- (1) A building that is weather tight with impervious floor.
- (2) A container capable of being enclosed.
- (3) A completely enclosed vehicle.
- (4) Other storage provisions approved by the commissioner.

(b) Speculative accumulation of partially dismantled mobile homes, parts, or residue is not allowed. Facilities registered under this article must engage in only legitimate reuse or recycling as demonstrated by the following:

(1) The owner or operator of the registered facility must have a plan, to reuse or recycle the partially dismantled mobile home, structures, or parts that are salvaged, that provides or shows the following:

- (A) The parts to be reused, recycled, or processed.
- (B) The manner in which salvaged parts are intended to be reused, recycled, or processed.
- (C) If applicable, a reason why any partially dismantled mobile home, structures, or parts are being stored for periods exceeding six (6) months. Reasons can include that storage is necessary to accumulate sufficient quantities for shipment or processing that saves additional costs.
- (D) The mobile homes, structures, or parts are stored in a manner reflecting the value as a commodity and in accordance with this rule.

(2) The registered facility must maintain records for a period of five (5) years and recorded in a consistent manner either daily, weekly, or monthly, of mobile homes, structures, or parts coming into the facility and mobile homes or structures processed at the facility and include the following:

(g) Storage, including the retention, containment, or accumulation of solid waste, on a temporary basis must be done in such a manner that it does not:

(1) threaten or potentially threaten human health; or

(2) impact or potentially impact the environment.

However, it is a rebuttable presumption that storage of partially disassembled mobile homes or structures, mobile home parts, or residue for more than six (6) months constitutes disposal.
