A vendor or data processing department shall schedule a testing date with the department at least thirty (30) days before submitting its assessment software or tax and billing software for test. The department reserves the right to proactively coordinate testing dates per the department prescribed time frame allotted for initial phase I testing and reserves the right to conduct the testing session either in person or via a virtual environment (e.g., webinar). The test shall include, but will not be limited to, a demonstration of the following:

- (1) The software's internal control mechanisms and accounting standards required under this article.
- (2) The software's ability to:
  - (A) perform calculations required under this article;
  - (B) export all state specified data in the format required under this article;
  - (C) generate and produce required forms and both standard and user-defined reports; and
  - (D) allow for record searching and retrieval;

- (2) Audited financial statements for the most recent three (3) years upon request by the department. If the company has been in business less than three (3) years, then a business plan shall be submitted in addition to any available financial statements.

(d) At least thirty (30) days before the test, each data processing department that has developed a unique assessment or tax and billing application shall submit for review all technical documentation. All documents that include proprietary information or trade secrets must be so identified on its cover.

(e) The department or its designee shall finish the test and notify the vendor or data processing department of the results within thirty (30) days of the completion date of the initial phase I testing session. If the software fails the test, the department will inform the vendor or data processing department in writing of the reason or reasons for the failure. Upon notice of failure, the vendor or data processing department may make the required correction or corrections and resubmit for certification, within thirty (30) days of the receipt of the results of the initial phase I testing session. The department or its designee shall finish the test and notify the vendor or data processing department of the results within thirty (30) days of the completion date of the subsequent phase I testing session. If the software fails the test, the department will inform the vendor or data processing department in writing of the reason or reasons for the failure. Authority: IC 6-1.1-31-1; IC 6-1.1-31.5-3.5

Affected: IC 6-1.1-31.5

Sec. 3. (a) As used in this section, "phase II testing" refers to the testing of the integrative functionality of the individual components of a property tax management system for certification under this article.

(b) Property tax management systems subject to certification under section 1 of this rule that utilize assessment and tax and billing systems that have been software certified by the department must initially be tested and integration validated under this section. Only those systems that have been phase I certified during the same certification cycle may be eligible for phase II testing. The systems will be tested by the department or its designee on a stand-alone PC or a larger system. Combinations of vendors or data processing departments shall schedule a testing date with the department at least thirty (30) days before submitting the property tax management system for test. The department reserves the right to proactively coordinate testing dates per the department prescribed time frame allotted for phase II testing and reserves the right to conduct the testing session either in person or via a virtual environment (e.g., webinar). The test shall include, but will not be limited to, the following:

- (1) Validation that the system incorporates all general system requirements.
- (2) Generation of required reports.
- (3) Demonstration of the system's ability to perform the annual interface of gross assessed values, including the acceptance of state assessed utility and railroad values.

(ii) A successful appeal determination and the subsequent recalculation of taxes from the change in value [*sic*].

- (4) Demonstration of the system's ability to integrate applicable data from one (1) software to the other, including, but not limited to, property transfers, splits, combinations, annexations, homestead deduction application, and updated sales prices for ratio study purposes.

(c) For each property tax management system, vendors or data processing departments whose assessments or tax and billing systems are included in the property tax management system shall provide a list of the software versions currently installed in each county. For any software versions older than the version used in the system and integration demonstration, the vendor or data processing department shall also include a workplan for upgrading to the tested version for each county using an older version. For any software versions newer than the version used in the system and integration demonstration, the vendor or data processing department shall provide the release notes associated with the newer version so the department can verify that updates to the software have not impacted the tested functionality. If the department determines that updates in the newer version have impacted tested functionality, the department may require that the system and integration demonstration be conducted on the newer version of the software as well.

(d) The department or its designee shall observe the demonstration and document the tests and scenarios accomplished by the system. The department shall notify the vendors or data processing department of the results within thirty (30) days of the completion date of the initial phase II testing session, including the specific tests and scenarios achieved by the system and those that were not. Upon notice of failure, the vendors or data processing department may make the required correction or corrections and resubmit for certification, within thirty (30) days of the receipt of the results of the initial phase II testing session. The department or its designee shall finish the test and notify the vendors or data processing department of the results within thirty (30) days of the completion date of the subsequent phase II testing session. If the system fails the test, the department will inform the vendors or data processing department in writing of the reason or reasons for the failure. The vendors or data processing department may resubmit its system on an iterative basis for phase II certification until such time the department has determined all required tests have been successfully demonstrated as long as all phase II testing sessions are completed within the department provided time frame for phase II certification.

**50 IAC 26-18-4 Phase III initial property tax management system verification and local certification of county installation**

Authority: IC 6-1.1-31-1; IC 6-1.1-31.5-3.5

Affected: IC 6-1.1-31.5

Sec. 4. (a) As used in this section, "phase III testing" refers to the testing of the overall functionality of a property tax management system that has been installed by a county.

(b) Property tax management systems subject to certification under section 1 of this rule that utilize software that has been software certified by the department and have demonstrated successful integration with other software as necessary must initially be certified under this section. A county shall submit its proposed property tax management system to the department. The department or its designee shall consider the proposed system and confirm that all requirements and scenarios tested under section 3 of this rule are accomplished by the proposed system using the recorded results prescribed under section 3(e) of this rule.

(c) If the department or its designee finds that a county's proposed system meets all requirements and accomplished all scenarios tested under section 3 of this rule, the department will verify that a county's proposed property tax management system is eligible for phase III testing.

(d) After the department has verified that a county's proposed system is eligible for phase III testing under subsection (c), a county shall engage an independent, private, or a public entity approved by the department, or a member of the department, to validate that the installed property tax management system complies with the standards and requirements of this article. The department reserves the right to proactively coordinate testing dates per the department prescribed time frame allotted for phase III testing and reserves the right to conduct the testing session either in person or via a virtual environment (e.g., webinar).

(e) Once the entity conducting the phase III testing finds that the installed property tax management system meets the standards and requirements of this article, the county shall notify the department in writing that the installed system is in compliance. In the event that phase III testing was conducted directly by a member of the department and that member finds that the installed property tax management system meets the standards and requirements of this article, the county is not required to notify the department that the installed system is in compliance. The department shall then declare the computer system as locally certified for the county where it was independently validated. - (j) SALES DISCLOSURE CONTACT FILE (at least three (3) records per sales disclosure) - Filename = SALECONTAC:
- (1) The SALECONTAC file contains a minimum of three (3) records (one (1) Seller, one (1) Buyer, and one (1) Preparer) for each real property sales disclosure submitted to the county for processing as reported in the SALEDISC file.
  - (2) If a county utilizes the State Online Sales Disclosure Application to handle its sales disclosures, it does not need to submit the SALEDISC, SDISCADDCL, SDISCADDAR, SALECONTAC, or SALEPARCEL files as all this data is online and available to the department and legislative services agency. If a county utilizes another vendor to handle its sales disclosure data, it must submit the SALEDISC, SDISCADDCL, SDISCADDAR, SALECONTAC, and SALEPARCEL files together on a weekly basis to the department. The department will then integrate these data files into a central database and make the data available to the legislative services agency.
  - (3) In weekly data submissions, only those records that are new or have changed since the previous transmission are to be included.
  - (4) Primary Key for the SALECONTAC file: The combination of the following fields must be unique within the SALECONTAC file:

The purpose of this rule is to prescribe standardized property tax data file formats to enable local government to be able to collect, analyze, store, and share property tax data with the state and to facilitate integration required between all components of a property tax management system. The prescribed file formats must be able to be generated by local officials at any time without vendor intervention or cost to the county. The formats under this rule apply to 2010-pay-2011 and prior years. *(Department of Local Government Finance; 50 IAC 26-22-1; filed Jan 28, 2011, 3:07 p.m.: 20110223-IR-050100165FRA)*

### 50 IAC 26-22-2 Instructions

Authority: IC 6-1.1-31-1; IC 6-1.1-31.5-3.5

Affected: IC 6-1.1-31.5
