Authority: IC 9-21-19-2

Affected: IC 8-9.5-4

Sec. 1. The Indiana department of highways shall control access and regulate work performed on approaches to driveways on highway right-of-way. This control and regulation shall provide for the preservation of the highway, and the safety and convenience of traffic on highway. The measure of public benefit shall be the guide in determining the priorities and procedures in correcting any unauthorized approaches to driveways. (Indiana Department of Transportation; 105 IAC 7-2-1; filed Aug 2, 1985, 3:39 p.m.: 8 IR 1712; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899) NOTE: Transferred from Department of Highways (120 IAC 2-2-1) to Indiana Department of Transportation (105 IAC 7-2-1) by P.L.112-1989, SECTION 5, effective July 1, 1989.

105 IAC 7-2-2 Documentation of approaches; corrective action required

Authority: IC 9-21-19-2

Affected: IC 8-9.5-4

Sec. 2. The department shall control access along highways through inspection and by properly documenting planned and existing approaches for driveways and pedestrian walkways. Any construction, reconstruction, alteration, or modification to an approach by person(s) other than the department shall be administered through 120 IAC 2 [this article], Permits. Existing approaches, which may be in either a complete or incomplete condition and that have not been reviewed and authorized by the department, shall be considered unauthorized, undocumented and subject to corrective action. Existing approaches which were originally authorized by the department but which have become substandard for any reason, such as a change in land use that adversely affects traffic patterns, shall also be considered unauthorized, undocumented and subject to corrective action.

The permit process shall be the normal means of taking corrective action. The property owner(s) and/or the person(s) responsible for an unauthorized approach shall make application for a written permit. All remedies available through the permit process shall be used to obtain full compliance of work on the approach.

Under circumstances where the department is unable to obtain the cooperation of the property owner(s) and/or the person(s) responsible for an unauthorized approach through the permit process, corrective action will be taken in accordance with procedures contained in 120 IAC 2-2 [this rule]. (*Indiana Department of Transportation; 105 IAC 7-2-2; filed Aug 2, 1985, 3:39 p.m.: 8 IR 1712; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899*) NOTE: Transferred from Department of Highways (120 IAC 2-2-2) to Indiana Department of Transportation (105 IAC 7-2-2) by P.L.112-1989, SECTION 5, effective July 1, 1989.

(*Indiana Department of Transportation; 105 IAC 7-2-3; filed Aug 2, 1985, 3:39 p.m.: 8 IR 1713; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899*) NOTE: Transferred from Department of Highways (120 IAC 2-2-3) to Indiana Department of Transportation (105 IAC 7-2-3) by P.L.112-1989, SECTION 5, effective July 1, 1989.

105 IAC 7-2-4 Procedures for corrective action

Authority: IC 9-21-19-2

Affected: IC 8-9.5-4

Sec. 4. Corrective action will normally be the construction, reconstruction, alteration or modification of the approach to standards acceptable to the department, or the complete removal of the approach and restoration of the highway right-of-way. The decision concerning the choice of a remedy remains with the department. The following procedure will be used by the department to obtain a suitable corrective result.

(1) The department will contact the responsible person(s) for the unauthorized approach, including the owner of real estate, and advise that they are to begin corrective action by preparing and submitting a permit application. The department shall state a specific date for receipt of the application, but in no case shall the time to submit the application be less than fifteen (15) calendar days from the date of contact. If an application is received within the specified time period, the department shall proceed to the requirements in 120 IAC 2-1 [105 IAC 7-1].

(2) If the person(s) responsible for the unauthorized approach has not responded within the specified time and if the application for the permit was not received by the department, a notice shall be given to the owner(s) of the real estate from which the unauthorized approach emanates by certified mail and shall be sent to the owner's last known address. A copy of the notice shall be sent to the occupant [sic.] of the real estate and a copy of the notice shall be posted upon said real estate in a conspicuous place. The notice shall specify the time within which the owner(s) of the real estate shall have completed corrective action for the unauthorized approach, but in no case shall the period of time specified be less than thirty (30) calendar days.

(3) If the owner of the real estate has not completed corrective action on the unauthorized approach within the time specified

by the notice, the department may do whatever in its discretion is necessary to correct the situation or may cause the same to be done by other persons, parties, or corporations.

(4) The cost of the corrective action to the unauthorized approach as provided by subdivision (3) in this section will be borne by the owner of the real estate. After the department has completed the corrective action, it shall bill the owner of the real estate for the cost.

(b) A separate application for a permit shall be made for each sign structure or proposed sign structure on a form furnished by the department. The application shall be signed by the applicant, or a representative duly authorized in writing to act for the applicant, and shall describe and set forth the size, shape, and the nature of the proposed sign structure and its actual or proposed location with sufficient accuracy to enable the department to locate and identify it. The denial of a permit by the department shall be accompanied by an order served on the applicant by certified mail, return receipt requested. Such order shall include a clear statement of the rationale upon which the denial was based. If the permit is denied, the person applying for the permit shall be afforded the opportunity to request a hearing under to [sic.] IC 4-21.5 and IC 8-23-20. The application shall contain a certification of truthfulness, under penalties of perjury for all information contained therein.

(c) The holder of a permit or its authorized agent shall have the right to change the advertising copy on the structure or sign for which it was issued without payment of any additional fee.

(d) The department shall have authority, after thirty (30) days notice in writing to the permittee, to enter an order revoking any permit issued under this rule in any case where the application for the permit contains false or misleading information or where the

permittee has violated any of the provisions of this rule.

(e) The issuance of the permit shall in no way imply department approval of or be intended to influence any action pending before a local board, commission, or agency.

(f) The department may subsequently refuse to issue a permit to an applicant that is found to have intentionally provided false information on a previous permit application within the previous two (2) years. (b) As soon as practicable and no more than thirty (30) days after the issuance of a permit for a proposed structure, the permit tag shall be displayed upon a post or similar support such that the permit number is plainly visible from the right-of-way. Such tag shall be placed as close as practical at the right-of-way line at the nearest point to the proposed location.

(c) Measurements to determine the compliance of a subsequent sign structure to the spacing criteria shall treat the permit tag display described in subsection (b) as if a sign structure was actually in existence on the date the permit was issued.

(d) The proposed sign structure must be completed within three hundred sixty-five (365) days of issuance of the permit or the permit shall be revoked.

(e) When multiple permit applications are received for proposed sign structures, priority shall be given in the order received.

(f) When a spacing or related conflict exists between a sign structure constructed on or after July 1, 1993, and not holding a valid permit, and a proposed sign structure, the first permit application received shall have priority in the issuance of a permit. (2) If permit revocation under subsection (a) [*sic.*, *this subsection*] is appropriate, the department shall issue a written order clearly explaining the rationale to the permit holder. The permit holder shall be allowed thirty (30) days to remedy the noncompliance or appeal the determination under IC 4-21.5.

If the determination under this subsection is not appealed or remedied within the thirty (30) days allowed, the permit shall be revoked.

(b) A sign structure issued a permit under this rule may have such permit modified to a conditional permit if the department determines that changed circumstances would preclude the issuance of a permit under section 6 of this rule. Notice shall be given as provided in subsection (a). If the permit is modified to a conditional permit, the requirements of section 7 of this rule apply.
