

TITLE 327 WATER POLLUTION CONTROL BOARD**FIRST NOTICE OF COMMENT PERIOD**

#01-348(WPCB)

DEVELOPMENT OF AMENDMENTS TO RULES CONCERNING DRINKING WATER STANDARDS, SPECIFICALLY CONCERNING INTERIM ENHANCED SURFACE WATER TREATMENT, DISINFECTANTS AND DISINFECTION BYPRODUCTS, AND FILTER BACKWASH FOR PUBLIC DRINKING WATER SYSTEMS**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to 327 IAC 8-2 concerning interim enhanced surface water treatment, disinfectants/disinfection byproducts, and filter backwash. IDEM seeks comment on the affected citations listed and any other provisions of Title 327 that may be affected by this rulemaking.

CITATIONS AFFECTED: 327 IAC 8-2.**AUTHORITY:** IC 13-13-5-1; IC 13-14-8-1; IC 13-14-8-2; IC 13-18-3-2; IC 13-18-16-9.**SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING**

On December 16, 1998, U.S. EPA published National Drinking Water Regulations for Interim Enhanced Surface Water Treatment. These regulations make changes to the Indiana surface water treatment rule as published April 12, 1993. These changes are being made to improve implementation of the rule. The intended effect of the rule is to strengthen microbial protection, including provisions specifically to address *Cryptosporidium*, and to address risk trade-offs with disinfection byproducts.

Also on December 16, 1998, U.S. EPA published National Drinking Water Regulations for Disinfectants and Disinfection Byproducts. These regulations update the 1979 regulations for total trihalomethanes. In addition, these regulations will reduce exposure to three disinfectants (chlorine, chloramine, and chlorine dioxide) and many disinfection byproducts.

On June 8, 2001, U.S. EPA published National Drinking Water Regulations for Filter Backwash Recycling. These regulations address a statutory requirement of the 1996 Safe Drinking Water Act (SDWA) Amendments to promulgate a regulation which "governs" the recycling of filter backwash water within the treatment process of public water systems. The purpose of these regulations is to further protect public health by requiring public water systems, where needed, to institute changes to the return of recycle flows to plant's treatment process that may otherwise compromise microbial control. Indiana is required to adopt all of these revisions in order to maintain primacy (primary enforcement authority) for the Safe Drinking Water Program.

STATUTORY AND REGULATORY REQUIREMENTS

IC 13-14-8-4 requires the board to consider the following factors in promulgating rules:

- (1) All existing physical conditions and the character of the area affected.
- (2) Past, present, and probable future uses of the area, including the character of the uses of surrounding areas.
- (3) Zoning classifications.
- (4) The nature of the existing air quality or existing water quality, as the case may be.

(5) Technical feasibility, including the quality conditions that could reasonably be achieved through coordinated control of all factors affecting the quality.

(6) Economic reasonableness of measuring or reducing any particular type of pollution.

(7) The right of all persons to an environment sufficiently uncontaminated as not to be injurious to human, plant, animal, or aquatic life or to the reasonable enjoyment of life and property.

REQUEST FOR PUBLIC COMMENTS

At this time, IDEM solicits the following:

(1) The submission of alternative ways to achieve the purpose of the rule.

(2) The submission of suggestions for the development of draft rule language.

Mailed comments should be addressed to:

#01-348(WPCB) Amendments to Drinking Water Standards

Office of Water Quality

Indiana Department of Environmental Management

TITLE 327 WATER POLLUTION CONTROL BOARD**CONTINUATION OF FIRST NOTICE OF COMMENT PERIOD**

#01-238(WPCB)

DEVELOPMENT OF AMENDMENTS TO RULES CONCERNING THE LAND APPLICATION OF BIOSOLID, INDUSTRIAL WASTE PRODUCT, AND POLLUTANT-BEARING WATER**PURPOSE OF NOTICE**

The Indiana Department of Environmental Management (IDEM) is soliciting public comment on amendments to rules for the application of biosolids, industrial waste products, and pollutant-bearing water in 327 IAC 6.1. The purpose of this rule change is to amend and clarify

sections of the article that are creating problems for the regulated community and IDEM staff. IDEM seeks comment on the affected citations listed and any other provisions of Title 327 that may be affected by this rulemaking. In addition, this rulemaking will satisfy IC 13-14-9.5, which provides for the expiration and reoption of administrative rules. The continuation of the first notice will allow more time to receive additional comments regarding changes to this rule.

CITATIONS AFFECTED: 327 IAC 6.1.

AUTHORITY: IC 13-14-8-1; IC 13-15-1-2; IC 13-15-2-1; IC 13-18-3-1; IC 13-18-12-4.

HISTORY

First Notice of Comment Period: August 1, 2001, Indiana Register (24 IR 3827).

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING

The initial thirty (30) day comment period for this rule ended September 1, 2001. At that time, only one (1) public comment was received. IDEM hopes to receive additional comments regarding this rule making. IDEM will increase its outreach efforts to parties affected by this rule making. Among those efforts, a newsletter will be mailed directly to individuals and companies involved in land application of biosolids. It is imperative that affected parties have ample opportunity to suggest changes that would improve the rule.

Indiana's rules to implement IC 13-18-3 became effective June 14, 1998. Since that time, both IDEM staff and the regulated community have concluded that some inconsequential and some substantive rule changes are required. Inconsequential changes are contextual in nature and provide more clarity. The substantial changes improve and enhance the program. These changes include, but are not limited to, the following:

- In 327 IAC 6.1-2-27, the definition for "incorporated into the soil" must be amended to include some type of quantitative measurements.
- In 327 IAC 6.1-4-6 and 327 IAC 6.1-7-5, the term "seasonal high water table" must be defined and criteria established as to when this measurement applies.
- In 327 IAC 6.1-6, the requirement to "be dewatered" should be eliminated from the criteria necessary to be eligible for the agricultural lime substitute notification program under this rule.
- In 327 IAC 6.1-7, some permit by rule accommodation should be made for the small quantity generator. A definition of a "small quantity generator" is also required.
- In 327 IAC 6.1-8, additional requirements should be added to regulate storage facilities located on-site at the point of application.

IDEM requests the submission of any comments or suggestions, including specific language that might be included in the rule.

STATUTORY AND REGULATORY REQUIREMENTS

IC 13-14-8-4 requires the board to consider the following factors in promulgating rules:

- (1) All existing physical conditions and the character of the area affected.
- (2) Past, present, and probable future uses of the area, including the character of the uses of surrounding areas.
- (3) Zoning classifications.
- (4) The nature of the existing air quality or existing water quality, as the case may be.

(5) Technical feasibility, including the quality conditions that could reasonably be achieved through coordinated control of all factors affecting the quality.

(6) Economic reasonableness of measuring or reducing any particular type of pollution.

(7) The right of all persons to an environment sufficiently uncontaminated as not to be injurious to human, plant, animal, or aquatic life or to the reasonable enjoyment of life and property.

REQUEST FOR PUBLIC COMMENTS

At this time, IDEM solicits the following:

(1) The submission of alternative ways to achieve the purpose of the rule.

(2) The submission of suggestions for the development of draft rule language.

Mailed comments should be addressed to:

Office of Land Quality

TITLE 327 WATER POLLUTION CONTROL BOARD

SECOND NOTICE OF COMMENT PERIOD

#99-58(WPCB)

DEVELOPMENT OF AMENDMENTS TO RULES TO ESTABLISH WETLAND WATER QUALITY STANDARDS AND NEW RULES TO ESTABLISH PROCEDURES AND CRITERIA FOR REVIEW OF PROJECTS REQUIRING WATER QUALITY CERTIFICATION UNDER SECTION 401 OF THE CLEAN WATER ACT OR A STATE SURFACE WATER MODIFICATION PERMIT

PURPOSE OF NOTICE

The Indiana Department of Environmental Management (IDEM) has developed draft rule language to amend rules concerning water quality standards by incorporating wetland water quality standards and to add a new article to establish procedures and criteria for reviewing federally

permitted or licensed activities that require a water quality certification under Section 401 of the federal Clean Water Act. These activities include those regulated by the U.S. Army Corps of Engineers under Section 404 of the Clean Water Act and by the Federal Energy Regulatory Commission, such as licenses for hydroelectric facilities. Also included in the new article are procedures and criteria for issuing a state surface water modification permit for wetlands not regulated under Section 401 of the Clean Water Act but that are, nonetheless, waters of the state. By this notice, IDEM is soliciting public comment on the draft rule language. IDEM seeks comment on the affected citations listed and any other provisions of Title 327 that may be affected by this rulemaking.

HISTORY

First Notice of Comment Period: #94-5(WPCB), Indiana Register, September 1, 1994 (17 IR 3013), #97-3(WPCB), Indiana Register, April 1, 1997 (20 IR 1960), and #99-58(WPCB), Indiana Register, April 1, 1999 (22 IR 2349).

First Notice of Comment Period: #94-5(WPCB), Indiana Register, September 1, 1994 (17 IR 3013) #97-3(WPCB) Indiana Register, April 1, 1997 (20 IR 1960), and #99-58(WPCB), Indiana Register, April 1, 1999 (22 IR 2349).

Second Notice of Comment Period and Notice of First Hearing: December 1, 1999, Indiana Register (23 IR 643).

Rescheduled Notice of First Hearing: March 1, 2000, Indiana Register (23 IR 1418).

Rescheduled Notice of First Hearing: May 1, 2000, Indiana Register (23 IR 2017).

Date of First Hearing: June 14, 2000.

Date of Continued First Hearing: July 12, 2000.

Notice of Second Public Hearing: January 1, 2001, Indiana Register (24 IR 1043).

Notice of Canceled Public Hearing: February 1, 2001, Indiana Register (24 IR 1376).

CITATIONS AFFECTED: 327 IAC 2-1.8; 327 IAC 17.

AUTHORITY: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2; IC 13-18-3-3; IC 13-18-4-1; IC 13-18-4-3.

SUBJECT MATTER AND BASIC PURPOSE OF RULEMAKING

Indiana is required by federal law to establish water quality standards for all waters of the state including wetlands. This rulemaking will amend rules in 327 IAC 2 to establish specific water quality standards for Indiana's wetlands. Wetlands are generally areas that have plants that can live in water or wet soil, are wet (flooded or saturated) for all or part of the year, and have soils, such as muck or peat, that have formed under wet conditions.

This rulemaking will also create a new article, 327 IAC 17, to establish specific procedures and criteria to be used by IDEM's Office of Water Quality when it reviews applications for Section 401 water quality certification under the federal Clean Water Act. In determining whether to issue a certification, the state is required to review the proposed activity and determine whether the activity will meet certain federal and state requirements, including state water quality standards. The certification must contain conditions necessary to ensure compliance with applicable laws. In Indiana, this program is currently being implemented using IDEM's general statutory authority and the water quality standards rule (327 IAC 2-1).

In December 1999, IDEM published a second notice of rulemaking that included draft rule language. Since that time, IDEM has engaged

in many discussions with interested parties, the water pollution control board (board), and the Environmental Quality Service Council about the draft rules. In the midst of the many discussions concerning the wetland draft rules, the United States Supreme Court decided a case in January 2001 concerning the Army Corps of Engineers' authority to regulate isolated wetlands. The court determined that the Corps had exceeded its authority by regulating isolated wetlands and "imping[ed] the States' traditional and primary power over land and water use". IDEM believes it is appropriate to deal with isolated wetlands that will no longer be under review by the Corps through a new mechanism of permit issuance that has been added to this rulemaking.

The addition of the new permit program for a surface water modification permit and other changes to the 1999 draft rules have considerably changed the draft rules published in the initial Second Notice. IDEM, therefore, believes it is appropriate to publish another Second Notice with the revised language to allow all interested parties an opportunity to provide comment on the revised draft rule language prior to IDEM requesting preliminary adoption by the water pollution control board. Although comments on all portions of the draft rule are requested, IDEM is particularly interested in comments on the portions of the draft rule that have been added or amended since the initial Second Notice was published. In particular, IDEM is interested in comments related to the new Article 17 language, including the applicability of the Article, the concept of "prior converted wetlands", permit application review procedures, and public notice procedures. Comments and responses from the initial Second Notice and from this subsequent Second Notice will be included in the board packet prepared for the hearing held by the board to consider these draft rules for preliminary adoption.

REQUEST FOR PUBLIC COMMENTS

This notice requests the submission of comments on the draft rule language, including suggestions for specific revisions to language to be contained in the draft rule.

Mailed comments should be addressed to:

#99-58(WPCB) Wetland rules

MaryAnn Stevens

Office of Water Quality

Indiana Department of Environmental Management

P.O. Box 6015

Indianapolis, Indiana 46206-6015.

Hand delivered comments will be accepted by the IDEM receptionist on duty at the twelfth floor reception desk, Office of Water Quality, Indiana Government Center-North, Room 1255, 100 North Senate Avenue, Indianapolis, Indiana. Comments may be delivered by facsimile to (317) 232-8406. Please confirm the timely receipt of faxed comments by calling the Office of Water Quality Rules Section at (317) 233-8903.

COMMENT PERIOD DEADLINE

Comments must be postmarked, faxed, or hand delivered by October 30, 2001.

Additional information regarding this action may be obtained from MaryAnn Stevens, Rules Section, Office of Water Quality, (317) 232-8635, Andrew Pelloso, Water Quality Section, Office of Water Quality, (317) 233-2481, or (800) 451-6027 (in Indiana).

DRAFT RULE

SECTION 1. 327 IAC 2-1.8 IS ADDED TO READ AS FOLLOWS:

Rule 1.8. Wetland Water Quality Standards

327 IAC 2-1.8-1 Applicability

Authority: IC 13-14-8-1; IC 13-14-8-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 1. The wetland water quality standards established in this rule apply to wetlands located within the state. (*Water Pollution Control Board; 327 IAC 2-1.8-1*)

327 IAC 2-1.8-2 Definitions

Authority: IC 13-14-8-1; IC 13-14-8-2
 Affected: IC 13-11-2-265; IC 13-30; IC 14-22-34-1

Sec. 2. The following definitions apply throughout this rule:

(1) “Acid bog” means a wetland that typically includes the following characteristics:

- (A) Located within glacial, moraine, ice-block depressions, or kettles, and more rarely located in unglaciated areas.
- (B) The water regime is nonflowing or very slowly flowing.
- (C) Substrates are seasonally or permanently saturated.
- (D) Water chemistry is acidic.
- (E) Nutrient availability is low.
- (F) Composed of sphagnum peat or other low nutrient organic substrates.
- (G) Indicator plant species include one (1) or more of the following:

- (i) Arrow grass (*Scheuchzeria palustris americana*).
- (ii) Bog bladderwort (*Utricularia geminiscapa*).
- (iii) Bog rosemary (*Andromeda glaucophylla*).
- (iv) Bog spike rush (*Eleocharis robbinsii*).
- (v) Cordroot sedge (*Carex chordorrhiza*).
- (vi) Dense cotton grass (*Eriophorum spissum*).
- (vii) Dragon’s mouth (*Arethusa bulbosa*).
- (viii) Dwarf birch (*Betula pumila*).
- (ix) Grass pink (*Calopogon tuberosus*).
- (x) Gray bog sedge (*Carex canescens*).
- (xi) Hair star sedge (*Carex atlantica capillacea*).
- (xii) Hardhack (*Spiraea tomentosa rosea*).
- (xiii) Highbush blueberry (*Vaccinium corymbosum*).
- (xiv) Large cranberry (*Vaccinium macrocarpon*).
- (xv) Large-fruited star sedge (*Carex echinata*).
- (xvi) Leatherleaf (*Chamaedaphne calyculata angustifolia*).
- (xvii) Marsh St. John’s wort (*Hypericum virginicum*).
- (xviii) Moccasin flower (*Cypripedium acaule*).
- (xix) Mountain holly (*Nemopanthus mucronata*).
- (xx) Muck sedge (*Carex limosa*).
- (xxi) Narrow-leaved sundew (*Drosera intermedia*).
- (xxii) Orange fringed orchid (*Habenaria ciliaris*).
- (xxiii) Pitcher plant (*Sarracenia purpurea*).
- (xxiv) Poison sumac (*Rhus vernix*).
- (xxv) Round-leaved sundew (*Drosera rotundifolia*).
- (xxvi) Running bog sedge (*Carex oligosperma*).
- (xxvii) Rusty cotton grass (*Eriophorum virginicum*).
- (xxviii) Screwstem (*Bartonia virginica*).
- (xxix) Silky willow (*Salix sericea*).
- (xxx) Slender cotton grass (*Eriophorum gracile*).
- (xxxi) Small cranberry (*Vaccinium oxycoccus*).
- (xxxii) Smith’s tufted bulrush (*Scirpus smithii*).
- (xxxiii) Smooth white violet (*Viola pallens*).
- (xxxiv) Snake-mouth orchid (*Pogonia ophioglossoides*).
- (xxxv) Tamarack (*Larix laricina*).
- (xxxvi) Three-seeded bog sedge (*Carex trisperma*).

- (xxxvii) Two-seeded sedge (*Carex disperma*).
 - (xxxviii) Virginia chain fern (*Woodwardia virginica*).
 - (xxxix) White beak rush (*Rhynchospora alba*).
 - (xl) Yellow avens (*Geum aleppicum*).
- (2) “Calcareous sand” means a soil that is less than ten percent (10%) clay and more than eighty-five percent (85%) sand and effervesces with cold ten percent (10%) hydrochloric acid.
- (3) “Circumneutral bog” means a wetland that typically includes the following characteristics:
- (A) Located within glacial, moraine, ice-block depressions, or kettles, and more rarely located in unglaciated areas.
 - (B) Mineral-laden ground water inflow fluctuates with hydrostatic pressure.
 - (C) Water is nonflowing or very slowly flowing.
 - (D) Substrates are saturated and may rise or fall with seasonal water level fluctuations.
 - (E) Water chemistry is circumneutral to slightly acidic.
 - (F) Deep rooted vegetation may be exposed to the alkaline or circumneutral minerotrophic ground water while shallow roots inhabit more acidic layers of the peat substrate.
 - (G) Nutrient availability is low.
 - (H) Composed of sphagnum peat or other low nutrient organic substrates.
 - (I) Indicator plant species include one (1) or more of the following:
 - (i) Bog panicled sedge (*Carex diandra*).
 - (ii) Bog willow (*Salix pedicellaris hypoglaucia*).
 - (iii) Buckbean (*Menyanthes trifoliata minor*).
 - (iv) Flat-leaved bladderwort (*Utricularia intermedia*).
 - (v) Greenbog sedge (*Carex brunnescens*).
 - (vi) Highbush blueberry (*Vaccinium corymbosum*).
 - (vii) Marsh cinquefoil (*Potentilla palustris*).
 - (viii) Narrow-leaved woolly sedge (*Carex lasiocarpa americana*).
 - (ix) Northern gooseberry (*Ribes hirtellum*).
 - (x) Northern panic grass (*Panicum boreale*).
 - (xi) Pitcher plant (*Sarracenia purpurea*).
 - (xii) Poison sumac (*Rhus vernix*).
 - (xiii) Slender sedge (*Carex leptalea*).
 - (xiv) Small bladderwort (*Utricularia minor*).
 - (xv) Tamarack (*Larix laricina*).
 - (xvi) White beak rush (*Rhynchospora alba*).
- (4) “Commissioner” means the commissioner of the department of environmental management.
- (5) “Compensatory mitigation” means the restoration, creation, or rehabilitation of a wetland or other waters of the state to compensate for losses of designated and existing uses.
- (6) “Cypress swamp” means a forested wetland that typically includes the following characteristics:
- (A) Located within a depression or slough associated with one (1) or more of the following:
 - (i) Wabash River.
 - (ii) Ohio River.
 - (iii) The major tributaries of item (i) or (ii).
 - (B) Seasonally to permanently saturated or ponded.
 - (C) Water chemistry is indistinct.
 - (D) Nutrient availability is indistinct.
 - (E) Composed of very poorly drained soils, usually not peat.
 - (F) Indicator plant species include Bald cypress (*Taxodium distichum*) and one (1) or more of the following:
 - (i) American storax (*Styrax americana*).
 - (ii) Bloodleaf (*Iresine rhizomatosa*).

- (iii) Catbird grape (*Vitis palmata*).
 - (iv) Climbing hempweed (*Mikania scandens*).
 - (v) Featherfoil (*Hottonia inflata*).
 - (vi) Overcup oak (*Quercus lyrata*).
 - (vii) Swamp cottonwood (*Populus heterophylla*).
 - (viii) Water locust (*Gleditsia aquatica*).
 - (ix) White milkweed (*Asclepias perennis*).
- (7) "Designated uses" are those uses specified in this rule for each wetland whether or not they are being attained.
- (8) "Dune and swale" means a complex of sand dunes and wetlands that typically includes the following characteristics:
- (A) Sand hills, divided by low lying areas referred to as swales, that:
 - (i) are located adjacent to or near Lake Michigan; and
 - (ii) may contain one (1) or more of the following:
 - (AA) Wet prairies.
 - (BB) Pannes.
 - (CC) Coastal remnant communities.
 - (B) Hydrology is ground water driven.
 - (C) Water chemistry is alkaline and carbonate rich.
 - (D) Nutrient availability is indistinct.
 - (E) Substrate is wet calcareous sand.
 - (F) Indicator plant species include one (1) or more of the following:
 - (i) Beach pea (*Lathyrus japonicus glaber*).
 - (ii) Common bog arrow grass (*Triglochin maritima*).
 - (iii) Dune goldenrod (*Solidago racemosa gillmanii*).
 - (iv) Dune thistle (*Cirsium pitcheri*).
 - (v) Dune willow (*Salix syrticola*).
 - (vi) Early fen sedge (*Carex crawei*).
 - (vii) False golden sedge (*Carex garberi*).
 - (viii) False heather (*Hudsonia tomentosa*).
 - (ix) Fringed gentian (*Gentiana crinita*).
 - (x) Golden sedge (*Carex aurea*).
 - (xi) Green yellow sedge (*Carex viridula*).
 - (xii) Hair bladderwort (*Utricularia subulata*).
 - (xiii) Horned bladderwort (*Utricularia cornuta*).
 - (xiv) Humped bladderwort (*Utricularia gibba*).
 - (xv) Indian paintbrush (*Castilleja coccinea*).
 - (xvi) Jack pine (*Pinus banksiana*).
 - (xvii) Jointweed (*Polygonella articulata*).
 - (xviii) Kalm's St. John's wort (*Hypericum kalmianum*).
 - (xix) Large yellow sedge (*Carex flava*).
 - (xx) Northern panic grass (*Panicum boreale*).
 - (xxi) Pale false foxglove (*Agalinis skinneriana*).
 - (xxii) Prairie gray sedge (*Carex conoidea*).
 - (xxiii) Rose gentian (*Sabatia angularis*).
 - (xxiv) Sand club moss (*Selaginella rupestris*).
 - (xxv) Sea rocket (*Cakile edentula*).
 - (xxvi) Seaside spurge (*Euphorbia polygonifolia*).
 - (xxvii) Small yellow lady's slipper (*Cypripedium calceolus parviflorum*).
 - (xxviii) Tall nut rush (*Scleria triglomerata*).
 - (xxix) Twig rush (*Cladium mariscoides*).
 - (xxx) Wrinkle-sheathed spike (*Eleocharis olivacea*).
- (9) "Duration", in regard to inundation or soil saturation, means the length of time, during a growing season, when:
- (A) water stands at or above the soil surface; or
 - (B) the soil is saturated.
- (10) "Endangered species" means one (1) of the following:
- (A) Endangered species as defined in 16 U.S.C. 1532(6) and listed pursuant to 16 U.S.C. 1533*.

- (B) Endangered species as defined in IC 14-22-34-1 and listed by the department of natural resources in 312 IAC 9**.
- (11) "Existing uses" means those uses actually attained in the wetland on or after November 28, 1975, whether or not they are included under section 3 of this rule.
- (12) "Fen" means a wetland that typically includes the following characteristics:
- (A) Formed from the discharge of water that travels through carbonate rich formations.
 - (B) Located:
 - (i) in general, near glacial formations such as:
 - (AA) kames;
 - (BB) eskers; or
 - (CC) moraines; or
 - (ii) also near river bluffs or dunes and in flats associated with the glacial formations listed in item (i).
 - (C) Hydrology is minerotrophic ground water.
 - (D) The water regime is very slowly flowing water that fluctuates seasonally.
 - (E) Water chemistry is alkaline and rich in carbonates.
 - (F) Nutrient availability is low but with high mineral content.
 - (G) Substrate is marl, peat, or muck.
 - (H) Indicator plant species include one (1) or more of the following:
 - (i) Alder buckthorn (*Rhamnus alnifolia*).
 - (ii) Black ash (*Fraxinus nigra*).
 - (iii) Bog goldenrod (*Solidago uliginosa*).
 - (iv) Bog lobelia (*Lobelia kalmii*).
 - (v) Bog valerian (*Valeriana uliginosa*).
 - (vi) Common valerian (*Valeriana ciliata*).
 - (vii) Dwarf birch (*Betula pumila*).
 - (viii) Eastern white cedar (*Thuja occidentalis*).
 - (ix) False asphodel (*Tofieldia glutinosa*).
 - (x) Fen paniced sedge (*Carex prairea*).
 - (xi) Fen star sedge (*Carex sterilis*).
 - (xii) Grass of parnassus (*Parnassia glauca*).
 - (xiii) Hair beak rush (*Rhynchospora capillacea*).
 - (xiv) Hemlock parsley (*Conioselinum chinense*).
 - (xv) Lance-leaved buckthorn (*Rhamnus lanceolata*).
 - (xvi) Large yellow sedge (*Carex flava*).
 - (xvii) Low calamint (*Satureja arkansana*).
 - (xviii) Low nut rush (*Scleria verticillata*).
 - (xix) Marsh bellflower (*Campanula uliginosa*).
 - (xx) Marsh club moss (*Selaginella apoda*).
 - (xxi) Marsh wild timothy (*Muhlenbergia glomerata*).
 - (xxii) Mead's stiff sedge (*Carex meadii*).
 - (xxiii) Narrow-leaved cotton grass (*Eriophorum angustifolium*).
 - (xxiv) Narrow-leaved loosestrife (*Lysimachia quadriflora*).
 - (xxv) Northern bog orchid (*Habenaria hyperborea huronensis*).
 - (xxvi) Northern gooseberry (*Ribes hirtellum*).
 - (xxvii) Ohio goldenrod (*Solidago ohioensis*).
 - (xxviii) Prairie star sedge (*Carex interior*).
 - (xxix) Rough bedstraw (*Galium asprellum*).
 - (xxx) Rush aster (*Aster borealis*).
 - (xxxi) Sage willow (*Salix candida*).
 - (xxxii) Shrubby cinquefoil (*Potentilla fruticosa*).
 - (xxxiii) Slender bog arrow grass (*Triglochin palustris*).
 - (xxxiv) Small bladderwort (*Utricularia minor*).
 - (xxxv) Small fringed gentian (*Gentiana procera*).
 - (xxxvi) Snake-mouth orchid (*Pogonia ophioglossoides*).

- (xxxvii) Swamp goldenrod (*Solidago patula*).
 (xxxviii) Swamp thistle (*Cirsium muticum*).
 (xxxix) Sweet william phlox (*Phlox maculata*).
 (xl) Twig rush (*Cladium mariscoides*).
 (xli) White beak rush (*Rhynchospora alba*).
 (xlii) White lady's slipper (*Cypripedium candidum*).
 (xliii) Wicket spike rush (*Eleocharis rostellata*).
- (13) "Frequency", in regard to inundation or soil saturation, means the periodicity of coverage of an area by surface water or soil saturation.
- (14) "Growing season" means the portion of the year when soil temperature, measured twenty (20) inches below the surface, is above biological zero (0) (five (5) degrees Celsius or forty-one (41) degrees Fahrenheit).
- (15) "Habitat" means the environment occupied by individuals of a particular species, population, or community.
- (16) "Inundated" means a condition of temporary or permanent water coverage of a land surface.
- (17) "Marl" means a deposit of crumbling, earthy material composed of clays, carbonates of calcium and magnesium, and remnants of shells.
- (18) "Marl beach" means a fen-like wetland that typically includes the following characteristics:
- (A) Located along a lake shoreline mostly in the northeastern portion of Indiana.
 - (B) Shallowly inundated with water in the spring but dry during the summer.
 - (C) Water chemistry is alkaline.
 - (D) Nutrient availability is indistinct.
 - (E) Substrate is marl.
 - (F) Indicator plant species include one (1) or more of the following:
 - (i) Fen star sedge (*Carex sterilis*).
 - (ii) Flat-leaved bladderwort (*Utricularia intermedia*).
 - (iii) Golden-seeded spike rush (*Eleocharis elliptica*).
 - (iv) Hair beak-rush (*Rhynchospora capillacea*).
 - (v) Short-headed rush (*Juncus brachycephalus*).
 - (vi) Slender bog arrow grass (*Triglochin palustris*).
 - (vii) Twig rush (*Cladium mariscoides*).
 - (viii) Wicket spike rush (*Eleocharis rostellata*).
 - (ix) Wiry panic grass (*Panicum flexile*).
- (19) "Muck flat" means a shoreline or lakeshore wetland that typically includes the following characteristics:
- (A) Located in the northern portion of the state at the margins of lakes or covering shallow basins.
 - (B) Has a basin water level that fluctuates during a season or from year to year in response to the amount of precipitation.
 - (C) May float on the water surface but is usually inundated during high water periods and exposed periodically.
 - (D) Water chemistry is indistinct.
 - (E) Nutrient availability is indistinct.
 - (F) Substrate is peat.
 - (G) Indicator plant species include one (1) or more of the following:
 - (i) Autumn sedge (*Fimbristylis autumnalis*).
 - (ii) Black-fruited spike (*Eleocharis melanocarpa*).
 - (iii) Bog spike rush (*Eleocharis robbinsii*).
 - (iv) Brown-fruited rush (*Juncus pelocarpus*).
 - (v) Carey's heartsease (*Polygonum careyi*).
 - (vi) Chestnut sedge (*Fimbristylis puberula*).
 - (vii) Cross milkwort (*Polygala cruciata aquilonia*).
 - (viii) Floating bladderwort (*Utricularia inflata minor*).
- (ix) Grass beak rush (*Rhynchospora globularis recognita*).
 - (x) Horned beak rush (*Rhynchospora macrostachya*).
 - (xi) Hyssop hedge nettle (*Stachys hyssopifolia*).
 - (xii) Long-beaked bald rush (*Psilocarya scirpoides*).
 - (xiii) Meadow beauty (*Rhexia virginica*).
 - (xiv) Netted nut rush (*Scleria reticularis*).
 - (xv) Pipewort (*Eriocaulon septangulare*).
 - (xvi) Pursh's tufted bulrush (*Scirpus purshianus*).
 - (xvii) Round-headed rush (*Juncus scirpoides*).
 - (xviii) Sand panic grass (*Panicum spretum*).
 - (xix) Sessile water horehound (*Lycopus amplexans*).
 - (xx) Slender-leaved goldenrod (*Solidago tenuifolia*).
 - (xxi) Smith's tufted bulrush (*Scirpus smithii*).
 - (xxii) Southern yellow flax (*Linum intercursum*).
 - (xxiii) Stiff yellow flax (*Linum striatum*).
 - (xxiv) Tall yellow-eyed grass (*Xyris difformis*).
 - (xxv) Umbrella sedge (*Fuirena pumila*).
 - (xxvi) Warty panic grass (*Panicum verrucosum*).
 - (xxvii) Water pennywort (*Hydrocotyle umbellata*).
 - (xxviii) Wrinkle-sheathed spike (*Eleocharis olivacea*).
 - (xxix) Yellow-eyed grass (*Xyris torta*).
- (20) "Practicable" means available and capable of being done after taking into consideration cost, existing technology, and logistics in light of overall project purposes.
- (21) "Rehabilitation" means the remediation of factors causing degradation of existing and designated uses of a wetland.
- (22) "Restoration" means the manipulation of a site for the purpose of returning the site, which was previously a wetland, back into a wetland.
- (23) "Sand flat" means a shoreline or lakeshore wetland located in the northern portion of Indiana that has the same characteristics as a muck flat with the exception that the substrate is composed of sand.
- (24) "Saturated" means a situation where all easily drained voids between soil particles in the root zone are temporarily or permanently filled with water up to the soil surface at a pressure greater than atmospheric pressure.
- (25) "Sinkhole pond" means a wetland that typically includes the following characteristics:
- (A) Located within depressions formed by chemical and physical weathering of the underlying limestone.
 - (B) Found in the karst region of southern Indiana.
 - (C) Permanently inundated or saturated with water and dry only in drought years.
 - (D) Water chemistry is alkaline to circumneutral.
 - (E) Nutrient availability is indistinct.
 - (F) Substrate is indistinct.
 - (G) Indicator plant species include one (1) or more of the following:
 - (i) Branched bur reed (*Sparganium angrocladum*).
 - (ii) Bristly sedge (*Carex comosa*).
 - (iii) Broad-leaved paniced sedge (*Carex decomposita*).
 - (iv) Humped bladderwort (*Utricularia gibba*).
 - (v) Sharp scaled manna grass (*Glyceria acutiflora*).
 - (vi) Swamp loosestrife (*Decodon verticillatus*).
 - (vii) Three-way sedge (*Dulichlum arundinaceum*).
 - (viii) Water-hissop (*Bacopa rotundifolia*).
- (26) "Sinkhole swamp" means a wetland that typically has the following characteristics:
- (A) Located within depressions formed by chemical and physical weathering of the underlying limestone.
 - (B) Found in the karst region of southern Indiana.

(C) Permanently inundated or saturated with water and dry only in drought years.

(D) Water chemistry is alkaline to circumneutral.

(E) Nutrient availability is indistinct.

(F) Substrate is indistinct.

(G) Indicator plant species include one (1) or more of the following:

(i) Broad-leaved panicled sedge (*Carex decomposita*).

(ii) Greater hop sedge (*Carex gigantea*).

(iii) Horned beak rush (*Rhynchospora corniculata*).

(iv) Marsh elder (*Itea virginica*).

(v) Netted chain fern (*Woodwardia areolata*).

(vi) Small spearwort (*Ranunculus pusillus*).

(vii) Swamp cottonwood (*Populus heterophylla*).

(viii) Walter's St. John's wort (*Triadenum walteri*).

(27) "Threatened species" means one (1) or more of the following:

(A) "Threatened species" as defined in 16 U.S.C. 1532(20) and listed pursuant to 16 U.S.C. 1533*.

(B) "Threatened species" as defined in 312 IAC 9-1-14 and listed by the department of natural resources in 312 IAC 9**.

(28) "Waters" or "waters of the state" has the meaning set forth in IC 13-11-2-265.

(29) "Wetland" means an area that is inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. For the purpose of this rule, wetlands will be determined and delineated using the U.S. Army Corps of Engineers Wetland Delineation Manual, Technical Report Y-87-1, January 1987***.

*The federal endangered and threatened species listed by the United States Fish and Wildlife Service pursuant to 16 U.S.C. 1533 is incorporated by reference. Copies of this list may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206.

**312 IAC 9 is incorporated by reference. Copies of this list may be obtained from the Indiana Department of Natural Resources, Indiana Government Center-South, 402 West Washington Street, Indianapolis, Indiana 46206 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206.

***The Corps of Engineers Wetlands Delineation Manual, Technical Report Y-87-1 is incorporated by reference. Copies of this manual may be obtained from the U.S. Army Engineer Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, Mississippi 39180 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206. (*Water Pollution Control Board; 327 IAC 2-1.8-2*)

327 IAC 2-1.8-3 Wetland designated uses

Authority: IC 13-14-8-1; IC 13-14-8-2

Affected: IC 13-18-3; IC 13-18-4

Sec. 3. All wetlands are designated to include the following uses:

(1) Habitat for a well-balanced biotic community that is composed of the flora and fauna typical of the wetland type, including the following:

(A) Habitat for aquatic organisms, that may include the following:

(i) Fish.

(ii) Crustaceans.

(iii) Mollusks.

(iv) Insects.

(v) Annelids.

(vi) Planktonic organisms.

(B) Habitat for wetland flora.

(C) Habitat for resident and transient wildlife species, including water dependent mammals, birds, reptiles, and amphibians.

(2) Surface and ground water movement that may include low water stream flow, ground water discharge, ground water recharge, and peak flow suppression.

(3) Recreational and natural aesthetic uses.

(*Water Pollution Control Board; 327 IAC 2-1.8-3*)

327 IAC 2-1.8-4 Classification of wetlands

Authority: IC 13-14-8-1; IC 13-14-8-2

Affected: IC 13-18-3; IC 13-18-4

Sec. 4. A wetland, other than a wetland that has been designated as an outstanding state resource water, pursuant to section 7 of this rule, or an outstanding national resource water, pursuant to section 8 of this rule, shall be classified as a Tier I or a Tier II wetland based upon the wetland's sensitivity to disturbance, rarity, and potential to be adequately replaced by compensatory mitigation. A wetland shall be classified as follows:

(1) Tier I unless the wetland is classified as a Tier II wetland under subdivision (2).

(2) Tier II if the wetland is one (1) of the following types:

(A) Acid bog.

(B) Circumneutral bog.

(C) Cypress swamp.

(D) Fen.

(E) Dune and swale.

(F) Muck flat.

(G) Sinkhole pond.

(H) Sinkhole swamp.

(I) Sand flat.

(J) Marl beach.

(*Water Pollution Control Board; 327 IAC 2-1.8-4*)

327 IAC 2-1.8-5 Wetland antidegradation implementation standard and procedures

Authority: IC 13-14-8-1; IC 13-14-8-2

Affected: IC 13-18-3; IC 13-18-4; IC 13-18-7; IC 13-23-13; IC 13-24-1; IC 13-25-5; IC 36-9-27

Sec. 5. (a) Designated and existing uses for Tier I and Tier II wetlands must be maintained and protected so that impacts to a wetland does not result in a net loss of wetland acreage or uses, except as allowed by this section.

(b) The following antidegradation requirements apply to wetlands:

(1) For a Tier I wetland, designated and existing uses must be maintained and protected, and no degradation shall be allowed unless the following are demonstrated to the commissioner's satisfaction prior to any impact occurring to the Tier I wetland:

(A) There is no practicable alternative that would have less adverse impact on the wetland ecosystem.

(B) The impact will not result in significant degradation to the aquatic ecosystem, as determined using the criteria set forth in 40 CFR 230.10(c)*.

(C) Potential adverse impacts to the wetland will be minimized.

(D) Compensatory mitigation will replace the impacted wetland and its uses with a wetland of the same type that supports uses equal to or higher than existing uses of the impacted wetland unless it is determined to be unnecessary by the commissioner because no significant impacts to water quality will occur. Wetland impacts greater than one-tenth (0.1) acre shall be considered significant. For all other impacts, the commissioner shall consider the following factors to determine whether a project will have a significant impact on water quality:

(i) Whether the purpose of the project is to maintain, repair, or rehabilitate existing structures. For purposes of this item, structures do not include drains or other drainage structures defined or regulated by IC 36-9-27.

(ii) The secondary and cumulative impacts of the project.

(iii) The proximity and hydrologic connection of the wetland proposed to be impacted to other waterbodies.

(iv) The duration of the activity associated with the project.

(v) The plant species diversity and fish and wildlife habitat components of the water to be impacted.

(vi) Whether the project is being undertaken to control, abate, or correct an environmental problem or threat to the environment, including a response action pursuant to one (1) of the following:

(AA) The Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)*.

(BB) A corrective action pursuant to the Resource Conservation Recovery Act (42 U.S.C. 6901)*.

(CC) An underground storage tank corrective action under IC 13-23-13.

(DD) A remediation of petroleum releases under IC 13-24-1.

(EE) A voluntary remediation under IC 13-25-5.

(FF) An abatement or correction of any polluted condition under IC 13-18-7.

(2) For a Tier II wetland, the following requirements apply:

(A) Designated and existing uses shall be maintained and protected and no degradation shall be allowed unless the following are demonstrated to the commissioner's satisfaction prior to any impact occurring to the Tier II wetland:

(i) There is no practicable alternative that would have less adverse impact on the wetland ecosystem. Practicable alternatives are presumed to be available for a Tier II wetland unless it is clearly demonstrated otherwise.

(ii) Potential adverse impacts to the wetland will be minimized.

(iii) The impact will not result in significant degradation to the aquatic ecosystem, as determined using the criteria set forth in 40 CFR 230.10(c)*.

(B) Compensatory mitigation shall be required for all significant impacts to Tier II wetlands and shall be:

(i) performed to replace the existing Tier II wetland and its uses with a wetland of the same type that supports uses equal to or higher than existing uses of the impacted wetland; and

(ii) completed by the applicant and determined to be successful by the department prior to the department's authorization of any impact to the wetland.

(C) The applicant shall demonstrate, using the procedures set forth in 327 IAC 17-3-5, that the proposed degradation is necessary to accommodate important social and economic development in the area in which the waterbody is located.

(D) Upon receipt of a complete antidegradation demonstration, the commissioner shall provide public notice, request comment, and, if requested, schedule and hold a public meeting on the demonstration.

(c) In addition to the other provisions of this section, the commissioner shall consider the following in determining whether to allow an impact to a wetland:

(1) The designated and existing uses that a wetland provides.

(2) The anticipated effect of the proposed impact on a wetland that:

(A) permanently or seasonally contains a threatened or endangered species; or

(B) provides habitat for a threatened or endangered species; as determined after consultation with the department of natural resources.

(3) Water quality impacts, including the cumulative impacts in a watershed, that may be a consequence of approving a request to impact a wetland.

(d) The commissioner shall ensure that no degradation of a wetland designated as an outstanding state resource water (OSRW) or outstanding national resource water (ONRW) will occur. Degradation to these wetlands is prohibited unless the following conditions are met:

(1) The impact will last less than twelve (12) months.

(2) The person intending to cause the impact first receives authorization from the department for the impact.

(3) The applicant minimizes and justifies the short term, temporary impact to the satisfaction of the commissioner.

(4) The applicant demonstrates to the commissioner that no practicable alternative exists to avoid the impact using the criteria set forth in 327 IAC 17-3-5.

(5) The applicant remediates any impact to the wetland.

*40 CFR 230.10(c), 42 U.S.C. 9601, and 42 U.S.C. 6901 are incorporated by reference. Copies of these laws may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206. (*Water Pollution Control Board; 327 IAC 2-1.8-5*)

327 IAC 2-1.8-6 Minimum water quality criteria for wetlands

Authority: IC 13-14-8-1; IC 13-14-8-2

Affected: IC 13-18-3; IC 13-18-4

Sec. 6. (a) In addition to the criteria set forth in subsections (b), (c), and (d), the following criteria apply at all times and places to wetlands:

(1) For wetlands located within the Great Lakes Basin, water quality criteria set forth in:

(A) 327 IAC 2-1.5-8(b);

(B) 327 IAC 2-1.5-8(c)(1);

(C) 327 IAC 2-1.5-8(c)(5); and

(D) 327 IAC 2-1.5-8(e).

(2) For wetlands located outside of the Great Lakes Basin, water quality criteria set forth in:

- (A) 327 IAC 2-1-6(a);
- (B) 327 IAC 2-1-6(b)(1);
- (C) 327 IAC 2-1-6(b)(5); and
- (D) 327 IAC 2-1-6(d).

(b) Hydrological conditions necessary to support the biological, chemical, and physical characteristics naturally present in wetlands shall be protected to prevent significant adverse impacts on the following:

- (1) Water temperature variations.
- (2) The chemical, nutrient, and dissolved oxygen regime of a wetland.
- (3) The movement of aquatic fauna.
- (4) The pH range of a wetland.
- (5) Water flows, levels, or elevations.
- (6) Extent and duration of saturation and inundation.

(c) Water quality necessary to support existing habitats and the populations of water dependent flora and fauna shall be protected to prevent significant adverse impacts on the following:

- (1) Food supplies for aquatic life and wildlife.
- (2) Reproductive and nursery areas.

(d) If the source of fecal contamination is shown to be solely from uncontrollable, nonanthropogenic sources, such as wildlife or waterfowl, or both, a use attainability analysis may be used to:

- (1) demonstrate that a wetland's current designated use is not an existing use and is not attainable; and
- (2) propose a change to the designated use.

(Water Pollution Control Board; 327 IAC 2-1.8-6)

327 IAC 2-1.8-7 Criteria to designate a wetland as an outstanding national resource water

Authority: IC 13-14-8-1; IC 13-14-8-2
 Affected: IC 13-18-3; IC 13-18-4; IC 14-31-1-8; IC 14-31-1-11

Sec. 7. A wetland that may be considered for designation as an outstanding national resource water includes a wetland that is recognized for one (1) or more of the following reasons:

- (1) Protection through official action, such as:
 - (A) federal or state law;
 - (B) presidential or secretarial action;
 - (C) international treaty; or
 - (D) interstate compact.
- (2) Exceptional recreational significance.
- (3) Exceptional ecological significance.
- (4) Other special environmental, recreational, or ecological attributes.
- (5) Designation as an outstanding national resource water that is reasonably necessary for the protection of other waters similarly designated.

(Water Pollution Control Board; 327 IAC 2-1.8-7)

327 IAC 2-1.8-8 Procedures for designating a wetland as an outstanding national resource water

Authority: IC 13-14-8
 Affected: IC 13-14-9; IC 13-18-3; IC 13-18-4

Sec. 8. (a) A wetland may be designated as an outstanding national resource water (ONRW) only by the general assembly after recommendations for designation are made to the general assembly by the water pollution control board and the environmental quality service council.

- (b) Before recommending the designation of an ONRW, the

department shall provide for an adequate public notice and comment period regarding the designation. The commissioner shall present a summary of the comments and information received during the comment period and the department's recommendation concerning designation no later than ninety (90) days after the end of the comment period. *(Water Pollution Control Board; 327 IAC 2-1.8-8)*

SECTION 2. 327 IAC 17 IS ADDED TO READ AS FOLLOWS:

ARTICLE 17. WATER QUALITY CERTIFICATION AND SURFACE WATER MODIFICATION PERMIT

Rule 1. General Provisions

327 IAC 17-1-1 Purpose

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 1. (a) This article governs the issuance of water quality certifications by the department under Section 401 of the Clean Water Act, 33 U.S.C. 1341 and the issuance of state surface water modification permits. This article establishes procedures and criteria for the review of applications for projects that would alter waters of the state through the placement of dredged or fill materials, excavation, or mechanical clearing of vegetation. This article sets forth the requirements to obtain either a state surface water modification permit or a state water quality certification required by Section 401 of the Clean Water Act, 33 U.S.C. 1341 for the aforementioned activities.

(b) It is the purpose of this article, consistent with the Clean Water Act, to maintain the chemical, physical, and biological integrity of the waters of the state and achieve no overall net loss of the existing wetlands resource base with respect to wetlands acreage and existing and designated uses in the state. *(Water Pollution Control Board; 327 IAC 17-1-1)*

327 IAC 17-1-2 Applicability of Section 401 water quality certifications

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 2. (a) Section 401(a)(1) of the Clean Water Act requires that an applicant for a federal license or permit to conduct any activity, including the construction or operation of facilities, that may result in any discharge into waters of the United States, shall obtain, from the state where the discharge does or will originate, a water quality certification that the discharge will comply with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act (33 U.S.C. 1311, 33 U.S.C. 1312, 33 U.S.C. 1313, 33 U.S.C. 1316, and 33 U.S.C. 1317). Section 401(d) of the Clean Water Act requires the water quality certification to set forth any requirements necessary to assure that the applicant will comply with the applicable provisions of the Clean Water Act and state law, including water quality standards.

(b) Federal permits or licenses to which this rule applies include the following:

- (1) A permit from the U.S. Army Corps of Engineers issued pursuant to either of the following:
 - (A) Section 10 of the River and Harbors Act (33 U.S.C. 41).
 - (B) Section 404 of the Clean Water Act (33 U.S.C. 1344).
- (2) A license issued by the Federal Energy Regulatory Commission. *(Water Pollution Control Board; 327 IAC 17-1-2)*

327 IAC 17-1-3 Applicability for state surface water modification permits

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 3. (a) A surface water modification permit is required for those activities that do not require a water quality certification under section 2 of this rule and involve placement of dredged or fill materials, excavation, or mechanical clearing of vegetation in waters of the state. No activity conducted in a prior converted wetland is subjected to the requirements of a surface water modification permit.

(b) A surface water modification permit is required for an activity that meets the requirements of subsection (a) and for which the department would have required a National Pollutant Discharge Elimination System (NPDES) permit for the activity if it had commenced prior to the effective date of this rule with the exception that the following activities are exempted from needing to be authorized by a surface water modification permit:

- (1) Normal farming, silviculture, or ranching activities, such as one (1) or more of the following:
 - (A) Plowing.
 - (B) Seeding.
 - (C) Cultivating.
 - (D) Minor drainage.
 - (E) Harvesting for the production of food, fiber, and forest products.
 - (F) Upland soil and water conservation practices.
- (2) Maintenance, including emergency reconstruction, of one (1) or more of the following:
 - (A) Recently damaged parts.
 - (B) Currently serviceable structures, such as:
 - (i) dikes;
 - (ii) dams;
 - (iii) levees;
 - (iv) groins;
 - (v) riprap;
 - (vi) breakwaters;
 - (vii) causeways; and
 - (viii) bridge abutments or approaches.
 - (C) Transportation structures.
- (3) Construction or maintenance of farm roads, forest roads, or temporary roads for moving mining equipment if these roads are constructed and maintained in accordance with best management practices to assure the following:
 - (A) Flow and circulation patterns and chemical and biological characteristics of the waters of the state are not impaired.
 - (B) The reach of the waters of the state is not reduced.
 - (C) Any adverse effect on the aquatic environment is minimized.

(c) A surface water modification permit, if issued by the department, may serve as a water quality certification for the purposes of Section 401 of the Clean Water Act, 33 U.S.C. 1341. (*Water Pollution Control Board; 327 IAC 17-1-3*)

327 IAC 17-1-4 Definitions

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-2
 Affected: IC 13-11-2-265

Sec. 4. In addition to the applicable definitions contained in IC 13-11-2, the following definitions apply throughout this article:

- (1) "Adjacent property owner" means an owner of land that is adjacent to the site of a proposed project that is the subject of a water quality certification or surface water modification permit application.
- (2) "Administrator" means the administrator of the United States Environmental Protection Agency or an authorized representative, including the regional administrator for Region V.
- (3) "Applicable provisions of federal and state law" means the provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act (33 U.S.C. 1311, 33 U.S.C. 1312, 33 U.S.C. 1313, 33 U.S.C. 1316, and 33 U.S.C. 1317) and other appropriate provisions of Indiana law, including state water quality standards.
- (4) "Applicant", for purposes of an application for a water quality certification or a surface water modification permit, means one (1) or more of the following:
 - (A) A responsible corporate officer in a corporation.
 - (B) A general partner or the proprietor, respectively, of a partnership or sole proprietorship.
 - (C) A principle executive officer or ranking elected official for a municipality, state or federal agency, or other political subdivision.
 - (D) An individual.
- (5) "Certification" as used in this article means a state water quality certification required by Section 401 of the Clean Water Act.
- (6) "Channel" means the flow path of a waterway, including streams, ditches, rivers, and other related water courses.
- (7) "Channelization" means the alteration of a natural stream channel either by dredging, excavating, or bank armoring in order to straighten, deepen, or otherwise alter the flow path and velocity of water traveling within the channel.
- (8) "Clean Water Act" means the Federal Water Pollution Control Act (33 U.S.C. 1341).
- (9) "Commencement" means the initiation of activities that:
 - (A) are necessary to accomplish the construction of a project authorized by this article; and
 - (B) include, for example, but are not limited to, one (1) or more of the following conducted within areas regulated under this article:
 - (i) Site grading.
 - (ii) Clearing of vegetation.
 - (iii) Creation of haul roads.
- (10) "Commissioner" means the commissioner of the department of environmental management.
- (11) "Compensatory mitigation" means the restoration, creation, or rehabilitation of a wetland or other waters of the state to compensate for losses of designated and existing uses.
- (12) "Corps general permit" means a permit that:
 - (A) authorizes a category of discharges of dredged or fill material under the Clean Water Act where the categories of discharge:
 - (i) are similar in nature;
 - (ii) will cause only minimal adverse environmental effects when performed separately;
 - (iii) will have only minimal cumulative adverse effect on the environment; and
 - (B) is issued by the Corps of Engineers pursuant to 33 U.S.C. 1344(e).
- (13) "Corps individual permit" means a permit issued by the Corps of Engineers pursuant to 33 U.S.C. 1344(a).
- (14) "Corps of Engineers" means the United States Department of the Army, Corps of Engineers.

- (15) "Creation" means the manipulation of a site that previously has not been a wetland into a wetland site.
- (16) "Cumulative impacts" means the effects on waters of the state that are attributable to the collective effect of discharges, secondary effects and other activities associated with other projects.
- (17) "Deep water" means areas that are permanently inundated at mean annual water depths greater than six and six-tenths (6.6) feet. These are areas that are not wetlands but may be adjacent to or surrounded by wetlands and may include lakes, rivers, ponds, and borrow pits.
- (18) "Department" means the department of environmental management.
- (19) "Emergent wetland" means a wetland that is characterized by erect, rooted, herbaceous hydrophytes, excluding mosses and lichens.
- (20) "Enhancement" means the conversion of one wetland type to another with a higher perceived value; it is considered to be an impact to a wetland's existing and designated uses.
- (21) "Farmed wetland" means a wetland that meets the following conditions:
- (A) Was drained, dredged, filled, leveled, or otherwise manipulated prior to December 23, 1985, in order to make possible the production of an agricultural commodity.
 - (B) An agricultural commodity was produced at least once prior to December 23, 1985.
 - (C) Specific wetland hydrology criteria continues to be met after manipulation of the site.
 - (D) The wetland site remains in agricultural use.
- (22) "Fill material" means substances that meet the following:
- (A) Earth matter, including but not limited to, rock, gravel, sand, or soil that when placed in position causes one (1) or more of the following:
 - (i) Replacement of any portion of a water of the state with dry land.
 - (ii) Change in the bottom elevation of any portion of a water of the state.
 - (B) Are not discharges that are covered by:
 - (i) proposed or final effluent limitation guidelines and standards under Sections 301, 304, and 306 of the Clean Water Act; or
 - (ii) an NPDES (National Pollutant Discharge Elimination System) permit issued under Section 402 of the Clean Water Act.
- (23) "Final decision" means a decision by the commissioner to issue, deny, modify, revoke, or waive a Section 401 water quality certification or surface water modification permit.
- (24) "Forested wetland" means a wetland dominated by woody vegetation that has a diameter, at breast height, greater than three (3) inches, regardless of total height. Wetlands that have been cleared of woody vegetation within five (5) years previous to the project will be considered forested wetlands by the department.
- (25) "Mechanical clearing" means an activity conducted in an area defined as a wetland that results in the following:
- (A) Removal of trees, shrubs, and other vegetation through the use of tracked or wheeled vehicles, such as bulldozers, hydraulic excavators, or backhoes.
 - (B) The soil and the root systems of vegetation are disturbed by this activity.
- (26) "Open water" means areas of a wetland that are permanently inundated at mean annual water depths less than or equal to six and six-tenths (6.6) feet. These areas may contain little or no vegetation.
- (27) "Permit" as used in this article means a state surface water modification permit.
- (28) "Practicable" means available and capable of being done after taking into consideration cost, existing technology, and logistics in light of project purposes.
- (29) "Preservation" means the maintenance and protection of a wetland as a wetland in perpetuity via a deed restriction or a conservation easement to insure that designated and existing uses are protected from anthropogenic activities.
- (30) "Prior converted wetland" means a wetland that meets the following conditions:
- (A) Was converted to cropland prior to December 23, 1985.
 - (B) Was used to produce an agricultural commodity at least once before December 23, 1985.
 - (C) Did not support woody vegetation on December 23, 1985.
 - (D) As of December 23, 1985, the wetland site was inundated, in fifty percent (50%) or more of the years, for the lesser of the following periods of time:
 - (i) Fifteen (15) or less consecutive days during the growing season.
 - (ii) Ten percent (10%) of the growing season.
- (31) "Rehabilitation" means the remediation of factors causing degradation of existing and designated uses of a wetland.
- (32) "Relocation" means the alteration of the flow line of a waterway, including new alignments, tiling, piping, or other related practices.
- (33) "Restoration" means the manipulation of a site that previously was a wetland by returning the site to wetland.
- (34) "Scrub-shrub wetland" means a wetland dominated by woody vegetation having a height greater than three and two-tenths (3.2) feet and a stem diameter less than three (3) inches. This includes true shrubs, young trees, and trees or shrubs stunted by environmental conditions.
- (35) "Secondary impacts" means impacts on waters of the state that are associated with a discharge but do not result from the actual discharge.
- (36) "Shaping or other alteration" means:
- (A) the manipulation of streambanks to make the channel wider or narrower; or
 - (B) an alteration of the slopes of streambanks.
- (37) "Surface water modification permit" means an authorization issued by the department of environmental management and required for the following activities occurring in waters of the state:
- (A) Those that do not require a water quality certification.
 - (B) Those that involve:
 - (i) placement of dredged or fill materials;
 - (ii) excavation; or
 - (iii) mechanical clearing of vegetation.
- (38) "Tier I wetland" means a wetland classified as such according to 327 IAC 2-1.8-4.
- (39) "Tier II wetland" means a wetland classified as such according to 327 IAC 2-1.8-4.
- (40) "Water dependent" means a project that requires access to, proximity to, or siting within a waterbody in order to fulfill the basic purpose of the project.
- (41) "Water quality certification" means a Section 401 water quality certification issued by the department.
- (42) "Waters" or "waters of the state" has the meaning set forth in IC 13-11-2-265.

(43) "Waters of the United States" means those waters as defined in 33 CFR 328.*

(44) "Watershed" means a geographic region within which water drains into a particular river, stream, or other body of water.

(45) "Wetland" means an area that is inundated or saturated by surface or ground water at a frequency and duration sufficient to support and, that under normal circumstances, does support a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas. For the purpose of this article, wetlands will be determined and delineated using the U.S. Army Corps of Engineers Wetland Delineation Manual, Technical Report Y-87-1, January 1987**.

Rule 2. Application and Notice

327 IAC 17-2-1 Application requirements

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 1. (a) An application for a water quality certification or a surface water modification permit must be submitted to and approved by the commissioner in advance of commencement of the project and must:

- (1) be on a form approved by the commissioner;
- (2) be complete;
- (3) be legible;
- (4) contain the signed statement required by subsection (b);
- (5) be signed by the applicant;
- (6) include a wetland delineation performed in accordance with procedures established by the Corps of Engineers according to the Corps of Engineers Wetlands Delineation Manual, Technical Report Y-87-1 (January 1987)*, depicting all wetlands on the subject property;
- (7) provide a list of names and addresses of property owners adjacent to the proposed project; and
- (8) provide the alternatives analysis described by 327 IAC 17-3-4(b) and 327 IAC 17-3-5(b).

(b) An application required by subsection (a) must contain the statement, signed by the applicant, "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information,

including the possibility of fine and imprisonment for knowing violations."

(c) If the applicant is a corporation or otherwise not an individual, the application must contain the name of the individual who shall be primarily responsible for the project that is to be certified.

(d) The applicant has the burden of proving that its project will comply with the applicable provisions of federal and state law.

*The Corps of Engineers Wetlands Delineation Manual, Technical Report Y-87-1 is incorporated by reference. Copies of this manual may be obtained from the U.S. Army Engineer Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, Mississippi 39180 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206. (*Water Pollution Control Board; 327 IAC 17-2-1*)

327 IAC 17-2-2 Application review time schedule

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 4-22-2-37.1; IC 13-18-3; IC 13-18-4

Sec. 2. (a) An application review period:

(1) begins on the earlier of the date that:

- (A) an application for a water quality certification or a surface water modification permit is received and stamped received by the department; or
- (B) the department marks on a certified mail return receipt accompanying an application; and

(2) ends on the date a decision is issued to approve or deny the application.

(b) The commissioner and an applicant may agree in writing to extend any time allowed under this section for a decision to be made on an application as long as no extension exceeds one (1) year from the date of receipt of the original application.

(c) The commissioner may deny a permit application if the following conditions occur:

(1) The department, not later than thirty-five (35) working days after receiving the application, identifies each part of the application that is incomplete or insufficient and sends the applicant a written notice of deficiency that:

- (A) lists the incomplete parts of the application;
- (B) may include a request for the applicant to conduct tests or sampling to provide information necessary for the department to process the application; and
- (C) must be answered with the applicant's submission of complete information to satisfy all deficiencies described in the notice of deficiency.

(2) The applicant fails to submit or make a good faith effort to submit the information requested under subdivision (1) not later than sixty (60) days after receiving a written notice of deficiency from the department.

(d) If two (2) notices of deficiency have been issued on an application and the department determines it still does not have sufficient or complete information to allow review of the application, then the application shall be denied and returned to the applicant.

(e) The commissioner may suspend the processing of an application if one (1) of the following occurs:

(1) The department has determined that the application is

incomplete or contains insufficient information and has mailed a notice of deficiency according to subsection (c)(1) to the applicant specifying the parts of the application that:

(A) do not contain adequate information for the department to process the application; or

(B) are not consistent with applicable law.

(2) The department determines that the applicant's response to the notice of deficiency is inadequate, and within thirty (30) working days after receiving the applicant's response to the notice of deficiency, the department notifies the applicant of the continuing deficiency.

(3) The commissioner receives a written request from an applicant to:

(A) withdraw; or

(B) defer processing of;

the application for the purposes of resolving an issue related to an application or to provide additional information concerning the application.

(4) A board initiates emergency rulemaking under IC 4-22-2-37.1(a)(14) to revise the review period.

(f) The commissioner shall resume processing an application, and the review period:

(1) resumes on the earlier of the date that:

(A) the department receives and date stamps as received the applicant's complete information; or

(B) the department marks on a certified mail return receipt accompanying the applicant's complete information; and

(2) shall last no longer than one hundred twenty (120) days exclusive of the days the review period is suspended according to this section.

(Water Pollution Control Board; 327 IAC 17-2-2)

327 IAC 17-2-3 Public notice of applications for water quality certifications and surface water modification permits

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2

Affected: IC 13-18-3; IC 13-18-4

Sec. 3. (a) Except as provided in subsection (g), the commissioner shall provide public notice of and an opportunity to comment on applications submitted to the department for water quality certifications and surface water modification permits.

(b) The public notice must contain the following information:

(1) The applicable statutory and regulatory authority.

(2) The name and address of the applicant and, if any, the applicant's agent.

(3) The name, address, and telephone number of the department's employee who may be contacted concerning the application.

(4) The location of the proposed project, including the fourteen (14) digit hydrologic code of the watershed where the project is located.

(5) A brief description of the proposed project, including the following:

(A) Its purpose and intended use.

(B) A description of any structures that are to be erected.

(C) The type, composition, and quantity of materials to be disposed of or discharged.

(D) Possible impacts to wetlands, streams, or other waters of the state.

(E) A description of any compensatory mitigation proposed by the applicant.

(6) A statement telling where the public may view or obtain a copy of the plan and elevation drawing, if reproducible, showing the general and specific site location.

(7) A statement that the comment period deadline is twenty-one (21) calendar days from the date of mailing of the public notice unless otherwise specified.

(8) A statement that any person may request in writing that a public hearing or meeting be held to consider the application.

(c) The department shall provide notice of an application to the following:

(1) The applicant.

(2) Adjacent property owners, as provided by the applicant under section 1(a)(7) of this rule.

(3) The following agencies:

(A) Department of natural resources.

(B) United States Environmental Protection Agency.

(C) United States Fish and Wildlife Service.

(D) Any state or federal agency responsible for issuing water quality certification, a surface water modification permit, or the equivalent of either in any other state whose water quality may be adversely affected by a proposed project.

(E) Affected county and local plan commissions.

(4) Any person who requests copies of public notices of applications.

(d) The department shall consider comments received during the public comment period and may forward those comments, via certified mail, within five (5) working days after the close of the comment period, to the applicant for a response. The applicant shall respond, within fourteen (14) days of receipt of the comments forwarded by the department, and provide the department a written response to any comments, with the following exceptions:

(1) If an applicant requires additional time to respond to comments, the applicant shall inform the department of this need in writing within the fourteen (14) day response time period.

(2) The department may place an application on hold for a time period agreed upon with the applicant requesting additional time.

If an applicant fails to provide a written response to comments received, the department may deny the application.

(e) The department shall issue a supplemental public notice of an application in the event of one (1) of the following:

(1) The department originally denied the application, but the applicant has submitted a new or modified proposal.

(2) The applicant is proposing to significantly change a project for which the department:

(A) had previously provided public notice; and

(B) received comments from the public on the project as originally proposed.

(3) A request for modification is made according to 327 IAC 17-5-2.

(f) The department may issue a supplemental public notice of an application for a project that meets the following:

(1) The applicant is proposing to significantly change the project from the originally submitted application.

(2) Public notice was previously provided by the department but no public comment was received on the originally submitted application.

(g) A joint public notice shall be issued by the department and the Corps of Engineers, utilizing the public notice procedures set

forth in 33 CFR 325.3, if an application for a water quality certification requires a corps individual permit. (*Water Pollution Control Board; 327 IAC 17-2-3*)

327 IAC 17-2-4 Procedures for notification to adjacent states

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-2; IC 13-18-3-3
 Affected: IC 13-18-3; IC 13-18-4

Sec. 4. (a) If the department determines that a proposed project may adversely affect the quality of the waters of another state, the department shall notify the following about the receipt of the application:

- (1) The administrator.
- (2) The certifying agency in a state whose water quality may be affected.

(b) In addition to rights granted to other states under Section 401(a)(2) of the Clean Water Act, a state whose water quality may be affected by a proposed project shall be granted sixty (60) days after receipt of the notification provided according to subsection

(a)(2), to:

- (1) provide comments to the department; and
- (2) specify objections to the application.

(*Water Pollution Control Board; 327 IAC 17-2-4*)

327 IAC 17-2-5 Public hearing or meeting

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 5. (a) A person may request in writing that a public hearing or meeting be held to consider issues related to water quality in connection with a specific application for water quality certification or surface water modification permit. The request must:

- (1) state the reason for requesting the public hearing or meeting as specifically as possible;
- (2) be submitted to the department during the public notice period; and
- (3) be related to water quality issues.

- (b) The department may hold a public hearing or public meeting if:
- (1) substantial questions about the project are raised during the comment period;
 - (2) new information is obtained about water quality issues; or
 - (3) significant interest is expressed in the project.

(c) The department shall publish, in a daily or weekly newspaper in general circulation throughout the area affected by the project, a public notice of a scheduled public hearing or meeting setting forth the date, time, and place. The department shall send notice of the public hearing or meeting to the adjacent property owners specified under section 1(a)(7) of this rule. The department shall locate the public hearing or meeting in the vicinity of the proposed project.

(d) The department shall encourage an applicant to attend a public hearing or meeting held concerning the applicant's proposed project.

(e) Any person may appear at a public hearing or meeting and present oral or written comments concerning the proposed project.

(f) The department shall consider comments received at the public hearing or meeting or submitted to the department within fourteen (14) days of the public meeting or hearing before a decision may be rendered on the application.

(g) A public hearing shall be recorded and a transcript prepared. A copy of the transcript must be available for purchase from the department or the transcriber of the public hearing and be available for public inspection during normal business hours at the department. A public meeting will not be recorded. (*Water Pollution Control Board; 327 IAC 17-2-5*)

Rule 3. Review of Application for Water Quality Certification and Surface Water Modification Permit

327 IAC 17-3-1 Assessment of wetland existing and designated uses

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 1. Uses set forth at 327 IAC 2-1.8-3 are presumed to exist in a wetland. (*Water Pollution Control Board; 327 IAC 17-3-1*)

327 IAC 17-3-2 Assessment of alternatives and impacts

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 2. (a) An applicant shall consider all alternatives that would avoid impacts to a wetland or other waters of the state, regardless of the size, location, or type of project.

(b) The department shall:

- (1) review a water quality certification or surface water modification permit application to determine if the proposed project is water dependent; and
- (2) evaluate the alternatives for avoidance for each project and may require an applicant to consider additional options for avoiding impacts to the waters of the state.

(*Water Pollution Control Board; 327 IAC 17-3-2*)

327 IAC 17-3-3 Water dependent projects impacting a Tier I wetland or other waters of the state

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 3. (a) The following requirements apply to a water dependent project that will involve impacts to a Tier I wetland or other waters of the state:

- (1) The applicant shall demonstrate that all reasonable and appropriate steps have been taken to minimize potential adverse impacts on wetlands or other waters of the state.
- (2) The department shall consider the following factors to determine if potential impacts to the wetlands or other waters have been minimized to the greatest extent:
 - (A) Spatial requirements of the project.
 - (B) Location of existing structural or natural features that may dictate the placement or configuration of the project.
 - (C) The purpose of the project and how the purpose relates to placement, configuration, or density.
 - (D) The spatial distribution of wetlands or other waters on the site.
 - (E) Individual, secondary, and cumulative impacts.
 - (F) An applicant's efforts to:
 - (i) modify the size, scope, configuration, or density of the project;
 - (ii) accommodate the project to site constraints, including:
 - (AA) zoning;
 - (BB) infrastructure;
 - (CC) access; or
 - (DD) natural features; and
 - (iii) otherwise minimize impacts.

(b) If the department finds that an applicant has not complied with the requirements of subsection (a), the department shall deny the permit or certification for the proposed project.

(c) Any impact to a wetland or other waters remaining after the applicant has minimized impacts to the greatest extent possible shall be compensated for according to 327 IAC 17-4. (*Water Pollution Control Board; 327 IAC 17-3-3*)

327 IAC 17-3-4 Nonwater dependent projects impacting a Tier I wetland or other waters of the state

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
Affected: IC 13-18-3; IC 13-18-4

Sec. 4. (a) The following requirements apply to a nonwater dependent project that will involve impacts to a Tier I wetland or other waters of the state:

- (1) Practicable alternatives are presumed to exist unless the applicant demonstrates otherwise.
- (2) The department shall not grant the permit or certification if there is a practicable alternative that would avoid or have less impact on a wetland or other waters of the state.

(b) An applicant shall analyze and consider all alternatives to the design of a proposed project that would avoid or have less adverse impacts to a wetland or other waters of the state. The alternatives analysis must include the following:

- (1) A no-build alternative that would entirely avoid impacts to a wetland and other waters of the state.
- (2) Alternative sites or locations in the region where the project could be conducted, including the location of the alternative site, the owner of the alternative site, and the cost of acquiring the property.
- (3) Alternative project configurations or designs on the proposed project site.
- (4) Specific information explaining why each alternative or alternative site or location was rejected.

Compensatory mitigation shall not be considered an alternative in the analysis conducted according to this subsection.

(c) The applicant shall submit the alternatives analysis to the department as a part of the application according to 327 IAC 17-2-1(a)(8).

(d) The department may require an applicant to analyze additional alternatives.

(e) The department shall consider the following factors, in light of the purpose of the project, to determine whether practical alternatives to avoid impacts are available:

- (1) The basic project purpose and whether it could be reasonably accomplished using one (1) or more other sites in the region that would avoid impacts to wetlands or other waters.
- (2) The existence of sites not owned by the applicant in the area that could reasonably be obtained, used, expanded, or managed to fulfill the basic purpose of the proposed project.
- (3) The general suitability of the alternate sites considered by the applicant.
- (4) The ability to reasonably modify the size, scope, configuration, or density of the project to avoid impacts to a wetland or other waters.
- (5) Efforts by the applicant, including requests for variances or planned unit developments, to accommodate constraints imposed on alternatives by zoning standards or infrastructure.

(f) If the department determines there are no practicable alternatives that would avoid or have less adverse impacts on a Tier I wetland or other waters of the state, then the applicant shall demonstrate that all reasonable and appropriate steps have been taken in the project design to minimize potential impacts on wetlands or other waters of the state before a water quality certification or surface water modification permit shall be issued. The department shall consider the following factors, in light of the purpose of the project, to determine if all reasonable and appropriate steps have been taken:

- (1) Spatial requirements of the project.
- (2) Location of existing structural or natural features that may dictate the placement or configuration of the project.
- (3) How the purpose of the project relates to the placement, configuration, or density of elements of the project.
- (4) The spatial distribution of wetlands or other waters on the site.
- (5) Individual, secondary, and cumulative impacts.
- (6) An applicant's efforts to:
 - (A) modify the size, scope, configuration, or density of the project;
 - (B) accommodate site constraints, including zoning, infrastructure, access, or natural features; and
 - (C) otherwise minimize impacts.

(g) If the department finds that an applicant has not complied with:

- (1) the alternatives analysis requirements of subsection (b); or
- (2) the minimization requirements of subsection (f);

the department shall deny the permit or certification for the proposed project.

(h) Any impact to a wetland or other waters remaining after the applicant has minimized impacts to the greatest extent possible must be compensated for according to 327 IAC 17-4. (*Water Pollution Control Board; 327 IAC 17-3-4*)

327 IAC 17-3-5 Impacts to Tier II wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
Affected: IC 13-18-3; IC 13-18-4

Sec. 5. (a) The following requirements apply to a project that will involve impacts to a Tier II wetland:

- (1) Practicable alternatives are presumed to exist unless the applicant demonstrates otherwise.
- (2) The department shall not grant the permit or certification if there is a practicable alternative to the proposed discharge that would avoid or would have less impact on a wetland or other waters of the state.

(b) An applicant shall analyze and consider all alternatives to the design of a proposed project that would avoid impacts to a wetland or other waters of the state. The alternatives analysis must include the following:

- (1) A no-build alternative that would entirely avoid impacts to a wetland and other waters of the state.
- (2) Alternative sites or locations in the region where the project could be conducted, including the location of the alternative site, the owner of the alternative site, and the cost of acquiring the property.
- (3) Alternative project configurations or designs on the proposed project site.

(4) Specific information explaining why each alternative or alternative site or location was rejected.
 Compensatory mitigation shall not be considered an alternative in the analysis conducted according to this subsection.

(c) The applicant shall submit the alternatives analysis to the department as a part of the application according to 327 IAC 17-2-1(a)(8).

(d) The department may require an applicant to analyze additional alternatives.

(e) The department shall consider the following factors, in light of the purpose of the project, to determine whether practical alternatives to avoid impacts are available:

- (1) The basic project purpose and whether it could be reasonably accomplished using one (1) or more other sites in the region that would avoid wetland impacts.
- (2) The existence of sites not owned by the applicant in the area that could reasonably be obtained, used, expanded, or managed to fulfill the basic purpose of the proposed project.
- (3) The general suitability of the alternate sites considered by the applicant.
- (4) The ability to reasonably modify the size, scope, configuration, or density of the project to avoid impacts to a wetland.
- (5) Efforts by the applicant, including requests for variances or planned unit developments, to accommodate constraints imposed on alternatives by zoning standards or infrastructure.

(f) If the department determines there are no practicable alternatives that would avoid or have less adverse impacts on a Tier II wetland or other waters of the state, then the applicant shall demonstrate that all reasonable and appropriate steps have been taken in the project design to minimize potential impacts on a wetland or other waters of the state before a water quality certification or surface water modification permit shall be issued. The department shall consider the following factors, in light of the purpose of the project, to determine if all reasonable and appropriate steps have been taken:

- (1) Spatial requirements of the project.
- (2) Location of existing structural or natural features that may dictate the placement or configuration of the project.
- (3) How the purpose of the project relates to the placement, configuration, or density of elements of the project.
- (4) The spatial distribution of wetlands or other waters on the site.
- (5) Individual, secondary, and cumulative impacts.
- (6) An applicant's efforts to:
 - (A) modify the size, scope, configuration, or density of the project;
 - (B) accommodate site constraints including zoning, infrastructure, access, or natural features; and
 - (C) otherwise minimize impacts.

(g) If the department finds that an applicant has not complied with:

- (1) the alternatives analysis requirements of subsection (b); or
- (2) the minimization requirements of subsection (f);

the department shall deny the permit or certification for the proposed project.

(h) If the applicant has demonstrated that there is no practicable

alternative and there will still be impacts to a Tier II wetland, then the applicant shall prepare and submit to the department an antidegradation demonstration in accordance with 327 IAC 2-1.8-5. The applicant shall submit the demonstration within forty-five (45) days of receipt of notification from the department that the project will impact a Tier II wetland. Except as provided in subsection (i), the antidegradation demonstration must include the following:

(1) An evaluation of the baseline economic condition of the county where the project is proposed to be located, including the county's:

- (A) unemployment rate;
- (B) population;
- (C) average household income relative to state and national averages; and
- (D) percentage of the population living below the poverty level.

(2) Information on the anticipated impacts attributable to the proposed project in the county where the project will be located, including:

- (A) the change in employment or avoidance of a reduction in employment;
- (B) the reduction in the local unemployment rate attributable to the proposed project;
- (C) the total, annual, new payroll of resident nonofficers for the new or increased employment and the average wages for the new nonofficer employees or, in lieu of this information, the applicant may provide other information that quantifies the extent of the economic benefit to be provided to the area;
- (D) the change in net tax revenues;
- (E) the change in production level, if applicable;
- (F) the change in efficiency, if applicable; and
- (G) the extent of correction of an environmental or public health problem.

(3) An identification of the potential environmental and public health impacts attributable to the proposed project, including the potential impact on the following:

- (A) The aquatic community.
- (B) Endangered or threatened species.
- (C) Characteristics of the wetland that are unique or rare within the locality or state.
- (D) Ground water recharge.
- (E) Drinking water supplies.
- (F) Recreation and aesthetics.
- (G) Scientific research.
- (H) Shoreline or stream bank erosion protection.
- (I) Natural or regional storm water detention or retention.

(i) An applicant may provide:

- (1) an explanation as to why information required by subsection (h) is not necessary or appropriate for inclusion in the antidegradation demonstration; and
- (2) additional information that the applicant deems relevant to the demonstration.

(j) If the department determines an antidegradation demonstration is incomplete, the department shall notify the applicant and specify additional information that is necessary to make the demonstration complete. The applicant shall supply the information to the department within forty-five (45) days of the request. The department shall deny the application if the applicant fails to provide the additional information in the time required, unless the department grants additional time to respond for good cause.

(k) Upon receipt of a complete antidegradation demonstration, the department shall provide public notice, request comment, and, if requested, schedule and hold a public meeting on the demonstration.

(l) After the receipt of a complete antidegradation demonstration, the department shall specify in writing any additional relevant information that it deems necessary to make a determination on the demonstration. Failure of an applicant to submit any additional information requested by the department within forty-five (45) days of receipt of the department's request shall result in the denial of the application unless the department grants additional time to respond for good cause.

(m) The department shall approve an antidegradation demonstration only if it determines that the proposed project would support important social and economic development in the area and would not result in an unacceptable environmental impact.

(n) Compensatory mitigation must be accomplished according to 327 IAC 17-4 for any impact remaining to a wetland or other waters after the applicant has minimized impacts to the greatest extent possible. (*Water Pollution Control Board; 327 IAC 17-3-5*)

327 IAC 17-3-6 Impacts to wetlands designated as outstanding state resource waters and outstanding national resource waters

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 6. The department shall ensure that no degradation of a wetland designated as an outstanding state resource water (OSRW) or an outstanding national resource water (ONRW) will occur. Degradation to these waters is prohibited unless the following conditions are met:

- (1) The impact will last less than twelve (12) months.
- (2) The person intending to cause the impact first receives water quality certification or a surface water modification permit for the impact.
- (3) The applicant minimizes and justifies the short term, temporary impact to the satisfaction of the commissioner.
- (4) The applicant demonstrates to the commissioner that no practicable alternative exists to avoid the impact using the criteria set forth in section 5 of this rule.
- (5) The applicant remediates any impacts if remediation is required by the water quality certification or surface water modification permit.

(*Water Pollution Control Board; 327 IAC 17-3-6*)

327 IAC 17-3-7 Water quality certification review of proposed corps general permits and general permits for projects requiring a surface water modification permit

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 7. (a) When the Corps of Engineers proposes a new or modified general permit, the department shall determine if the permit will comply with this article.

(b) If the department determines a proposed corps general permit may cause or contribute to significant impact to waters of the state, the department may:

- (1) propose modifications or revisions to the corps general permit to prevent significant impact to waters of the state;

- (2) condition a water quality certification issued for the corps general permit to prevent significant impact to waters of the state; or
- (3) deny water quality certification for the proposed corps general permit.

(c) The department shall deny water quality certification for any corps proposed general permit that would authorize activities in the following waters:

- (1) A Tier II wetland.
- (2) An outstanding state resource water.
- (3) An outstanding national resource water.
- (4) Exceptional use waters.
- (5) Designated salmonid waters.

(d) The department may issue a water quality certification for a proposed corps general permit provided the water quality certification contains conditions prohibiting the use of the corps general permit in the waters specified in subsection (c).

(e) The department shall provide public notice according to 327 IAC 17-2-3 when considering an application for water quality certification for a corps general permit.

(f) The department may issue surface water modification general permits according to this article for alterations to waters of the state if the department determines:

- (1) the activities are substantially similar in nature; and
- (2) the activities, when considered individually and cumulatively, will not result in an adverse impact to water quality of any affected waters.

(g) A general permit created under subsection (f):

- (1) may be for use regarding specific waters, specific watersheds, or be broadly applicable throughout the state;
- (2) shall be effective for four (4) years after the date of a final decision on the general permit; and
- (3) shall expire at the conclusion of its effective period unless the department renews or modifies the general permit.

(h) When the department determines a general permit could be created under subsection (f) or when an existing general permit is set to expire, the department shall:

- (1) notify the public according to procedures set forth in 327 IAC 17-2-3 disregarding the requirement of 327 IAC 17-2-3(b)(7);
- (2) open a public comment period lasting no less than thirty (30) calendar days from the date of issuance of the public notice;
- (3) determine whether a public hearing is warranted based upon the comments received during the comment period; and
- (4) hold a public hearing in accordance with procedures set forth in 327 IAC 17-2-5, if warranted according to subdivision (3).

(*Water Pollution Control Board; 327 IAC 17-3-7*)

Rule 4. Compensatory Mitigation of Water Quality Impacts

327 IAC 17-4-1 Compensatory mitigation required for projects impacting a Tier I wetland

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-7; IC 13-23-13; IC 13-24-1; IC 13-25-5; IC 36-9-27

Sec. 1. (a) The department shall require an applicant to provide compensatory mitigation for a project that has an impact affecting more than one-tenth (0.1) acre of wetland.

- (b) Unless the department determines that compensatory

mitigation is not needed, an applicant shall replace adversely affected existing or designated uses of a wetland proposed to be impacted through compensatory mitigation. Compensatory mitigation required under this subsection must:

- (1) be approved by the department according to the conditions of the water quality certification or surface water modification permit issued to the applicant;
- (2) include a wetland of the same type as the impacted wetland; and
- (3) support the same designated and existing uses as were found in the wetland prior to impact.

(c) An applicant shall provide compensatory mitigation for a project that will impact one-tenth (0.1) acre or less of a Tier I wetland and will have a significant impact on water quality as determined by the department. The department shall determine if there is a significant impact by considering the following factors:

- (1) Whether the project's purpose is to maintain, repair, or rehabilitate existing structures. For purposes of this subdivision, structures do not include drains or other drainage structures defined or regulated by IC 36-9-27.
- (2) The secondary and cumulative impacts of the project.
- (3) The proximity and hydrologic connection to other waterbodies of the wetland proposed to be impacted.
- (4) The duration of the activity associated with the project.
- (5) The plant species diversity and fish and wildlife habitat components of the wetland to be impacted.
- (6) Whether the project is being undertaken to control, abate, or correct an environmental problem or threat to the environment, including a response action pursuant to one (1) of the following:
 - (A) The Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)*.
 - (B) A corrective action pursuant to the Resource Conservation Recovery Act (42 U.S.C. 6901)*.
 - (C) An underground storage tank corrective action under IC 13-23-13.
 - (D) A remediation of petroleum releases under IC 13-24-1.
 - (E) A voluntary remediation under IC 13-25-5.
 - (F) An abatement or correction of any polluted condition under IC 13-18-7.

*42 U.S.C. 9601 and 42 U.S.C. 6901 are incorporated by reference. Copies of these laws may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206. (*Water Pollution Control Board; 327 IAC 17-4-1*)

327 IAC 17-4-2 Compensatory mitigation required for projects impacting a Tier II wetland

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 2. Before an impact may be allowed to occur to a Tier II wetland, an applicant shall do the following to the satisfaction of the department:

- (1) Fully complete compensatory mitigation that is demonstrated to be successful in having replaced the existing and designated uses and type of wetland that are intended to be impacted by the project.
- (2) Provide written notice to the department of the successful completion of the compensatory mitigation required according to subdivision (1).

(*Water Pollution Control Board; 327 IAC 17-4-2*)

327 IAC 17-4-3 Compensatory mitigation required for an impact to other waters of the state

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-7; IC 13-23-13; IC 13-24-1; IC 13-25-5; IC 36-9-27

Sec. 3. (a) If compensatory mitigation is required by the department for an impact to a water of the state that is not a wetland, then the compensatory mitigation must:

- (1) be approved by the department; and
- (2) replace the existing and designated uses of the adversely affected water in accordance with the conditions contained in the water quality certification or surface water modification permit issued to the applicant.

(b) The department shall require an applicant to provide compensatory mitigation for a project that the department determines will have a significant impact on water quality according to subsection (c).

(c) The department shall consider the following factors to determine if a project will have a significant impact on water quality:

- (1) The project's requirement to maintain, repair, or rehabilitate existing structures. For purposes of this subdivision, structures do not include drains or other drainage structures defined or regulated by IC 36-9-27.
- (2) The secondary and cumulative impacts of the project.
- (3) The proximity and hydrologic connection to other waterbodies of the waterbody proposed to be impacted.
- (4) The duration of the activity associated with the project.
- (5) The plant species diversity and fish and wildlife habitat components of the water to be impacted.
- (6) Whether the project is being undertaken to control, abate, or correct an environmental problem or threat to the environment, including a response action pursuant to one (1) of the following:
 - (A) The Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601)*.
 - (B) A corrective action pursuant to the Resource Conservation Recovery Act (42 U.S.C. 6901)*.
 - (C) An underground storage tank corrective action under IC 13-23-13.
 - (D) A remediation of petroleum releases under IC 13-24-1.
 - (E) A voluntary remediation under IC 13-25-5.
 - (F) An abatement or correction of any polluted condition under IC 13-18-7.

(d) A project involving the relocation, realignment, or channelization of an existing stream is presumed to have a significant impact on water quality unless an applicant demonstrates otherwise.

*42 U.S.C. 9601 and 42 U.S.C. 6901 are incorporated by reference. Copies of these laws may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402 or from the Indiana Department of Environmental Management, Office of Water Quality, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana 46206. (*Water Pollution Control Board; 327 IAC 17-4-3*)

327 IAC 17-4-4 Time for performing compensatory mitigation

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 4. Where compensatory mitigation is required as a condition

of a water quality certification or a state surface water modification permit, the applicant must complete the required compensatory mitigation within one (1) year of the date of issuance of the water quality certification or a state surface water modification permit unless a written extension is granted by the department. (*Water Pollution Control Board; 327 IAC 17-4-4*)

327 IAC 17-4-5 Location of compensatory mitigation

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 5. (a) Compensatory mitigation of impacts to waters of the state must occur, if practicable, on the same site as the project and its associated impacts as determined by the department.

(b) The department may authorize off-site compensatory mitigation if it determines that on-site compensatory mitigation has a low probability of success. In all cases, the compensatory mitigation site must be located as closely as possible to the project and its associated impacts. One (1) of the following shall be met before off-site compensatory mitigation may be authorized:

- (1) Off-site compensatory mitigation using a mitigation bank must occur in the mitigation bank's service area as stipulated in the mitigation bank's charter.
- (2) Off-site compensatory mitigation not using a mitigation bank must, to the greatest extent possible, be located within the same fourteen (14) digit United States Geological Survey Hydrologic Unit Code (USGS HUC) as the impact site.

(c) If off-site compensatory mitigation for impacts to Tier I wetlands under subsection (b)(2) is not practicable, off-site compensatory mitigation for impacted Tier I wetlands must be located according to the following:

- (1) For an impact less than or equal to twenty-five hundredths (0.25) acre, compensatory mitigation shall be provided within the same USGS HUC eight (8) digit watershed as the project impact.
- (2) For an impact greater than twenty-five hundredths (0.25) acre:
 - (A) compensatory mitigation shall be provided within the same USGS HUC eleven (11) digit watershed as the project impact; or
 - (B) a better compensatory mitigation option that can be identified within the eight (8) digit watershed may be granted approval at the discretion of the department upon written request from the applicant.

(d) Compensatory mitigation for an impact, regardless of size, to a Tier II wetland shall be provided within the same USGS HUC fourteen (14) digit watershed as the project impact.

(e) The department shall deny a permit or certification for a proposed project if a compensatory mitigation site cannot be located in compliance with this section. (*Water Pollution Control Board; 327 IAC 17-4-5*)

327 IAC 17-4-6 Protection of a compensatory mitigation site

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4; IC 32-1-2; IC 32-5-2.6

Sec. 6. (a) A compensatory mitigation site must be protected for at least fifty (50) years through one (1) of the following methods:

- (1) A conservation easement held by a third party committed to conservation and maintenance of the:
 - (A) property as a wetland; and
 - (B) wetland's existing and designated uses.
- (2) A deed restriction that legally binds the property owner to maintain the:

- (A) property as a wetland; and
- (B) wetland's existing and designated uses.

(b) A properly recorded conservation easement or deed restriction required by subsection (a) must be submitted to the department within one (1) year of the date of issuance of the water quality certification or surface water modification permit.

(c) After review by the department of a written request from the applicant for an extension of time to comply with the terms of this section, the department may grant additional time to the applicant if the request states reasons that, in the determination of the department, make the need of an extension valid.

(d) After the department notifies an applicant that the applicant's compensatory mitigation site is successful, the recipient may transfer responsibility for maintenance of the compensatory mitigation site for the length of time specified in subsection (a) in accordance with the following:

- (1) The recipient of the water quality certification or surface water modification permit shall notify the department no less than sixty (60) days in advance of the proposed transfer date.
- (2) The recipient of the water quality certification or surface water modification permit shall submit to the department a written agreement between the recipient and the transferee. The agreement must contain the following:
 - (A) A specific date for transfer of responsibility.
 - (B) An acknowledgment that the water quality certification or surface water modification permit recipient is liable for violations or mitigation failures up to the date of transfer.
 - (C) An acknowledgment that the transferee is:
 - (i) responsible for maintaining the compensatory mitigation site as a wetland for the length of time specified in subsection (a);
 - (ii) responsible for maintaining the wetland's existing and designated uses for the length of time specified in subsection (a); and
 - (iii) liable for violations or mitigation failures from the date of transfer and into the future.
 - (D) A copy of the properly recorded conservation easement or deed restriction.

If the transfer is approved by the department, the department shall modify the water quality certification or surface water modification permit to reflect the transfer. (*Water Pollution Control Board; 327 IAC 17-4-6*)

327 IAC 17-4-7 Compensatory mitigation ratios

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 7. (a) Compensation for wetlands proposed to be impacted shall be in accordance with Table 7(a), as follows:

Table 7(a)

Compensatory Mitigation Ratios	
Type of Wetland Proposed to be Impacted	Compensatory Mitigation: Impacted Wetland Ratio
Open Water/Emergent	2:1
Scrub/Shrub	3:1
Forested	4:1
Tier II Wetlands	1:1
Farmed Wetlands	1:1

(b) A compensatory mitigation ratio required by Table 7(a) in

subsection (a) may be reduced by the department in accordance with one (1) or more of the following:

- (1) An applicant proposing to replace a wetland that the department determines is significantly degraded or adversely altered may have the compensatory mitigation ratio lowered by up to five-tenths (0.5), at the discretion of the department, if the applicant proposes to replace the wetland with a wetland of the same type supporting more uses and greater diversity of vegetation. This subdivision does not apply to farmed wetlands or Tier II wetlands.
- (2) A compensatory mitigation ratio may be lowered to 1:1 for a project proposing to impact a wetland in accordance with the following provisions:
 - (A) The applicant completes compensatory mitigation prior to initiation of an impact, and the compensatory mitigation is demonstrated to the department to be successful in replicating the existing and designated uses and the type of wetland proposed to be impacted.
 - (B) The applicant must coordinate with the department prior to initiating the compensatory mitigation in order to insure that the applicable provisions of this rule will be met.
 - (C) The department shall not issue a water quality certification or surface water modification permit for a proposed impact until the department has determined the up-front compensatory mitigation is successful.
- (3) An applicant that proposes wetland preservation, wetland rehabilitation, or a combination of both may have the compensatory mitigation ratio lowered, at the discretion of the department, by up to one (1.0) for a Tier I wetland, if the following terms are met:
 - (A) A net loss of wetland acreage shall be prevented by providing wetland restoration, creation, or both that is equal in acreage and type as the wetland to be impacted.
 - (B) The area to be preserved or rehabilitated must, at a minimum, equal the acreage impacted as determined by the department.
 - (C) The secondary and cumulative impacts resulting from the project are insignificant.
- (4) In no event shall a mitigation ratio be reduced below 1:1.

(Water Pollution Control Board; 327 IAC 17-4-7)

327 IAC 17-4-8 Financial responsibility concerning compensatory mitigation

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 4-2-6-1; IC 13-18-3; IC 13-18-4

Sec. 8. (a) An applicant shall guarantee the success of compensatory mitigation for a Tier I wetland or other waters by one (1) of the following means:

- (1) Successfully completing the compensatory mitigation prior to the department's authorization of any impact to the wetland with proof of the successful completion to be demonstrated by receipt of the department's written confirmation of the successful completion.
- (2) Posting of a performance bond or an irrevocable letter of credit, prior to the issuance of the water quality certification or surface water modification permit, that covers the following:
 - (A) Costs of:
 - (i) constructing and monitoring; and
 - (ii) other costs associated with the successful completion of the compensatory mitigation wetland.
 - (B) Outstanding liens on the property.

This subdivision does not apply to an applicant that is an agency, as defined by IC 4-2-6-1(1), or a political subdivision, as defined by IC 4-2-6-1(12).

(3) Purchase of credits in a mitigation bank approved by the department, if authorized pursuant to section 10 of this rule. The applicant shall submit proof to the department that sufficient credits have been purchased.

(b) The department shall release an applicant from the financial assurance required by subsection (a)(2) when:

- (1) the compensatory mitigation has achieved all success criteria required by section 15 of this rule for at least two (2) consecutive years; and
- (2) the department has inspected the compensatory mitigation site, determined it to be successful, and provided the applicant with written confirmation of the success status.

(Water Pollution Control Board; 327 IAC 17-4-8)

327 IAC 17-4-9 Storm water control requirements

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 9. If an impact to a Tier I or Tier II wetland is authorized by the department, the following storm water control requirements shall be met by the applicant:

- (1) Appropriate storm water control measures must be installed to ensure that the peak postdevelopment rate of surface water run-off, based on a ten (10) year, twenty-four (24) hour storm, as defined by 327 IAC 15-7-2(1), from the impacted wetland does not exceed the peak predevelopment rate of run-off, based on a ten (10) year, twenty-four (24) hour storm, as defined by 327 IAC 15-7-2(1), from the impacted wetland.
- (2) Water quality improvement measures must be incorporated into the design of the storm water control measures to the maximum extent practicable.

(Water Pollution Control Board; 327 IAC 17-4-9)

327 IAC 17-4-10 Compensatory wetland mitigation bank usage

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 10. The department shall allow utilization of a mitigation bank if the following provisions are met:

- (1) The provisions of section 7 of this rule have been followed.
- (2) The mitigation bank has been approved by the department.
- (3) The department approves the use of the mitigation bank for the applicant's required compensatory mitigation.
- (4) The department determines that the compensatory mitigation produced at the bank will compensate for the existing and designated uses lost at the proposed wetland impact site.
- (5) An impact being mitigated through the use of a mitigation bank must occur in the mitigation bank's service area as stipulated in the mitigation bank's charter.

(Water Pollution Control Board; 327 IAC 17-4-10)

327 IAC 17-4-11 Documentation required for wetland compensatory mitigation plan

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 11. (a) A wetland compensatory mitigation plan must be: (1) submitted by the applicant if wetland compensatory mitigation is required by the department; and

(2) approved by the department prior to the issuance of a water quality certification or surface water modification permit.

(b) A wetland compensatory mitigation plan must, at a minimum, give details of the following:

(1) Existing conditions at the wetland to be impacted, including the following:

- (A) Hydrology.
- (B) Type of vegetation, including native, exotic, and invasive species.
- (C) Current land use of the project site.
- (D) Surrounding land use.
- (E) Soils.
- (F) Topography.

(2) Existing conditions at the proposed wetland mitigation site, including the following:

- (A) Hydrology.
- (B) Type of vegetation, including native, exotic, and invasive species.
- (C) Current land use of the project site.
- (D) Surrounding land use.
- (E) Soils.
- (F) Topography.

(3) Acreage and type of wetlands proposed to be impacted.

(4) Acreage and type of proposed wetland compensatory mitigation.

(5) Description of compensatory mitigation goals and success criteria.

(6) Description of compensatory mitigation methods.

(7) A revegetation plan that may include information on plantings, seeding, or other methods to restore required vegetation communities on the mitigation site.

(8) Narrative description of the following:

- (A) Planned hydrology, including the following:
 - (i) Methods and data used to estimate the planned hydrology.
 - (ii) Planned seasonal high water elevation and depth.
 - (iii) Planned mean water elevation and depth.
 - (iv) Planned duration of saturation or inundation, or both.
- (B) Planned vegetation communities developed by using "Classification of Wetlands and Deepwater Habitats of the United States", U.S. Fish and Wildlife Service, Office of Biological Services, FWS/OBS-79/31, (December 1979)*, to list the wetland community types to be constructed.

(9) Drawings, plans, photographs, and maps depicting the planned postconstruction grades, water levels, and plant communities of the compensatory mitigation, including the following:

- (A) Detailed topographic drawings.
- (B) Cross sectional drawings, depicted in National Geodetic Vertical Datum, including the following:
 - (i) Planned grade elevation.
 - (ii) Water control elevation.
 - (iii) Planned mean water elevation.
 - (iv) Planned seasonal high water elevation.
- (C) Planting plan related directly to water depths.
- (D) Aerial photographs of the proposed impact site prior to construction.
- (E) Aerial photographs of the proposed compensatory mitigation site prior to construction.
- (F) Map depicting the location of the proposed mitigation site relative to new construction or other existing landmarks.
- (G) Longitude and latitude of the center of each proposed compensatory mitigation site.

(c) The applicant shall submit a baseline report summarizing the following:

- (1) Conditions existing at the site prior to construction of the proposed project and compensatory mitigation.
- (2) The construction process.
- (3) Design features to be implemented to restore the aquatic habitat.

(d) The department may request additional information from the applicant if it is determined to be necessary.

*This document is incorporated by reference. Notwithstanding language to the contrary in the primarily incorporated documents, the versions of all secondarily incorporated documents, which are those documents referred to in the primarily incorporated documents, shall be the versions in effect on the date of final adoption of this rule. 327 IAC 17-4-12 Review of wetland mitigation plans

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 12. A complete compensatory mitigation plan shall be reviewed by the department and approved only if the department determines the following:

- (1) The existing and designated uses lost by impacting an existing wetland will be replaced by compensatory mitigation that will provide uses equal or superior to the lost uses.
- (2) There is an overall probability of success of the compensatory mitigation, taking into consideration the following factors:
 - (A) The methods to be used to restore or create wetlands on a proposed compensatory mitigation site.
 - (B) The side slopes or other slopes affecting water levels on a proposed compensatory mitigation site.
 - (C) The proximity of a proposed compensatory mitigation site to other waters or natural areas.
 - (D) The presence of exotic plant species on or adjacent to a proposed compensatory mitigation site.
 - (E) The inclusion of an upland buffer zone around a proposed compensatory mitigation site.
 - (F) The methods proposed to control hydrology on a proposed compensatory mitigation site.
 - (G) The land use adjacent to a proposed compensatory mitigation site.
 - (H) The methods proposed to establish vegetation on a proposed compensatory mitigation site.
 - (I) The proposed plan for long term management of a proposed compensatory mitigation site.
 - (J) The uses to be replaced.
 - (K) The success criteria to be met, as specified in section 15 of this rule.

(*Water Pollution Control Board; 327 IAC 17-4-12*)

327 IAC 17-4-13 Compensatory wetland mitigation monitoring

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 13. (a) A wetland compensatory mitigation monitoring plan

must be approved by the department prior to the commencement of compensatory mitigation activities.

(b) Monitoring of a compensatory mitigation site:

- (1) shall continue for a minimum of three (3) years;
- (2) shall continue until the department provides the applicant with a letter confirming that the success criteria stipulated in the water quality certification or surface water modification permit and in section 15 of this rule have been achieved for at least two (2) consecutive years within a five (5) year period;
- (3) may be suspended by the applicant if:
 - (A) the applicant believes the monitoring requirements of subdivisions (a) and (b) have been met;
 - (B) the applicant has submitted its proposed final monitoring report to the department; and
 - (C) the department does not object to the suspension of monitoring;
- (4) must be resumed by the applicant if the department determines the success criteria have not been met; and
- (5) may be permanently discontinued by the applicant if the department:
 - (A) determines that the success criteria have been met; and
 - (B) issues a written notification to the applicant of the successful meeting of the success criteria.

(c) Vegetation monitoring must occur:

- (1) between June 1 and November 1 unless the applicant provides compelling scientific evidence that the wetland type proposed requires earlier monitoring; and
- (2) annually within thirty (30) days of the anniversary date of the first monitoring event.

(d) The monitoring period shall be extended by the department if monitoring is not conducted according to:

- (1) the plan submitted according to subsection (a); and
- (2) the requirements of subsection (c).

(e) An applicant is responsible for the monitoring necessary to determine when a compensatory mitigation site has achieved the success criteria. A monitoring plan must, at a minimum, provide the following:

- (1) Description of the compensatory mitigation success criteria.
- (2) Goals that must be met to achieve the criteria.
- (3) Methods for evaluating the success of compensatory mitigation.
- (4) Map of sample points.
- (5) Monitoring schedule.
- (6) Specific factors to be monitored, that may include the following:
 - (A) Vegetation sampling.
 - (B) Exotic species surveys.
 - (C) Growth rates for trees and shrubs.
 - (D) Planted species survival rates.
 - (E) Macroinvertebrate sampling.
 - (F) Amphibian sampling.
 - (G) Wildlife surveys.
 - (H) Ground water and hydrology monitoring.
 - (I) Soils sampling.
 - (J) Water quality sampling.
 - (K) Delineation of the jurisdictional extent of wetlands on the site.
 - (L) As built survey of boundaries, elevations of structures, and topography.

(f) If monitoring reports or inspection of the compensatory mitigation site reveals the presence of exotic plant species in excess of the limits listed in section 15 of this rule, the department shall extend the monitoring period required by subsection (b) to monitor the effectiveness of control measures and gauge the rate of infestation.

(g) The department may release an applicant from an extended monitoring period required by subsection (f) if one (1) of the following occurs:

- (1) The site complies with section 15 of this rule.
- (2) Sufficient funding is provided in a long term management trust to control the exotic plant species.

(Water Pollution Control Board; 327 IAC 17-4-13)

327 IAC 17-4-14 Documentation required for a wetland monitoring report

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 14. An applicant shall submit wetland monitoring reports to the department as required by the water quality certification or surface water modification permit. A monitoring report must, at a minimum, provide the following:

- (1) Water quality certification or surface water modification permit identification number.
- (2) Corps of Engineer identification number, if applicable.
- (3) Project description.
- (4) Reprint of the monitoring plan.
- (5) Results of monitoring.
- (6) Report on the progress of the compensatory mitigation.
- (7) Photographic documentation.
- (8) Graphics depicting the development of plant communities and water levels that illustrate the progress of the compensatory mitigation over the monitoring period relative to the success criteria.
- (9) A postconstruction report that establishes baseline conditions at the compensatory mitigation site, including a summary of changes in hydrology and details of:
 - (A) final contours;
 - (B) wetland plantings; and
 - (C) seedings.

(Water Pollution Control Board; 327 IAC 17-4-14)

327 IAC 17-4-15 Success criteria for a wetland compensatory mitigation site

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 15. A wetland compensatory mitigation site must meet the following minimum success criteria:

- (1) Wetland areas of a compensatory mitigation site must meet the wetland jurisdictional requirements of the Corps of Engineers.
- (2) The wetland plant communities are free of the following exotic species:
 - (A) Purple loosestrife (*Lythrum salicaria*).
 - (B) Common reed (*Phragmites australis*).
 - (C) Eurasian water milfoil (*Myriophyllum spicatum*).
- (3) The combined surface area coverage of reed canary grass (*Phalaris arundinacea*) and cattail (*Typha* spp.) shall not cover more than fifteen percent (15%) of a community type. If the applicant provides documentation in the mitigation plan that the

natural wetlands the compensatory mitigation site is attempting to recreate have a cattail (*Typha* spp.) component greater than fifteen percent (15%), then the compensatory mitigation wetland may also have a cattail (*Typha* spp.) component greater than fifteen percent (15%).

(4) No more than ten percent (10%) surface area coverage of the compensatory mitigation site may be:

- (A) open water;
- (B) bare ground; or
- (C) a combination of clauses (A) and (B).

If the applicant provides documentation in the mitigation plan that the natural wetlands the compensatory mitigation site is attempting to recreate have an open water or bare ground component greater than ten percent (10%), then the compensatory mitigation wetland may also have an open water or bare ground component greater than ten percent (10%).

(5) Native vegetation, excluding reed canary grass (*Phalaris arundinacea*) and cattail (*Typha* spp.), covers at least seventy percent (70%) of the compensatory mitigation site.

(6) The existing and designated uses lost at the impacted wetland are replaced.

(7) The success criteria set forth in the approved compensatory mitigation plan must be met.

(Water Pollution Control Board; 327 IAC 17-4-15)

327 IAC 17-4-16 Compensatory mitigation remediation for wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 16. (a) An applicant shall submit a compensatory mitigation remediation plan for wetlands to the department for approval within sixty (60) days of one (1) of the following:

- (1) Inability of the compensatory mitigation site to achieve:
 - (A) the planned hydrology within two (2) growing seasons after completion of construction of the compensatory mitigation;
 - (B) the success criteria at least once within five (5) years of the completion of construction of the compensatory mitigation; or
 - (C) the success criteria for two (2) consecutive years within the first seven (7) years of monitoring.
- (2) Indication, from at least two (2) consecutive years of monitoring, that the compensatory mitigation site is not likely to achieve the success criteria required by section 15 of this rule.

- (b) A remediation plan must include the following:
 - (1) Identification of the problems preventing the compensatory mitigation site from achieving the success criteria.
 - (2) A course of action, to eliminate the problems, that may include one (1) or more of the following:
 - (A) Selection of an alternative compensatory mitigation site that is more suitable for the compensatory mitigation required.
 - (B) Replanting the compensatory mitigation site.
 - (C) Regrading the compensatory mitigation site.
 - (D) Construction of an upland buffer around the site.
 - (E) Herbicide treatment of exotic invasive vegetation.

(c) The applicant shall initiate implementation of the remediation plan within one (1) calendar year of its approval by the department. *(Water Pollution Control Board; 327 IAC 17-4-16)*

327 IAC 17-4-17 Documentation required for a compensatory mitigation plan for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 17. (a) A compensatory mitigation plan for waters other than wetlands must be:

- (1) submitted by the applicant if required by the department; and
- (2) approved by the department prior to the issuance of a water quality certification or surface water modification permit.

(b) A compensatory mitigation plan for waters other than wetlands must provide the following, where applicable:

- (1) An assessment of the stream fisheries, water chemistry, flow regime, and riparian communities proposed to be impacted within the project area.
- (2) An assessment of the in-stream or deep water habitat requirements of fish species that are noted in the stream assessment required under subdivision (1). The assessment must include an analysis, by species, of the aspects of stream structure that support the following:
 - (A) Foraging.
 - (B) Breeding.
 - (C) Nursery.
 - (D) Refuge areas.
- (3) Details for the replacement or rehabilitation of in-stream or deep water habitat types, that may include the following:

- (A) Specifications for:
 - (i) pools;
 - (ii) riffles;
 - (iii) in-channel or stream bank habitat structures;
 - (iv) riparian zone plantings or revegetation;
 - (v) creation of channel meanders;
 - (vi) restoration or rehabilitation of adjacent wetlands;
 - (vii) restoration or rehabilitation of deep water habitats; or
 - (viii) buffer areas.

(B) Construction plans with depictions of the locations of the mitigative measures specified under clause (A).

- (C) An explanation of the construction plans required by clause (B), including:
 - (i) the predicted success of the compensatory mitigation; and
 - (ii) detailed contingency plans if the mitigation proposed under item (i) fails.

(D) A construction time schedule specifying the sequence of the construction of the following:

- (i) The project.
- (ii) The compensatory mitigation.

(4) The location of sampling points. The UTM (Universal Transverse Mercator) coordinates of the sampling points shall be denoted on plan overview sheets and on aerial photos.

(5) A description of the compensatory mitigation success criteria described in section 22 of this rule.

(c) An applicant shall submit a baseline report summarizing the following:

- (1) Conditions existing at the compensatory mitigation site prior to construction of the compensatory mitigation.
- (2) The construction process.

(d) The department may request additional information from the applicant if the department determines it is necessary. *(Water Pollution Control Board; 327 IAC 17-4-17)*

327 IAC 17-4-18 Review of mitigation plans for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 18. The department shall review a complete compensatory mitigation plan for waters other than wetlands and shall approve it only if the following conditions are met:

- (1) The existing and designated uses lost by impacting waters other than wetlands will be adequately replaced by the compensatory mitigation.
- (2) There is an overall probability of success of the compensatory mitigation taking into consideration the following factors:
 - (A) The methods to be used to recreate waters other than wetlands at a proposed compensatory mitigation site.
 - (B) The construction methods to be used to recreate or stabilize stream banks.
 - (C) The proximity of a proposed compensatory mitigation site to other waters or natural areas.
 - (D) The presence of exotic plant species on a proposed compensatory mitigation site.
 - (E) The inclusion of a buffer zone around a proposed compensatory mitigation site.
 - (F) The methods proposed to control water flow through a proposed compensatory mitigation site.
 - (G) The land use adjacent to a proposed compensatory mitigation site.
 - (H) The methods proposed to establish vegetation on a proposed compensatory mitigation site.
 - (I) The proposed plan for long term management of a proposed compensatory mitigation site.
 - (J) The uses to be replaced.
 - (K) The success criteria to be met.

(Water Pollution Control Board; 327 IAC 17-4-18)

327 IAC 17-4-19 Documentation required for a compensatory mitigation monitoring plan for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 19. (a) A compensatory mitigation monitoring plan for waters other than wetlands must be approved by the department prior to the issuance of a water quality certification or surface water modification permit.

- (b) A monitoring plan must, at a minimum, provide the following:
 - (1) Description of the compensatory mitigation success criteria.
 - (2) Goals that must be achieved to meet the success criteria.
 - (3) Methods for evaluating the success of compensatory mitigation.
 - (4) Map of sampling points.
 - (5) Monitoring schedule.
 - (6) Description of tests and sampling methods required to monitor the development and overall success of the mitigation.

(Water Pollution Control Board; 327 IAC 17-4-19)

327 IAC 17-4-20 Documentation required for a monitoring report for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 20. (a) An applicant must submit monitoring reports for waters other than wetlands to the department as required by conditions specified in the water quality certification or surface water modification permit. A monitoring report must, at a minimum, provide the following:

- (1) A survey of the grade, shape, and capacity of mitigation to verify that these criteria match the criteria in the mitigation plan approved by the department.

(2) Results obtained using approved sampling protocols beginning at the time the mitigation construction is completed and water is released into the mitigation site, including the results of any required annual fisheries sampling that shall be conducted:

- (A) in July of the year after the release of water into relocated channels; and
- (B) from points established through discussions between the applicant and the department.

(b) Reports submitted to the department must include the following:

- (1) Summary and raw data sheets.
- (2) A narrative overview of the results of the surveys.
- (3) A comparison of the results to the success criteria in section 22 of this rule.

(c) The department will evaluate results of testing and monitoring annually to:

- (1) compare the project to the success criteria; and
- (2) determine if additional action or monitoring is warranted.

(d) The department may require the applicant to prepare an annual report of habitat structures and features placed within the waterbody to assess:

- (1) the overall condition of the structures and features;
- (2) the accumulation of sediment or debris; and
- (3) other maintenance issues.

(Water Pollution Control Board; 327 IAC 17-4-20)

327 IAC 17-4-21 Compensatory mitigation monitoring for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 21. (a) A compensatory mitigation monitoring plan for waters other than wetlands must be approved by the department prior to the issuance of a water quality certification or surface water modification permit.

(b) A compensatory mitigation site shall be monitored until the department provides the applicant with a letter confirming that the success criteria stipulated in the water quality certification or surface water modification permit and in section 22 of this rule have been achieved for at least two (2) consecutive years.

(c) The applicant is responsible for monitoring factors necessary to determine when a compensatory mitigation site has achieved the success criteria required. These factors may include the following:

- (1) Vegetation sampling.
- (2) Fish surveys.
- (3) Macroinvertebrate surveys.
- (4) Water quality sampling.
- (5) Postconstruction surveys of boundaries of the project site and site elevations.
- (6) An evaluation of whether habitat and in-stream structures are functioning as designed.
- (7) An assessment of the stability of stream banks and channel bottoms.

(Water Pollution Control Board; 327 IAC 17-4-21)

327 IAC 17-4-22 Success criteria for a compensatory mitigation site for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 22. (a) The department shall require a compensatory mitigation site for waters other than wetlands to meet the following minimum success criteria:

- (1) A reconstructed or relocated channel must:
 - (A) support a community of fish species equal to or greater in diversity than the original channel; and
 - (B) be comparable to the grade, hydraulic capacity, and basic channel geometry of the channel as specified in the water quality certification or surface water modification permit.
- (2) A stream bank must:
 - (A) be stable; and
 - (B) require no additional structural improvements or corrections to maintain stream structure or bank stability.

(b) The existing and designated uses lost from an impacted waterbody must be replaced.

(c) The success criteria set forth in the approved compensatory mitigation plan must be met. (*Water Pollution Control Board; 327 IAC 17-4-22*)

327 IAC 17-4-23 Compensatory mitigation remediation for waters other than wetlands

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 23. (a) An applicant shall submit a compensatory mitigation remediation plan for waters other than wetlands to the department for approval within sixty (60) days of one (1) of the following:

- (1) Evidence of one (1) of the following at the compensatory mitigation site:
 - (A) A structural failure.
 - (B) Damage from storm events.
 - (C) A downward trend in fishery communities that is the result of a failed habitat structure within the compensatory mitigation channel.
 - (D) Die off among plants or other vegetation features.
- (2) Indication from at least two (2) consecutive years of monitoring that the site is not likely to achieve the success criteria required by section 22 of this rule.

- (b) A remediation plan must include the following:
 - (1) Identification of the problems preventing the compensatory mitigation site from achieving the success criteria.
 - (2) A course of action, to eliminate the problems, that may include one (1) or more of the following:
 - (A) Addition of structures designed to enhance habitat or stabilize stream banks.
 - (B) Replanting the compensatory mitigation site.
 - (C) Reconstruction of the mitigation site.

(c) The applicant shall initiate implementation of the remediation plan within one (1) calendar year of its approval by the department. (*Water Pollution Control Board; 327 IAC 17-4-23*)

Rule 5. Issuance, Denial, Revocation, Modification, or Expiration of a Water Quality Certification or Surface Water Modification Permit

327 IAC 17-5-1 Departmental action regarding a water quality certification or surface water modification permit

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 1. (a) The department shall issue one (1) of the following decisions concerning an application for a water quality certification or surface water modification permit:

- (1) The department may grant a water quality certification or surface water modification permit for a proposed impact to a Tier I wetland or waters other than wetlands if:
 - (A) no other practicable alternative exists;
 - (B) the project complies with all applicable federal and state laws;
 - (C) impacts have been minimized in accordance with 327 IAC 17-3-4(f); and
 - (D) the applicant provides compensatory mitigation in accordance with 327 IAC 17-4.

(2) The department may grant a water quality certification or surface water modification permit for a proposed impact to a Tier II wetland if:

- (A) no other practicable alternative exists;
- (B) the project complies with all applicable federal and state laws;
- (C) the department approves the applicant's antidegradation demonstration; and
- (D) the applicant provides compensatory mitigation that is:
 - (i) completed before the wetland is impacted; and
 - (ii) determined by the department to be successful in replacing all adversely impacted wetland existing and designated uses.

(3) The department may grant a water quality certification or a surface water modification permit for a project involving an impact to an outstanding state resource water or outstanding national resource water if:

- (A) no other practicable alternative exists;
- (B) the project complies with all applicable federal and state laws;
- (C) impacts have been minimized in accordance with 327 IAC 17-3-6; and
- (D) the impact is short term and temporary, generally less than one (1) year in duration.

(4) The department shall deny a water quality certification or a surface water modification permit if it is determined that:

- (A) the requirements of subdivision (1), (2), or (3) are not met;
- (B) significant degradation of water quality, including secondary and cumulative impacts, may result from the project;
- (C) the proposed compensatory mitigation will not successfully replace the impacted existing and designated uses of the wetland;
- (D) the project will cause significant degradation to water quality that cannot be offset with compensatory mitigation, even if alternatives are not available; or
- (E) the applicant has failed to submit a complete application or has failed to provide additional information requested by the department.

(5) The department shall waive a water quality certification or surface water modification permit if the department fails to make a final determination within one (1) year of its receipt of a complete application unless the federal permitting agency chooses to accept a certification subsequent to the expiration of one (1) year.

(b) If the department grants a water quality certification or surface water modification permit, the department shall include in the certification or permit conditions and monitoring requirements

that the department deems necessary to ensure that the applicant complies with the applicable provisions of federal and state laws. (*Water Pollution Control Board; 327 IAC 17-5-1*)

327 IAC 17-5-2 Revocation or modification of a water quality certification or surface water modification permit

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-13; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 2. (a) The department may revoke a water quality certification or surface water modification permit if one (1) of the following occurs:

- (1) The applicant does not comply with one (1) or more conditions of the water quality certification or surface water modification permit.
- (2) The applicant has caused or is likely to cause a violation of a state water quality standard or other applicable statutory or regulatory requirement.
- (3) The applicant is in violation of one (1) of the following:
 - (A) Construction of compensatory mitigation measures according to the water quality certification or surface water modification permit.
 - (B) Construction of the project according to plans or specifications reviewed by the department.
- (4) The applicant has misrepresented or failed to disclose fully all relevant facts in the application or during the application process.
- (5) The applicant has failed to submit a monitoring report, postconstruction report, or other document as required by 327 IAC 17-4.

(b) The department may modify a water quality certification or surface water modification permit if the department:

- (1) receives a request from the holder of a valid water quality certification or surface water modification permit, to modify a project or its associated impacts; or
- (2) determines that modification is necessary to ensure compliance with applicable provisions of federal or state law that have changed since issuance of the certification or permit, including changes in:
 - (A) construction or operation of the project;
 - (B) characteristics of the receiving water;
 - (C) the applicable water quality criteria; or
 - (D) applicable effluent limitations or other requirements of state law.

(c) The department shall process an application for modification as if it were an original application if the department determines the proposed project modifications will likely result in additional discharges or secondary impacts. (*Water Pollution Control Board; 327 IAC 17-5-2*)

327 IAC 17-5-3 Expiration of a water quality certification or surface water modification permit

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 3. (a) A water quality certification or surface water modification permit granted or waived by the department will expire two (2) years after its issuance date if work is not commenced within wetlands or other waters. The department may extend the expiration date if:

- (1) the applicant requests an extension prior to the original

expiration date; and
 (2) the department determines there has not been a change in the circumstances related to the waterbody or project as originally proposed.

(b) A water quality certification granted by the department for a corps general permit:

- (1) is effective for the duration of the corps general permit; and
- (2) must be modified or revoked if the department determines the corps general permit is causing or contributing to significant impacts to water quality.

(*Water Pollution Control Board; 327 IAC 17-5-3*)

327 IAC 17-5-4 Emergency issuance of a water quality certification or surface water modification permit

Authority: IC 4-21.5-4-1; IC 4-21.5-4-2; IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 13-18-3; IC 13-18-4

Sec. 4. The commissioner:

(1) may issue an emergency water quality certification or surface water modification permit if:

- (A) an unacceptable and immediate threat to human life, water quality, or waters of the state, including wetlands, may occur; or
- (B) a severe loss of property may result;

before a water quality certification or surface water modification permit could be issued in accordance with normal procedures according to this article;

(2) shall issue a public notice, no later than ten (10) days after the issuance of an emergency water quality certification or surface water modification permit, that:

- (A) states the reasons for the emergency issuance; and
- (B) complies with the requirements of 327 IAC 17-2-3; and
- (3) shall incorporate, into an emergency water quality certification or surface water modification permit, all standards and criteria that would be applied to a project being reviewed in the normal manner according to the provisions of this article.

(*Water Pollution Control Board; 327 IAC 17-5-4*)

Rule 6. Notice and Appeal of Final Decision

327 IAC 17-6-1 Notice of final decision

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
 Affected: IC 4-21.5-3-5

Sec. 1. (a) The department shall serve notice of its final decision by certified mail on the applicant and the following persons:

- (1) Those who submitted comments during the comment period.
- (2) Those who requested notice of the final decision.

(b) A final decision regarding a water quality certification or surface water modification permit issued by the department may be appealed in accordance with IC 4-21.5. A notice of final decision must include reference to the procedures available to appeal a final decision by requesting an adjudicatory hearing.

(c) A final decision becomes effective fifteen (15) days after service of the mailing is made unless a petition for review and a petition for stay are filed, according to IC 4-21.5-3-5, with the office of environmental adjudication within that fifteen (15) day period. (*Water Pollution Control Board; 327 IAC 17-6-1*)

Rule 7. Conditions Applicable to a Water Quality Certification

or Surface Water Modification Permit**327 IAC 17-7-1 Responsibilities**

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2
Affected: IC 13-18-3; IC 13-18-4

Sec. 1. (a) An applicant must comply with the conditions of the water quality certification or surface water modification permit issued in response to the application.

(b) Issuance of a water quality certification or surface water modification permit does not:

- (1) relieve the applicant of its duty to comply with federal and state laws or obtain other permits or authorizations required to conduct the project;**
- (2) authorize injury to persons or private property or invasion of other private rights;**
- (3) authorize impacts or activities not detailed in the application; or**
- (4) convey property rights or exclusive privileges.**

(Water Pollution Control Board; 327 IAC 17-7-1)

327 IAC 17-7-2 Right of entry

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-2-2; IC 13-18-3-1; IC 13-18-3-2; IC 13-18-3-9
Affected: IC 13-18-3; IC 13-18-4

Sec. 2. (a) The department or its authorized representative, upon presentation of proper credentials, shall have the following rights:

(1) A right of entry to, upon, or through any premises, public or private:

- (A) that are the subject of the application, including property that is the site of the proposed compensatory mitigation;**
- (B) where records, reports, monitoring or treatment equipment or methods, samples, or other data, required to be provided or maintained, are located; and**
- (C) that contain a possible violation.**

- (2) Access to and right to copy any record that is required to be kept or submitted under the terms of the certification or permit.**
- (3) Access to inspect monitoring, treatment, or operational equipment or facility.**
- (4) Access to take samples.**

(b) The department may authorize an employee of the department or other person under contract with the department to act as its representative. *(Water Pollution Control Board; 327 IAC 17-7-2)*

327 IAC 17-7-3 Compliance and abatement orders

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-18-3-1; IC 13-18-3-2; IC 13-18-3-9, IC 13-18-4-6
Affected: IC 13-30

Sec. 3. (a) The department may conduct an inspection to determine compliance with a water quality certification, a surface water modification permit, or applicable provisions of federal and state laws.

(b) If the department determines that a person is violating or is about to violate a provision of 327 IAC 2 or a condition of a water quality certification or surface water modification permit, the department shall serve notice on the person, by certified mail, of the department's determination. The notice shall include an order against the person to immediately cease the violation and complete one (1) of the following actions:

- (1) Rectify the violation by restoring the waterbody to its**

previolation condition.

(2) Submit an application to the department for a water quality certification or surface water modification permit for the unauthorized activity.

(Water Pollution Control Board; 327 IAC 17-7-3)

327 IAC 17-7-4 Enforcement

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-12; IC 13-18-3-1; IC 13-18-3-2
Affected: IC 13-30

Sec. 4. A violation of this article may subject a person causing or contributing to the violation to administrative or judicial enforcement proceedings and the penalties provided pursuant to IC 13-30.

(Water Pollution Control Board; 327 IAC 17-7-4)

327 IAC 17-7-5 Prior unauthorized impacts

Authority: IC 13-13-5-1; IC 13-13-5-2; IC 13-14-1-12; IC 13-18-3-1; IC 13-18-3-2
Affected: IC 13-30

Sec. 5. For waters that have been impacted without prior authorization from the department, the department shall:

- (1) require partial or full restoration of the impacted waters;**
- (2) increase the compensatory mitigation ratios in specified in 327 IAC 17-4-7(a);**
- (3) deny water quality certification or a surface water modification permit for the after-the-fact application; or**
- (4) require any combination of the above.**

(Water Pollution Control Board; 327 IAC 17-7-5)

Notice of Public Meeting/Hearing

These rules are not scheduled for hearing at this time. When the public hearing is scheduled, it will be noticed in the Change in Notice section of the Indiana Register.

Additional information regarding this action may be obtained from MaryAnn Stevens, Rules Section of the Office of Water Quality, (317) 232-8635, or (800) 451-6027 (in Indiana).

Copies of these rules are now on file at the Office of Water Quality, Indiana Department of Environmental Management, Indiana Government Center-North, 100 North Senate Avenue, Room 1255, Indianapolis, Indiana and Legislative Services Agency, One North Capitol, Suite 325, Indianapolis, Indiana and are open for public inspection.

Tim Method
Deputy Commissioner
Indiana Department of Environmental Management

TITLE 329 SOLID WASTE MANAGEMENT BOARD

LSA Document #00-47(F)(2)

DIGEST

Amends and readopts under IC 13-14-9.5: 329 IAC 1-1, 329 IAC 12-2, and 329 IAC 13-3. This rulemaking is required pursuant to IC 13-14-9.5, which provides for the expiration and readoption of administrative rules. A rule that was adopted under a provision of IC 13 and was in effect on December 31, 1995, expires not later than January 1, 2002. All rules adopted after that date under IC 13-14-9,

with some exceptions listed in IC 13-14-9.5-1, expire on January 1 of the seventh year after the year in which each rule takes effect. The First Notice of Comment Period and Continuation of First Notice of Comment Period opened all rules required to be opened in Title 329 for readoption, regardless of their initial effective date. Other comments received were included and considered within other currently existing rulemakings. (See Summary/Response To Comments from the First Comment Period, 24 IR 169.) Rules being readopted in this rulemaking are shown, in their entirety. Minor changes have been made to update the rules. Rules not commented on during the First Notice of Comment Period or the Continuation of First Notice have been readopted by publication of a Notice of Readoption in the Indiana Register (24 IR 1518) pursuant to IC 13-14-9.5-4(c). Effective 30 days after filing with the secretary of state.

HISTORY

First Notice of Comment Period: March 1, 2000, Indiana Register (23 IR 1491).

Continuation of First Notice Period: May 1, 2000, Indiana Register (23 IR 2138).

Second Notice of Comment Period and Notice of First Hearing: October 1, 2000, Indiana Register (24 IR 169).

Date of First Hearing: November 21, 2000; continued to January 16, 2001.

Notice of Second Hearing: April, 1, 2001, Indiana Register (24 IR 2252).

Date of Second Hearing: May 15, 2001.

Finally Adopted: May 15, 2001.

SECTION 1. 329 IAC 1-1-1 IS READOPTED AS FOLLOWS:

329 IAC 1-1-1 Applicability of rule

Authority: IC 13-17-3; IC 13-14-8
Affected: IC 13-17-3

Sec. 1. This rule (329 IAC 1-1) is applicable to all of Title 329 IAC. (*Solid Waste Management Board; 329 IAC 1-1-1; filed May 31, 1988, 2:42 p.m.: 11 IR 3199; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 233*)

SECTION 2. 329 IAC 1-1-2 IS READOPTED AND AMENDED AS FOLLOWS:

329 IAC 1-1-2 Severability

Authority: IC 13-17-3; IC 13-14-8
Affected: IC 13-17-3; IC 13-14-8

Sec. 2. If any provision of these rules (329 IAC) or the application thereof to any person or circumstances is held invalid, the invalidity shall not affect any other provisions provision or applications application of these rules (329 IAC) which can be given effect without the invalid provision or application. (*Solid Waste Management Board; 329 IAC 1-1-2; filed May 31, 1988, 2:42 p.m.: 11 IR 3200; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 209*)

SECTION 3. 329 IAC 1-1-3 IS READOPTED AS FOLLOWS:

329 IAC 1-1-3 Savings clause

Authority: IC 13-17-3; IC 13-14-8
Affected: IC 13-17-3; IC 13-14-8

Sec. 3. The repeal and reenactment in this Title (329 IAC) of any rule previously the responsibility of the Solid Waste Management Board, the Environmental Management Board, or the Stream Pollution Control Board shall not have the effect to release or extinguish any penalty or forfeiture incurred under the same, and such previous rule shall be treated as still remaining on in force for the purpose of sustaining any proper action, or prosecution for the enforcement of such penalty, forfeiture or liability. (*Solid Waste Management Board; 329 IAC 1-1-3; filed May 31, 1988, 2:42 p.m.: 11 IR 3200; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 233*)

SECTION 4. 329 IAC 1-1-4 IS READOPTED AND AMENDED TO READ AS FOLLOWS:

329 IAC 1-1-4 Reference to federal acts

Authority: IC 13-17-3; IC 13-14-8
Affected: IC 13-17-3; IC 13-14-8

Sec. 4. (a) Unless otherwise indicated, references in these rules (329 IAC) to the Resource Conservation and Recovery Act (RCRA) shall mean the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended, by the Hazardous and Solid Waste Amendments of 1984, as amended, 4 U.S.C.

§6901, et seq. Unless otherwise indicated, references in these rules (329 IAC) to the Comprehensive Environmental Response, Compensation and Liability Act (~~CERCLA~~) (**CERLA**) [sic.] shall mean the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986, as amended, 42 U.S.C. §9601, et seq. Unless otherwise indicated, references in these rules (329 IAC) to the Toxic Substances Control Act (~~TSCA~~) shall mean the **Toxic Substances Control Act** as amended by the Asbestos Hazard Emergency Response Act of 1986, as amended, 15 U.S.C. §2601 et seq.

(b) Unless otherwise indicated, as in ~~329 IAC 3-1-6~~, **329 IAC 3.1**, references to the Code of Federal Regulations **Regulation** [sic.] (CFR) shall mean the 1987 version. (*Solid Waste Management Board; 329 IAC 1-1-4; filed May 31, 1988, 2:42 p.m.: 11 IR 3200; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 233*)

SECTION 5. 329 IAC 12-2-1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-1 Definitions

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 1. In addition to the definitions found in IC 13-11-2, the definitions in this rule apply only to this article. (*Solid Waste Management Board; 329 IAC 12-2-1; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1952; errata filed Dec 6, 1999, 9:41 a.m.: 23 IR 813; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 6. 329 IAC 12-2-2 IS READOPTED AS FOLLOWS:

329 IAC 12-2-2 “Access road” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 2. “Access road” means a road that leads to the entrance of a solid waste management activity, normally a county, state, or federal highway. (*Solid Waste Management Board; 329 IAC 12-2-2; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1952; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 7. 329 IAC 12-2-2.1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-2.1 “Accredited examination” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 2.1. “Accredited examination” means a written examination accredited by the commissioner for the purposes of testing individuals seeking to become certified as solid waste facility operators. (*Solid Waste Management Board; 329 IAC 12-2-2.1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1479; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 8. 329 IAC 12-2-2.2 IS READOPTED AS FOLLOWS:

329 IAC 12-2-2.2 “Accredited examination provider” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 2.2. “Accredited examination provider” means a person or a postsecondary learning institution that provides an accredited examination for the purpose of certifying operators in accordance with 329 IAC 12-7 and 329 IAC 12-8. (*Solid Waste Management Board; 329 IAC*

12-2-2.2; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1479; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234)

SECTION 9. 329 IAC 12-2-2.3 IS READOPTED AS FOLLOWS:

329 IAC 12-2-2.3 “Accredited training course” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 2.3. “Accredited training course” means a course accredited by the commissioner for the purposes of providing solid waste facility operator training for recertification. (*Solid Waste Management Board; 329 IAC 12-2-2.3; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1479; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 10. 329 IAC 12-2-2.4 IS READOPTED AS FOLLOWS:

329 IAC 12-2-2.4 “Accredited training course provider” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 2.4. “Accredited training course provider” means a person or a postsecondary learning institution that provides an accredited training course for the purpose of recertifying operators in accordance with 329 IAC 12-7 and 329 IAC 12-9. (*Solid Waste Management Board; 329 IAC 12-2-2.4; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 11. 329 IAC 12-2-4 IS READOPTED AS FOLLOWS:

329 IAC 12-2-4 “Base flood” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 4. “Base flood” means a flood that has a one percent (1%) or greater chance of recurring in any year or a flood of a magnitude equalled or exceeded once in one hundred (100) years, on the average, over a significantly long period. In any given one hundred (100) year interval, such a flood may not occur or more than one (1) such flood may occur. (*Solid Waste Management Board; 329 IAC 12-2-4; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1953; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 12. 329 IAC 12-2-5 IS READOPTED AS FOLLOWS:

329 IAC 12-2-5 “Board” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 5. “Board” means the solid waste management board. (*Solid Waste Management Board; 329 IAC 12-2-5; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1953; errata filed Dec 6, 1999, 9:41 a.m.: 23 IR 813; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234*)

SECTION 13. 329 IAC 12-2-5.1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-5.1 “Certificate” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 5.1. “Certificate” means a document issued by the commissioner to an individual meeting the testing requirements of 329 IAC 12-7 and 329 IAC 12-8. (*Solid Waste Management Board; 329 IAC*

12-2-5.1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 234)

SECTION 14. 329 IAC 12-2-5.2 IS READOPTED AS FOLLOWS:

329 IAC 12-2-5.2 “Certified operator” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
 Affected: IC 13-15-10; IC 36-9-30

Sec. 5.2. “Certified operator” means an individual:
 (1) with responsibility for the daily operation of the facility; and
 (2) who holds a current certificate of training issued by the commissioner.

(Solid Waste Management Board; 329 IAC 12-2-5.2; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 15. 329 IAC 12-2-6 IS READOPTED AS FOLLOWS:

329 IAC 12-2-6 “Collection container system” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 6. “Collection container system” means a group of containers for solid waste collection from noncommercial, nonindustrial, and noninstitutional sources, and made available for use by the general public such as a county wide collection box system. (Solid Waste Management Board; 329 IAC 12-2-6; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1953; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 16. 329 IAC 12-2-11.1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-11.1 “Facility” defined

Authority: IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
 Affected: IC 13-15-10; IC 25-31; IC 36-9-30

Sec. 11.1. “Facility” may consist of one (1) or more permitted processing, storage, disposal, or operational units used for processing, storing in conjunction with processing or disposal, or disposing of solid waste. The term includes:

- (1) all conterminous land and structures related to the permit;
- (2) other appurtenances related to the permit; and
- (3) improvements on the land related to the permit.

(Solid Waste Management Board; 329 IAC 12-2-11.1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 17. 329 IAC 12-2-13 IS READOPTED AND AMENDED TO READ AS FOLLOWS:

329 IAC 12-2-13 “Generating facility” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 13. “Generating facility” means any person or site, at, on, or by which one (1) or more solid wastes are generated; such as a large manufacturing plant that may have more than one (1) source of solid waste at the plant location. The term does not include hazardous waste generator as regulated by 329 IAC 3-1. has the meaning as set forth in 329 IAC 11-2-12. (Solid Waste Management Board; 329 IAC 12-2-13; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1954; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 18. 329 IAC 12-2-15 IS READOPTED AS FOLLOWS:

329 IAC 12-2-15 “Grading” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 15. “Grading” means the contouring of land so that surface water flow and erosion are controlled according to a predetermined plan. (Solid Waste Management Board; 329 IAC 12-2-15; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1954; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 19. 329 IAC 12-2-16 IS READOPTED AS FOLLOWS:

329 IAC 12-2-16 “Ground water” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 16. “Ground water” means water below the land surface in the zone of saturation. (Solid Waste Management Board; 329 IAC 12-2-16; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1954; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 20. 329 IAC 12-2-18 IS READOPTED AS FOLLOWS:

329 IAC 12-2-18 “Incinerator” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 18. “Incinerator” has the meaning set forth in 329 IAC 11-2-16. (Solid Waste Management Board; 329 IAC 12-2-18; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1954; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 21. 329 IAC 12-2-21 IS READOPTED AS FOLLOWS:

329 IAC 12-2-21 “Infectious waste incinerator” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 21. “Infectious waste incinerator” has the meaning set forth in 329 IAC 11-2-19. (Solid Waste Management Board; 329 IAC 12-2-21; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1955; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 22. 329 IAC 12-2-21.1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-21.1 “Interim operator” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
 Affected: IC 13-15-10; IC 36-9-30

Sec. 21.1. “Interim operator” means an individual:
 (1) with responsibility for the daily operation of the facility; and
 (2) that does not yet hold a current certificate issued by the commissioner.

(Solid Waste Management Board; 329 IAC 12-2-21.1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 23. 329 IAC 12-2-24 IS READOPTED AS FOLLOWS:

329 IAC 12-2-24 “On-site road” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 24. “On-site road” means a road for the passage of vehicles from a solid waste management activity entrance to the activity area.

(Solid Waste Management Board; 329 IAC 12-2-24; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1955; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 235)

SECTION 24. 329 IAC 12-2-27 IS READOPTED AS FOLLOWS:

329 IAC 12-2-27 “Operating personnel” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 27. “Operating personnel” means persons necessary to properly operate a solid waste management activity. (Solid Waste Management Board; 329 IAC 12-2-27; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1955; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 25. 329 IAC 12-2-27.1 IS READOPTED AS FOLLOWS:

329 IAC 12-2-27.1 “Operator” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 27.1. “Operator” means the person or persons responsible for the overall operation of a facility or part of a facility. (Solid Waste Management Board; 329 IAC 12-2-27.1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 26. 329 IAC 12-2-27.2 IS READOPTED AS FOLLOWS:

329 IAC 12-2-27.2 “Owner” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 27.2. “Owner” means the person who owns a facility or part of a facility. (Solid Waste Management Board; 329 IAC 12-2-27.2; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 27. 329 IAC 12-2-30 IS READOPTED AS FOLLOWS:

329 IAC 12-2-30 “Pollution control waste” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 30. “Pollution control waste” includes liquid, solid, semisolid, or gaseous waste generated as a direct or indirect result from the removal of contaminants from air, water, or land that may include, but is not limited to, such waste as water and wastewater treatment sludges, baghouse dust, scrubber sludges, chemical spills, or remedial activity clean-up wastes. (Solid Waste Management Board; 329 IAC 12-2-30; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 28. 329 IAC 12-2-31 IS READOPTED AS FOLLOWS:

329 IAC 12-2-31 “Processing” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 31. “Processing” has the meaning set forth in 329 IAC 11-2-30. (Solid Waste Management Board; 329 IAC 12-2-31; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 29. 329 IAC 12-2-31.5 IS READOPTED AS FOLLOWS:

329 IAC 12-2-31.5 “Recertification” defined

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-14-8-7; IC 13-15-10-4; IC 13-19-3-1; IC 13-19-3-2
Affected: IC 13-15-10; IC 36-9-30

Sec. 31.5. “Recertification” means the procedures under 329 IAC 12-7 and 329 IAC 12-9 to renew a certification for a certified operator meeting the applicable training requirements. (Solid Waste Management Board; 329 IAC 12-2-31.5; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1480; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 30. 329 IAC 12-2-33 IS READOPTED AS FOLLOWS:

329 IAC 12-2-33 “Registered professional engineer” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 33. “Registered professional engineer” means a professional engineer registered by the state of Indiana under IC 25-31. (Solid Waste Management Board; 329 IAC 12-2-33; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 31. 329 IAC 12-2-35 IS READOPTED AS FOLLOWS:

329 IAC 12-2-35 “Residue” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 35. “Residue” has the meaning set forth in 329 IAC 11-2-33. (Solid Waste Management Board; 329 IAC 12-2-35; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 32. 329 IAC 12-2-36 IS READOPTED AS FOLLOWS:

329 IAC 12-2-36 “Resource recovery” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 36. “Resource recovery” has the meaning set forth in 329 IAC 11-2-34. (Solid Waste Management Board; 329 IAC 12-2-36; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 33. 329 IAC 12-2-38 IS READOPTED AS FOLLOWS:

329 IAC 12-2-38 “Salvaging” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 38. “Salvaging” means the controlled and organized removal of materials from solid waste for utilization. (Solid Waste Management Board; 329 IAC 12-2-38; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1956; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 34. 329 IAC 12-2-39 IS READOPTED AS FOLLOWS:

329 IAC 12-2-39 “Scavenging” defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 39. “Scavenging” means the uncontrolled and unauthorized removal of materials from solid waste. (Solid Waste Management Board; 329 IAC 12-2-39; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 236)

SECTION 35. 329 IAC 12-2-41 IS READOPTED AS FOLLOWS:

329 IAC 12-2-41 "Site" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 41. "Site" means the land area on which the registered solid waste management activity is situated. (*Solid Waste Management Board; 329 IAC 12-2-41; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 36. 329 IAC 12-2-42 IS READOPTED AS FOLLOWS:

329 IAC 12-2-42 "Sludge" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 42. "Sludge" means any solid, semisolid, or liquid waste generated from a municipal, commercial, or industrial wastewater treatment plant, water supply treatment plant, or air pollution control facility exclusive of the treated effluent from a wastewater treatment plant. (*Solid Waste Management Board; 329 IAC 12-2-42; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 37. 329 IAC 12-2-44 IS READOPTED AS FOLLOWS:

329 IAC 12-2-44 "Solid waste facility" or "facility" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 44. "Solid waste facility" or "facility" means all contiguous land and structures, other appurtenances, and improvements on the land used for processing, storing in conjunction with processing or disposal, or disposing of solid waste and may consist of several processing, storage, or disposal operational units, for example, one (1) or more landfills, surface impoundments, or combinations thereof. (*Solid Waste Management Board; 329 IAC 12-2-44; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 38. 329 IAC 12-2-45 IS READOPTED AS FOLLOWS:

329 IAC 12-2-45 "Solid waste land disposal facility" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 45. "Solid waste land disposal facility" has the meaning set forth in 329 IAC 10-2-176. (*Solid Waste Management Board; 329 IAC 12-2-45; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 39. 329 IAC 12-2-46 IS READOPTED AS FOLLOWS:

329 IAC 12-2-46 "Solid waste management" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 46. "Solid waste management" means the systematic administration of activities that provide for the collection, source separation, storage, transportation, transfer, processing, treatment, or disposal of solid waste. (*Solid Waste Management Board; 329 IAC 12-2-46; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1957; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 40. 329 IAC 12-2-47 IS READOPTED AS FOLLOWS:

329 IAC 12-2-47 "Solid waste processing facility" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 47. "Solid waste processing facility" has the meaning set forth

in 329 IAC 11-2-43. (*Solid Waste Management Board; 329 IAC 12-2-47; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1958; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 41. 329 IAC 12-2-49 IS READOPTED AS FOLLOWS:

329 IAC 12-2-49 "Surface impoundment" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 49. (a) "Surface impoundment" means a facility or part of a facility that:

- (1) is a natural topographic depression, manmade excavation, or diked area formed primarily of earthen materials, although it may be lined with manmade materials;
- (2) holds or is designed to hold an accumulation of liquid wastes or wastes containing free liquids; and
- (3) is not an injection well.

(b) Examples of surface impoundments may include the following:

- (1) Holding, storage, settling, and aeration pits.
- (2) Holding, storage, settling, and aeration ponds.
- (3) Holding, storage, settling, and aeration lagoons.

(*Solid Waste Management Board; 329 IAC 12-2-49; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1958; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 42. 329 IAC 12-2-50 IS READOPTED AND AMENDED TO READ AS FOLLOWS:

329 IAC 12-2-50 "Surface water" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 50. "Surface water" means water present on the surface of the earth, including:

- (+) streams;
- (-) lakes;
- (=) ponds;
- (4) rivers;
- (5) swamps;
- (6) marshes; or
- (7) rainwater present on the earth: has the meaning set forth in 329 IAC 11-2-46.

(*Solid Waste Management Board; 329 IAC 12-2-50; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1958; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 43. 329 IAC 12-2-52 IS READOPTED AS FOLLOWS:

329 IAC 12-2-52 "Transfer station" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 52. "Transfer station" has the meaning set forth in 329 IAC 11-2-47. (*Solid Waste Management Board; 329 IAC 12-2-52; filed Mar 14, 1996, 5:00 p.m.: 19 IR 1959; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 237*)

SECTION 44. 329 IAC 12-2-54 IS READOPTED AS FOLLOWS:

329 IAC 12-2-54 "Vector" defined

Authority: IC 13-14-8-7; IC 13-15-2-1; IC 13-19-3-1; IC 13-19-4-10
 Affected: IC 13-30-2; IC 25-31; IC 36-9-30

Sec. 54. "Vector" means any animal capable of harboring and transmitting micro-organisms from one (1) animal to another or to a

human. (*Solid Waste Management Board; 329 IAC 12-2-54; filed Mar 14, 1996, 5:00 p.m.; 19 IR 1959; readopted filed Sep 7, 2001, 1:35 p.m.; 25 IR 237*)

SECTION 45. 329 IAC 13-3-1 IS READOPTED AND AMENDED TO READ AS FOLLOWS:

329 IAC 13-3-1 Applicability

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-19-3

Affected: IC 13-11-2; IC 13-14; IC 13-19; IC 13-20; IC 13-22; IC 13-23; IC 13-30; 40 CFR 261; 40 CFR 761.20(e)

Sec. 1. (a) The department presumes that used oil is to be recycled unless a used oil handler disposes of used oil or sends used oil for disposal. Except as provided in section 2 of this rule, this article applies to used oil, and to materials identified in this section as being subject to regulation as used oil, whether or not the used oil or material exhibits any characteristics of hazardous waste identified in 40 CFR 261 Subpart C.

(b) Mixtures of used oil and hazardous waste must be handled as follows:

(1) For mixtures of used oil with a listed hazardous waste, the following shall apply:

(A) Mixtures of used oil and hazardous waste that is listed in 40 CFR 261 Subpart D are subject to regulation as hazardous waste under 329 IAC 3.1 rather than as used oil under this article.

(B) Used oil containing more than one thousand (1,000) parts per million total halogens is presumed to be a hazardous waste because it has been mixed with halogenated hazardous waste listed in 40 CFR 261 Subpart D. Persons may rebut this presumption by demonstrating that the used oil does not contain hazardous waste. For example, this may be done by using an analytical method from EPA publication SW-846, Third Edition, to show that the used oil does not contain significant concentrations of halogenated hazardous constituents listed in 40 CFR 261 Appendix VIII. EPA publication SW-846, Third Edition, is available from the Government Printing Office, Superintendent of Documents, P.O. Box 371954, Pittsburgh, Pennsylvania 15250-7954, (202) 783-3238. Request document number 955-001-00000-1. The rebuttable presumption does not apply to the following:

- (i) Metalworking oils or fluids containing chlorinated paraffins, if they are processed, through a tolling arrangement as described in 329 IAC 13-4-5(c), to reclaim metalworking oils or fluids. The presumption does apply to metalworking oils or fluids if such oils or fluids are recycled in any other manner or disposed.
- (ii) Used oils contaminated with chlorofluorocarbons (CFCs) removed from refrigeration units where the CFCs are destined for reclamation. The rebuttable presumption does apply to used oils contaminated with CFCs that have been mixed with used oil from sources other than refrigeration units.

(2) Used oil mixed with characteristic hazardous waste identified in 40 CFR 261 Subpart C are subject to 329 IAC 3.1.

(3) Mixtures of used oil and conditionally exempt small quantity generator hazardous waste regulated under 40 CFR 261.5 are subject to regulation as used oil under this article.

(c) Materials containing or otherwise contaminated with used oil must be handled as follows:

(1) Except as provided in subdivision (2), materials containing or otherwise contaminated with used oil from which the used oil has been properly drained or removed to the extent possible such that no visible signs of free-flowing oil remain in or on the material:

(A) are not used oil and thus not subject to this article;

(B) if applicable, are subject to the hazardous waste regulations under 329 IAC 3.1; and

(C) if applicable, are subject to the ~~special~~ **solid** waste regulations under 329 IAC 10 **and 329 IAC 11**.

(2) Materials containing or otherwise contaminated with used oil that are burned for energy recovery are subject to regulation as used oil under this article.

(3) Used oil drained or removed from materials containing or otherwise contaminated with used oil is subject to regulation as used oil under this article.

(d) Mixtures of used oil with products must be handled as follows:

(1) Except as provided in subdivision (2), mixtures of used oil and fuels or other fuel products are subject to regulation as used oil under this article.

(2) Mixtures of used oil and diesel fuel mixed on-site by the generator of the used oil for use in the generator's own vehicles are not subject to this article once the used oil and diesel fuel have been mixed. Prior to mixing, the used oil is subject to the requirements of 329 IAC 13-4.

(e) Materials derived from used oil must be handled as follows:

(1) Materials that are reclaimed from used oil that are used beneficially and are not burned for energy recovery or used in a manner constituting disposal, such as re-refined lubricants, are:

(A) not used oil and thus are not subject to this article; and

(B) not solid wastes and are thus not subject to the hazardous waste regulations under 329 IAC 3.1 as provided in 40 CFR 261.3(c)(2)(A).

(2) Materials produced from used oil that are burned for energy recovery, such as used oil fuels, are subject to regulation as used oil under this article.

(3) Except as provided in subdivision (4), materials derived from used oil that are disposed of or used in a manner constituting disposal are:

(A) not used oil and thus are not subject to this article; and

(B) are solid wastes and thus are subject to:

(i) if applicable, the hazardous waste regulations under 329 IAC 3.1 if the materials are listed or identified as hazardous waste; and

(ii) if applicable, the ~~special~~ **solid** waste regulations under 329 IAC 10 **and 329 IAC 11**.

(4) Used oil re-refining distillation bottoms that are used as feedstock to manufacture asphalt products are not subject to this article.

(f) Wastewater, the discharge of which is subject to regulation under either Section 402 or 307(b) of the Clean Water Act, including wastewaters at facilities that have eliminated the discharge of wastewater, contaminated with de minimis quantities of used oil are not subject to the requirements of this article. As used in this subsection, "de minimis quantities of used oils" means small spills, leaks, or drippings from pumps, machinery, pipes, and other similar equipment during normal operations or small amounts of oil lost to the wastewater treatment system during washing or draining operations. This exception will not apply if the used oil is discarded as a result of abnormal manufacturing operations resulting in substantial leaks, spills, or other releases, or to used oil recovered from wastewaters.

(g) Used oil introduced into crude oil pipelines or a petroleum refining facility must be handled as follows:

(1) Used oil mixed with crude oil or natural gas liquids, such as in a production separator or crude oil stock tank, for insertion into a crude oil pipeline is exempt from the requirements of this article.

The used oil is subject to the requirements of this article prior to the mixing of used oil with crude oil or natural gas liquids.

(2) Mixtures of used oil and crude oil or natural gas liquids containing less than one percent (1%) used oil that are being stored or transported to a crude oil pipeline or petroleum refining facility for insertion into the refining process at a point prior to crude distillation or catalytic cracking are exempt from the requirements of this article.

(3) Used oil that is inserted into the petroleum refining facility process before crude distillation or catalytic cracking without prior mixing with crude oil is exempt from the requirements of this article provided that the used oil constitutes less than one percent (1%) of the crude oil feed to any petroleum refining facility process unit at any given time. Prior to insertion into the petroleum refining facility process, the used oil is subject to the requirements of this article.

(4) Except as provided in subdivision (5), used oil that is introduced into a petroleum refining facility process after crude distillation or catalytic cracking is exempt from the requirements of this article only if the used oil meets the specification of section 2 of this rule. Prior to insertion into the petroleum refining facility process, the used oil is subject to the requirements of this article.

(5) Used oil that is incidentally captured by a hydrocarbon recovery system or wastewater treatment system as an article of routine process operations at a petroleum refining facility and inserted into the petroleum refining facility process is exempt from the requirements of this article. This exemption does not extend to used oil that is intentionally introduced into a hydrocarbon recovery system, such as by pouring collected used oil into the wastewater treatment system.

(6) Tank bottoms from stock tanks containing exempt mixtures of used oil and crude oil or natural gas liquids are exempt from the requirements of this article.

(h) Used oil produced on vessels from normal shipboard operations is not subject to this article until it is transported ashore.

(i) In addition to the requirements of this article, marketers and burners of used oil who market used oil containing any quantifiable level of polychlorinated biphenyls (PCBs) are subject to the requirements found at 40 CFR 761.20(e). (*Solid Waste Management Board; 329 IAC 13-3-1; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1494; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 238*)

SECTION 46. 329 IAC 13-3-2 IS READOPTED AS FOLLOWS:

329 IAC 13-3-2 Used oil specifications

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-19-3
Affected: IC 13-11-2; IC 13-14; IC 13-19; IC 13-20; IC 13-22; IC 13-23; IC 13-30

Sec. 2. Used oil burned for energy recovery, and any fuel produced from used oil by processing, blending, or other treatment, is subject to regulation under this article unless it is shown not to exceed any of the allowable levels of the constituents and properties in the specification shown in Table 1. Once used oil that is to be burned for energy recovery has been shown not to exceed any specification and the person making that showing complies with 329 IAC 13-9-3, 329 IAC 13-9-4, and 329 IAC 13-9-5(b), the used oil is no longer subject to this article.

Table 1-Used Oil not Exceeding any Specification Level is not Subject to this Article when Burned for Energy Recovery¹

Constituent or Property	Allowable Level
Arsenic	5 ppm maximum
Cadmium	2 ppm maximum
Chromium	10 ppm maximum
Lead	100 ppm maximum
Flash point	1009F minimum
Total halogens	4,000 ppm maximum ²

¹The specification does not apply to mixtures of used oil and hazardous waste that continue to be regulated as hazardous waste (See section 1(b) of this rule.).

²Used oil containing more than one thousand (1,000) parts per million total halogens is presumed to be a hazardous waste under the rebuttable presumption provided under section 1(b) of this rule. Such used oil is subject to 40 CFR 266 Subpart H rather than this article when burned for energy recovery unless the presumption of mixing can be successfully rebutted.

Note: Applicable standards for the burning of used oil containing PCBs are imposed by 40 CFR 761.20(e)

(*Solid Waste Management Board; 329 IAC 13-3-2; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1495; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 287*)

SECTION 47. 329 IAC 13-3-3 IS READOPTED AS FOLLOWS:

329 IAC 13-3-3 Prohibitions

Authority: IC 13-14-8-1; IC 13-14-8-2; IC 13-19-3
Affected: IC 13-11-2; IC 13-14; IC 13-19; IC 13-20; IC 13-22; IC 13-23; IC 13-30; 40 CFR 260.10; 40 CFR 264; 40 CFR 265

Sec. 3. (a) Used oil shall not be managed in surface impoundments or waste piles unless the units are subject to regulation under 40 CFR 264 or 40 CFR 265.

(b) The use of used oil as a dust suppressant is prohibited.

(c) Off-specification used oil fuel may be burned for energy recovery in only the following devices:

- (1) Industrial furnaces identified in 40 CFR 260.10.
- (2) Boilers, as defined in 40 CFR 260.10, that are identified as any of the following:

(A) Industrial boilers located on the site of a facility engaged in a manufacturing process where substances are transformed into new products, including the component parts of products, by mechanical or chemical processes.

(B) Utility boilers used to produce electric power, steam, heated or cooled air, or other gases or fluids for sale.

(C) Used oil-fired space heaters provided that the burner meets the provisions of 329 IAC 13-4-4.

- (3) Hazardous waste incinerators subject to regulation under 40 CFR 264 Subpart O or 40 CFR 265.

(*Solid Waste Management Board; 329 IAC 13-3-3; filed Feb 3, 1997, 9:15 a.m.: 20 IR 1496; readopted filed Sep 7, 2001, 1:35 p.m.: 25 IR 239*)

SECTION 48. THE FOLLOWING ARE REPEALED: 329 IAC 12-2-3; 329 IAC 12-2-7; 329 IAC 12-2-8; 329 IAC 12-2-9; 329 IAC 12-2-10; 329 IAC 12-2-11; 329 IAC 12-2-12; 329 IAC 12-2-14; 329 IAC 12-2-17; 329 IAC 12-2-19; 329 IAC 12-2-20; 329 IAC 12-2-22; 329 IAC 12-2-23; 329 IAC 12-2-25; 329 IAC 12-2-26; 329 IAC 12-2-28; 329 IAC 12-2-29; 329 IAC 12-2-32; 329 IAC 12-2-34; 329 IAC 12-2-37; 329 IAC 12-2-40; 329 IAC 12-2-43; 329 IAC 12-2-48; 329 IAC 12-2-51; 329 IAC 12-2-53; 329 IAC 12-2-55; 329 IAC 12-2-56; 329 IAC 12-2-57; 329 IAC 12-2-58; 329 IAC 12-2-59; 329 IAC 12-2-60; 329 IAC 12-2-61; 329 IAC 12-2-62.
