**TITLE 355 STATE CHEMIST OF THE STATE
OF INDIANA**

LSA Document #04-312

Under IC 4-22-2-23, the State Chemist of the State of Indiana intends to adopt a rule concerning the following:

OVERVIEW: The proposed rules provide editorial and technical revisions to the general provisions and bulk storage containment rules under the Indiana commercial fertilizer law. The primary focus of revision is in rule 2, dealing with containment of liquid and dry fertilizer materials. These changes provide consistency with the recently revised pesticide containment rules and clarification on handling of fluid and dry fertilizer with specific emphasis on prohibition of drains in containment areas and requirement for prompt cleanup of material in storage areas. Questions concerning the proposed rules may be directed to Michael R. Hancock at (765) 494-1547, or the Office of Indiana State Chemist, Purdue University, 175 S. University Street, West Lafayette, Indiana 47907-2063. Statutory authority: IC 15-3-3-12.
