Subject to the notice provisions of 135 IAC 2.5-3-1, the concessionaire shall be authorized to charge toll levels which are less than the applicable maximum toll levels at its discretion, including providing for lower toll levels at determined times during the day, or for commuters, trucking companies, or other frequent users of the toll road. In addition, anytime after June 30, 2010, so long as (A) the aggregate charge for a through trip does not exceed the applicable maximum level; (B) the charge for any non-through trip is not less than the maximum toll levels set forth herein as of June 29, 2010; and (C) any increase in the toll level charged by the concessionaire on the toll road is allocated to all segments of the toll road such that the highest per mile increase does not exceed three (3) times the lowest per mile increase; the concessionaire at its discretion shall be permitted to set the maximum toll level for any segment of the toll road to any level it determines. For purposes of determining different toll levels for the various segments of the toll road anytime after June 30, 2010, the following shall apply:

(1) Notwithstanding the toll levels determined in accordance with this section, the actual tolls charged by the concessionaire will be rounded to:
