SECTION 1. 312 IAC 9-3-2 IS AMENDED TO READ AS FOLLOWS:

312 IAC 9-3-2 General requirements for deer; exemptions; tagging; tree blinds; maximum taking of antlered deer in a calendar year

Authority: IC 14-22-2-6

Affected: IC 14-22-11-1; IC 14-22-11-11

Sec. 2. (a) This section and sections 3 through 10 of this rule govern the hunting, transportation, and disposal of deer.

(b) Species of deer other than white-tailed deer (*Odocoileus virginianus*) are exempted from this section and sections 3 through 9 of this rule. A person who claims the exemption provided under this subsection must prove the deer is other than a white-tailed deer.

(c) The licenses identified by sections 3 through 8 of this rule are nonexclusive. An individual may apply for one (1) or more of these licenses.

(d) Before September 1, 2007, a person must not take more than one (1) antlered deer during the seasons for an annual deer license.

~~(d)~~ (e) The use or aid of a food product that is transported and placed for consumption, salt, mineral blocks, prepared solid or liquid intended for ingestion (herein called bait), snares, dogs, or other domesticated animals to take deer is prohibited. A person must not hunt by the aid of bait or on or over a baited area. An area is considered baited for ten (10) days after the removal of the bait or the baited soil. Hunting an orchard or another area which may be attractive to deer as the result of normal agricultural activity is not prohibited. The use of manufactured scents and lures or similar chemical or natural attractants is not prohibited.

~~(e)~~ (f) Except as provided under IC 14-22-11-1 and IC 14-22-11-11, a person must not hunt deer unless the person

possesses a completed and signed license bearing the person's name. The license must be accompanied by a temporary transportation tag bearing the license number and the year of issuance. A person must not hunt with a deer license or tag issued to another person.

(f) (g) The temporary transportation tag described in subsection (e) (f) must, immediately upon taking a deer, be notched as to the sex of the deer and the month and day of the kill. A tag which is notched other than three (3) times is void. A person must not tag a deer other than with a tag issued to the person who took the deer. A deer leg must be tagged before leaving the field. A deer which is in the field is not required to be tagged if the person who kills the deer maintains immediate custody of, and constant visual contact with, the deer carcass.

(g) (h) A person who takes a deer must deliver the deer carcass to an official checking station for registration on the occurrence of the earlier of one (1) of the following:

- (1) Within twenty-four (24) hours of taking of the deer.
- (2) Before the deer is removed from this state.

(h) (i) After the checking station operator records the permanent seal number on the log and collects the upper portion of the license, where applicable, along with the temporary transportation tag, the hunter is provided with that seal. The seal must be affixed by the hunter and ~~locked between a tendon and bone sealed~~ to prevent its removal (without severing a tendon and must remain affixed until **cutting the seal or the body part to which it is affixed**), before processing of the deer begins, **by affixing the seal:**

- (1) **between a tendon and bone;**
- (2) **through a section of skin or flesh; or**
- (3) **around a branched antler.**

(i) (j) The checking station operator ~~shall~~ **must** accurately and legibly complete all forms provided by the department and must make those forms available to department personnel upon request.

(j) (k) An individual authorized to act under this subsection must attach a paper to a deer carcass which states the name and address of the individual and the date and sex of the deer taken. The requirements of subsections (e) (f) through (h) (g) also apply except to the extent those subsections identify the physical characteristics of a tag. The individuals authorized to act under this subsection are as follows:

A tree blind placed on state-owned or state-leased lands, U.S. Forest Service lands, ~~or lands of the Muscatatuck National Wildlife Refuge,~~ **or the Big Oaks National Wildlife Refuge** must be portable and may be left overnight only between September 1 and January 10. A fastener used in conjunction with a tree blind and a tree or pole climber which penetrates a tree more than one-half (½) inch is prohibited. Each portable tree blind must be legibly marked with the name, address, and telephone number of the owner of the tree blind.

(l) (m) The head of a deer must remain attached to the carcass until the ~~metal~~ tag is attached and locked at the deer checking station.

(m) (n) The use of infrared sensors to locate or take deer is prohibited. It is unlawful to hunt or to retrieve deer with

the aid of an infrared detector.
