](#) [[IC 27-1-12-10](#) was repealed by P.L.276-2013, SECTION 5, effective July 1, 2013.], the definitions in this section apply throughout this rule.

(b) "1980 CSO valuation tables" means the commissioners' 1980 standard ordinary mortality table without ten-year selection factors, incorporated into the 1980 amendments to the NAIC Standard Valuation Law, and variations of the 1980 commissioners' standard ordinary mortality table approved by the NAIC, such as the smoker and nonsmoker versions approved in December 1983.

(c) "Basic reserves" means reserves calculated in accordance with [IC 27-1-12-10\(3\)](#) [[IC 27-1-12-10](#) was repealed by P.L.276-2013, SECTION 5, effective July 1, 2013.].

(d) "Contract segmentation method" means the method of dividing the period from issue to mandatory expiration of a policy into successive segments, with the length of each segment being defined as the period from the end of the prior segment (from policy inception, for the first segment) to the end of the latest policy year as determined in this subsection. All calculations are made using the 1980 CSO valuation tables, as defined in subsection (b), (or any other valuation mortality table adopted by the NAIC after the effective date of this rule and promulgated by rule by the commissioner for this purpose), and, if elected, the optional minimum mortality standard for deficiency reserves stipulated in section 3(b) of this rule. The length of a particular contract segment shall be set equal to the minimum of the value t for which G_t is greater than R_t (if G_t never exceeds R_t , the segment length is deemed to be the number of years from the beginning of the segment to the mandatory expiration date of the policy), where G_t and R_t are defined as follows:

DEPARTMENT OF INSURANCE

$$G_t = \frac{GP_{x+k+t}}{GP_{x+k+t-1}}$$

- Where:
- x = Original issue age.
 - k = The number of years from the date of issue to the beginning of the segment.
 - t = 1, 2, ...; t is reset to 1 at the beginning of each segment.
 - $GP_{x+k+t-1}$ = Guaranteed gross premium per thousand of face amount for year t of the segment, ignoring policy fees only if level for the premium paying period of the policy.

$$R_t = \frac{q_{x+k+t}}{q_{x+k+t-1}}$$

However, R_t may be increased or decreased by one percent (1%) in any policy year, at the company's option, but R_t shall not be less than one (1):

- Where:
- x = Original issue age.
 - k = The number of years from the date of issue to the beginning of the segment.
 - t = 1, 2, ...; t is reset to 1 at the beginning of each segment.
 - $q_{x+k+t-1}$ = Valuation mortality rate for deficiency reserves in policy year k+t, but using the mortality of section 3(b)(2) of this rule if section 3(b)(3) of this rule is elected for deficiency reserves.

However, if GP_{x+k+t} is greater than zero (0) and $GP_{x+k+t-1}$ is equal to zero (0), G_t shall be deemed to be one thousand (1,000). If GP_{x+k+t} and $GP_{x+k+t-1}$ are both equal to zero (0), G_t shall be deemed to be zero (0).

(e) "Deficiency reserves" means the excess, if greater than zero (0), of minimum reserves calculated in accordance with [IC 27-1-12-10\(6\)](#) [[IC 27-1-12-10](#) was repealed by P.L.276-2013, SECTION 5, effective July 1, 2013.] over basic reserves.

(f) "Guaranteed gross premiums" means the premiums under a policy of life insurance that are guaranteed and determined at issue.

(g) "Maximum valuation interest rates" means the interest rates defined in [IC 27-1-12-10\(2\)\(j\)\(A\)](#) [[IC 27-1-12-10](#) was repealed by P.L.276-2013, SECTION 5, effective July 1, 2013.] (computation of minimum standard by calendar year of issue) that are to be used in determining the minimum standard for the valuation of life insurance policies.

(h) "NAIC" means National Association of Insurance Commissioners.

(i) "Scheduled gross premium" means the smallest illustrated gross premium at issue for other than universal life insurance policies. For universal life insurance policies, the term means the smallest specified premium described in section 5(a)(3) of this rule if any, or else the minimum premium described in section 5(a)(4) of this rule.

(j) "Segmented reserves" means reserves, calculated using segments produced by the contract segmentation method, equal to the present value of all future guaranteed benefits less the present value of all future net premiums to the mandatory expiration of a policy, where the net premiums within each segment are a uniform percentage of the respective guaranteed gross premiums within the segment. The following requirements apply to each segment:

(1) The uniform percentage for each segment of segmented reserves is such that, at the beginning of the segment, the present value of the net premiums within the segment equals:

- (A) the present value of the death benefits within the segment; plus
- (B) the present value of any unusual guaranteed cash value as described in section 4(d) of this rule, occurring at the end of the segment; less
- (C) any unusual guaranteed cash value occurring at the start of the segment; plus
- (D) for the first segment only, the excess of item (i) over item (ii) as follows:
 - (i) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for in the first segment after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary within the first segment on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy.
 - (ii) A net one-year term premium for the benefits provided for in the first policy year.

- (2) The length of each segment is determined by the contract segmentation method as defined in subsection (d).
- (3) The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the sum of the lengths of all segments of the policy.
- (4) For both basic reserves and deficiency reserves computed by the segmented method, present values shall include future benefits and net premiums in the current segment and in all subsequent segments.
- (k) "Tabular cost of insurance" means the net single premium at the beginning of a policy year for one-year term insurance in the amount of the guaranteed death benefit in that policy year.
- (l) "Ten-year select factors" means the select factors adopted with the 1980 amendments to the NAIC Standard Valuation Law.
- (m) "Unitary reserves" means the present value of all future guaranteed benefits less the present value of all future modified net premiums. The following conditions apply to the calculation of unitary reserves:
- (1) Guaranteed benefits and modified net premiums are considered to the mandatory expiration of the policy.
 - (2) Modified net premiums are a uniform percentage of the respective guaranteed gross premiums, where the uniform percentage is such that, at issue, the present value of the net premiums equals the present value of all death benefits and pure endowments, plus the excess of clause (A) over clause (B) as follows:
 - (A) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one (1) per year payable on the first and each subsequent anniversary of the policy on which a premium falls due. However, the net level annual premium shall not exceed the net level annual premium on the nineteen-year premium whole life plan of insurance of the same renewal year equivalent level amount at an age one (1) year higher than the age at issue of the policy.
 - (B) A net one-year term premium for the benefits provided for in the first policy year.

The interest rates used in the present value calculations for any policy may not exceed the maximum valuation interest rate, determined with a guarantee duration equal to the length from issue to the mandatory expiration of the policy.

(n) "Universal life insurance policy" means any individual life insurance policy under the provisions of which separately identified interest credits (other than in connection with dividend accumulations, premium deposit funds, or other supplementary accounts) and mortality or expense charges are made to the policy. Sec. 3. (a) At the election of the company for any one (1) or more specified plans of life insurance, the minimum mortality standard for basic reserves may be calculated using the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this rule and promulgated by rule by the commissioner of the department of insurance (commissioner) for this purpose). If select mortality factors are elected, they may be:

- (1) the ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law;
- (2) the select mortality factors set forth in section 6 of this rule; or
- (3) any other table of select mortality factors adopted by the NAIC after the effective date of this rule and promulgated by rule by the commissioner for the purpose of calculating basic reserves.

(b) Deficiency reserves, if any, are calculated for each policy as the excess, if greater than zero (0), of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using guaranteed gross premiums instead of net premiums when the guaranteed gross premiums are less than the corresponding net premiums. At the election of the company for any one (1) or more specified plans of insurance, the quantity A and the corresponding net premiums used in the determination of quantity A may be based upon the 1980 CSO valuation tables with select mortality factors (or any other valuation mortality table adopted by the NAIC after the effective date of this rule and promulgated by rule by the commissioner). If select mortality factors are elected, they may be the following:

- (1) The ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law.
- (2) The select mortality factors set forth in section 6 of this rule.

(3) For durations in the first segment, X percent of the select mortality factors set forth in section 6 of this rule, subject to the following:

(A) X may vary by:

- (i) policy year;
- (ii) policy form;
- (iii) underwriting classification;
- (iv) issue age; or
- (v) any other policy factor expected to affect mortality experience.

(B) X shall not be less than twenty percent (20%).

(C) X shall not decrease in any successive policy years.

(D) X is such that, when using the valuation interest rate used for basic reserves, the actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X is greater than or equal to the actuarial present value of future death benefits calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date.

(E) X is such that the mortality rates resulting from the application of X are at least as great as the anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five (5) years after the valuation date.

(F) The appointed actuary shall increase X at any valuation date where it is necessary to continue to meet all the requirements of this subdivision.

(G) The appointed actuary may decrease X at any valuation date as long as X does not decrease in any successive policy years and as long as it continues to meet all the requirements of this subdivision.

(H) The appointed actuary shall specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums.

(I) If X is less than one hundred percent (100%) at any duration for any policy, the following requirements shall be met:

- (i) The appointed actuary shall annually prepare an actuarial opinion and memorandum for the company in conformance with the requirements of 760 IAC 1-57-8.
- (ii) The appointed actuary shall annually opine for all policies subject to this rule as to whether the mortality rates resulting from the application of X meet the requirements of this subdivision. This opinion shall be supported by an actuarial report, subject to appropriate Actuarial Standards of Practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors shall reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience.

(4) Any other table of select mortality factors adopted by the NAIC after the effective date of this rule and promulgated by rule by the commissioner for the purpose of calculating deficiency reserves.

(c) This subsection applies to both basic reserves and deficiency reserves. Any set of select mortality factors may be used only for the first segment. However, if the first segment is less than ten (10) years, the appropriate ten-year select mortality factors incorporated into the 1980 amendments to the NAIC Standard Valuation Law may be used thereafter through the tenth policy year from the date of issue.

(d) In determining basic reserves or deficiency reserves, guaranteed gross premiums without policy fees may be used where the calculation involves the guaranteed gross premium but only if the policy fee is a level dollar amount after the first policy year. In determining deficiency reserves, policy fees may be included in guaranteed gross premiums, even if not included in the actual calculation of basic reserves.

(e) Reserves for policies that have changes to guaranteed gross premiums, guaranteed benefits, guaranteed charges, or guaranteed credits that are unilaterally made by the insurer after issue and that are effective for more than one (1) year after the date of the change shall be the greatest of the following:

- (1) Reserves calculated ignoring the guarantee.
- (2) Reserves assuming the guarantee was made at issue.
- (3) Reserves assuming that the policy was issued on the date of the guarantee.

(f) The commissioner may require that the company document the extent of the adequacy of reserves for specified blocks, including, but not limited to, policies issued prior to the effective date of this rule. This documentation may include a demonstration of the extent to which aggregation with other nonspecified blocks of business is relied upon in the formation of the appointed actuary

opinion pursuant to and consistent with the requirements of 760 IAC 1-57-8. Authority: [IC 27-1-12-10.5](#)

Affected: [IC 27-1-12-10](#); [IC 27-1-12.8-21](#)

Sec. 4. (a) Basic reserves shall be calculated as the greater of the segmented reserves and the unitary reserves. Both the segmented reserves and the unitary reserves for any policy shall use the same valuation mortality table and selection factors. At the option of the insurer, in calculating segmented reserves and net premiums, either of the adjustments described as follows may be made:

(1) Treat the unitary reserve, if greater than zero (0), applicable at the end of each segment as a pure endowment and subtract the unitary reserve, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.

(2) Treat the guaranteed cash surrender value, if greater than zero (0), applicable at the end of each segment as a pure endowment, and subtract the guaranteed cash surrender value, if greater than zero (0), applicable at the beginning of each segment from the present value of guaranteed life insurance and endowment benefits for each segment.

(b) Requirements for deficiency reserves shall be as follows:

(1) The deficiency reserve at any duration shall be calculated:

(A) on a unitary basis if the corresponding basic reserve determined by subsection (a) is unitary;

(B) on a segmented basis if the corresponding basic reserve determined by subsection (a) is segmented; or

(C) on a segmented basis if the corresponding basic reserve determined by subsection (a) is equal to both the segmented reserve and the unitary reserve.

(2) This subsection applies to any policy for which the guaranteed gross premium at any duration is less than the corresponding modified net premium calculated by the method used in determining the basic reserves, but using the minimum valuation standards of mortality specified in section 3(b) of this rule and rate of interest.

(3) Deficiency reserves, if any, shall be calculated for each policy as the excess if greater than zero (0), for the current and all remaining periods, of the quantity A over the basic reserve, where A is obtained as indicated in section 3(b) of this rule.

(4) For deficiency reserves determined on a segmented basis, the quantity A is determined using segment lengths equal to those determined for segmented basic reserves.

(c) Basic reserves may not be less than the tabular cost of insurance for the balance of the policy year if mean reserves are used. Basic reserves may not be less than the tabular cost of insurance for the balance of the current modal period or to the paid-to-date, if later, but not beyond the next policy anniversary, if mid-terminal reserves are used. The tabular cost of insurance shall use the same valuation mortality table and interest rates as that used for the calculation of the segmented reserves. However, if select mortality factors are used, they shall be the ten-year select factors incorporated into the 1980 amendments of the NAIC Standard Valuation Law. In no case may total reserves (including basic reserves, deficiency reserves, and any reserves held for supplemental benefits that would expire upon contract termination) be less than the amount that the policy owner would receive (including the cash surrender value of the supplemental benefits, if any, referred to in this subsection), exclusive of any deduction for policy loans, upon termination of the policy.

(d) The following requirements apply to an unusual pattern of guaranteed cash surrender values:

(1) For any policy with an unusual pattern of guaranteed cash surrender values, the reserves actually held prior to the first unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the first unusual guaranteed cash surrender value as a pure endowment and treating the policy as an n year policy providing term insurance plus a pure endowment equal to the unusual cash surrender value, where n is the number of years from the date of issue to the date the unusual cash surrender value is scheduled.

(2) The reserves actually held subsequent to any unusual guaranteed cash surrender value shall not be less than the reserves calculated by treating the policy as an n year policy providing term insurance plus a pure endowment equal to the next unusual guaranteed cash surrender value, and treating any unusual guaranteed cash surrender value at the end of the prior segment as a

net single premium, where:

(A) n is the number of years from the date of the last unusual guaranteed cash surrender value prior to the valuation date to the earlier of:

- (i) the date of the next unusual guaranteed cash surrender value, if any, that is scheduled after the valuation date; or
- (ii) the mandatory expiration date of the policy;

(B) the net premium for a given year during the n year period is equal to the product of the net to gross ratio and the respective gross premium; and

(C) the net to gross ratio is equal to:

- (i) the present value, at the beginning of the n year period, of death benefits payable during the n year period plus the present value, at the beginning of the n year period, of the next unusual guaranteed cash surrender value, if any, minus the amount of the last unusual guaranteed cash surrender value, if any, scheduled at the beginning of the n year period; divided by
- (ii) the present value, at the beginning of the n year period, of the scheduled gross premiums payable during the n year period.

(3) For purposes of this subsection, a policy is considered to have an unusual pattern of guaranteed cash surrender values if any future guaranteed cash surrender value exceeds the prior year's guaranteed cash surrender value by more than the sum of:

(A) One hundred ten percent (110%) of the scheduled gross premium for that year.

(B) One hundred ten percent (110%) of one (1) year's accrued interest on the sum of the prior year's guaranteed cash surrender value and the scheduled gross premium using the nonforfeiture interest rate used for calculating policy guaranteed cash surrender values.

(C) Five percent (5%) of the first policy year surrender charge, if any.

(e) At the option of the company, the following approach for reserves on yearly renewable term reinsurance may be used:

(1) Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.

(2) Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in subsection (c).

(3) Deficiency reserves:

(A) for each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium; and

(B) shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with clause (A).

(4) For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO mortality tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this rule by the NAIC and promulgated by rule by the commissioner of the department of insurance (commissioner) for this purpose.

(5) A reinsurance agreement shall be considered yearly renewable term reinsurance for purposes of this subsection if only the mortality risk is reinsured.

(6) If the assuming company chooses the optional exemption, the ceding company's reinsurance reserve credit shall be limited to the amount of reserve held by the assuming company for the affected policies.

(f) At the option of the company, the following approach for reserves for attained-age-based yearly renewable term life insurance policies may be used:

(1) Calculate the valuation net premium for each future policy year as the tabular cost of insurance for that future year.

(2) Basic reserves shall never be less than the tabular cost of insurance for the appropriate period, as defined in subsection (c).

(3) Deficiency reserves:

(A) for each policy year, calculate the excess, if greater than zero (0), of the valuation net premium over the respective maximum guaranteed gross premium; and

(B) shall never be less than the sum of the present values, at the date of valuation, of the excesses determined in accordance with clause (A).

(4) For purposes of this subsection, the calculations use the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this rule by the NAIC and promulgated by rule by the commissioner for this purpose.

(5) A policy shall be considered an attained-age-based yearly renewable term life insurance policy for purposes of this subsection if:

(A) the premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are based upon the attained age of the insured such that the rate for any given policy at a given attained age of the insured is independent of the year the policy was issued; and

(B) the premium rates (on both the initial current premium scale and the guaranteed maximum premium scale) are the same as the premium rates for policies covering all insureds of the same sex, risk class, plan of insurance, and attained age.

(6) For policies that become attained-age-based yearly renewable term policies after an initial period of coverage, the approach of this subsection may be used after the initial period if:

(A) the initial period is constant for all insureds of the same sex, risk class, and plan of insurance, or the initial period runs to a common attained age for all insureds of the same sex, risk class, and plan of insurance; and

(B) after the initial period of coverage, the policy meets the conditions of subdivision (5).

(7) If this election is made, this approach shall be applied in determining reserves for all attained-age-based yearly renewable term life insurance policies issued on or after the effective date of this rule.

(g) Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met:

(1) The policy consists of a series of n -year periods, including the first period and all renewal periods, where n is the same for each period, except that for the final renewal period, n may be truncated or extended to reach the expiry age, provided that this final renewal period is less than ten (10) years and less than twice the size of the earlier n -year periods, and for each period, the premium rates on both the initial current premium scale and the guaranteed maximum premium scale are level.

(2) The guaranteed gross premiums in all n -year periods are not less than the corresponding net premiums based upon the 1980 CSO Table with or without the ten-year select mortality factors.

(3) There are no cash surrender values in any policy year.

(h) Unitary basic reserves and unitary deficiency reserves need not be calculated for a policy if the following conditions are met, based upon the initial current premium scale at issue:

(1) The insured is twenty-four (24) years of age or younger.

(2) Until the insured reaches the end of the juvenile period, which shall occur at or before twenty-five (25) years of age, the gross premiums and death benefits are level, and there are no cash surrender values.

(3) After the end of the juvenile period, gross premiums are level for the remainder of the premium paying period, and death benefits are level for the remainder of the life of the policy.

760 IAC 1-64-5 Calculation of minimum valuation standard for flexible premium and fixed premium universal life insurance policies that contain provisions resulting in the ability of a policy owner to keep a policy in force over a secondary guarantee period

Authority: [IC 27-1-12-10.5](#)

Affected: [IC 27-1-12-10](#); [IC 27-1-12.8-21](#)

Sec. 5. (a) General provisions regarding secondary guarantees are as follows:

(1) Policies with a secondary guarantee include, but are not limited to, any of the following:

(A) A policy with a guarantee that the policy will remain in force at the original schedule of benefits, subject only to the payment of specified premiums.

(B) A policy in which the minimum premium at any duration is less than the corresponding one (1) year valuation premium, calculated using the maximum valuation interest rate and the 1980 CSO valuation tables with or without ten-year select mortality factors, or any other table adopted after the effective date of this rule by the NAIC and promulgated by rule by the commissioner of the department of insurance (commissioner) for this purpose.

(C) A policy with any combination of clauses (A) and (B).

(2) A secondary guarantee period is the period for which the policy is guaranteed to remain in force subject only to a secondary guarantee. When a policy contains more than one (1) secondary guarantee, the minimum reserve shall be the greatest of the respective minimum reserves at that valuation date of each unexpired secondary guarantee, ignoring all other secondary guarantees. Secondary guarantees that are unilaterally changed by the insurer after issue shall be considered to have been made

at issue. Reserves described in subsections (b) and (c) shall be recalculated from issue to reflect these changes.

(3) As used in this section, "specified premiums" means the premiums specified in the policy (or imputable by the terms of the policy), the payment of which guarantees that the policy will remain in force at the original schedule of benefits, but which otherwise would be insufficient to keep the policy in force in the absence of the guarantee if maximum mortality and expense charges and minimum interest credits were made and any applicable surrender charges were assessed.

(4) For purposes of this section, the minimum premium for any policy year is the premium that, when paid into a policy with a zero (0) account value at the beginning of the policy year, produces a zero (0) account value at the end of the policy year. The minimum premium calculation shall use the policy cost factors (including mortality charges, loads, and expense charges) and the interest crediting rate, which are all guaranteed at issue.

(5) The one-year valuation premium means the net one-year premium based upon the original schedule of benefits for a given policy year. The one-year valuation premiums for all policy years are calculated at issue. The select mortality factors defined in section 3(b)(2) through 3(b)(4) of this rule may not be used to calculate the one-year valuation premiums.

(6) The one-year valuation premium should reflect the frequency of fund processing, as well as the distribution of deaths assumption employed in the calculation of the monthly mortality charges to the fund.

(b) Basic reserves for the secondary guarantees shall be the segmented reserves for the secondary guarantee period. In calculating the segments and the segmented reserves, the gross premiums shall be set equal to the specified premiums, if any, or otherwise to the minimum premiums, that keep the policy in force and the segments will be determined according to the contract segmentation method as defined in section 2(d) of this rule.

(c) Deficiency reserves, if any, for the secondary guarantees shall be calculated for the secondary guarantee period in the same manner as described in section (4)(b) of this rule with gross premiums set equal to the specified premiums, if any, or otherwise to the minimum premiums that keep the policy in force.

(d) The minimum reserves during the secondary guarantee period are the greater of:

- (1) the basic reserves for the secondary guarantee plus the deficiency reserve, if any, for the secondary guarantees; or
- (2) the minimum reserves required by other rules or regulations governing universal life plans.

Authority: [IC 27-1-12-10.5](#)

Affected: [IC 27-1-12-10](#); [IC 27-1-12.8-21](#)

Sec. 6. (a) The tables of select mortality factors set forth in this section are the bases to which the respective percentage of section 3(a)(2), 3(b)(2), and 3(b)(3) of this rule are applied.

(b) The six (6) tables of select mortality factors contained in this section include:

- (1) male, aggregate;
- (2) male, nonsmoker;
- (3) male, smoker;
- (4) female, aggregate;
- (5) female, nonsmoker; and
- (6) female, smoker.

(c) The tables of select mortality factors set forth in this section apply to both age last birthday and age nearest birthday mortality tables.

(d) For sex-blended mortality tables, compute select mortality factors in the same proportion as the underlying mortality. For example, for the 1980 CSO-B Table, the calculated select mortality factors are eighty percent (80%) of the appropriate male table in this section, plus twenty percent (20%) of the appropriate female table in this section.

(e) The select mortality factors table for male, aggregate shall be as follows:

(b) The commissioner may review filings made under this rule at any time within thirty (30) days after receipt and may issue a written request for a former mutual company, parent company, or institutional investor to provide any additional information that may be appropriate to complete such review. The commissioner may, at the same time, order the institutional investor to refrain from purchasing any shares that, together with shares already beneficially owned by the institutional investor, would give the institutional investor ownership of five percent (5%) or more of the outstanding shares of any class of voting securities of the former mutual or parent company. The order shall remain in effect until the earliest of the following:

- (5) Would not be in the best interest of the policyholders of the former mutual company, without regard to any interest of policyholders as shareholders of the former mutual company or any parent company.

(d) If the commissioner disapproves an acquisition of shares made or to be made under this rule, the institutional investor may not, after the date of the disapproval, acquire any shares that, together with shares already beneficially owned by the institutional investor, would give the institutional investor five percent (5%) or more of the outstanding shares of any class of voting securities of the former mutual or parent company. The commissioner shall provide written notice of disapproval, including the reason for disapproval to the former mutual company, parent company, and institutional investor promptly after the finding of disapproval. (3) The categories of affiliates and nonaffiliated third parties to whom the licensee discloses nonpublic personal financial information, other than those parties to whom the licensee discloses information under sections 13 and 14 of this rule.

(4) The categories of nonpublic personal financial information about the licensee's former customers that the licensee discloses

and the categories of affiliates and nonaffiliated third parties to whom the licensee discloses nonpublic personal financial information about the licensee's former customers, other than those parties to whom the licensee discloses information under sections 13 and 14 of this rule.

(5) If a licensee discloses nonpublic personal financial information to a nonaffiliated third party under section 12 of this rule (and no other exception in sections 13 and 14 of this rule applies to that disclosure), a separate description of the categories of information the licensee discloses and the categories of third parties with whom the licensee has contracted.

(6) An explanation of the consumer's right under section 9(a) of this rule to opt out of the disclosure of nonpublic personal financial information to nonaffiliated third parties, including the methods by which the consumer may exercise that right at that time.

(8) The licensee's policies and practices with respect to protecting the confidentiality and security of nonpublic personal information.

(9) Any disclosure that the licensee makes under subsection (b).

(b) If a licensee discloses nonpublic personal financial information as authorized under sections 13 and 14 of this rule, the licensee is not required to list those exceptions in the initial or annual privacy notices required by sections 3 and 4 of this rule. When describing the categories of parties to whom disclosure is made, the licensee is required to state only that it makes disclosures to other affiliated or nonaffiliated third parties, as applicable, as permitted by law.

- (A) from the consumer;
- (B) about the consumer's transactions with the licensee or its affiliates;
- (C) about the consumer's transactions with nonaffiliated third parties; and
- (D) from a consumer reporting agency.

(2) A licensee satisfies the requirement to categorize nonpublic personal financial information it discloses if the licensee categorizes the information according to source, as described in subdivision (1), as applicable, and provides a few examples to illustrate the types of information in each category. These examples might include the following:

- (B) Transaction information, such as information about balances, payment history, and parties to the transaction.
- (C) Information from consumer reports, such as a consumer's creditworthiness and credit history.

(3) A licensee does not adequately categorize the information that it discloses if the licensee uses only general terms, such as transaction information about the consumer. If a licensee reserves the right to disclose all of the nonpublic personal financial information about consumers that it collects, the licensee may simply state that fact without describing the categories or examples of nonpublic personal information that the licensee discloses.

(4) A licensee satisfies the requirement to categorize the affiliates and nonaffiliated third parties to which the licensee discloses nonpublic personal financial information about consumers if the licensee identifies the types of businesses in which they engage.

(A) Types of businesses may be described by general terms only if the licensee uses a few illustrative examples of significant lines of business. For example, a licensee may use the term financial products or services if it includes appropriate examples of significant lines of businesses, such as life insurer, automobile insurer, consumer banking, or securities brokerage.

(B) A licensee also may categorize the affiliates and nonaffiliated third parties to which it discloses nonpublic personal financial information about consumers using more detailed categories.

(5) If a licensee discloses nonpublic personal financial information under the exception contained in section 12 of this rule to a nonaffiliated third party to market products or services that it offers alone or jointly with another financial institution, the licensee satisfies the disclosure requirement of subsection (a)(5) if it:

- (A) lists the categories of nonpublic personal financial information it discloses, using the same categories and examples the licensee used to meet the requirements of subsection (a)(2), as applicable; and
- (B) states whether the third party is a:

- (i) service provider that performs marketing services on the licensee's behalf or on behalf of the licensee and another financial institution; or
 - (ii) financial institution with whom the licensee has a joint marketing agreement.
- (6) If a licensee does not disclose, and does not wish to reserve the right to disclose, nonpublic personal financial information about customers or former customers to affiliates or nonaffiliated third parties, except as authorized under sections 13 and 14 of this rule, the licensee may simply state that fact, in addition to the information it shall provide under subsections (a)(1), (a)(8), (a)(9), and (b).
- (7) A licensee describes its policies and practices with respect to protecting the confidentiality and security of nonpublic personal financial information if it does both of the following:
- (A) Describes in general terms who is authorized to have access to the information.
 - (B) States whether the licensee has security practices and procedures in place to ensure the confidentiality of the information in accordance with the licensee's policy. The licensee is not required to describe technical information about the safeguards it uses.
- (d) A licensee may satisfy the initial notice requirements of sections 3(a)(2) and 6(c) of this rule for a consumer who is not a customer by providing a short-form initial notice at the same time as the licensee delivers an opt out notice as required in section 6 of this rule.
- (1) A short-form notice shall:
- (A) be clear and conspicuous;
 - (B) state that the licensee's privacy notice is available upon request; and
 - (C) explain a reasonable means by which the consumer may obtain that notice.
- (2) The licensee shall deliver its short-form initial notice according to section 8 of this rule. The licensee is not required to deliver its privacy notice with its short-form initial notice. The licensee instead may provide the consumer a reasonable means to obtain its privacy notice. If a consumer who receives the licensee's short-form notice requests the licensee's privacy notice, the licensee shall deliver its privacy notice according to section 8 of this rule.
- (3) The licensee provides a reasonable means by which a consumer may obtain a copy of its privacy notice if the licensee does either of the following:
- (A) Provides a toll free telephone number that the consumer may call to request the notice.
 - (B) For a consumer who conducts business in person at the licensee's office, maintains copies of the notice on hand that the licensee provides to the consumer immediately upon request.
- (e) The licensee's notice may include the following:
- (1) Categories of nonpublic personal financial information that the licensee reserves the right to disclose in the future, but does not currently disclose.
 - (2) Categories of affiliates or nonaffiliated third parties to whom the licensee reserves the right in the future to disclose, but to whom the licensee does not currently disclose, nonpublic financial information.
- (f) Sample clauses illustrating some of the notice content required by this section are included in section 17 of this rule. Sec. 6. (a) If a licensee is required to provide an opt out notice under section 10(a) of this rule, it shall provide a clear and conspicuous notice to each of its consumers that accurately explains the right to opt out under that section.

- (1) The notice shall state all of the following:
- (A) The licensee discloses or reserves the right to disclose nonpublic personal financial information about its consumer to a nonaffiliated third party.

- (B) The consumer has the right to opt out of that disclosure.
- (C) A reasonable means by which the consumer may exercise the opt out right.
- (2) The following are examples:
 - (A) A licensee provides adequate notice that the consumer can opt out of the disclosure of nonpublic personal financial information to a nonaffiliated third party if the licensee does all of the following:
 - (i) Identifies all of the categories of nonpublic personal financial information that it discloses or reserves the right to disclose, and all of the categories of nonaffiliated third parties to which the licensee discloses the information, as described in section 5(a)(2) and 5(a)(3) of this rule.
 - (ii) States that the consumer can opt out of the disclosure of that information.
 - (iii) Identifies the insurance products or services that the consumer obtains from the licensee, either singly or jointly, to which the opt out direction would apply.
 - (B) A licensee provides a reasonable means to exercise an opt out right if it does any of the following:
 - (i) Designates check-off boxes in a prominent position on the relevant forms with the opt out notice.
 - (ii) Includes a reply form together with the opt out notice.
 - (iii) Provides an electronic means to opt out, such as a form that can be sent via electronic mail or a process at the licensee's Web site, if the consumer agrees to the electronic delivery of information.
 - (iv) Provides a toll free telephone number that consumers may call to opt out.
 - (C) A licensee does not provide a reasonable means of opting out if the only means of opting out:
 - (i) is for the consumer to write his or her own letter to exercise that opt out right; or
 - (ii) as described in any notice subsequent to the initial notice, is to use a check-off box that the licensee provided with the initial notice, but did not include with the subsequent notice.
 - (D) A licensee may require each consumer to opt out through a specific means as long as that means is reasonable for that consumer.
- (b) A licensee may provide the opt out notice together with or on the same written or electronic form as the initial notice the licensee provides in accordance with section 3 of this rule.
- (c) If a licensee provides the opt out notice later than required for the initial notice in accordance with section 3 of this rule, the licensee shall also include a copy of the initial notice with the opt out notice in writing or, if the consumer agrees, electronically.
- (d) The following apply to joint relationships:
 - (1) If two (2) or more consumers jointly obtain an insurance product or service from a licensee, the licensee may provide a single opt out notice. The licensee's opt out notice shall explain how the licensee will treat an opt out direction by a joint consumer.
 - (2) Any of the joint consumers may exercise the right to opt out. The licensee may either:
 - (A) treat an opt out direction by a joint consumer as applying to all of the associated joint consumers; or
 - (B) permit each joint consumer to opt out separately.
 - (3) If a licensee permits each joint consumer to opt out separately, the licensee shall permit one (1) of the joint consumers to opt out on behalf of all of the joint consumers.
 - (4) A licensee may not require all joint consumers to opt out before it implements any opt out direction.
 - (5) The following example is illustrative. If John and Mary are both named policyholders on a homeowner's insurance policy issued by a licensee and the licensee sends policy statements to John's address, the licensee may do any of the following, but it shall explain in its opt out notice which opt out policy the licensee will follow:
 - (A) Send a single opt out notice to John's address, but the licensee shall accept an opt out direction from either John or Mary.
 - (B) Treat an opt out direction by either John or Mary as applying to the entire policy. If the licensee does so and John opts out, the licensee may not require Mary to opt out as well before implementing John's opt out direction.
 - (C) Permit John and Mary to make different opt out directions. If the licensee does so:
 - (i) it shall permit John and Mary to opt out for each other;
 - (ii) if both opt out, the licensee shall permit both of them to notify it in a single response; and
 - (iii) if John opts out and Mary does not, the licensee may only disclose nonpublic personal financial information about Mary, but not about John and not about John and Mary jointly.
- (e) A licensee shall comply with the consumer's opt out direction as soon as reasonably practicable after it is received by the licensee.

(f) A consumer may exercise the right to opt out at any time.

(g) A consumer's direction to opt out under this section is effective until the consumer revokes it in writing or, if the consumer agrees, electronically. When a consumer relationship terminates, the customer's opt out direction continues to apply to the nonpublic personal financial information that the licensee collected during or related to that relationship. If the individual subsequently establishes a new customer relationship with the licensee, the opt out direction that applied to the former relationship does not apply to the new relationship.

(h) When a licensee is required to deliver an opt out notice by this section, the licensee shall deliver it according to section 8 of this rule. Sec. 7. (a) Except as otherwise authorized in this rule, a licensee shall not, directly or through an affiliate, disclose any nonpublic personal financial information about a consumer to a nonaffiliated third party other than as described in the initial notice that the licensee provided to that consumer under section 3 of this rule unless the:

- (1) licensee has provided to the consumer a clear and conspicuous revised notice that accurately describes its policies and practices;
- (2) licensee has provided to the consumer a new opt out notice;
- (3) licensee has given the consumer a reasonable opportunity, before the licensee discloses the information to the nonaffiliated third party, to opt out of the disclosure; and
- (4) consumer does not opt out.

(b) Except as otherwise permitted by sections 12 through 14 of this rule, a licensee shall provide a revised notice before it does any of the following:

- (1) Discloses a new category of nonpublic personal financial information to any nonaffiliated third party.
- (2) Discloses nonpublic personal financial information to a new category of nonaffiliated third party.
- (3) Discloses nonpublic personal financial information about a former customer to a nonaffiliated third party, if that former customer has not had the opportunity to exercise an opt out right regarding that disclosure.

(c) A revised notice is not required if the licensee discloses nonpublic personal financial information to a new nonaffiliated third party that the licensee adequately described in its prior notice.

(d) When a licensee is required to deliver a revised privacy notice by this section, the licensee shall deliver it according to section 8 of this rule. Sec. 8. (a) A licensee shall provide any notices that this rule requires so that each consumer can reasonably be expected to receive actual notice in writing or, if the consumer agrees, electronically.

(b) A licensee may reasonably expect that a consumer will receive actual notice if the licensee does any of the following:

- (1) Hand delivers a printed copy of the notice to the consumer.
- (2) Mails a printed copy of the notice to the last known address of the consumer separately, or in a policy, billing, or other written

communication.

(3) For a consumer who conducts transactions electronically, posts the notice on the electronic site and requires the consumer to acknowledge receipt of the notice as a necessary step to obtaining a particular insurance product or service.

(4) For an isolated transaction with a consumer, such as the licensee providing an insurance quote or selling the consumer travel insurance, posts the notice and requires the consumer to acknowledge receipt of the notice as a necessary step to obtaining the particular insurance product or service.

(c) A licensee may not reasonably expect that a consumer will receive actual notice of its privacy policies and practices if it does either of the following:

(1) Only posts a sign in its office or generally publishes advertisements of its privacy policies and practices.

(2) Sends the notice via electronic mail to a consumer who does not obtain an insurance product or service from the licensee electronically.

(d) A licensee may reasonably expect that a customer will receive actual notice of the licensee's annual privacy notice if the customer:

(1) uses the licensee's Web site to access insurance products and services electronically and agrees to receive notices at the Web site and the licensee posts its current privacy notice continuously in a clear and conspicuous manner on the Web site; or

(2) has requested that the licensee refrain from sending any information regarding the customer relationship, and the licensee's current privacy notice remains available to the customer upon request.

(e) A licensee may not provide any notice required by this rule solely by orally explaining the notice, either in person or over the telephone.

(f) For customers only, a licensee shall provide the initial notice required by section 3(a)(1) of this rule, the annual notice required by section 4(a) of this rule, and the revised notice required by section 7 of this rule so that the customer can retain them or obtain them later in writing or, if the customer agrees, electronically. A licensee provides a privacy notice to the customer so that the customer can retain it or obtain it later if the licensee does any of the following:

(1) Hand delivers a printed copy of the notice to the customer.

(2) Mails a printed copy of the notice to the last known address of the customer.

(3) Makes its current privacy notice available on a Web site (or a link to another Web site) for the customer who obtains an insurance product or service electronically and agrees to receive the notice at the Web site.

(g) A licensee may provide a joint notice from the licensee and one (1) or more of its affiliates or other financial institutions, as identified in the notice, as long as the notice is accurate with respect to the licensee and the other institutions. A licensee also may provide a notice on behalf of another financial institution.

(h) If two (2) or more consumers jointly obtain an insurance product or service from a licensee, the licensee may satisfy the initial, annual, and revised notice requirements of sections 3(a), 4(a), and 7(a) of this rule, by providing one (1) notice to those consumers jointly. Sec. 9. (a) Except as otherwise authorized in this rule, a licensee may not, directly or through any affiliate, disclose any nonpublic personal financial information about a consumer to a nonaffiliated third party unless the:

(1) licensee has provided to the consumer an initial notice as required under section 3 of this rule;

(2) licensee has provided to the consumer an opt out notice as required in section 6 of this rule;

(3) licensee has given the consumer a reasonable opportunity, before it discloses the information to the nonaffiliated third party, to opt out of the disclosure; and

(4) consumer does not opt out.

(b) Opt out means a direction by the consumer that the licensee not disclose nonpublic personal financial information about that

consumer to a nonaffiliated third party, other than as permitted by sections 12 through 14 of this rule.

(c) A licensee provides a consumer with a reasonable opportunity to opt out if the licensee does any of the following:

(1) The licensee mails the notices required in subsection (a) to the consumer and allows the consumer to opt out by mailing a form, calling a toll free telephone number or any other reasonable means within thirty (30) days from the date the licensee mailed the notices.

(2) A customer opens an on-line account with a licensee and agrees to receive the notices required in subsection (a) electronically, and the licensee allows the customer to opt out by any reasonable means within thirty (30) days after the date that the customer acknowledges receipt of the notices in conjunction with opening the account.

(3) For an isolated transaction, such as providing the consumer with an insurance quote, a licensee provides the consumer with a reasonable opportunity to opt out if the licensee provides the notices required in subsection (a) at the time of the transaction and requests that the consumer decide, as a necessary part of the transaction, whether to opt out before completing the transaction.

(d) A licensee shall comply with this section, regardless of whether the licensee and the consumer have established a customer relationship. Unless a licensee complies with this section, the licensee may not, directly or through any affiliate, disclose any nonpublic personal financial information about a consumer that the licensee has collected, regardless of whether the licensee collected it before or after receiving the direction to opt out from the consumer.

(e) A licensee may allow a consumer to select certain nonpublic personal financial information or certain nonaffiliated third parties with respect to which the consumer wishes to opt out. Sec. 10. (a) If a licensee receives nonpublic personal financial information from a nonaffiliated financial institution under an exception in section 13 or 14 of this rule, the licensee's disclosure and use of that information is limited as follows:

(1) The licensee may disclose the information to the affiliates of the financial institution from which the licensee received the information.

(2) The licensee may disclose the information to its affiliates, but the licensee's affiliates may, in turn, disclose and use the information only to the extent that the licensee may disclose and use the information.

(3) The licensee may disclose and use the information pursuant to an exception in section 13 or 14 of this rule, in the ordinary course of business to carry out the activity covered by the exception under which the licensee received the information.

For example, if a licensee receives information from a nonaffiliated financial institution for claims settlement purposes, the licensee may disclose the information for fraud prevention, or in response to a properly authorized subpoena. The licensee may not disclose that information to a third party for marketing purposes or use that information for its own marketing purposes.

(b) If a licensee receives nonpublic personal financial information from a nonaffiliated financial institution other than under an exception in section 13 or 14 of this rule, the licensee may disclose the information only to:

(1) the affiliates of the financial institution from which the licensee received the information;

(2) its affiliates, but its affiliates may, in turn, disclose the information only to the extent that the licensee may disclose the information; and

(3) any other person, if the disclosure would be lawful if made directly to that person by the financial institution from which the licensee received the information.

For example, if a licensee obtains a customer list from a nonaffiliated financial institution outside of the exceptions in section 13 or 14 of this rule, the licensee may use that list for its own purposes, and the licensee may disclose that list to another nonaffiliated third party only if the financial institution from which the licensee purchased the list could have lawfully disclosed the list to that third party. That is, the licensee may disclose the list in accordance with the privacy policy of the financial institution from which the licensee received the list, as limited by the opt out direction of each consumer whose nonpublic personal financial information the licensee intends to disclose, and the licensee may disclose the list in accordance with an exception in section 13 or 14 of this

rule, such as to the licensee's attorneys or accountants.

(c) If a licensee discloses nonpublic personal financial information to a nonaffiliated third party under an exception in section 13 or 14 of this rule, the third party may disclose and use that information only as follows:

- (1) The third party may disclose the information to the licensee's affiliates.
- (2) The third party may disclose the information to its affiliates, but its affiliates may, in turn, disclose and use the information only to the extent that the third party may disclose and use the information.
- (3) The third party may disclose and use the information pursuant to an exception in section 13 or 14 of this rule in the ordinary course of business to carry out the activity covered by the exception under which it received the information.

(d) If a licensee discloses nonpublic personal financial information to a nonaffiliated third party other than under an exception in section 13 or 14 of this rule, the third party may disclose the information only to:

- (1) the licensee's affiliates;
- (2) the third party's affiliates, but the third party's affiliates, in turn, may disclose the information only to the extent the third party can disclose the information; and
- (3) any other person, if the disclosure would be lawful if the licensee made it directly to that person.

(b) Subsection (a) does not apply if a licensee discloses a policy number or similar form of access number or access code to any of the following:

- (1) The licensee's service provider solely in order to perform marketing for the licensee's own products or services, as long as the service provider is not authorized to directly initiate charges to the account.

Sec. 12. (a) The opt out requirements in sections 6 and 9 of this rule do not apply when a licensee provides nonpublic personal

financial information to a nonaffiliated third party to perform services for the licensee or functions on the licensee's behalf, if the licensee:

The participation criteria may not be based on health status factors.

(d) The MEWA shall obtain a written waiver for each employee who:

- (1) an employee who meets the participation criteria; or

- (1) A preexisting condition provision in a MEWA may not apply to an expense incurred on or after the expiration of the twelve (12) months following the initial effective date of coverage of the participating employee or dependent. However, this time period may be extended to eighteen (18) months for a late enrollee as defined in the federal Health Insurance Portability and Accountability Act of 1996.
- (2) A preexisting condition provision in a MEWA plan document may not apply to coverage for a disease or condition other than a disease or condition for which medical advice, diagnosis, care, or treatment was recommended or received during the six (6) months before the earlier of the:

- (6) In determining whether a preexisting condition provision applies to an individual covered by a MEWA's plan document, the MEWA shall credit the time the individual was covered under previous creditable coverage if the previous coverage was in effect at any time during the twelve (12) months preceding the effective date of coverage under the MEWA. If the previous coverage was issued under a health benefit plan, any waiting period shall also be credited to the preexisting condition provision period.
- (7) This section does not preclude application of any waiting period applicable to all new participating employees under the health benefit plan in accordance with the terms of the MEWA's plan document.
- (j) A MEWA shall provide that the benefits applicable to an individual or family member shall be payable with respect to a newly born or adopted child of an insured. The coverage shall:

 - (2) include, but not be limited to, benefits for inpatient or outpatient expenses arising from medical and dental treatment (including orthodontic and oral surgery treatment) involved in the management of birth defects known as cleft lip and cleft palate.If payment of a specific premium or fee is required to provide coverage for a child, the policy or contract may require that notification of the birth or adoption and payment of the required premium or fee must be furnished to the MEWA within thirty-one (31) days after the date of birth or adoption in order to have continuous coverage beyond the thirty-one (31) day period.

 - (A) fifty (50) years of age; or
 - (B) less than fifty (50) years of age and at high risk for colorectal cancer according to the most recent published guidelines of the American Cancer Society.

760 IAC 1-68-5 Applications

Authority: [IC 27-1-34-9](#)

Affected: [IC 27-1-34](#)

Sec. 5. (a) A MEWA, in its application for coverage, may ask questions of a medically specific nature that are necessary to render a fully informed underwriting determination, based upon sound actuarial principles concerning whether to accept or rate a particular risk, subject to the following conditions:

- (1) Questions relating to medical and other factual matters intending to reveal the possible existence of medical conditions are permissible if the applicant has been given an opportunity to provide an explanation for any affirmative answers given in the application. Questions shall:
 - (A) be related to a finite period of time preceding completion of the application;
 - (B) be specific and objective; and
 - (C) provide the applicant the opportunity to give a detailed explanation.
 - (2) No question in an application shall be directed towards determining or designed to establish the applicant's sexual orientation.
 - (3) Questions relating to the applicant having human immunodeficiency virus or having been diagnosed as having human immunodeficiency virus are permissible if they are factual, objective, and designed to establish the existence of the condition.
- (b) A MEWA may require a potential covered individual to submit to any medical tests, at the insurer's expense, the purpose of which is to determine infection with human immunodeficiency virus, subject to the following conditions:
- (1) The test is necessary to render a fully informed underwriting determination based upon sound actuarial principles concerning whether to accept or rate a particular risk.
 - (2) Whenever an applicant is requested to take a test to determine human immunodeficiency virus infection, the use of such a test must be revealed to the applicant and his or her written consent obtained. No adverse underwriting decision shall be made

on the basis of such a positive test unless an established test protocol has been followed.

(3) The following test protocol is established and must be the basis of an adverse underwriting determination:

(A) Two (2) positive ELISA tests.

(B) One (1) Western Blot test, which is not negative, must be obtained from the same sample from tests conducted by a qualified laboratory.

(4) All results of tests to determine human immunodeficiency virus infection and application responses are confidential and shall not be shared with anyone other than the applicant, the applicant's physician, and the MEWA's underwriting department, except as follows:

(A) Test results and application responses may be shared with underwriting departments of affiliates of the MEWA and reinsurers, who shall be subject to all provisions of this rule as if they were the MEWA to which application was originally made.

(B) Test results may be reported to the Medical Information Bureau, Inc., provided that:

(i) the MEWA will not report that tests of an applicant showed the presence of human immunodeficiency virus, but only that unspecified test results were abnormal; and

(ii) reports must use a general code that also covers results of tests for many diseases or conditions that are not related to human immunodeficiency virus or acquired immune deficiency syndrome.

(5) A MEWA may make an underwriting or a rating determination based upon questions asked and tests required pursuant to this subsection, subject to the following conditions:

(A) Sexual orientation may not be used in the underwriting process or in the determination of insurability.

(B) Support organizations shall be directed by insurers not to investigate, directly or indirectly, the sexual orientation of an applicant or a beneficiary.

(C) Neither the marital status, the living arrangements, the occupation, the gender, the medical history, the beneficiary designation, nor the zip code or other territorial classification of an applicant may be used to establish, or aid in establishing, the applicant's sexual orientation.

(D) For purposes of rating a group for health, a MEWA may impose territorial rates, but only if the rates are based on sound actuarial principles or are related to actual or reasonably anticipated experience.

(E) No adverse underwriting decision shall be made because medical records or a report from a support organization shows that the applicant has demonstrated concern about human immunodeficiency virus by seeking testing or counseling from health care professionals. This subsection does not apply to an applicant seeking treatment or diagnosis for a specific condition.

(6) In the event a MEWA determines to accept a risk, it must do so without limitations or exclusions solely of the coverage for human immunodeficiency virus, acquired immune deficiency syndrome, or a related condition, as follows:

(A) No maximum dollar amount of coverage, which is limited solely to human immunodeficiency virus, acquired immune deficiency syndrome, or a related condition, shall be included in any policy or certificate.

(3) Smoker and nonsmoker mortality to determine minimum reserve liabilities and minimum cash surrender values and amounts of paid-up nonforfeiture benefits.

(b) For plans of insurance without separate rates for smokers and nonsmokers, the composite mortality tables shall be used.

(c) For the purpose of determining minimum reserve liabilities and minimum cash surrender values and amounts of paid-up nonforfeiture benefits, the 2001 CSO Mortality Table may, at the option of the company for each plan of insurance, be used in its ultimate or select and ultimate form, subject to the restrictions of 760 IAC 1-64 relative to use of the select and ultimate form.

(d) When the 2001 CSO Mortality Table is the minimum reserve standard for any plan for a company, the actuarial opinion in the annual statement filed with the commissioner shall be based on an asset adequacy analysis as specified in 760 IAC 1-57-8. (Department of Insurance; 760 IAC 1-69-3; filed Oct 29, 2003, 2:30 p.m.: 27 IR 872, eff Jan 1, 2004; readopted filed Nov 24, 2010, 9:17 a.m.: [20101222-IR-760100633RFA](#); readopted filed Nov 23, 2016, 9:47 a.m.: [20161221-IR-760160436RFA](#); readopted filed Nov 30, 2022, 11:39 a.m.: [20221228-IR-760220302RFA](#))

Sec. 4. (a) The 2001 CSO Mortality Table may be used in applying 760 IAC 1-64 in the following manner, subject to the transition dates for use of the 2001 CSO Mortality Table in section 2 of this rule:

(1) 760 IAC 1-64-1(c)(3)(B): The net level reserve premium is based on the ultimate mortality rates in the 2001 CSO Mortality Table.

(2) 760 IAC 1-64-2(d): All calculations are made using the 2001 CSO Mortality Rate and, if elected, the optional minimum mortality standard for deficiency reserves stipulated in subdivision (4). The value of q_{x+k-1} is the valuation mortality rate for deficiency reserves in policy year $k+t$, but using the unmodified select mortality rates if modified select mortality rates are used in the computation of deficiency reserves.

(3) 760 IAC 1-64-3(a): The 2001 CSO Mortality Table is the minimum standard for basic reserves.

(4) 760 IAC 1-64-3(b): The 2001 CSO Mortality Table is the minimum standard for deficiency reserves. If select mortality rates are used, they may be multiplied by X percent for durations in the first segment, subject to the conditions specified in 760 IAC 1-64-3(b)(3)(A) through 760 IAC 1-64-3(b)(3)(I). In demonstrating compliance with those conditions, the demonstrations may not combine the results of tests that utilize the 1980 CSO Mortality Table with those tests that utilize the 2001 CSO Mortality Table unless the combination is explicitly required by rule or necessary to be in compliance with relevant Actuarial Standards of Practice.

(5) 760 IAC 1-64-4(c): The valuation mortality table used in determining the tabular cost of insurance shall be the ultimate mortality rates in the 2001 CSO Mortality Table.

(6) 760 IAC 1-64-4(e)(4): The calculations specified in 760 IAC 1-64-4(e) shall use the ultimate mortality rates in the 2001 CSO Mortality Table.

(7) 760 IAC 1-64-4(f)(4): The calculations specified in 760 IAC 1-64-4(f) shall use the ultimate mortality rates in the 2001 CSO

Mortality Table.

(8) 760 IAC 1-64-4(g)(2): The calculations specified in 760 IAC 1-64-4(g) shall use the ultimate mortality rates in the 2001 CSO Mortality Table.

(9) 760 IAC 1-64-5(a)(1)(B): The one (1) year valuation premium shall be calculated using the ultimate mortality rates in the 2001 CSO Mortality Table.

(b) Nothing in this section shall be construed to expand the applicability of 760 IAC 1-64 to include life insurance policies exempted under 760 IAC 1-64-1(c). Authority: [IC 27-4-9-4](#)

Affected: [IC 27-1-15.6-12](#); [IC 27-4-1-4](#); [IC 27-4-9](#)

Sec. 4.1. (a) A producer, when making a recommendation of an annuity, shall act in the best interest of the consumer under the circumstances known at the time the recommendation is made, without placing the producer's or the insurer's financial interest ahead of the consumer's interest. A producer has acted in the best interest of the consumer if they have satisfied the obligations set forth in subsections (b) through (m) regarding care, disclosure, conflict of interest, and documentation. The requirements under this subsection and subsections (b) through (m) do not create a fiduciary obligation or relationship, and only create a regulatory obligation as established in this rule.

(b) The producer, in making a recommendation, shall exercise reasonable diligence, care, and skill to:

- (1) know the consumer's financial situation, insurance needs, and financial objectives;
- (2) understand the available recommendation options after making a reasonable inquiry into options available to the producer;
- (3) have a reasonable basis to believe the recommended option effectively addresses the consumer's financial situation, insurance needs, and financial objectives over the life of the product, as evaluated in light of the consumer profile information; and
- (4) communicate the basis or bases of the recommendation.

These requirements apply to the particular annuity as a whole and the underlying subaccounts to which funds are allocated at the time of purchase or exchange of an annuity, and riders and similar product enhancements, if any.

(c) The requirements under subsection (b) require a producer to:

- (1) make reasonable efforts to obtain consumer profile information from the consumer prior to the recommendation of an annuity;
- (2) consider the types of products the producer is authorized and licensed to recommend or sell that address the consumer's financial situation, insurance needs, and financial objectives. This does not require analysis or consideration of products outside the authority and license of the producer or other possible alternative products or strategies available in the market at the time of the recommendation. Producers are held to standards applicable to producers with similar authority and licensure; and
- (3) have a reasonable basis to believe the consumer would benefit from certain features of the annuity, such as annuitization, death or living benefit, or other insurance related features.

(d) The requirements under subsection (b) do not mean:

- (1) the annuity with the lowest one (1) time or multiple occurrence compensation structure shall necessarily be recommended; or
- (2) the producer has ongoing monitoring obligations under the care obligation set forth in subsection (e), although that obligation may be separately owed under the terms of a fiduciary, consulting, investment advising, or financial planning agreement between the consumer and the producer.

(e) The consumer profile information, characteristics of the insurer, and product costs, rates, benefits, and features are those factors generally relevant in making a determination whether an annuity effectively addresses the consumer's financial situation, insurance needs, and financial objectives, but the level of importance of each factor under the care obligation of this subsection may vary depending on the facts and circumstances of a particular case. However, each factor may not be considered in isolation.

(f) In the case of an exchange or replacement of an annuity, the producer shall consider the whole transaction, which includes taking into consideration whether:

- (1) the consumer will incur a surrender charge, be subject to the commencement of a new surrender period, lose existing benefits, such as death, living, or other contractual benefits, or be subject to increased fees, investment advisory fees, or charges for riders and similar product enhancements;
- (2) the replacing product would substantially benefit the consumer in comparison to the replaced product over the life of the product; and
- (3) the consumer has had another annuity exchange or replacement and, in particular, an exchange or replacement within the preceding sixty (60) months.

(g) Nothing in this rule shall be construed to require a producer to obtain a license other than a producer license with the appropriate line of authority to sell, solicit, or negotiate insurance in this state, including, but not limited to, a securities license, in order to fulfill the duties and obligations contained in this regulation; provided the producer does not give advice or provide services that are otherwise subject to securities laws or engage in any other activity requiring other professional licenses.

(h) Prior to the recommendation or sale of an annuity, the producer shall prominently disclose the following to the consumer on a form substantially similar to the form set forth in section 7 of this rule:

- (1) A description of the scope and terms of the relationship with the consumer and the role of the producer in the transaction.
- (2) An affirmative statement on whether the producer is licensed and authorized to sell the following products:
 - (A) Fixed annuities.

- (B) Fixed indexed annuities.
- (C) Variable annuities.
- (D) Life insurance.
- (E) Mutual funds.
- (F) Stocks and bonds.
- (G) Certificates of deposit.

(3) An affirmative statement describing the insurers the producer is authorized, contracted, appointed, or otherwise able to sell insurance products for, using the following descriptions:

- (A) From one (1) insurer.
- (B) From two (2) or more insurers.
- (C) From two (2) or more insurers, although primarily contracted with one (1) insurer.

(4) A description of the sources and types of cash compensation and noncash compensation to be received by the producer, including whether the producer is to be compensated for the sale of a recommended annuity by commission as part of premium or other remuneration received from the insurer, intermediary, or other producer, or by fee as a result of a contract for advice or consulting services.

(5) A notice of the consumer's right to request additional information regarding cash compensation described in subsection (i).

(i) Upon request of the consumer or the consumer's designated representative, the producer shall disclose:

- (1) a reasonable estimate of the amount of cash compensation to be received by the producer, which may be stated as a range of amounts or percentages; and
- (2) whether the cash compensation is a one (1) time or multiple occurrence amount, and if a multiple occurrence amount, the frequency and amount of the occurrence, which may be stated as a range of amounts or percentages.

(j) Prior to or at the time of the recommendation or sale of an annuity, the producer shall have a reasonable basis to believe the consumer has been informed of various features of the annuity, such as:

- (1) the potential surrender period and surrender charge;
- (2) the potential tax penalty if the consumer sells, exchanges, surrenders, or annuitizes the annuity;
- (3) mortality and expense fees;
- (4) investment advisory fees;
- (5) annual fees;
- (6) potential charges for and features of riders or other options of the annuity;
- (7) limitations on interest returns;
- (8) potential changes in nonguaranteed elements of the annuity;
- (9) insurance and investment components; and
- (10) market risk.

(k) A producer shall identify and avoid, or reasonably manage and disclose, material conflicts of interest, including material conflicts of interest related to an ownership interest.

(l) A producer shall, at the time of recommendation or sale:

- (1) make a written record of a recommendation and the basis for the recommendation subject to this rule;
- (2) obtain a consumer signed statement on a form substantially similar to the form set forth in section 8 of this rule documenting:
 - (A) a customer's refusal to provide the consumer profile information, if any; and
 - (B) a customer's understanding of the ramifications of not providing their consumer profile information or providing insufficient consumer profile information; and
- (3) obtain a consumer signed statement on a form substantially similar to the form set forth in section 9 of this rule acknowledging that the annuity transaction is not recommended if a customer decides to enter into an annuity transaction that is not based on the producer's recommendation.

(m) A requirement applicable to a producer under this section shall apply to each producer that has exercised material control or influence in the making of a recommendation and has received direct compensation as a result of the recommendation or sale, regardless of whether the producer has had direct contact with a consumer. Activities, such as providing or delivering marketing or educational materials, product wholesaling, or other back office product support, and general supervision of a producer do not, in and of themselves, constitute material control or influence.

(n) Transactions not based on a recommendation are subject to the following:

(1) Except as provided under subdivision (2), a producer shall have no obligation to a consumer under subsections (b) through (e) related to an annuity transaction if:

(A) no recommendation is made;

(B) a recommendation was made and was later found to have been prepared based on materially inaccurate information provided by the consumer;

(C) a consumer refuses to provide relevant consumer profile information and the annuity transaction is not recommended;
or

(D) a consumer decides to enter into an annuity transaction that is not based on a recommendation of the producer.

(2) An insurer's issuance of an annuity subject to subdivision (1) shall be reasonable under all the circumstances actually known to the insurer at the time the annuity is issued.

(o) Except as permitted under subsection (n), an insurer may not issue an annuity recommended to a consumer unless there is a reasonable basis to believe the annuity would effectively address the particular consumer's financial situation, insurance needs, and financial objectives based on the consumer's consumer profile information and the following:

(1) An insurer shall establish and maintain a supervision system that is reasonably designed to achieve the insurer's and its producers' compliance with this rule, including, but not limited to, the following:

(A) The insurer shall establish and maintain reasonable procedures to inform its producers of the requirements of this rule, and shall incorporate the requirements of this rule into relevant producer training manuals.

(B) The insurer shall establish and maintain standards for producer product training, and shall establish and maintain reasonable procedures to require its producers to comply with the requirements of section 4.5 of this rule.

(C) The insurer shall provide product-specific training and training materials that explain all material features of its annuity products to its producers.

(D) The insurer shall establish and maintain procedures for the review of each recommendation prior to issuance of an annuity that are designed to ensure there is a reasonable basis to determine that the recommended annuity would effectively address the particular consumer's financial situation, insurance needs, and financial objectives. The review procedures may apply a screening system for the purpose of identifying selected transactions for additional review, and may be accomplished electronically or through other means including, but not limited to, physical review. An electronic or other system may be designed to require additional review only of those transactions identified for additional review by the selection criteria.

(E) The insurer shall establish and maintain reasonable procedures to detect recommendations that are not in compliance with this section. This may include, but is not limited to, confirmation of the consumer's consumer profile information, systematic customer surveys, producer and consumer interviews, confirmation letters, producer statements or attestations, and programs of internal monitoring. Nothing in this subdivision prevents an insurer from complying with this subdivision by applying sampling procedures or by confirming the consumer profile information, or other required information under this subsection, after issuance or delivery of the annuity.

(F) The insurer shall establish and maintain reasonable procedures to assess, prior to or upon issuance or delivery of an annuity, whether a producer has provided to the consumer the information required to be provided under this subsection.

(G) The insurer shall establish and maintain reasonable procedures to identify and address suspicious consumer refusals to provide consumer profile information.

(H) The insurer shall establish and maintain reasonable procedures to identify and eliminate sales contests, sales quotas, bonuses, and noncash compensation that are based on the sale of specific annuities within a limited period of time. The requirements of this subdivision are not intended to prohibit the receipt of health insurance, office rent, office support, retirement benefits, or other employee benefits by employees as along [*sic, long*] as those benefits are not based upon the volume of sales of a specific annuity within a limited period of time.

(I) The insurer shall annually provide a written report to senior management, including to the senior manager responsible for audit functions, which details a review, with appropriate testing, reasonably designed to determine the effectiveness of the supervision system, the exceptions found, and corrective action taken or recommended, if any.

(2) Nothing in this subsection restricts an insurer from contracting for performance of a function, including maintenance of procedures, required under this subsection. An insurer is responsible for taking appropriate corrective action and may be subject to sanctions and penalties pursuant to section 5 of this rule, regardless of whether the insurer contracts for performance of a function, and regardless of the insurer's compliance with subdivision (3).

(3) An insurer's supervision system under this subsection shall include supervision of contractual performance under this

subsection. This includes, but is not limited, to the following:

- (A) Monitoring and, as appropriate, conducting audits to assure that the contracted function is properly performed.
- (B) Annually obtaining a certification from a senior manager who has responsibility for the contracted function that the manager has a reasonable basis to represent, and does represent, that the function is properly performed.
- (4) An insurer is not required to include in its system of supervision:
 - (A) a producer's recommendations to consumers of products other than the annuities offered by the insurer; or
 - (B) consideration of or comparison to options available to the producer or compensation relating to those options other than annuities or other products offered by the insurer.
- (p) Neither a producer nor an insurer shall dissuade, or attempt to dissuade, a consumer from:
 - (1) truthfully responding to an insurer's request for confirmation of the consumer profile information;
 - (2) filing a complaint; or
 - (3) cooperating with the investigation of a complaint.
- (q) The following safe harbor provisions apply with respect to sales of annuities subject to this rule:
 - (1) Recommendations and sales of annuities made in compliance with comparable standards shall satisfy the requirements under this rule. This subsection applies to all recommendations and sales of annuities made by financial professionals in compliance with business rules, controls, and procedures that satisfy a comparable standard even if the standard would not otherwise apply to the product or recommendation at issue. However, nothing in this subsection shall limit the commissioner's ability to investigate and enforce the provisions of this rule.
 - (2) Nothing in subdivision (1) shall limit the insurer's obligation to comply with subsection (o), although the insurer may base its analysis on information received from either the financial professional or an entity supervising the financial professional.
 - (3) For subdivision (1) to apply, an insurer shall:
 - (A) monitor the relevant conduct of the financial professional seeking to rely on subdivision (1) or the entity responsible for supervising the financial professional, such as the financial professional's broker-dealer or an investment adviser registered under federal or state securities laws, using information collected in the normal course of an insurer's business; and
 - (B) provide to the entity responsible for supervising the financial professional seeking to rely on subdivision (1), such as the financial professional's broker-dealer or investment adviser registered under federal or state securities laws, information and reports that are reasonably appropriate to assist the entity to maintain its supervision.
 - (4) For purposes of this subsection, "financial professional" means a producer that is regulated and acting as:
 - (A) a broker-dealer registered under federal or state securities laws or a registered representative of a broker-dealer;
 - (B) an investment adviser registered under federal or state securities laws or an investment adviser representative associated with the federal or state registered investment adviser; or
 - (C) a plan fiduciary under Section 3(21) of the Employee Retirement Income Security Act of 1974 (ERISA) or fiduciary under Section 4975(e)(3) of the Internal Revenue Code (IRC), or amendments or successor statutes thereto.
 - (5) For purposes of this subsection, "comparable standards" means:
 - (A) with respect to broker-dealers and registered representatives of broker-dealers, applicable SEC and FINRA rules pertaining to best interest obligations and supervision of annuity recommendations and sales, including, but not limited to, Regulation Best Interest, and amendments or successor regulations thereto;
 - (B) with respect to investment advisers registered under federal or state securities laws or investment adviser representatives, the fiduciary duties and all other requirements imposed on the investment advisers or investment adviser representatives by contract or under the Investment Advisers Act of 1940 or applicable state securities law, including, but not limited to, the Form ADV and interpretations; and
 - (C) with respect to plan fiduciaries or fiduciaries, the duties, obligations, prohibitions, and all other requirements attendant to that status under ERISA or the IRC, and amendments or successor statutes thereto.

(2) Offering for sale or selling a life insurance product that includes a side fund to a service member in pay grades E-4 and below who is currently enrolled in SGLI is presumed unsuitable unless, after the completion of a needs assessment, the insurer demonstrates that the applicant's SGLI death benefit, together with any other military survivor benefits, savings and investments, survivor income, and other life insurance are insufficient to meet the applicant's insurable needs for life insurance. The following definitions apply to this subsection:

(A) "Insurable needs" are the risks associated with premature death taking into consideration the financial obligations and immediate and future cash needs of the applicant's estate and survivors or dependents.

(3) Except individually issued annuities, offering for sale or selling any life insurance contract that includes a side fund:

(A) unless interest credited accrues from the date of deposit to the date of withdrawal and permits withdrawals without limit or penalty;

(B) unless the applicant has been provided with a schedule of effective rates of return based upon cash flows of the combined product. For this disclosure, the effective rate of return will consider all premiums and cash contributions made by the policyholder and all cash accumulations and cash surrender values available to the policyholder in addition to life insurance coverage. This schedule will be provided for at least each policy year from one (1) to ten (10) and for every fifth policy year thereafter ending at one hundred (100) years of age, policy maturity, or final expiration; and

(C) which by default diverts or transfers funds accumulated in the side fund to pay, reduce, or offset any premiums due.

(4) Except individually issued annuities, offering for sale or selling any life insurance contract that, after considering all policy benefits, including, but not limited to:

(A) endowment;

(B) return of premium; or

(C) persistency;

does not comply with standard nonforfeiture law for life insurance.

(5) Selling any life insurance product to an individual known to be a service member that excludes coverage if the insured's death is related to war, declared or undeclared, or any act related to military service except for an accidental death coverage, which may be excluded.

Authority: [IC 27-1-3-7](#)

Affected: [IC 27-1-3.5](#)

Sec. 5. (a) Each insurer required by this rule to file an annual audited financial report must, within sixty (60) days after becoming subject to the requirement, register with the commissioner in writing the name and address of the independent certified public accountant or accounting firm retained to conduct the annual audit set forth in this rule. Insurers not retaining an independent certified public accountant on the effective date of this rule shall register the name and address of their retained independent certified public accountant not less than six (6) months before the date when the first audited financial report is to be filed.

(b) The insurer shall:

- (1) obtain a letter from the accountant; and
- (2) file a copy with the commissioner that:

(A) states that the accountant is aware of the provisions of the insurance code and the rules of the insurance department of the state of domicile that relate to accounting and financial matters; and

(B) affirms that the accountant will express the accountant's opinion on the financial statements in terms of their conformity to the statutory accounting practices prescribed or otherwise permitted by that insurance department, specifying such exceptions as the accountant may believe appropriate.

(c) If an accountant who was the accountant for the immediately preceding filed audited financial report is dismissed or resigns, the insurer shall within five (5) business days notify the commissioner of this event. The insurer shall also furnish the commissioner with a separate letter within ten (10) business days of the notification stating whether in the twenty-four (24) months preceding the event there were any disagreements with the former accountant on any matter of:

- (1) accounting principles or practices;
- (2) financial statement disclosure; or
- (3) auditing scope or procedure;

which disagreements, if not resolved to the satisfaction of the former accountant, would have caused the accountant to make reference to the subject matter of the disagreement in connection with the accountant's opinion. The disagreements required to be reported in response to this section include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this section are those that occur at the decision making level, that is, between personnel of the insurer responsible for presentation of its financial statements and personnel of the accounting firm responsible for rendering its report. The insurer shall also in writing request the former accountant to furnish a letter addressed to the insurer stating whether the accountant agrees with the statements contained in the insurer's letter and, if not, stating the reasons for which the accountant does not agree. The insurer shall furnish the responsive letter from the former accountant to the commissioner together with its own. Affected: [IC 4-21.5-3](#); [IC 27-1-3.5](#); [IC 27-9](#)

Sec. 6. (a) The commissioner shall not recognize a person or firm as a qualified independent certified public accountant if the person or firm:

- (1) is not in good standing with the AICPA and in all states in which the person or firm is licensed to practice, or, for a Canadian or British company, that is not a chartered accountant; or
- (2) has either directly or indirectly entered into an agreement of indemnity or release from liability, collectively referred to as indemnification, with respect to the audit of the insurer.

(b) Except as otherwise provided in this rule, the commissioner shall recognize an independent certified public accountant as qualified as long as the accountant conforms to the standards of the accountant's profession, as contained in the Code of Professional Ethics of the AICPA and Rules and Regulations and Code of Ethics and Rules of Professional Conduct of the Indiana Board of Accountancy, or similar code.

(c) A qualified independent certified public accountant may enter into an agreement with an insurer to have disputes relating to an audit resolved by mediation or arbitration. However, in the event of a delinquency proceeding commenced against the insurer under [IC 27-9](#), the mediation or arbitration provisions shall operate at the option of the statutory successor.

(d) The lead (or coordinating) audit partner (having primary responsibility for the audit) may not act in that capacity for more

than seven (7) consecutive years. The person shall be disqualified from acting in that or a similar capacity for the same company or its insurance subsidiaries or affiliates for a period of two (2) consecutive years. An insurer may make application to the commissioner for relief from the above rotation requirement on the basis of unusual circumstances. This application should be made at least thirty (30) days before the end of the calendar year. The commissioner may consider any of the following factors in determining if the relief should be granted:

- (1) The number of partners, expertise of the partners, or the number of insurance clients in the currently registered firm.
- (2) The premium volume of the insurer.
- (3) The number of jurisdictions in which the insurer transacts business.

The insurer shall file, with its annual statement filing, the approval for relief from this subsection with the states that it is licensed in or doing business in and with the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC.

(e) The commissioner shall neither recognize as a qualified independent certified public accountant, nor accept an annual audited financial report, prepared in whole or in part by, a natural person who has:

- (1) been convicted of:
 - (A) fraud;
 - (B) bribery;
 - (C) a violation of the Racketeer Influenced and Corrupt Organizations Act, 18 U.S.C. Sections 1961 to 1968; or
 - (D) any dishonest conduct or practices under federal or state law;
- (2) been found to have violated the insurance laws of this state with respect to any previous reports submitted under this rule; or
- (3) demonstrated a pattern or practice of failing to detect or disclose material information in previous reports filed under the provisions of this rule.

(f) The commissioner, as provided in [IC 4-21.5-3](#), may:

- (1) hold a hearing to determine whether an independent certified public accountant is qualified; and
- (2) after considering the evidence presented:
 - (A) rule that the accountant is not qualified for purposes of expressing the accountant's opinion on the financial statements in the annual audited financial report made under this rule; and
 - (B) require the insurer to replace the accountant with another whose relationship with the insurer is qualified within the meaning of this rule.

(g) The commissioner shall not recognize as a qualified independent certified public accountant or accept an annual audited financial report prepared, in whole or in part, by an accountant who provides to an insurer, contemporaneously with the audit, any of the following nonaudit services:

- (1) Bookkeeping or other services related to the accounting records or financial statements of the insurer.
- (2) Financial information systems design and implementation.
- (3) Appraisal or valuation services, fairness opinions, or contribution-in-kind reports.
- (4) Actuarially-oriented advisory services involving the determination of amounts recorded in the financial statements. The accountant may assist an insurer in understanding the methods, assumptions, and inputs used in the determination of amounts recorded in the financial statement only if it is reasonable to conclude that the services provided will not be subject to audit procedures during an audit of the insurer's financial statements. An accountant's actuary may also issue an actuarial opinion or certification on an insurer's reserves if the following conditions have been met:
 - (A) Neither the accountant nor the accountant's actuary has performed any management functions or made any management decisions.
 - (B) The insurer has competent personnel, or engages a third party actuary, to estimate the reserves for which management takes responsibility.
 - (C) The accountant's actuary tests the reasonableness of the reserves after the insurer's management has determined the amount of the reserves.
- (5) Internal audit outsourcing services.
- (6) Management functions or human resources.
- (7) Broker or dealer, investment adviser, or investment banking services.
- (8) Legal services or expert services unrelated to the audit.

(9) Any other services that the commissioner determines, by rule, are impermissible.

(h) Insurers having direct written and assumed premiums of less than one hundred million dollars (\$100,000,000) in any calendar year may request an exemption from subsection (g). The insurer shall file with the commissioner a written statement discussing the reasons why the insurer should be exempt from these provisions. If the commissioner finds, upon review of this statement, that compliance with this rule would constitute a financial or organizational hardship upon the insurer, an exemption may be granted.

(i) A qualified independent certified public accountant who performs the audit may engage in other nonaudit services, including tax services, that are not described in subsection (g) or that do not conflict with subsection (g)(2), only if the activity is approved in advance by the audit committee, in accordance with subsection (j).

(j) All auditing services and nonaudit services provided to an insurer by the qualified independent certified public accountant of the insurer shall be preapproved by the audit committee. The preapproval requirement is waived with respect to nonaudit services if the insurer is a SOX compliant entity, a direct or indirect wholly-owned subsidiary of a SOX compliant entity, or all of the following are met:

(1) The aggregate amount of all such nonaudit services provided to the insurer constitutes not more than five percent (5%) of the total amount of fees paid by the insurer to its qualified independent certified public accountant during the fiscal year in which the nonaudit services are provided.

(2) The services were not recognized by the insurer at the time of the engagement to be nonaudit services.

(3) The services are promptly brought to the attention of the audit committee and approved prior to the completion of the audit by the audit committee or by one (1) or more members of the audit committee who are the members of the board of directors to whom authority to grant such approvals has been delegated by the audit committee.

(k) The audit committee may delegate to one (1) or more designated members of the audit committee the authority to grant the preapprovals required by subsection (j). The decisions of any member to whom this authority is delegated shall be presented to the full audit committee at each of its scheduled meetings.

(l) The commissioner shall not recognize an independent certified public accountant as qualified for a particular insurer if:

(1) a member of the board;

(2) the president;

(3) the chief executive officer;

(4) the controller;

(5) the chief financial officer;

(6) the chief accounting officer; or

(7) any person serving in an equivalent position for that insurer;

was employed by the independent certified public accountant and participated in the audit of that insurer during the one-year period preceding the date that the most current statutory opinion is due. This subsection shall only apply to partners and senior managers involved in the audit. An insurer may make application to the commissioner for relief from the above requirement on the basis of unusual circumstances. The insurer shall file, with its annual statement filing, the approval for relief from this subsection with the states that it is licensed in or doing business in and the NAIC. If the nondomestic state accepts electronic filing with the NAIC, the insurer shall file the approval in an electronic format acceptable to the NAIC. (1) is part of a group of insurance companies that utilizes a pooling or one hundred percent (100%) reinsurance agreement that affects the solvency and integrity of the insurer's reserves; and

(2) cedes all of its direct and assumed business to the pool.

(b) If an insurer makes written application to the commissioner under subsection (a), a columnar consolidating or combining worksheet shall be filed with the report containing the following information:

- (1) Amounts shown on the consolidated or combined audited financial report.
- (2) Amounts for each insurer subject to this section, stated separately.

(b) The CGAD must include a signature of the insurer's or insurance group's chief executive officer or corporate secretary attesting to the best of that individual's belief and knowledge that the insurer or insurance group has implemented the corporate governance practices and that a copy of the CGAD has been provided to the insurer's or insurance group's board of directors or the appropriate committee thereof.

(c) The insurer or insurance group shall have discretion regarding the appropriate format for providing the information required by this rule and is permitted to customize the CGAD to provide the most relevant information necessary to permit the commissioner to gain an understanding of the corporate governance structure, policies, and practices utilized by the insurer or insurance group.

(B) The risks are included within the scope of this rule only as a technicality.

(C) The application of this rule to those risks is not necessary to provide appropriate protection to policyholders. The commissioner shall publicly disclose any decision made under this subdivision to exempt a reinsurance treaty from this rule, as well as the general basis for it, including a summary description of the treaty.

(Department of Insurance; 760 IAC 1-82-15; filed Feb 13, 2023, 2:47 p.m.: [20230315-IR-760220245FRA](#))

760 IAC 1-82-16 The actuarial method

Authority: [IC 27-6-10.1-5](#)

Affected: [IC 27-6-10.1-2](#); [IC 27-6-10.1-3](#); [IC 27-6-10.1-5](#)

Sec. 16. (a) The actuarial method to establish the required level of primary security for each reinsurance treaty subject to this rule shall be VM-20, applied on a treaty-by-treaty basis, including all relevant definitions, from the Valuation Manual as then in effect, applied as follows:

(1) For covered policies, the actuarial method is the greater of the deterministic reserve or the net premium reserve regardless of whether the criteria for exemption testing can be met. However, if the covered policies do not meet the requirements of the stochastic reserve exclusion test in the Valuation Manual, then the actuarial method is the greatest of the deterministic reserve, the stochastic reserve, or the net premium reserve. In addition, if the covered policies are reinsured in a reinsurance treaty that also contains covered policies described in section 4(2) of this rule, the ceding insurer may elect to instead use subdivision (2) as the actuarial method for the entire reinsurance agreement. Whether this subdivision or subdivision (2) are used, the actuarial method must comply with requirements or restrictions that the Valuation Manual imposes when aggregating these policy types for purposes of principle-based reserve calculations.

(2) For covered policies described in section 4(2) of this rule, the actuarial method is the greatest of the deterministic reserve, the stochastic reserve, or the net premium reserve regardless of whether the criteria for exemption testing can be met.

(3) Except as provided in subdivision (4), the actuarial method is to be applied on a gross basis to all risks with respect to the covered policies as originally issued or assumed by the ceding insurer.

(4) If the reinsurance treaty cedes less than one hundred percent (100%) of the risk with respect to the covered policies, the required level of primary security may be reduced as follows:

(A) If a reinsurance treaty cedes only a quota share of some or all of the risks pertaining to the covered policies, the required level of primary security, as well as an adjustment under clause (C), may be reduced to a pro rata portion in accordance with the percentage of the risk ceded.

(B) If the reinsurance treaty in a nonexempt arrangement cedes only the risks pertaining to a secondary guarantee, the required level of primary security may be reduced by an amount determined by applying the actuarial method on a gross basis to all risks, other than risks related to the secondary guarantee, pertaining to the covered policies, except that for covered policies for which the ceding insurer did not elect to apply the provisions of VM-20 to establish statutory reserves, the required level of primary security may be reduced by the statutory reserve retained by the ceding insurer on those covered policies, where the retained reserve of those covered policies should be reflective of any reduction under the cession of mortality risk on a yearly renewable term basis in an exempt arrangement.

(C) If a portion of the covered policy risk is ceded to another reinsurer on a yearly renewable term basis in an exempt arrangement, the required level of primary security may be reduced by the amount resulting by applying the actuarial method, including the reinsurance section of VM-20, to the portion of the covered policy risks ceded in the exempt arrangement, except that for covered policies issued prior to January 1, 2017, this adjustment is not to exceed $[c_x / (2 * \text{number of reinsurance premiums per year})]$, where c_x is calculated using the same mortality table used in calculating the net premium reserve.

(D) For any other treaty ceding a portion of risk to a different reinsurer, including, but not limited to, stop loss, excess of loss, and other nonproportional reinsurance treaties, there will be no reduction in the required level of primary security.

It is possible for any combination of clauses (A) through (D) to apply. Adjustments to the required level of primary security will be done in the sequence that accurately reflects the portion of the risk ceded via the treaty. The ceding insurer should document the rationale and steps taken to accomplish the adjustments to the required level of primary security due to the cession of less than one hundred percent (100%) of the risk. The adjustments for other reinsurance will be made only with respect to reinsurance treaties entered into directly by the ceding insurer. The ceding insurer will make no adjustment as a result of a retrocession treaty entered into by the assuming insurers.

(5) In no event will the required level of primary security resulting from application of the actuarial method exceed the amount of statutory reserves ceded.

(6) If the ceding insurer cedes risks with respect to covered policies, including riders, in more than one (1) reinsurance treaty subject to this rule, in no event will the aggregate required level of primary security for those reinsurance treaties be less than the required level of primary security calculated using the actuarial method as if all risks ceded in those treaties were ceded in a single treaty subject to this rule.

(7) If a reinsurance treaty subject to this rule cedes risk on both covered and noncovered policies, credit for the ceded reserves shall be determined as follows:

(A) The actuarial method shall be used to determine the required level of primary security for the covered policies, and

section 17 of this rule shall be used to determine the reinsurance credit for the covered policy reserves.

(B) Credit for the noncovered policy reserves shall be granted only to the extent that security, in addition to the security held to satisfy the requirements of clause (A), is held by or on behalf of the ceding insurer in accordance with [IC 27-6-10.1-2](#) and [IC 27-6-10.1-3](#). A primary security used to meet the requirements of this clause may not be used to satisfy the required level of primary security for the covered policies.

(b) For the purposes of both calculating the required level of primary security under the actuarial method and determining the amount of primary security and other security, as applicable, held by or on behalf of the ceding insurer, the following shall apply:

(1) For assets, including assets held in trust, that would be admitted under the NAIC Accounting Practices and Procedures Manual if they were held by the ceding insurer, the valuations are to be determined according to statutory accounting procedures as if the assets were held in the ceding insurer's general account and without taking into consideration the effect of any prescribed or permitted practices.

(2) For all other assets, the valuations are to be those that were assigned to the assets for the purpose of determining the amount of reserve credit taken. In addition, the asset spread tables and asset default cost tables required by VM-20 shall be included in the actuarial method if adopted by the NAIC's Life Actuarial (A) Task Force not later than December 31 on or immediately preceding the valuation date for which the required level of primary security is being calculated. The tables of asset spreads and asset default costs shall be incorporated into the actuarial method in the manner specified in VM-20.

Sec. 17. (a) Subject to the exemptions described in section 15 of this rule and the provisions of subsection (b), credit for reinsurance shall be allowed with respect to ceded liabilities pertaining to covered policies under [IC 27-6-10.1-2](#) and [IC 27-1-10.1-3](#) if, in addition to all other requirements imposed by law or rule, the following requirements are met on a treaty-by-treaty basis:

(1) The ceding insurer's statutory policy reserves with respect to the covered policies are established in full and in accordance with the applicable requirements of [IC 27-1-12.8](#) and related rules and actuarial guidelines, and credit claimed for any reinsurance treaty subject to this rule does not exceed the proportionate share of those reserves ceded under the contract.

(2) The ceding insurer determines the required level of primary security with respect to each reinsurance treaty subject to this regulation and provides support for its calculation as determined to be acceptable to the commissioner.

(3) Funds consisting of primary security, in an amount at least equal to the required level of primary security, are held by or on behalf of the ceding insurer, as security under the reinsurance treaty within the meaning of [IC 27-6-10.1-3](#), on a funds-withheld, trust, or modified coinsurance basis.

(4) Funds consisting of other security, in an amount at least equal to any portion of the statutory reserves to which primary security is not held under subdivision (3), are held by or on behalf of the ceding insurer as security under the reinsurance treaty within the meaning of [IC 27-6-10.1-3](#).

(5) A trust used to satisfy the requirements of this section shall comply with all of the conditions and qualifications of 760 IAC 1-56-10, except that:

(A) funds consisting of primary security or other security held in trust, shall, for the purposes identified in section 16(b) of this rule, be valued according to the valuation rules set forth in section 16(b) of this rule, as applicable; and

(B) there are no affiliate investment limitations with respect to security held in the trust if the security is not needed to satisfy the requirements of subdivision (3);

(C) the reinsurance treaty must prohibit withdrawals or substitutions of trust assets that would leave the fair market value of the primary security within the trust (when aggregated with primary security outside the trust that is held by or on behalf of the ceding insurer in the manner required by subdivision (3) below one hundred two percent (102%) of the level required by subdivision (3) at the time of the withdrawal or substitution); and

(D) the determination of reserve credit under 760 IAC 1-56-10(d)(3) shall be determined according to the valuation rules set forth in section 16(b) of this rule, as applicable.

(6) The reinsurance treaty has been approved by the commissioner.

(b) The following requirements are also applicable to covered policies:

(1) The requirements of subsection (a) must be satisfied as of the date that risks under covered policies are ceded, if the date is on or after the effective date of this rule, and on an ongoing basis thereafter. Under no circumstances shall a ceding insurer take or consent to an action or series of actions that would result in a deficiency under subsection (a)(3) or (a)(4) with respect to a reinsurance treaty under which covered policies have been ceded, and in the event that a ceding insurer becomes aware at any time that such a deficiency exists, it shall use its best efforts to arrange for the deficiency to be eliminated as expeditiously as possible.

(2) Prior to the due date of each quarterly or annual statement, each life insurance company that has ceded reinsurance within the scope of section 13 of this rule shall perform an analysis, on a treaty-by-treaty basis, to determine, as to each reinsurance treaty under which covered policies have been ceded, whether, as of the end of the immediately preceding calendar quarter (the valuation date), the requirements of subsection (a)(3) and (a)(4) were satisfied. The ceding insurer shall establish a liability equal to the excess of the credit for reinsurance taken over the amount of primary security actually held under subsection (a)(3), unless either:

(A) the requirements of subsection (a)(3) and (a)(4) were fully satisfied as of the valuation date as to the reinsurance treaty;

or

(B) any deficiency has been eliminated before the due date of the quarterly or annual statement to which the valuation date relates through the addition of primary security or other security, or both, as the case may be, in the amount and in the form as would have caused the requirements of subsection (a)(3) and (a)(4) to be fully satisfied as of the valuation date.

Nothing in this subdivision shall be construed to allow a ceding company to maintain a deficiency under subsection (a)(3) and (a)(4) for any period of time longer than is reasonably necessary to eliminate it.
